

Autumn Planting
1958

# Che Best Time to Plant

The best time to transplant all plant material of definite hardiness is in the autumn. At this time of year weather and soil conditions are usually better than early spring. Little winter protection is required other than a light covering of hay or straw. Do not stop your garden operations because of the first light frost in the autumn. It is a help rather than a hindrance.

PLANT HARDY PLANTS FROM SEPT. 1st TO NOV. 1st; ROSES FROM NOV. 15th TO DEC. 15th; PEONIES, BLEEDING HEARTS, GERMAN AND JAPANESE IRIS FROM SEPT. 1st TO

FROST; ORIENTAL POPPIES FROM AUG. 15th TO NOV. 15th; DUTCH BULBS FROM OCT. 1st UNTIL GROUND IS FROZEN; MADONNA LILIES FROM AUG. 15th TO NOV. 1st; ALL OTHER LILIES IMMEDIATELY WHEN RECEIVED.

We ship no plants or bulbs except at the season they will grow best. This may mean two or more shipments to you—typical of the kind of service we render you. Place your order now and let us assume all responsibility for shipping dates.

#### To Customers in the Gulf Area, Texas, and California

We do not recommend the practice of planting imported bulbs in the warm states before November 15th. The prolonged warm weather produces a top growth before the roots have properly developed with the result that your flowers will not have proper stems and normal sized blooms. This applies particularly to the

following states: Texas, California, New Mexico, Florida, Mississippi, and Arizona. Should bulbs be delivered to you before recommended planting time, store them in a cool place. All bulbs at Wayside Gardens are scientifically stored to avoid drying out or premature growth.

#### QUALITY

The enviable reputation we enjoy is known to most gardeners. It is constantly strived for by giving faithful service and sending faultless quality.

Quality perhaps is the most important of the two for bulbs particularly; we can do more than most in that respect, because the President of our company is a member of the firm of Grullemans in Holland, internationally known as the finest growers of bulbs, whose early business years were spent with that firm, obtaining an intimate knowledge about bulbs, an opportunity which does not present itself to the average American importer who consequently is not as well informed.

Buy your bulbs from Wayside Gardens and see the difference!

#### Order Now-We Ship at Planting Time

All orders are filled in the order of their receipt by us and are shipped at planting time.

#### Best Served are Those Who Order Early

The seasons, (as Shakespeare said of Time and Tide), wait for no man. For this reason the nursery business is a most exacting one where Nature, in the final analysis, is the only real Master. No other business is so subject to the whims and moods of the seasons and to the caprice of climate as is a nursery serving cus-

tomers in all parts of the country . . . This means that in no other business is such a high degree of co-operation essential as that which must exist between customer and nursery. Won't you please continue this same splendid co-operation by sending in your order today?

#### Concerning Cultural Instructions

The U.S.A. is a large country with widely varying climatic con-

Within the states and counties the composition of the soil varies even more widely.

The cultural instructions given in this catalog are a guide in the right direction.

Our advice on winter protection as well as summer care of plants should always be adjusted to meet extreme local conditions.

Gardening practices in Augusta, Georgia, could hardly be the same as those in Augusta, Maine.

The Best Fertilizers to Use Please Turn to Pages 1, 142 and 143

#### Additional Helpful Information

For those of you who seek additional and more detailed information than is given in this catalog, we have a number of cultural leaflets. They are as follows and cost twenty-five cents each.

Cultural Instructions for Roses

Cultural Instructions for Lilies

Cultural Instructions for Summer-Flowering Bulbs

Cultural Instructions for Spring-Flowering Bulbs

Any of the above, 25c each.

In the event you order Roses, Lilies or Bulbs, you will receive the corresponding Cultural leaflet free of charge.

They are complete and authentic, you will find them most

In addition to the above, we offer a booklet with complete and accurate cultural instructions of Hardy Plants in general use. You will find it invaluable. \$1.00 per copy.

## IMPORTED DUTCH CHEESE

Autumn is the time when the finest cheese is made in Holland. It is possible only from cream from that period to make that superlative quality, marvelous for its flavor as well as texture and richest in butterfats. Few people in this country know of it. Some fortunate person traveling in Holland may have encountered these cheeses but they are not generally offered for sale. Most of them are exported to South America, where they are served at the fashionable hotels and clubs.

This year again with the co-operation of an old friend of our President, Mr. Grullemans (a Hollander), we obtained "first call" on a substantial quantity of this famous cheese, thinking that many of our customers would like to taste and enjoy this choice delicacy.

Along with the quantity wanted for personal use here at Wayside, we shall be delighted to import this famous cheese for anyone who will write us promptly because our option expires Nov. 3rd. Therefore, we must have your request on or before Nov. 1st.

The average weight is about four pounds. Each cheese comes packed in an individual carton and costs \$4.80 each, delivered. (We take care of duty, freight, etc.). Delivery to you first week in December in ample time to use them as Christmas gifts. For shipments west of the Mississippi River, add 50 cents per cheese.

In the event you receive this catalog during November, send your order anyway because we always import a few more than actually ordered to care for a few late requests.

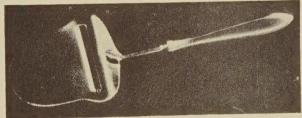

This rich butterfat cheese may be kept in your refrigerator for 10 months or more, so do not hesitate to ask for enough to last you until next year!

#### **DUTCH CHEESE SLICER OR PLANE!**

Remove a thin slice; about 4 inches in diameter from one end of the cheese. Then draw slicer around the whole cheese on top edge of the red rind, removing about ½ inch of rind. Next draw the slicer straight across the fresh cheese (without rind) getting delicious paper thin slices. Pile these generously on fresh buttered bread (crackers are too dry) and eat as Hollanders do for breakfast, lunch, cocktails or midnight snacks.

Be sure and put back the "cap" (the thin slice referred to) on your cheese and store in the refrigerator freshener drawer. Keeps indefinitely!

P.S. If cheese is dry at first from traveling across the water, wrap it in a damp cloth in the refrigerator for several days to restore moisture. Then proceed as above.

Cheese Slicer, each \$2.50 Made from finest stainless steel. Imported from Holland.

# "EXCLUSIVE" ORGANIC PLANT FOOD

Declared by experts "Tops." For Bulbs, Roses, Lawns, Flower Gardens. Used at WAYSIDE in the production of millions of fine plants. It is wholeheartedly endorsed for our customers.

Thousands of customers and strangers alike have visited WAYSIDE GARDENS They have marvelled at our nursery plants. They have been known to actually gasp for breath at the sheer beauty of 400 acres of flowers brought to such a high degree of perfection. Invariably, they ask us the same question:

"To what do you attribute the superior qualities of your flowers?"

And invariably our answer is the same: "The chief reason for the high quality of WAYSIDE products is due to the fact that we use only the very finest Plant Food that skill and money can produce!"

You will agree that we have entirely too much at stake to afford to use any other kind. In addition to the enormous investment represented by our nurseries, we have a reputation to maintain among thousands of the most critical floral customers in the land. We prize and guard very jealously such possessions.

Contented only with the best we advise our customers to adopt the same attitude, in order that the fine specimens grown at WAYSIDE may be duplicated in your own garden. We recommend only that which we ourselves use.

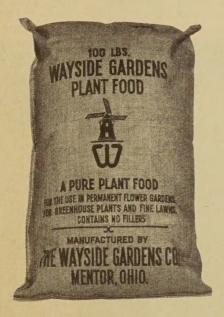

#### We Learn from Experience and Experts

We are indebted to a noted English gardener for the Exclusive Organic Plant Food we use in growing millions of plants of superior quality. Among other things, he said:

"A lawn should not be treated like a hayfield, but like a permanent garden. Therefore, I object to chemical fertilizers for lawns. It is not the QUANTITY of grass cut from the lawn each week, but the DENSITY AND LUXURIANCE OF THE GRASS which produces the effect of walking over a thick velvet carpet that counts. If you want a thick lawn in which there is no room for weeds, it is essential that you use a properly balanced ORGANIC Plant Food."

WAYSIDE'S exclusive organic Plant Food is made from bone

meal, dried blood, ground fish, phosphate and muriate of potash, in proportions recommended by the "old country" expert. These long-lasting ingredients, heavy with life-producing qualities, give your flowers a well balanced diet, containing in just the right amounts those things that go to make strong roots, sturdy stalks, bright green leaves, a profusion of foliage and an abundance of large and healthy blooms year in and year out. It does not stimulate, but nourishes any and all plants and imparts to them a youthful and lusty vigor. It disintegrates slowly. It is excellent to use in bulb plantings as well as in Rose beds, or hardy plant borders. Use it consistently year after year, and your garden will be among the most beautiful.

#### Wayside Gardens "Exclusive" Organic Plant Food Contains No Useless Weight or Bulk Producing Fillers

A 100-lb. bag for \$9.00; 500 lbs. for \$40.00; 2000 lbs. for \$125.00.

Prices are F.O.B. Mentor, Ohio, and we ship by truck or rail freight collect unless otherwise instructed.

This Plant Food may only be obtained direct from WAYSIDE GARDENS. The best proof of its superior qualities is that it is used in large quantities right here at WAYSIDE. Knowing its value and importance in your garden, we feel no hesitancy in urging you to include some of it in your order for plants. Made by Wayside Gardens for Wayside Gardens. It is the lasting results that count.

# How to Use Wayside Gardens Organic Plant Food

We need not use much of it to obtain the lasting results. Furthermore, it is easy to use and apply it. If your garden is an established one, apply twice a year, March first and October first. Use 15 to 25 pounds for top dressing a space 500 square feet for Hardy Plants, Roses, Annuals and Bulbs. Twice this quantity for Shrubs,

Azaleas or Rhododendrons. In making a new garden, double the amount recommended and mix with the soil. Planting may be done at once. For old lawns, use 10 to 25 pounds for top dressing 500 square feet. For potted plants, a 3-inch potful mixed with a bushel of soil will give you splendid results.

A little goes a long way and lasts a long time.

# Hardy Ground Covering Plants

#### For Shady Places as Well as Sunny, Dry Places

There's no need to despair over making attractive the shady places under trees and other places where grass won't grow. Here are several plants that are ideal for just such situations.

Once established they will spread quickly, last indefinitely and require practically no care. Although primarily foliage plants, some have blooms. The Myrtle, for instance, is sprinkled in the early spring with blue or white flowers.

Any of these ground coverings can be planted either in the spring or fall. Let us know the amount of ground you want to cover, and we'll gladly advise how many of any of the plants are needed.

Polygonum Reynowtria

#### POLYGONUM REYNOWTRIA (Dwarf Lace Plant)

This handsome ground cover was introduced a few years ago by Amos Perry, one of England's oldest and best known plantsmen. It is of easy culture, very hardy, and establishes itself quite rapidly from underground runners. It does best in full sun and its pale green foliage turns brilliant red in the autumn. Height is between 6 to 12 inches, and in the fall produces numerous airy pink sprays of flowers not unlike those of the "Silver Lace Vine." The buds are deep red, adding much to its charm. One of the best ground covers for sunny places where Vinca and Pachysandra would not be satisfactory. Plants should be spaced 18 inches apart.

\*\*Each 90c, Three \$2.50, Doz. \$9.00, 100 \$55.00

#### ASPERULA ODORATA - Woodruff

Pretty dwarf, white-flowered perennials. They have long, creeping stems, whorled leaves, and four-lobed flowers. Excellent for shady positions under shrubs, trees, or in shady woodland spots. Will thrive in ordinary soil in shady positions. Plant in autumn or spring, 6 to 8 inches apart, They soon spread into bold masses. They grow 6 to 8 inches high. Increase rapidly. Heads of small white flowers appear just above the foliage in May. A fine, scented herb reminding one of new mown hay.

Three \$2.15, Doz. \$7.50, 100 \$45.00

#### **EPIMEDIUM**

The Aristocrat of Ground Covers

As ground covers, for edging or the rockery, Epimediums are delightful as well as supreme. In May and June the plants, growing about 9 inches high and wide, are a mass of delicately lovely flowers. Their light green, heart-shaped foliage is leathery in texture and most attractive. They grow well in the shade, better in partial shade, and will also tolerate full sunlight. Ordinary fertile garden soil is satisfactory.

#### Macranthum Lilacinum

We have found this to be one of the best. Its handsome foliage is pleasant to look at from early spring until winter. It makes nice clumps, spreads well and does beautifully in shade under shrubs and trees as well as for edging along shady paths or walks. Early in spring the plants produce dozens of stalks with dainty lilac-blue flowers that are a joy to see. Hardy anywhere.

to see. Hardy anywhere. where Each \$1.25, Three \$3.50, Doz. \$13.00, 100 \$80.00. This variety produces the deepest color flowers of all. They are deep, rich ruby-red on wiry stems which, as they appear above the young bronzy foilage in spring, make a beautiful showing. It is a good grower and multiplies well. Gives excellent results in any shady location. Not particular as to soil and hardy anywhere.

#### POLYGONATUM MULTIFLORUM

Pendent sprays of delightfully fragrant white flowers borne on stiff, 12-inch stems in May, followed in autumn with black or purple berries. A grand plant for a shady position, does equally well in sun. Use in masses under trees where **nothing else will grow**. It makes a magnificent ground cover. Its dignified appearance all summer gives that difficult untidy shady spot a new trim look. Plants multiply rapidly, forming a solid carpet. Hardy as an Oak, will grow anywhere, requires no care.

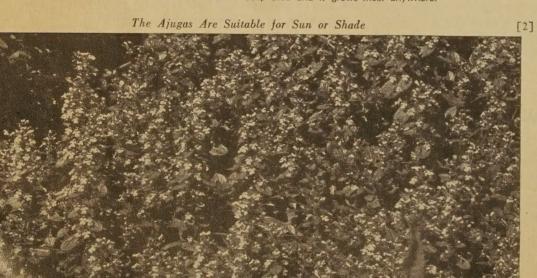

Three \$1.85, Doz. \$6.75, 100 \$40.00

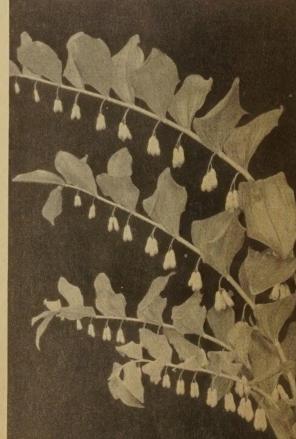

Polygonatum Multiflorum

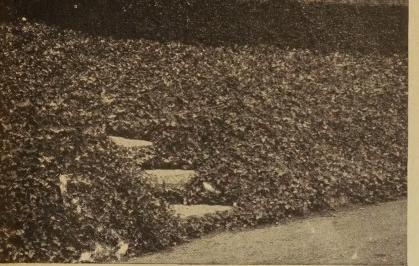

Grows 3 to 4 inches high, with deep blue flowers in May and June. It is an excellent plant for ground covering and makes a good ground carpet for bulbs, such as Snowdrops and Grape Hyacinths, which may be planted under its foliage. As a ground cover, plants should be spaced 8 inches apart. Of good growth and spreading fast.

**urpurea**Three \$2.15, Doz. \$7.50, 100 \$45.00, 1000 \$400.00This is the bronze-leaved form. It is most interesting if small patches of it are planted between the green variety. It also is a fine ground cover in front of yellow Tulips or other yellow flowers. While it grows freely in shade, it does exceedingly well in full sun where its foliage takes on a richer color. Flowers are deep blue and it grows most anywhere.

Hardy Baltica Ivy Covering Bank-It is Very Hardy and Excellent on Banks-Creates a Beautiful Easy-to-Keep-Up "Lawn" as Well

#### HEDERA HELIX (Ivy) HARDY BALTICA AND ENGLISH IVY

The famous English Ivy with its familiar evergreen, glossy foliage, recuires winter protection in cold sections of the country where it is exposed to chilly winds on open walls. It can, however, be planted with perfect safety as a ground cover or as an edging to flower beds anywhere. Gracilis is perfectly hardy and we recommend its use on the north side of buildings and walls or in shady places or as a ground cover under trees in dense shade. The 2½-inch pot plants offered are very economical.

#### ENGLISH IVY-Hedera helix

A lovely vine as well as a splendid ground cover. Its beautiful shiny leaves make a wonderful ground cover in densest shade. Plants from  $2\frac{1}{2}$ -inch pots Doz. \$5.00, 100 \$40.00, 1000 \$350.00 For ground covering the  $2\frac{1}{2}$ -inch pot plants are recommended and should be spaced 8 inches apart.

BALTICA IVY—Hedera helix gracilis
Identical in habit with the English Ivy, but with foliage not as large and more cut; a most graceful vine; perfectly hardy and a splendid evergreen vine on walls with north exposures, also an excellent ground

Plants from  $2\frac{1}{2}$  inch pots Doz. \$5.00, 100 \$40.00, 1000 \$350.00 For ground covering the  $2\frac{1}{2}$ -inch pot plants are recommended and should be spaced 8 inches apart.

Plants from 5-inch pots Each \$1.50, Three \$4.25, Doz. \$15.00

#### BALTICA IVY-Silver Variegated

This is a lovely silvery variegated form of the Baltic Ivy. The leaves are as if dusted with silver and silver edged, closely set along the vine and they are somewhat smaller than those produced by the green variety. The effect created is cool and so unusual and uncommon it is almost startling in a mild sort of way. Here really is something choice, be it as a vine to grow on a wall, or as a ground cover. It is also very attractive as a house plant in a north window. Only a limited number of plants available in 2½-inch pots.

BULGARIAN IVY—Hedera helix bulgarica

This fine hardy Ivy was obtained by us from the Botanic Gardens of St. Louis. Its foliage is much the same shape as that of Hedera Gracilis differing particularly in its shiny leaves which are also more closely set along the stem. Its hardiness equals that of the common Baltic Ivy. Plants from 2½-inch pots

Three \$2.00, Doz. \$6.00, 100 \$48.00

#### **EUONYMUS ACUTA**

One of our favorite ground covering plants and also a great favorite with our customers. It is a fine prostrate, rapidly spreading vine; makes a smooth shiny, dark, evergreen carpet, hardy anywhere, dense enough to prevent weeds from coming up through it. Does equally well in full sun, semi-shade or deep shade. Euonymus Acuta is tops with us for covering large areas or

Ground Covering Size

Each \$1.00, Three \$2.30, Doz. \$10.00, 100 \$60.00, 1000 \$550.00

#### ROSA WICHURAIANA

Almost evergreen, the Wichuraiana or Memorial Rose trails along the ground, making a green, glossy mat covering a wide area. The flowers are produced in late July or August, in big sprays or panicles. They are pure white, semi-double or single, with an enormous center of brilliant yellow stamens. This is by far the most useful Rose for covering banks and slopes because of its close, clinging habit and its tendency to root wherever it touches the ground. Rosa Wichuraiana is the parent of practically all our modern hybrid climbing Roses, but is by far the best for its own particular purpose.

Each \$1.25, Three \$3.15, Doz. \$12.50

#### HYPERICUM CALYCINUM

A fine, low growing shrub which spreads from underground runners. We advise planting 12 inches apart which will produce a solid carpet in one season. During the summer, golden yellow flowers add to the attractiveness of this fine little shrub which does not grow over 10 to 12 inches high. Should not be used in too cold a climate where temperatures go below zero. Ground Covering Size Plants.

Each \$1.20, Three \$3.40, Doz. \$12.00, 100 \$80.00

#### LONICERA - Honeysuckle

Halliana Ground Covering Size, Doz. \$5.50, 100 \$25.00, 1000 \$225.00 Aside from being a favorite vine for both sunny and shady porches, Hall's Honeysuckle is extensively used for covering banks. Its growth is rapid and because it roots deeply is an excellent plant to prevent washing of soil. The fragrant flowers produced all summer long greatly add to its charm. It may also be used to cover semi-shady places in woods. May be planted in spring and fall. Plants should be spaced 18 inches

Halliana Aurea Variegata

Ground Covering Size, Three \$2.15, Doz. \$7.50, 100 \$45.00. This is the golden variegated form of the well-known Hall's Honeysuckle. The golden foliage is quite stunning and ornamental when seen on trellis or fence. Branches taken from it for use with flowers contribute handsomely to the effect of a vase of flowers. In the garden, the golden leaved Honeysuckle makes a colorful display which lasts well into the winter. In milder climates the leaves are retained throughout the winter. Flowers are the same and as fragrant as the common Honeysuckle.

Ground Covering Size, Three \$3.40, Doz. \$12.00, 100 \$80.00 lenryi Ground Covering Size, Three \$3.40, Doz. \$12.00, 100 \$80.00. The Evergreen Honeysuckle. There are practically no vines which retain their foliage during the winter in the colder parts of the country. Therefore, the Henryi Honeysuckle is a very valuable variety. Its long clean dark green leaves remain on the vine all winter. The flowers, while fragrant, are of no importance, but the blue-black betries produced in autumn add materially to the charm of this plant. Does well in shade and is also an excellent windbreak. Hardy as an Oak.

#### **EUONYMUS KEWENSIS**

This is the miniature "Evergreen Bittersweet," a delightfully effective small vine-like creeper. Everyone who sees it appreciates its value and charm as a ground cover. Of fine texture, perfect for covering ground around small statues or small pools or anywhere a plant of small proportions is required. Rich, dark green foliage all year round and hardy as an Oak. Does exceptionally well in shade or full sun.

Each \$1.25, Three \$3.50 Doz. \$13.00, 100 \$80.00

Euonymus Kewensis

Euonymus Acuta Rapid Grower, Fine for Banks and Shady Areas

Pachysandra Growing Luxuriantly in Deep Shade

Pachysandra, Silveredge-Fine for Dish Gardens

#### VINCA

Minor, Bowles' Variety

The foliage is broad and rich glossy green, of strong texture. The flowers are not only larger but of a deeper rich blue color and are borne with a remarkable profusion. Plants are supplied in post Doz. \$6.50, 100 \$32.50, 1000 \$300.00 Plants from 21/2 inch pots.

#### PACHYSANDRA TERMINALIS (Spurge)

A trailing plant 6 to 8 inches high, forming broad mats of bright glossy green foliage. A ground cover, which will grow in all shady situations and the only plant which will thrive under pine trees. Some of its main uses are: Under all evergreen plantings, under all shrub plantings, for area-way copings, for loggia and inclosed porch uses, for shrub and flower bed borders, for bordering walks and drives, for steep terraces in sun or shade; for city yards it is ideal; for dense shade under any kind of trees. Plants should be spaced 4 inches apart.

Pot grown plants 25 \$6.00, 100 \$22.50, 250 \$53.00, 1000 \$200.00 We put 2 plants in each pot. Above prices are per pot.

Frame grown plants, bare root, not potted. 25 \$4.25, 100 \$16.00, 250 \$39.00, 1000 \$150.00 Tied in bundles of 25 per bundle. Excellent for inexpensive large plantings.

#### PACHYSANDRA SILVEREDGE

Pot grown plants Three \$1.85, Doz. \$7.00, 100 \$35.00. This is an exceedingly nice and valuable but still very rare form. It differs from common Pachysandra by sporting a narrow silvery white margin around its leaves, and the leaves themselves are light green instead of dark green. The edge is seldom more than 1/4 inch wide, never discolors. The effect created by a grouping of this variegated type is most pleasing, giving a much lighter effect; in fact, the contrast is quite sharp. Everyone who has seen it wants it for that very purpose. The variegated form planted at the base of Rhododendrons or other evergreens is just what is wanted for relief of too much green. It is tops for indoor dish gardens.

The Periwinkles are suitable to grow as edgings to shrubbery borders, carpet the ground under the shade of trees, or in shady borders with Ferns, Lilies and other bulbs.

Ordinary soil in positions named above. Plant in autumn or early spring, 4 to 6 inches apart. Additional beauty is obtained by the interplanting of Daffodils, Mertensia or Plumbago larpentae. All these bulbs and plants do well planted under Vinca minor.

A trailing evergreen, used extensively for carpeting ground under shrubs or trees or on graves, where it is too shady for grass or other plants. Plants from  $2\frac{1}{2}$  inch pots Doz. \$5.50, 100 \$27.00, 1000 \$250.00

Minor alba The rare white-flowered form of the preceding variety. Plants from  $2\frac{1}{2}$ -inch pots Doz. \$6.50, 100 \$32.50, 1000 \$300.00

# Lily-of-the-Valley

#### (Convallaria Majalis)

(Convallaria Majalis)

We are happy to be able to offer you again our fine strain of imported Lily-ofthe-Valley. This bold, strong form is especially well adapted for garden planting. If reasonably taken care of, a bed of them will produce beautiful long-stemmed flowers in abundance for as long as you live. But you must not be thoughtless about them. Their culture is so simple. True, they will grow anywhere, under almost any conditions—sun or shade, wet or dry, but truly spectacular results are obtained if, during each winter (December preferred), you will cover your Valley bed with a heavy coating of manure or apply a heavy dose of Wayside Gardens Plant Food. The response to heavy organic fertilizing is remarkable. These pips are imported in units of 25 per bunch and we prefer to sell them that way but will gladly break these bunches if you only want a dozen.

We recommend the Lily-of-the-Valley for ground covering, particularly in shady places.

Bunch of 12 pips \$2.25

Bunch of 25 pips \$4.00

Pips per 1000 \$13.50

Pips per 1000 \$125.00

Lilium

Centifolium Hybrids

Lilium Centifolium Hybrids

These magnificent hybrids are quickly replacing the Regale Lily. As they are grown from seed, there is a pleasing variation in flower form as well as coloring. Some show a cool sea-green, others delicate shellpink. Many are tinted soft shades of yellow.

Each 65c, Centifolium, 7 to 8 in. Three \$1.80, Doz. \$6.50, 25 \$12.00, 100 \$45.00 **Centifolium**, 8 to 9 in. Each 80c, Three \$2.25, Doz. \$7.50, 25 \$15.00, 100 \$52.50 **Centifolium**, 9 to 10 in. *Each* 85c, *Three* \$2.40, *Doz.* \$8.50, 25 \$16.00, 100 \$64.00 Hardy Lilies

Few flowers bring your garden the unusual and exotic beauty of Lilies, the romance of the far corners of the earth in which many of them were discovered. They have come from Europe, Asia, Africa and the wild crannies of America to delight you with their different grace and loveliness, their uncommon charm and colors that offer you the pleasure of "pointing with pride." Growing some of the new Hybrids gives you enjoyment and satisfaction like that of collecting rare jades or porcelains.

#### Centifolium Lilies

Side by side, field tests have definitely proven them to be the finest strain of hardy garden Lilies available. Their breeding history includes such varieties and species as L. Centifolium, Leucanthum, C. G. Creelman, Sargentiae, Brownii and Regale. Careful selection of the finest and choicest plants from these crosses has resulted in the present Olympic strain which is characterized by its extreme vigor and size, form, coloring and good placement of flowers. There is a pleasing variation among the individual plants of the strain and all types, from the stylized

typical trumpet-shaped flowers to the more unusual forms such as the widely opened bowl-shaped flowers with petals slightly twisted and ruffled. The color range of all the parent plants is present in the Olympic Hybrids in addition to new combinations and types which include creamy yellow trumpets, soft fuchsia-pink and the popular cool, icy green. The exteriors of the petals are delicately shaded with light greenish, cools in the petals are delicately shaded with light greenish. greenish brown or soft wine tints and in some instances are a pure glistening white. They do equally well in full sun or partial shade. Bulbs form strong stem roots in addition to very extensive basal root system which provides good insurance against drought. Plant bulbs 5 to 6 inches deep in well-drained soil and they can be left undisturbed for several years.

#### Centifolium "Olympic Hybrids Special Select"

Centifolium "Pink Selections"

This is a special offering of a strain which has had our closest attention for several years. Although in habit and in culture the plants are similar to the Centifolium Hybrids, the flowers are shaded pink. This color extends over the inner surface as well as the outer surface of the petals and is indescribably beautiful. This offering is bound to become one of the most popular of garden Lilies as soon as sufficient stocks are available. Specially hand selected bulbs. Each ~\$1.60, Three ~\$4.25, Doz. ~\$15.50

Example of Centifolium, Special Select

# Aurelian Hybrid Lilies

These hybrids are the result of crosses between Henryi, Sargentiae and Sulfureum and vary in shape from short trumpet-shaped, bowl-shaped to those with widely flaring and recurving petals. Cream tinted with yellow and apricot centers; some light yellow with apricot centers, all superbly beautiful. To assure customers the most widely differing and colored forms we offer these under three headings, each type being distinct in form with distinct color effects. Only a limited number of bulbs are available. Here again the Henryi blood in this strain has made it strong and vigorous. This also is a first time offering of a group of Lilies of the future.

This type resembles the Trumpet Lily in all respects except in color and texture of the flowers. The shading of the petals varies from clear butter-yellow down to cream-yellow. These forms are extremely rare and scarce at present. They are a magnificent addition to the Trumpet Lily group and we predict that these along with the new pink trumpets will become, in the very near future, as popular and as widely planted as are the Olympic Hybrids today. Golden Clarion

**This selection** is almost intermediate in shape between the trumpet form and the Lilium Henryi shape. They are essentially shallow, widely flared and bowl-shaped in shades of white, cream and yellow-orange. Many of them have a bright orange throat shading to cream-yellow at tips of the petals. All are strong growers and will form permanent groups. Heart's Desire Hybrids

unburst Hybrids

Each \$1.15, Three \$3.25, Doz. \$12.50

This group is made up of the flowers which most closely resemble Lilium Henryi in shape. They are much larger and more reflexed than those of Henryi and the colors include white, cream-yellow and orange. The flowers are of unusual texture and substance. Strong growers and permanent. Sunburst Hybrids

Example of Sunburst

Auratum Lily

# Lilium Auratum

(Gold-Banded Lily)
One of the finest and most outstanding Lilies. A well grown clump of Auratum Lilies is a marvelous sight. The flowers are large, often seven to eight inches in diameter, borne in clusters of 6 to 12 blooms on a 3-foot stem. They are ivory-white with broad golden band, recurving petals and delightfully fragrant, blooming July to September. They dominate the garden at that time.

Flowering Bulbs, 8 to 9 inches

Auratum Hybrid "Jillian Wallace"

This bold and lovely Lily hybrid is now, and may well be for years to come, the best of all the new Auratum hybrids. The fully opened flowers are more than 8 inches across and the plants bear as many as seven of the huge flowers on 5- to 6-ft. stems. The best color description we can give is that the petals are Tyrian rose with white margins and spotted with a really intense, deep crimson. The petals are slightly crested on the inner edges, near the base of the flower. The flowers are strongly but nicely scented and the entire plant makes an unforgettable impression. We have built up a substantial stock of this magnificent new Lily hybrid. this magnificent new Lily hybrid.

Lilium Cheodore A. Havemeyer

A Very Rare and Choice Lily! Easily Grown.

A special gold medal was awarded to a display of this variety in the Gardens on Parade at the New York World's Fair. The flowers are a tender shade of buff or creamy old ivory with three or four buff, longitudinal lines, and marked with rosy amber on the basal half of the segments. This lovely shading is enhanced by attractive brown anthers. The flowers are of fine size, broad and spreading. Begins to bloom the end of July, and blooms over a very long period.

About 6-7 in., Flowering Bulbs... Each \$1.25, Three \$3.50, Doz. \$13.00 About 7-8 in., Flowering Bulbs... Each \$1.60, Three \$4.25, Doz. \$15.50 About 8-9 in., Flowering Bulbs... Each \$2.00, Three \$5.50, Doz. \$20.00

Theodore A. Havemeyer

#### Lilium Cestaceum

Also known as the "Excelsum" and as the "Nankeen Lily." One of the choicest garden Lilies. The warm apricot tone, almost a cafe au lait, set off by brilliant orange anthers, puts it in a color class by itself; in fact, many people consider it the most graceful and lovely of all Lilies. It is beautiful for every kind of garden use. In combination with light shaded Delphiniums or with Madonna Lily, which it resembles, it is most effective. It has the texture of Lilium Candidum with reflexed petals, does well under same conditions as Candidum. Four to five feet high. June-July flowering.

Top Size Bulbs

\*\*Each \$2.25, Three \$6.00, Doz. \$22.50\*\*

Lilium Testaceum

Lilium Candidum

# Lilium Candidum madonna lilies

The Madonna Lily is one of the loveliest of white Lilies, popular throughout the world, loved and admired by all. Its delightful fragrance and lovely white flowers have made it a universal symbol of purity. Plant it in groups of three or more bulbs, close to the pale blue Delphinium Belladonna. It will be the loveliest spot in your garden during late June and early July. Madonna Lilies are simple to grow if you plant in full sun and perfectly drained soil.

Top Size Bulbs, 22-24 cm.

Each 50c, Three \$1.40, Doz. \$5.00, 25 \$9.50, 100 \$33.00

Giant Size Bulbs, 26-28 cm.

Each 65c, Three \$1.80, Doz. \$6.50, 25 \$12.00, 100 \$45.00

Lilium Green Mountain Hybrids

This group resulted from seed obtained from the collection of Dr. L. Horsford Abel. Re-selection in an effort to fix the character of unusual size of flower, combined with a green coloring of the throat and the brown shaded exterior of the petals has resulted in an impressive group of Trumpet Lilies. Quite distinct in shape and color, they are definitely a superior group of plants, particularly valuable for exhibition and specimen planting as well as being a magnificent cut flower. They require the same cultural treatment as Centifolium Lilies and are at their best when planted in very light shade, where their unusual coloring can be seen to best advantage.

Each \$1.15, Three \$3.25, Doz. \$11.50, 25 \$22.00

Lilium Green Mountain Hybrid

# Mid-Century Hybrid Lilies

For literally hundreds of years fruitless attempts have been made to cross the Umbellatum and Tigrinum Lilies in Europe. Finally and possibly because of more favorable conditions, this feat was accomplished a few years ago in Oregon. The results are astounding and sensational. The cross produced magnificent plants 3 to 4 feet tall, rigid stems which do not require staking, beautifully formed flowers growing in big open clusters. Fool-proof and perfectly hardy; they will grow anywhere. Here at last is what every gardener has been waiting for—Lilies that will grow, multiply and live under almost any conditions. We cannot say too much about these remarkable new Hybrids. Be sure and plant a few of them this year and when you see the results, we are sure you'll be more enthusiastic about them than we. This group of Lilies is truly a horticultural sensation.

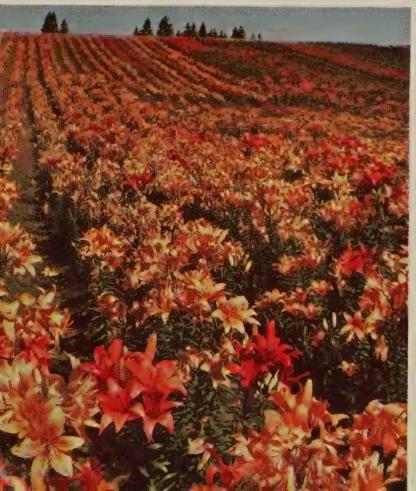

Mid-Century, Fireflame

Trieflame

Each \$1.00, Three \$2.85, Doz. \$11.00

This is possibly the best in the red shades. Color is described by customers who have seen it as Indian red, burnt orange and mahogany-red. Flowers grow horizontally, are wide open with recurving broad petals in big heads on stems about 25 to 28 inches tall. It produces bulbils on the stems, all of which will bloom in 2 years. Sturdy, rugged grower. Fireflame

Mid-Century Hybrid Lilies in Mixed Colors

Mid-Century, Enchantment

Enchantment (Plant Patent No. 862)

nchantment (Plant Patent No. 862)  $Each \ 80c, \ Three \ \$2.25, \ Doz. \ \$8.00$  A veritable giant, growing about 36 to 40 inches tall when established. Color is nasturtium-red. Flowers upright in big heads blooming week after week, providing a blaze of the richest possible color in the garden. Enchantment is probably the most vigorous Lily in cultivation, as well as the most rapid multiplier of bulbs. There is a surprise in store for you. If you ever failed growing Lilies, you won't with this one

Mid-Century, Valencia

Talencia

Each 80c, Three \$2.25, Doz. \$8.00

Beautiful heads of flowers of softest gold to rich yellow, clear and clean. A slight midrib and a very few small coppery gold spots on the flower petals create an excellent effect. This is a brilliantly colored variety. It stands out and we consider it one of the best. Flowers grow horizontally, are nicely balanced, petals broad. Its color glows. One of the "tops" in the collection. Grows 27 to 30 inches high. Valencia

#### MID-CENTURY LILIES IN MIXED COLORS

For the past few years we offered a number of named varieties of the Mid-Century Lilies. The response was so overwhelming that we found ourselves oversold even before the normal season opened. This year with still only limited quantities available of the named varieties, we decided to offer a mixture consisting not only of the kinds offered but including hundreds of fine hybrids as well. We guarantee this mixture to contain only the choicest of our new hybrids in a range of most brilliant colors.

Each 80c, Three \$2.25, Doz. \$7.50, 25 \$15.00, 100 \$52.50

Lilium, Royal Gold

#### CULTURAL **INSTRUCTIONS** FOR LILIES

A most complete and informative leaflet covering all important varieties and their cultural needs is enclosed with every order.

# Lilium Royal Gold The Golden Regale Lily

A golden yellow, true-blooming mutation of the Regale Lily. This beautiful new variety is identical with the best L. Regale except for its true golden coloring. The flowers have a most attractive, shiny, glistening surface. Seed saved from this golden beauty will come true to color so there is no reason why you should not try to grow some of these bulbs yourself. Royal Gold is without doubt one of the finest introductions in Lilies. Don't miss it!

6 to 7 in. bulbs

Each \$1.75, Three \$4.75, Doz. \$17.50

8 to 9 in. bulbs

Each \$2.75, Three \$7.75, Doz. \$27.50

# Lilium Regale (The Regal Lily)

One of the most beautiful and one of the easiest of Lilies to grow, it never fails—"Lilium Regale" is truly a Royal Lily; worthy of a place in every garden; it is a lover of loam and sunshine. A vigorous grower with sturdy stems, 4 to 6 feet high, densely covered with fine foliage. Center of flower flushed with yellow shading to white at outer edges; externally the flowers are streaked with brown on the "ribs," shaded through almost translucent petals with a delightfully pearly tint; the contrast between the color of the reverse of the petals and the gold shading of the throat is extraordinarily beautiful. The Regal Lily is very floriferous and when thoroughly established, bears as high as 18 to 20

Bulbs, 7 to 8 in. circum. Each 60c, Three \$1.70, Doz. \$6.00, 25 \$11.00, 100 \$42.50

Each 80c, Three \$2.25, Doz. \$7.50, 25 \$15.00, 100 \$52.50

Bulbs, 9 to 10 in. circum. Each 85c, Three \$2.40, Doz. \$8.50, 25 \$16.00, 100 \$64.00

Each 95c, Three \$2.75, Doz. \$10.75, 25 \$20.75 A beautiful form of Regal Lily, producing handsome flaring flowers which are canary-yellow at the base with primroseyellow petals showing only a very small margin of white at the tips of the petals. This rare form and color will be greatly appreciated by the connoisseur.

Regal Lilies

Lilium Speciosum Album

The petals are well rolled back and are handsomely spotted, often branded with distinct color. The anthers are conspicuous for their size and color, and extremely delicate poise. In addition to these attractive qualities, it has a strongly waved outline to the petals, which adds much to its beauty. It flowers through the late summer into autumn. The cultivation of this Lily is simple, sending up its flowering stems year after year in increasing numbers.

Speciosum magnificum

Rich ruby-carmine, margined white; stout of substance and broad of petal, this variety stands out prominently on account of its vigorous growth as well as the size and depth of col-

Large, No. 1 Bulbs

Each 50c, Three \$1.40, Doz. \$5.00, 25 \$9.50

Mammoth Size Bulbs

Each 75c, Three \$1.95, Doz. \$7.50, 25 \$14.90

Speciosum rubrum "Red Champion"

Speciosum rubrum "Red Champion"

A handsome deep colored variety of the Speciosum Lily. Superb for garden decoration, cut flowers or pot culture in a cool greenhouse. Our strain is uniform, disease free, vigorous, and AMERICAN-GROWN. The foundation stock was discovered locally on the slopes of Mount Hood, where it had grown undisturbed for some forty years. It likes a situation in well drained soil. Likes light shade during the hottest part of the day.

Each 90c, Three \$2.50, Doz. \$9.75, 25 \$18.50

Speciosum album

Beautiful snow-white with golden green stripe through the center of each petal, and anthers of a coppery tint. Alike in the form of the flower and in the way of growing, this Lily is one of the most beautiful we have.

Large Bulbs, 8 to 9-inch circum.

Each 85c, Three \$2.40, Doz. \$8.50, 25 \$16.00

**Earnadense**Each 50c, Three \$1.35, Doz. \$4.50, 25 \$8.90Broad, funnel-shaped, drooping flowers, varying from yellow to orange; spotted inside; graceful and pretty. Fine among Azaleas, in damp peat beds, or leaf mold. Excellent for naturalizing. June-July flowering.

Formosanum Giant Late Flowering Form

The latest flowering of all the popular Lilies, this white trumpet type is particularly desirable for gardening in moderate climates. The plants are often in flower as late as December in the mild sections of the country. Of easiest culture, this Lily should be in every garden. Our strain is tall and free flowering and has been grown from selected plants for several generations. The bulbs are very small, but should be planted 5 to 6 inches deep since Formosanum produces very heavy stem roots.

Giganteum Himalaicum (Cardiocrinum Giganteum)

The most majestic of Lilies, having stems 10 to 12 feet high when established, with large, handsome, long, white, trumpet-shaped, sweet-scented flowers. Groups of this noble Lily in woodland or gardens produce a grand effect. It requires to become established before flowing freely and thrives best where there is an abundance of leaf mold. Plant very shallow.

Iansoni Each 65c, Three \$1.80, Doz. \$6.50, 25 \$12.00 Plant among the low plants to protect young shoots, this being one of the earliest Lilies to appear in spring. Does as well in thin woodland as it does in the border. Height 4 to 5 feet, carrying blossoms 2 inches across, regularly reflexed, the petals being of a bright orange-yellow, spotted more or less with brown; of a heavy waxy texture. June flowering.

huksan

Each 95c, Three \$2.75, Doz. \$10.75, 25 \$20.75, 100 \$73.00

A new Hybrid Lily with a great future. Also a fine bill of health. Shuksan is a very vigorous grower, 5 to 6 feet tall, and produces its flowers in open heads; 15 to 25 flowers on one plant is not unusual. The color is soft buff-yellow broken by large, quite widely spaced, soft brown spots. At opening, the flowers are star-like. The petals reflex and roll back when in full bloom. Flowers last a week when cut.

Lilium Speciosum Magnificum

Lilium Dr. Abel's Fiesta Hybrid

Lilium Giganteum Himalaicum. Also called Cardiocrinum Giganteum.

Lilium Japonicum

Japonicum

Each 90c, Three \$2.50,

Each 90c, Three \$2.50, Doz. \$9.75, 25 \$19.00

This is one of the few "pink" Lilies for our gardens and a very lovely thing it is. The flowers are carried horizontally on stems 3 feet high. Somewhat capricious in its requirements, it is a Lily so beautiful and of a color so lovely and unusual that it is worth taking pains with. The funnel-shaped finely formed flowers are 6 inches or more in length and as much across, of a beautiful clear pink color often shaded blush. June-July flowering.

**Dr.** Abel's Fiesta Hybrid Lily Each \$1.15, Three \$3.25, Doz. \$11.50 This is a remarkably fine, brilliant red Lily. The beautifully reflexing flowers are borne on a thin, wiry stem during July. It is of easy culture and multiplies quite rapidly from undergraph. Fiesta Hybrid Lilies

Tiesta Hybrid Lilies Mixed colors only, Each 75c, Three \$2.00, Doz. \$7.50, 25 \$13.00

A Magnificent and Brilliantly Colored Race of New Lilies. This new race of seedlings has neatly reflexed flowers, nicely spaced on thin, wiry stems. Resulting from crosses between L. Davidi (L. Wilmottiae), and related types, they are one of the brightest patches of color in our Lily fields during July. The colors range from bright yellow through orange to a beautiful dark rich red. The latter color is new to this type of Lily. Most of the flowers are of typical recurved Turk's Cap shape and many of the plants have blooms facing outward or somewhat upward with the petals only slightly recurved. A sun loving group, plant them 5 to 6 inches deep where they will get plenty of direct sunlight. Propagation is most rapid from the numerous underground stem bulblets. Award of Merit, Massachusetts Horticultural Society, 1946.

**Lartagon album**Each \$1.15, Three \$3.25, Doz. \$11.50, 25 \$22.00

There are few more beautiful things than the white Martagon Lily. The appearance of these Lilies is graceful and delightful in the extreme. On slender stems 4 to 5 feet high, the numerous drooping, wax-like, white Turk's Cap flowers, with yellow tipped stamens, look fascinating. The small flowers are symmetrical in shape, with reflexed petals and are borne in pyramidal shaped clusters. Martagon album

This brilliant Lily is of easiest culture, in fact, it's "fool-proof," It is vigorous, dependable, very hardy, and multiplies rapidly. It does equally well in full sun or shade. They reach a height of five to six feet. Stems are stout and require no staking. A clump of six or a dozen when in bloom makes a brilliant picture in any garden. Each stem is topped with a dozen or more beautiful flowers in July. The petals are somewhat recurving and a brilliant sunset-red, while the base of the bloom is yellow, beautifully marked with amber-brown dots. Pardalinum Giganteum, Sunset

Each 50c, Three \$1.35, Doz. \$4.50, 25 \$8.90 Superbum The color in this desirable Lily varies from pale yellow to deep crimson, more or less spotted on the inner surface of the petals. Fine established specimens often reach a height of 10 feet or more, bearing from 20 to 30 elegantly reflexing flowers arranged in large, cone-like clusters. Does well in ordinary garden soil. July flowering.

Each 35c, Three 90c, Doz. \$3.00, 25 \$5.60, 100 \$21.00 Tenuifolium A charming little early flowering Lily with strongly recurved petals of waxy texture; deep scarlet. A gem in the rock garden as in the border. Likes a cool, damp, loamy soil and partial shade, but does well anywhere in well drained soil.

**Tenuifolium, Golden Gleam**Each 40c, Three \$1.10, Doz. \$3.50, 25 \$6.50, 100 \$23.00

A beautiful, robust and floriferous hybrid of this type, bearing numerous flowers of a pure apricotyellow. June flowering.

Tigrinum Splendens Each 50c, Three \$1.30, Doz. \$4.40, 25 \$8.70 The finest form of Tiger Lily with the richest color. The large, shapely flowers are of a rich dark salmon-orange spotted with glossy black. Very robust in habit and of easy culture. August-September

Umbellatum grandiflorum
A very free flowering Lily of easy culture. Each 50c, Three \$1.40, Doz. \$5.00, 25 \$9.90, 100 \$36.00

Carries large umbellate heads of light orange-red flowers.

# Lily-of-the Valley (Convallaria Majalis)

We are happy to be able to offer you again our fine strain of imported Lily-of-the-Valley. This bold, strong form is especially well adapted for garden planting. If reasonably taken care of, a bed of them will produce beautiful long-stemmed flowers in abundance for as long as you live.

But you must not be thoughtless about them. Their culture is so simple. True, they will grow anywhere, under almost any conditions—sun or shade, wet or dry, but truly spectacular results are obtained if, during each winter (December preferred), you will cover your Valley bed with a heavy coating of manure or apply a heavy dose of Wayside Gardens Plant Food. The response to heavy organic fertilizing is remarkable. These pips are imported in units of 25 per bunch and we prefer to sell them that way but will gladly break these bunches if you only want a dozen.

We recommend the Lily-of-the-Valley for ground covering

We recommend the Lily-of-the-Valley for ground covering, particularly in shady places.

Bunch of 12 pips \$2.25, Bunch of 25 pips \$4.00, Pips per 100 \$13.50, Pips per 1000 \$125.00

Lily-of-the-Valley

Crocus, Etruscus

Crocus, Aureus

Crocus Speciosus, Artabir (Autumn-Fl.)
(See page 14)

Crocus Zonatus (Autumn-Fl.) (See page 14)

Colchicum, Autumn Queen (See page 14)

In ADDITION to the Dutch Crocus there are certain species that bloom much earlier, frequently before the snows have gone. Also, they are of long life, flowering season after season with little care or attention.

Flowering in late February is the Crocus Sieberi. Accompanying it is the Crocus Susianus. Many believe the latter even more appealing in the bud stage with its dark, rich brown stripes on the outside of its segments. These are followed by the Crocus Tomasinianus. Nothing short of exquisite describes its lovely vase-like form and its color ranges from pale mauve to deep purple. Tomasinianus is so hardy and persistent that when once planted under shrubs, it is permanent, rapidly increasing into ever bigger clumps from year to year. We would say it's almost indestructible.

The loveliest of all in our opinion are the Chrysanthus varieties. Be sure to plant a few.

Dutch Crocus, Blizzard, white; Early Perfection, purple: Golden Goblet, yellow

# Spring Flowering Crocus Species

Besides the well known Dutch Crocuses there are certain species that bloom very much earlier in the year, often before the snow has gone. And what is more, all are permanent, coming up season after season without care.

No garden is complete without some Crocus Chrysanthus Canary-bird and E. A. Bowles. Their brilliant yet delicate yellow flowers are exceptionally fine. Yellow-colored Crocus varieties are few and we, therefore, want to call your attention to these two little known varieties which are perfectly beautiful in the spring when they open their flowers to the first warm rays of the spring sun.

Once planted they will take care of themselves for many years. Aureus (Moesiacus)

Doz. 90c, 25 \$1.65, 100 \$6.00

Deep golden yellow. The most brilliant of the early Crocus.

iflorus Doz. \$1.10, 25 \$1.95, 100 \$7.50 White, outside purple lined. Slightly scented. Biflorus

Chrysanthus, A. P. Bowles Doz. 90c, 25 \$1.65, 100 \$6.00 A beautiful early flowering variety. Its pale yellow, brilliant flowers are outstanding. An additional attraction is the bright reddish orange stamens. We consider this and the other three Chrysanthus varieties the finest of the early Crocus species.

Chrysanthus, Canarybird Doz. 90c, 25 \$1.65, 100 \$6.00 Orange-yellow cup with bronze tints on the exterior of the flower petals. Exceptionally free flowering. A choice variety giving additional shades of yellow so much needed in Crocus. You will like this.

Chrysanthus, E. Aug. Bowles Doz. 90c, 25 \$1.65, 100 \$6.00 Butter-yellow, outside base bronzy gray tinged, large and beautifully rounded blossoms, the most beautiful of all Crocus species.

Chrysanthus, Snow Bunting

Doz. 90c, 25 \$1.65, 100 \$6.00

This is a lovely form of the Chrysanthus group. The flowers are pure white with an occasional delicate striping of purple on the outside. When flower is fully open, it displays a pure golden center. One of the loveliest of spring flowers.

Etruscus

Self-colored mauve flowers.

Fleischeri

White, anthers orange-red.

Doz. 90c, 25 \$1.65, 100 \$6.00

Doz. 80c, 25 \$1.50, 100 \$5.25

Doz. \$1.05, 25 \$1.85, 100 \$7.00 Korolkowi This unusually fine early species is invaluable for the rock garden, for clumps in the border or for grouping near the terrace or house and under trees. The color is brilliant golden yellow shading to orange, exterior of the petals shaded bronze; the very earliest of spring flowers.

Crocus Chrysanthus, Canarybird

Doz. 80c, 25 \$1.50, 100 \$5.25 Sieberi This is a very lovely spring-flowering variety which will bloom as early as February. The graceful flowers are delicate blue with gold in the throat. Potted in October they will bloom for Christmas. Can be grown easily in pebbles or peat in water throughout the winter, same as Paper-White Narcissus.

Susianus (Cloth of Gold) Doz. 80c, 25 \$1.50, 100 \$5.25
Bright golden yellow flowers, outside brown striped, produced in great profusion. Specially recommended for naturalizing.

omasinianus  $Doz.\ 80c,\ 25\ \$1.50,\ 100\ \$5.25$  Pale lavender, outside silvery gray, a very charming species which blooms with numerous flowers in early spring; one of the best for naturalizing, especially in woods or shady places. No other Crocus does as well and multiplies or flowers as freely from one year to another without care or attention.

Versicolor picturatus (Cloth of Silver) Doz. 85c, 25 \$1.60, 100 \$5.75 White outside, purple feathered, very pretty and free.

Mixed Crocus Species, Spring Flowering 25 \$1.65, 100 \$6.25

### -Spring-Flowering Dutch Crocus —

Whether you particularly enjoy gardening or not, one of the great delights of spring is seeing the first blooms of the Dutch Crocus. Not only because of its early flowering, but because of its sheer beauty and brilliant coloring, it never fails to captivate us.

Then, too, they are so easily grown and persistent that the merest amateur can obtain perfect results. They multiply with amazing rapidity in number, from year to year, another reason why they are so popular.

Only top size bulbs are listed below, this for the reason they produce the largest number of blooms.

Doz. \$1.00, 25 \$1.75, 100 \$6.75 Blizzard Pure white, globular flowers of great beauty.

Doz. 85c, 25 \$1.55, 100 \$5.50 Early Perfection Dark violet-blue; deep and intense coloring.

Doz. 85c, 25 \$1.55, 100 \$5.50 Clear porcelain-blue, large flowers; very pleasing; early

Doz. 85c, 25 \$1.55, 100 \$5.50 Golden Goblet Giant golden yellow flowers.

Doz. \$1.00, 25 \$1.75, 100 \$6.75 King of the Whites Large, white. One of the best whites.

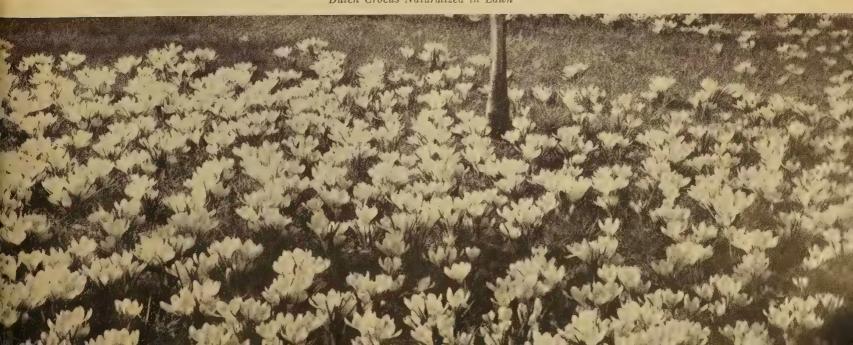

Doz. 85c, 25 \$1.55, 100 \$5.50 Mammoth Yellow Golden yellow flowers in abundance. Queen of the Blues Dark filac; one of the best. Doz. 85c, 25 \$1.55, 100 \$5.50 Striped Beauty
Blue striped white, late. Doz. 85c, 25 \$1.55, 100 \$5.50 Doz. 85c, 25 \$1.55, 100 \$5.50 The Sultan

Dark purple-blue, almost black; large flowers.

Mixed Colors of Crocus

A beautiful mixture of all the kinds offered and will make a cheerful and colorful display early in the spring. Bulbs are all top size.

Dutch Crocus Naturalized in Lawn

Colchicum

# Colchicum GIANT AUTUMN-

These have large Crocus-like blossoms and appear during the months of September and October, without foliage. The foliage, however, appears early in the spring. The dashing, checkered, Crocus-like blossoms are shown to best advantage when planted between the early spring flowering plants such as Iris. They do remarkably well when planted in the woods or in naturalistic plantings of any kind.

Autumnale Each 50c, Six \$2.25, Doz. \$4.10, 100 \$26.00 commonly called the Autumn Crocus; very free flowering; of easy culture.

Autumnale album Each 50c, Six \$2.25, Doz. \$4.10, 100 \$26.00 pure white, increasing fast; free flowering.

Giganteum Each 50c, Six \$2.40, Doz. \$4.25, 100 \$27.50 Large, soft violet, white center; late flowering.

Speciosum, Autumn Queen

Each 50c, Six \$2.50, Doz. \$4.50, 100 \$30.00

An outstanding large flowered hybrid, gives huge clusters of flowers of deepest rose-purple.

Speciosum, The Giant Each 55c, Six \$2.55, Doz. \$5.00, 100 \$35.00 Truly a giant, makes a fine show growing in a ground cover such as Vinca. The immense flowers are pure lilac.

Mixture of Colchicums Six \$2.15, Doz. \$3.75, 100 \$24.00This mixture consists of a fine lot of bulbs raised from seed. All are in colors of rosy purple to violet and deep rose.

Crocus Speciosus Albus

# Autumn-Flowering Colchicum and Crocus Species CROCUS

September, October, November flowering. Order immediately as they must be planted early.

The Crocus listed below bloom in the autumn. Growing equally well in sun or light shade, they are permanent and multiply freely. Once planted they increase year after year without time or trouble to you. They are wildlings and do best when left to their own resources. The outstanding ones in the group are of the Speciosus varieties especially the Speciosus Albus, a truly beautiful Crocus. The Zonatus is very popular and extremely attractive coming through some low growing Sedum. Sativus, the saffron Crocus, is both handsome and useful. Its golden yellow pistil is the saffron of commerce.

Asturicus Doz. \$1.50, 25 \$2.75, 100 \$10.00 A very showy species from the Asturia Mountains. Pale mauve to purple-lilac with darker stripes at base.

Medius

Flowers lovely rich violet with handsome purple veining at base; stigmata rich glowing orange-red; one of the handsomest.

Sativus (Saffron Crocus)

Habitat Italy to Kurdistan. Large flowers, purplish lilac, feathered violet, with showy orange stigmata, slightly scented. Flowering freely when estbalished.

Speciosus

Speciosus

Doz. 80c, 25 \$1.50, 100 \$5.25

Large bright blue flowers, beautifully veined, orange-red anthers and bright yellow throat; a very fine autumn Crocus.

Speciosus albus

Orand pure white variety, large snow-white flowers are produced in abundance and are marvelous when seen coming through dwarf Sedums or springing up as from nowhere under the shrubs. One of the loveliest of autumn flowers.

Speciosus, Artabir

Pale blue, dark feathered, large flowers. This variety contrasts well with the white form.

Zonatus

Doz. 85c, 25 \$1.55, 100 \$5.50

Flowers rose-lilac with yellow throat, freely produced. One of the most satisfactory kinds, lovely in the rock garden or under tall shrubs. Does well planted under trees between Vinca, Pachysandra, or other ground covers. Easily grown indoors.

Mixed Varieties of Autumn-Flowering Crocus 25 \$1.60, 100 \$5.75

Crocus Medius

Crocus Biflorus (See page 13)

# Single Early Culips

Few, if any, of the spring-blooming flowers rival the Single Early Tulips for brilliancy of bloom or ease of culture. They are excellent subjects for formal beds on the lawn or for garden borders. While they do not possess the same size of bloom and length of stem as the May-Flowering Darwin, Breeder, and Cottage varieties, they are used where earlier blooms are desired. All of the varieties may be forced into bloom in January, while all of them may be easily had in flower pots late in February or early March.

Brilliant Star Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$13.50 Bright vermilion-scarlet, same color as Vermilion Brilliant, but larger and of great substance. Splendid early forcer, flowering easily for Christmas.

Couleur Cardinal Six \$1.35, Doz. \$2.35, 25 \$4.25, 100 \$15.25 Brilliant crimson-scarlet with a deeper tone or bloom on the outer petals. A bed planted wholly of this variety is a grand sight. Fine for mid-season forcing.

De Wet Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$13.50 Golden yellow flushed deep orange; large, sweet-scented flower of erect habit. Quite different in color from any other variety.

Diana Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$14.00 Large, long, snowy white flowers of splendid shape. The finest white for bedding, and superb for pots or pans.

Keizerskroon Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$13.50Brilliant crimson-scarlet edged clear, rich yellow; excellent, large flower on long stem. Fine bedder; splendid for forcing.

Pink Beauty Six \$1.35, Doz. \$2.35, 25 \$4.25, 100 \$15.25 Bright cherry-rose, center of petals striped white. It has no equal as a bedder, for the stem is strong and the white center of the big, fleshy petals shows very conspicuously against the broad, vivid rose edges.

Rising Sun Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$13.50 A variety used for exhibition on account of its pure yellow color and wonderful size and substance. The finest golden yellow Early Tulip introduced to date.

Rose Luisante Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$14.00 Large, brilliant, deep rose-pink flower. Splendid for bedding or pots.

Super Single Mixed Six \$1.10, Doz. \$1.85, 25 \$3.30, 100 \$11.75 This is our own special mixture which we recommend where the best results are desired in beds of mixed colors. This mixture is made up of hundreds of named sorts and in equal proportions of each variety.

Crocus Susianus (See page 13)

Crocus Chrysanthus, E. Aug. Bowles (See page 13)

Double Early Tulips

# Double Early Culips

Double Tulips are chiefly grown for their show effects in masses and are very lasting. Where a display of color is desired they are very satisfactory. Excellent for growing in pots or pans.

The following list contains the worth-while sorts.

Marechal Niel Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$13.50
A bright orange-yellow Tulip of great beauty and substance; its color resembles that of the famous Marechal Niel Rose. The best in this color for forcing.

Mr. Van der Hoef Six \$1.35, Doz, \$2.25, 25 \$4.00, 100 \$13.50 A yellow sport of Murillo with all its superb qualities. One of the very finest of the primrose-yellow, Double Tulips. A very lovely flower.

Murillo Maximus Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$13.50 Delicate rose-pink, flushed white. Fine for bedding, and excellent for forcing.

Peach Blossom Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$13.50 Bright rose-pink, flushed white, deepening with age to carmine-rose; large. Excellent for pots.

Scarlet Cardinal Six \$1.35, Doz. \$2.35, 25 \$4.25, 100 \$15.25 Excellent scarlet for bedding and forcing. The best of the double red varieties.

Schoonoord Six \$1.35, Doz. \$2.35, 25 \$4.25, 100 \$15.25 A beautiful, pure white sport of Murillo, with the same excellent forcing qualities. One of the best double white varieties, if not the best.

Mixed Double Tulips Six \$1.10, Doz. \$1.85, 25 \$3.30, 100 \$11.75

This is our own special mixture which we recommend where the best results are desired in beds of mixed colors. Made up of the best named sorts and in equal proportions of each variety.

#### FOOD FOR THOUGHT—As Well as For Your Flowers

What your plants need is a balanced organic food, not just a stimulant. They need one containing in right amounts, those things that make plenty of strong roots, produce sturdy stalks, thrifty foliage and an abundance of good sized blooms. That's exactly the kind of Plant Food we use at Wayside. Much of our success in growing such unfailingly fine plants is due to it. Turn to page 1 and get full facts about it.

# Culip Species and Hybrid Species

Particularly valuable because they are permanent. Once planted they need no further care and come up every year.

Tulip species, coming as they do from southern Europe and Asia, should be planted in dry, sunny locations.

The following collection of Tulip Species or Botanical Tulips include a great number of beautiful and interesting varieties, which show a bewildering variation of size and shape of flowers, structure of the leaves, habits, etc., and they only have in common that they grow wild in some part of the world, Asia Minor, Central Asia, Greece, the Mediterranean, etc. Cultivation has not modified them and they may be planted in the rock garden between creeping plants or in colonies in small, warm nooks where they will come up year after year without any care.

Acuminata (Cornuta stenopetala, Chinensis)

Three 75c, Six \$1.40, Doz. \$2.50, 25 \$4.50

The long, very narrow tapering petals end almost in a thread-like point. One of the most unusual and distinct species. The long flower is yellow streaked with orange-red. Height 10 inches.

Batalini

Three \$1.40, Six \$2.70, Doz. \$4.85, 25 \$9.25

Soft chrome-yellow with deeper yellow center. Flowers in April with three or more flowers to each bulb. Height 4 inches.

Biflora

Three 45c, Six 75c, Doz. \$1.35, 25 \$2.55

This species is a native from the Altai Mountains and does not grow over 5 inches tall. The short stem is crowned with a cluster of several small, dainty white flowers. A charming variety for the rock garden.

Chrysantha

Three 45c, Six 75c, Doz. \$1.35, 25 \$2.55

Small flowers on slender stems, yellow exterior of petals often flushed with copper-red, very charming. Height 6 inches.

Clusiana

Three 70c, Six \$1.30, Doz. \$2.15, 25 \$3.85

A charming species, known as the Lady Tulip. Small flower on 14-inch stem, white; exterior crimson, dark blue base; very fine for cutting.

Dasystemon

Three 75c, Six \$1.40, Doz. \$2.50, 25 \$4.50

A dwarf growing species, white flowers with bright yellow eye. Usually blooms with 3 to 5 flowers on a stalk. Height 5 inches.

Eichleri

Three 45c, Six 75c, Doz. \$1.35, 25 \$2.55

Splendid large crimson-scarlet flowers, yellow and black center, effective in the flower border or rock garden. Height 10 inches.

Aufmanniana Three 65c, Six \$1.20, Doz. \$1.90, 25 \$3.40

A charming very early flowering species Tulip which is often called the Waterlily Tulip because when the flowers open wide, which they do every day, they remind one of a Waterlily. The flowers are soft pale yellow inside with white outside edge and salmon-pink outside petal on 4- to 6-inch stems. Foliage is dark green with handsome brown veins and stripes. A perfect background for a lovely flower. Kaufmanniana naturalizes freely, plant it in colonies of six or more close together for best effect.

Kolpakowskyana

Yellow, outside scarlet striped. A beautiful species carrying its flowers on slender stems. Height 14 inches.

Linifolia

Three 75c, Six \$1.40, Doz. \$2.50, 25 \$4.55

Charming for the rock garden. Narrow undulated leaves, small brilliant scarlet-vermilion flowers with black base. Height 6 inches.

Marjoletti

A very pale yellow, exterior edge of petals rosy red, very charming in the rockery. Height 16 inches.

Persica (Breyniana)

Three \$1.55, Six \$3.00, Doz. \$5.75, 25 \$10.75

Yellow, outside bronze, dwarf and late. Two or three flowers on one stem. Height 3 inches.

Praestans

Three 75c, Six \$1.35, Doz. \$2.30, 25 \$4.15

estans Three 75c, Six \$1.35, Doz. \$2.30, 25 \$4.15 fine tall growing species, several scarlet flowers to each stem. Height Praestans

ulchella Violacea Three \$1.55, Six \$3.00, Doz. \$5.75, 25 \$10.75
A very unusual species, olive-green leaves tipped purplish red. Stem about 3 to 4 inches long; flowers are peculiar in shape with narrow funnel-like base then becoming globe-shaped, often two flowers on a stem. Violet-red with black outside base, inside olive-green. A rare and colorful species.

Cockery Beauty

Three 60c, Six \$1.10, Doz. \$1.85, 25 \$3.30

One of the earliest of Hybrid Species Tulips to bloom. The intensely brilliant vermilion-red flowers last a long time and surely "set the garden on fire." Height only 8 inches, and therefore quite a favorite in Europe in the rock gardens.

Three 25

axatilis

Three 75c, Six \$1.40, Doz. \$2.50, 25 \$4.55

Very rare, bearing often two lilac flowers with yellow center on each stem. Should be planted in a sheltered position as the leaves appear early. Height 7 inches.

Sylvestris (Florentina Odorata)

Three 75c, Six \$1.35, Doz. \$2.25, 25 \$4.00

Small flowers golden yellow, usually in pairs and nodding, fragrant, recommended for wild gardening. Height 10 inches.

Turkestanica

Miniature Tulip, many flowered, white, yellow center. A lovely rock garden subject. Height 5 inches.

Mixed Tulip Species

An attractive mixture of the various species listed. A dozen or more planted in a small group provides a lot of interest and charm.

# Culipa Fosteriana Hybrids

#### Giant Flowered Forms of Tulipa Fosteriana

Three \$1.30, Six \$2.50, Doz. \$4.50, 25 \$8.25, 100 \$30.00 Albast Three \$1.30, Six \$2.50, Doz. \$4.50, 25 \$8.25, 100 \$30.00 Immense ivory-white flower. Each of the outer petals is **broadly** marked with a pale carmine line which runs through the center of the petals. Long lasting, in size it resembles Red Emperor but the flower has much more substance. **Led Emperor** Three 75c, Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$14.00 Magnificent variety, large, rounded, vermilion-scarlet petals; handsome black, yellow bordered base. Height 18 inches. A veritable giant! This is the true giant early flowering kind and not something like it.

Red Emperor

# Hybrid Darwin Julips

These hybrid Darwin Tulips contain a lot of Tulipa Fosteriana blood but in general form resemble huge Darwin Tulips. All are noted for their substance as well as brilliant colors of their flowers. They are of only recent introduction.

reneral Eisenhower Three 75c, Six \$1.40, Doz. \$2.50, 25 \$4.55 Flaming fire-red immense flower with bold golden center bordered black at base of bloom. Average height about 2 feet; makes one think of an Oriental Poppy. General Eisenhower

Subdued soft golden yellow flower which is spotted and lightly veined with red. Base of bloom is black with bronze shading. An outstanding and vigorous Tulip. Height about 20 inches.

Three 75c, Six \$1.40, Doz. \$2.50, 25 \$4.55 Brilliant sparkling scarlet-red with pure yellow base. Outside of the flower petals are of a darker shade. Its size is amazing. Rugged 20-inch stem with exceptionally large foliage; a tremendous Tulip.

# Culipa Kaufmanniana Variations

One of the most charming Tulip Species is Tulipa Kaufmanniana. Blooming long ahead of other Tulips on short stems with its wide open flowers exposed to the sun, give it a charm all its own. Last but not least it is one of the most permanent Tulips, coming up year after year without any care. No question but what the lovely variations offered here will be even more popular. All have the same characteristics as the original species; they differ only in color and size.

Three 80c, Six \$1.50, Doz. \$2.75, 25 \$5.00 Golden yellow inside, outer petals marked brilliant red with red and black center. Cesar Franck

Three 75c, Six \$1.40, Doz. \$2.50, 25 \$4.55 White inside, outside striped dull red. Exceedingly dwarf, flowers seem to rest on the foliage.

Three 80c, Six \$1.50, Doz. \$2.75, 25 \$5.00 Apricot-orange with sparkling yellow center.

ivaldi Three \$1.20, Six \$2.25, Doz. \$4.00, 25 \$7.00 Creamy yellow with crimson blotch on outer petals. Crimson ring in center of flower. The effect is quite unusual. A good strong grower.

Kaufmanniana Hybrid Mixture

Six \$1.35, Doz. \$2.30, 25 \$4.20, 100 \$15.00 Contains all varieties listed as well as several more. Here is something that will give you an attractive small patch of color long before your other Tulips come into bloom.

# Multi-Flowered Culips

Bunch-flowering or Multi-flowered Tulips are a most interesting lot. Instead of producing the conventional single stem with one bloom on top, the varieties offered under this heading all grow a strong main stem with from three to six branches half way up the stem, each side shoot or branch carrying its own flower. The result is that three to six, or sometimes eight, flowers are obtained from one bulb on one stem. All the blooms are of good size, are gracefully spaced and as you can well imagine, produce an unusual and great mass of color.

ose Mist Six \$1.40, Doz. \$2.50, 25 \$4.50, 100 \$16.00 A lovely pink-colored variety with five to six flowers open at the same time. We highly recommend this variety as it is without question one of the best pinks. Height 26 inches.

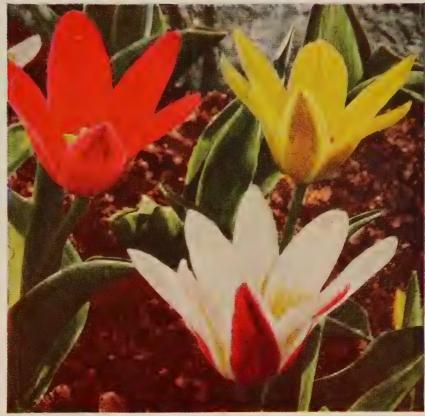

Vallflower Six \$1.40, Doz. \$2.50, 25 \$4.55, 100 \$16.25 Shiny wallflower-red, interior clear yellow. Of vigorous growth; tall straight stem with five or more good sized flowers. A favorite in all trial gardens in America. Highly recommended. Height 27 inches.

Multi-Flowered Tulips in Mixture

Six \$1.35, Doz. \$2.30, 25 \$4.15, 100 \$14.75. There are several more varieties of bunch-flowered Tulips available in Unusual colors. This mixture contains the kinds offered as well as several others in many shades.

Fosteriana Hybrid Tulip, Red Emperor

Tulipa Kaufmanniana Hybrid Mixture Early Blooming, Colorful and Just About Permanent

The result of crossing Kaufmanniana with a Darwin Tulip. The flowers are long and large, and carried on stout stems holding the blossom boldly upright. All are about 27 inches in height and of remarkably robust habit, resisting disease or all sorts of ailments. Their coloring is unique and most attractive, Inga Hume being greatly admired at London, Paris, and Berlin Flower shows. Easily grown and tremendously long lasting. In the garden they will outlast any Tulip in existence. The bulbs multiply rapidly. May we suggest you plant a few this fall.

Inga Hume

Inside deep yellow slightly sprayed red, outside red with broad, shapely lined yellow edge, large black base, perfectly formed large flower on erect stem, very fine variety. Highly recommended for forcing, it will outlast any other Tulip and becomes more beautiful as the flower ages. Height 24 inches. Inga Hume

From four to six flowers on a stem

# Ideal Darwin, Breeder and Cottage Culips

Recent Introductions—All Superb Varieties

We can unhesitatingly say that any and all are "tops" in color and quality as well as most desirable for our climate. The flowers last longer and are better in every respect. Varieties such as Don Alma, Garden Magic, Chinese Bandit, Treasure Island, and Wm. Tell are but a few which will enthuse you as much as they have done other customers and us as well.

They are superb and surprising in quality of bloom as well as vigor of growth. There is no doubt that these new varieties as well as many others listed in this catalog will be "the" popular leaders as soon as they are generally available, just as today, Mrs. Grullemans, Glacier, Queen of the Night, and Niphetos are in general demand and recognized as the best in Tulips. All of these were introduced by Wayside Gardens some years ago.

Quality and Size of Bulbs Offered

All Tulip bulbs offered are of XX select grade which is a size larger than usually offered. They are the best obtainable—the cream of the crop.

Abraham Lincoln

For a number of years, American visitors to the Grullemans Bulb Nurseries have consistently picked one variety which appealed to them more than any other. It is outstanding and a magnificent flower. When last spring, a group of visitors was told it would be introduced next year in America, one suggested it be named Abraham Lincoln as he said—a great Tulip named for a "great man." The color is bright crimson-maroon, outer petals shaded somewhat darker, close to chestnut-red, base dark blue. The flower is larger than usual and of excellent substance. Height 29 inches. Unquestionably, the mais Secret.

Annie Speelman Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$14.00 A tremendous white Tulip with white base and anthers. The flower is oval-shaped and of remarkable texture. A beautiful garden Tulip of great substance. Will last from two to three weeks, when cut the flower does not open too wide when placed in a warm room. Straight, stiff stem. Height 30 inches.

Atlantic Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$14.00. The form and habit of this variety are perfect. A Tulip of no mean qualities and of rare beauty. For three years in our trial garden it has been greatly admired. The cup-shaped flower is of good size and of the richest and most brilliant intense deep purple which shines when the sun strikes it. The anthers are pitch-black and the base of deepest blue. A glorious Tulip on a 29-inch stem. Plant it together with Ideal Darwin Glacier, for stunning effect.

Bonnie Lassie (New) Six \$1.50, Doz. \$2.75, 25 \$5.00, 100 \$18.00 Opens soft sulphur-yellow, turns cream with narrow band of crimson along the flower petals which slightly feathers through the bold and substantial flowers.

We named this variety after the well known Rose, Caroline Testout. The color of this Tulip is even more beautiful; of perfect shape, it has exceptional lasting qualities; a soft, glistening pure pink with a large, white base. Should be used for the show garden. A Tulip with a great future and the loveliest pink Tulip in existence. Height 30 inches.

Carrara

Six \$1.00, Doz. \$1.65, 25 \$2.95, 100 \$10.75

This white Cottage Tulip, no matter where or in what garden it is grown, never fails to create a sensation. In England it is "the" favorite white Cottage and so it is here. The flower is round and beautifully molded and as purely white as the marble from which it takes its name. Height 29 inches. It is no use offering other white Cottage Tulips. None are as good or as cheap.

offering other white Cottage Tulips. None are as good or as cheap.

Chinese Bandit

Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$14.00

Immense oval-shaped flower, Chinese red with considerable shading of warm, bronzy orange. The inside of the flower is bright and has a vivid yellow base. Fine, old, striking flower, stem not too tall, about 25 inches. We believe this to be the largest Tulip flower ever raised. It makes a tremendous show in the garden and in addition has remarkable lasting qualities. Looks at its best in front of a dark green background and would be superb in mass plantings.

Gity of Haarlem

A reliable, handsome Darwin of great substance and of a fiery cardinal-red. The dark violet base of this Tulip, outlined in white, gives it a striking effect when open. It is admirably at home among all the lighter colored spring flowers, such as the hardy Alyssum citrinum. Height 31 inches.

Giant Breeder Tulip, Chinese Bandit

Giant Breeder Tulip, Don Alma (See page 22)

Clara Butt Six \$1.00, Doz. \$1.65, 25 \$2.95, 100 \$10.75 Lovely old time pure pink Tulip that should be in quantity in every garden. In some lights elusive salmon suffusions in this fine flower add to the interest of the beautiful blossoms. Height 30 inches.

Crimson Giant (New)

Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$13.50

This magnificent new deep crimson-red Tulip will in time replace all other kinds of similar color. It produces an immense flower of deep crimson-red. Many of our friends who have seen it agree with us that it is better, bigger and stronger, and darker and better in color than City of Haarlem. Crimson Giant is particularly fine if flowering next to a pure white Tulip such as Glacier. Here is a magnificent new dark red Tulip which we recommend without any reservations.

Dixie Sunshine (New) Six \$1.35, Doz. \$2.40, 25 \$4.35, 100 \$15.50 Outside petals soft yellowish tan with pale lilac shading. A delicate broad margin of buff-yellow shows up handsomely outside while the inside of the big cup is of palest Havana-yellow turning to buff-yellow at edges. Bright yellow base, A most distinct and handsome variety. An outstanding novelty with an absolutely assured popularity. Height 28 inches.

Ideal Darwin Tulip, Cream Star

Ideal Darwin Tulip, Caroline Testout

Cottage Tulip, Mellow Moon (See page 24)

Ideal Darwin Tulip, Edna Bonner

Don Alma (New) Six \$1.35, Doz. \$2.40, 25 \$4.35, 100 \$15.50 Unique pointed flower of a dull golden brown with lavender bloom. Much lighter towards base with narrow margin of tan. Inside coffee-brown with soft buff shading. An outstanding combination of colors and a rare quality. This variety was very much admired by visitors and in our opinion is a very choice Tulip which will be planted in great numbers in years to come. Height 27 inches.

Pon Eugo Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$14.00 Perhaps the most artistic of all Breeder Tulips; a flower of enormous size carried on a very tall, stiff stem. Of glorious coloring and in every way desirable for every purpose. The beautiful intriguing color is of an Indian-brown, flushed coppery brown; a very effective dark, wood-brown Tulip with a burnished metallic sheen and elusive rose colored lights. One of the handsomest of the brown Breeders, standing on a stem 38 inches high.

Orammen (New) Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$14.00 Outside petals are soft rosy violet, somewhat deeper and more vivid inside with clear light blue base and black anthers. A rare coloring in Tulips and we consider this one of the best new varieties in this particular shade. Height 27 inches. Very long lasting and stands up perfectly under bad weather conditions. Never spots or fades.

Edna Bonner (New) Six \$2.15, Doz. \$3.75, 25 \$6.75, 100 \$24.00 Magnificent, large, egg-shaped flower of uniform pink. Tall, strong stem; great substance, one of the new outstanding varieties. This will in time be grown in every garden.

Garden Magic (New)

Six \$1.35, Doz. \$2.40, 25 \$4.35, 100 \$15.50

This is the nearest to clear yellow ever produced in Breeder Tulips. A golden gobletshaped bloom with outer petals slightly flushed with purple; the base is clear yellow, the anthers pitch-black. This beautiful variety is a great favorite in our test garden. Height 29 inches.

Six \$1.25, Doz. \$2.00, 25 \$3.50, 100 \$12.50. A giant among pure white Tulips, white base and white anthers. Tremendous oval-shaped flower of great substance, will last three weeks in the garden or when cut. Wo do not know of another Tulip its size, some of the flower petals measuring six inches in length. This Tulip is a gem in any collection. Sturdy straight stems. Highly recommended. Height 30 inches

Ideal Darwin Tulip, Glacier

Giant Breeder Tulip, Garden Magic

(See page 24)

Ideal Darwin Tulip, Lafayette

Ideal Darwin Tulip, Rosy O'Day (See page 25)

Golden Smile (New)

Six \$1.40, Doz. \$2.50, 25 \$4.55, 100 \$16.25

A beautiful new golden yellow Ideal Darwin. This is one of Grullemans' best and latest new Darwins. The inner row of flower petals are brilliant, clear golden yellow while the outer row of petals are a shade lighter. The color effect is outstanding. The stems are rigid, 30 inches high. The flower is large and able to take unfavorable weather without damage. We think this is the finest yellow Tulip yet introduced. Supply limited, so please speak for yours as soon as you possibly can.

Guido Gazelle (New) Six \$1.75, Doz. \$3.25, 25 \$5.75, 100 \$22.00 Uniform glowing raspberry, outer petals are recurved which makes the flower very attractive as well as most distinct in color, one of the best new Tulips.

 $Six \$1.00, Doz. \$1.65, \ 25 \$2.95, \ 100 \$10.75 \\ \text{A mammoth lilac Tulip flower of great substance and carried on a tall and strong stem. This is a great improvement on the well known Darwin Tulip, Wm. Copeland, as the flower is at least three times larger and of better color. Highly recommended. Height 28 inches. }$ 

Kathryn Truxton (New) Six \$1.35, Doz. \$2.35, 25 \$4.25, 100 \$15.25 Outside petals soft smoky rose with handsome soft copper-yellow edging; inside soft pinkish lavender lightly shaded with old copper; olive-green base and wiry stem. Long oval-shaped flower of superb form and extra good lasting qualities. Height 28 inches.

King's Ransom (New) Six \$2.00, Doz. \$3.50, 25 \$6.50, 100 \$23.00 A beautiful sulphur-yellow Tulip. Somewhat fringed on the edges, long flower of exceptional substance. Outer petals are slightly reflexed giving the flower a lot of grace and style.

Lafayette Six \$1.05, Doz. \$1.70, 25 \$3.00, 100 \$11.00 A great improvement over The Bishop. Without doubt this is the loveliest of the violet Tulips. Nothing so far equals it. The color is pure deep purple-violet and vibrates with life. The substance of the bloom is unusual. Height 30 inches.

Mahogany
Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$14.00
Beautiful deep mahogany with a much darker base; rare color in Tulips, Very large flowers of excellent form. Extremely fine when planted with deep yellow or pure white. Height 29 inches.

Marjorie Bowen Six \$1.00, Doz. \$1.65, 25 \$2.95, 100 \$10.75 A very unusual shade—a combination of buff and salmon which passes to a deep rose-pink with salmon shading. Large, well formed, and borne on a fine strong stem. Height 24 inches.

Ming Yellow (New) Six \$1.75, Doz. \$3.25, 25 \$5.75, 100 \$22.00 Striking and unusual flower. Bright chrome-yellow which develops a fine margin of crimson along the edge of the petal. One of the most distinct new Tulips and very brilliant in the garden.

Mrs. Grullemans

A lovely pure white Darwin Tulip; flowers are large and of great substance with pure white centers, light sulphur-yellow anthers and stiff stem. A noble flower bearing a great name. The best all around white Darwin. Height 27 inches.

Mrs. John T. Scheepers

Elegantly formed, oval shaped, large flowers of deep golden yellow, very clear of color, are carried on tall, thick, sturdy stems with clear green foliage. The entire plant is of the strongest development. The blooms are enormous with petals of unsurpassed substance and of fine lasting quality. A real giant. This magnificent variety is recognized by experts as one that especially suits the American climate. Awarded highest honors whenever exhibited.

Cottage Tulip, Queen of Spain

Ideal Darwin, King's Ransom (See page 23)

Niphetos Six \$1.00, Doz. \$1.65, 25 \$2.95, 100 \$10.75
A glorious soft yellow flower with lighter base and anthers, of perfect Ideal Darwin form; the reflexing petals are of a remarkable texture, and have, therefore, greater lasting qualities. The flower is carried on a strong erect stem. It is far superior to any Tulip in this color, and the most beautiful in our collection. Highly recommended. Height 29 inches. Acclaimed as the handsomest Tulip grown.

Notre Dame (New) Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$14.00 Claret-red with soft lilac dusting. Inside claret-red with blue sheen and a brilliant blue base, which when the flower is fully open, help to make it a beautiful thing. The pointed flower petals curve slightly outward, giving somewhat a vase effect. Very substantial flower of great substance; lasts a long time in bloom. Height 27 inches.

Pride of Haarlem Six \$1.00, Doz. \$1.65, 25 \$2.95, 100 \$10.75
Brilliant rosy carmine with blue base; very large flower on tall, strong stem; sweet scented. Height 25 inches.

Pride of Zwanenburg

Six \$1.25, Doz. \$2.00, 25 \$3.50, 100 \$12.50

This variety appears to be the finest rose-colored Tulip in existence. The color is pure and radiant. The flower is huge, of beautiful form and long lasting; very tall, straight stem. A truly superb Tulip. Height 32 inches.

Queen of Spain

A charming cream-colored flower delicately flamed and feathered with pink and light rose. There is no other Tulip which can compare with this lovely variety. Flowers have excellent substance; stem strong and wiry. Truly a rare beauty. Height 25 inches.

Queen of the Night.

Queen of the Night Six 80c, Doz. \$1.40, 25 \$2.60, 100 \$9.50 One of the darkest Tulips ever introduced. It is superior to Darwin Tulip Mystery and La Tulipe Noire. At last a real black Tulip of rare beauty. Large flower on tall, stiff stems. Height 30 inches.

Roman Eagle (New) Six \$1.50, Doz. \$2.75, 25 \$5.00, 100 \$18.00 Rich dark red with beautiful glow and sheen. The flower is very large and long, of excellent substance and quality, carried on a strong stem about 30 inches high. Here is a superb red Tulip never changing color or fading. Makes a perfect show until the end of its blooming season. A fine counterfoil for the pure white Tulip, Glacier.

Rosy O'Day (New) Six \$1.75, Doz. \$3.00, 25 \$5.50, 100 \$20.00
A rare and delightful shade of palest blush of lilac-rose on white background. Cup-shaped flowers of great substance. Height 28 inches. A cheerful color and very outstanding in the garden. A color effect very hard to cover in an illustration.

Scotch Lassie Six \$1.00, Doz. \$1.65, 25 \$2.95, 100 \$10.75

Purest deep lavender with darker shade inside and with dark blue base. This variety is far superior to the well known Melicette or any other kind in this color, larger and a far more substantial flower, slightly reflexing. Will last three to four weeks either in the garden or when cut. Among the best lavender Tulips in our collection. Height 26 inches.

Sunkist Six \$1.00, Doz. \$1.65, 25 \$2.95, 100 \$10.75

The flowers are brilliant golden yellow. The petals are of unusual thickness enabling it to survive the most undesirable weather without damage. It has excellent lasting quality, one of the finest of yellow Darwins. Height 30 inches.

Treasure Island (New) Six \$2.15, Doz. \$3.75, 25 \$6.75, 100 \$24.00 A rare Tulip. The three outside petals are a soft silvery yellow deepening to primrose-yellow, while the three inside petals are a rich deep shiny yellow. The two-toned effect created is unique as well as charming. Huge, squarish flower with outer petals pointed and tapering outwards. The colors do not fade and the flower has enormous substance, beautiful anywhere. Height 30 inches.

William Tell (New) Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$14.00

A deeper edition of Clara Butt. Uniform color of pure raspberry-rose with sligthly paler flush on edge of petals, rich rose-pink inside; long, stiff stem. Center white, black anthers. We consider this the finest rose-pink novelty in existence. It is a much improved Clara Butt and will be as popular and used in as great quantities as Clara Butt was when the bulbs are more plentiful and available. Height 26 inches.

# Darwin Culips in Mixed Colors

We take great pride in this special mixture made from Ideal Darwin and Darwin Tulips. We have offered it for several years and many are the letters from customers telling us how they have enjoyed the flowers produced from these bulbs. Only the finest and newest kinds are used. All colors and shades are carefully proportioned and blended so as to create the most colorful and cheerful effect possible. If you are not very particular as to any specific variety but just want the best and clearest, largest blooms we suggest you plant a goodly quantity of these and you will be well repaid for your efforts and money spent.

# Our 1958 Collection of Finest Varieties of Culips

So many people not familiar with the better varieties of Tulips ask us each season to make a selection for them. To save time we have picked a dozen kinds which will flower all at the same time and are of the same height, all distinct and clear colors and all reasonably priced, and you may be sure that when they bloom they will make your neighbors envious.

Please remember that the size of a particular illustration does not mean that the variety is bigger or smaller. All Tulips offered produce large flowers. Lack of space prevents us from showing all varieties in large illustrations.

# Lily-Flowering Culips

The Tulips offered under this heading have been kept by themselves because of their distinct Lily-like flowers. They really belong with the Cottage Tulips but would be lost or difficult to find if offered in that already quite large group. Lily-flowered Tulips bloom the same time as the Cottage Tulips, and are best used where a light, airy, and graceful effect is desired. The delicately curved petals give a delightful effect. As a flower for cutting, it surpasses the regular Tulips because they are so much more graceful. Don't miss planting a few this year. The best varieties in existence are

stor Six \$1.10, Doz. \$1.80, 25 \$3.25, 100 \$11.50 A delightful salmon and rose tinted flower with soft buff-pink shadings. The gracefully pointed petals create a delicately formed flower. The stem is about 26 inches high. Astor

Fascinating Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$14.00 Exterior bright sulphur-yellow, interior dark lemon-yellow, large reflexing petals of perfect shape; tall, straight stem. Height 26 inches.

**Fig. 1.1.1** Six \$1.35, Doz. \$2.35, 25 \$4.25, 100 \$15.25 Large, long-pointed flower with golden yellow reflexing petals on stiff stem. We believe this to be the best of the Lily-Flowered Tulips in this color; not overly tall, 23 inches.

Martha Six \$1.05, Doz. \$1.70, 25 \$3.00, 100 \$11.00 American-Beauty-red blooms which, when open, are star-like and reveal a white center which is edged with vivid blue. This variety is quite outstanding. The flowers are exceptionally long lasting. Height about 26 inches.

idonie Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$14.00 The flower is perfectly shaped and of the most unusual Bordeaux-winered shade with a rich undertone of purple which becomes more pronounced as the flower ages. Grows about 21 inches tall. Sidonie

Pitfire Six \$1.25, Doz. \$2.00, 25 \$3.50, 100 \$12.50 Without doubt the finest of the red Lily-Flowering Tulips. Large, long, handsomely vase-shaped flower with sharply pointed petals. Color brilliant scarlet and very long lasting. It is superb as a cut flower and most attractive and showy in the garden where it will outlast most other Tulips. Height about 26 in.

The Bride Six \$1.05, Doz. \$1.70, 25 \$3.00, 100 \$11.00 Handsome, creamy white flowers which with age turn to purest white. A graceful Tulip for cutting and for use in combination with other flowers. A "must" for 1958. Height about 23 inches.

Thite Triumph Six \$1.05, Doz. \$1.70, 25 \$3.00, 100 \$11.00 Pure alabaster-white, large flower, nicely reflexing petals. Without any question this is one of the best pure white Lily-Flowering Tulips.

Yankee Girl Six \$1.35, Doz. \$2.40, 25 \$4.35, 100 \$15.50
A glorious Tulip of a salmon-buff color. The flower petals are strongly reflexed and curled in a half-circle. The only Lily-Flowered Tulip of this shape. Standing up straight, petals are very thick and it has better lasting qualities than any other. Height 24 inches.

Lily-Flowering in Mixed Colors

This is a mixture containing the above varieties as well as several more which could not be offered for lack of space. You will find the Lily-Flowered Tulips charming for cutting as well as for garden display.

# Collection of Lily-Flowered Culips

Nine distinct named varieties listed above. All bulbs will be carefully labeled.

27 Bulbs, 3 of each kind ...... \$ 5.25 

# Peony - Flowered Culips (Double Cottage Tulips)

These flower at the same time as the Cottage Tulips. They are thankful for a little shading against hot midday sun which will help them to carry their heavy Peony-like blossoms erect.

Eu Celeste Six \$1.05, Doz. \$1.70, 25 \$3.00, 100 \$11.00 Large, violet-purple Tulip flowering later than any other double sorts. It is very fine for indoor decoration and for the garden. Height 18 inches.

Clara Carder lara Carder Six \$1.05, Doz. \$1.70, 25 \$3.00, 100 \$11.00 A fine, big bold flower, fully double, of richest Tyrian purple. It is considered one of the best in this group and certainly the best in this color.

Very large flower of clear old rose. A very interesting Tulip, as the flower resembles a Peony flower very closely. One of the best doubles for the American garden as the flower has fine substance. Height 20 inches.

ilac Perfection Six \$1.10, Doz. \$1.85, 25 \$3.30, 100 \$11.75

Pure lilac, large, full double flowers. Good substance, strong stem.

Considered the best double in this color. Lilac Perfection

Mount Tacoma Six \$1.25, Doz. \$2.00, 25 \$3.50, 100 \$12.50 A magnificent giant double white Tulip which reminds one of a Peony in full bloom; superb for beds.

ocket Six \$1.10, Doz. \$1.85, 25 \$3.30, 100 \$11.75 A magnificent crimson-red Peony-flowered Tulip. It really is a "sport" of Eros. It has the same form and habit as Eros but as stated before, it is of brightest crimson-red. Makes a bold show in the garden. Rocket

Royal Yellow Six \$1.25, Doz. \$2.00, 25 \$3.50, 100 \$12.50 yellow color, exquisitely formed blossom. A flower of unusual symmetrical perfection.

Peony-Flowering in Mixed Colors

Six \$1.00, Doz. \$1.65, 25 \$2.95, 100 \$10.75 This mixture contains not only the varieties offered but also several other kinds which we do not list. For a riot of color this will answer the purpose splendidly.

# Parrot Culips

You will enjoy some of these new quaintly shaped flowers, particularly for house decoration. They are stunning in clumps here and there in the border, in front of shrubs or groups of evergreens. Their artistic form and coloring make them especially suitable for cut-flower purposes. Fantasy is recommended for pot culture also. Forced slowly, in not too high a temperature, it develops into one of the most unusual Orchid-like flowers you have ever seen.

ue Parrot
Six 80c, Doz. \$1.40, 25 \$2.60, 100 \$9.50
A glorious Parrot Tulip of bright violet shaded steel-blue. The unusual flower is large and carried erect on a strong 30-inch stem. A rare Blue Parrot

antasy Six \$1.00, Doz. \$1.65, 25 \$2.95, 100 \$10.75 The flowers are of unusual and beautiful form, the petals being laciniated, having curious excrescences on the outside. It is not only the rare form of this Tulip or its main color, which is a soft rose-pink; the shadings of the cup are a deep velvety rose color which is more sumptous than words can tell.

Glistening deep orange, shaded rose, inside deep orange-scarlet with yellow base; sweet scented flower of great size and brilliant coloring. Height 23 inches.

ink Champion Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$13.50 Blush-pink and heavily laciniated flowers make this the best of the Parrots in this particular shade. It is a variety which is much used in Europe for cutting. We prefer the deeper colored kind, Van Dyck, but many people like the apple-blossom color of Pink Champion.

exas Gold Six \$1.05, Doz. \$1.70, 25 \$3.00, 100 \$11.00 A bright, clear, golden yellow flower of excellent substance is carried on a stiff stem about 24 inches tall. Texas Gold is much superior to Sunshine which we have discontinued. Texas Gold

The Black Parrot Six \$1.05, Doz. \$1.70, 25 \$3.00, 100 \$11.00 The deep purple-black color of this Parrot is so unique and outstanding it never fails to be admired. Wayside was the first to introduce this into American gardens several years ago yet each season customers request more of them. As a cut flower, they are quite fantastic.

Therese Six \$1.25, Doz. \$2.00, 25 \$3.50, 100 \$12.50
Bright cochineal-red with green markings on outside. Inside of flower is a vivid scarlet with white center tinted blue. This variety is the Parrot form of Darwin Tulip, Farncombe Sanders. A brilliant and most interesting Parrot Tulip. Height 30 inches. The best by far of the red Parrot Tulips. interesting Po

an Dyck Six \$1.45, Doz. \$2.50, 25 \$4.65, 100 \$17.00 This variety is without question the finest of the Parrot Tulips. The remarkable flowers are brilliant rose-pink, somewhat paler at the edges on the outside. Inside very bright rosy red. The flowers are enormous and carried on a strong stem. Height 26 inches. Van Dyck

Six \$1.05, Doz. \$1.70, 25 \$3.00, 100 \$11.00 Brilliant rosy carmine with blue base; very large flower on tall, strong stem; sweet scented. Height 25 inches.

Mixed Colors lixed Colors Doz.~\$1.70,~25~\$3.00,~100~\$11.00 This is a well proportioned mixture including all the varieties listed above. It will make an interesting display of odd shapes, forms and colors.

# Thousands of Customers Insist and it is Our Pleasure to Import a SPECIAL DUTCH CHEESE

Autumn is the time when the finest cheese is made in Holland. It is possible only from cream from that period to make that superlative quality, marvelous for its flavor as well as texture and richest in butterfats. Few people in this country know of it. Some fortunate person traveling in Holland may have encountered these cheeses but they are not generally offered for sale. Most of them are exported to South America, where they are served at the fashionable hotels and clubs.

This year again with the co-operation of an old friend of our President, Mr. Grullemans (a Hollander), we obtained "first call" on a substantial quantity of this famous cheese, thinking many of our customers would like to enjoy this choice delicacy.

Along with the quantity wanted for personal use here at Wayside, we shall be delighted to import this famous cheese for anyone who will write us promptly because our option expires November 3rd. Therefore, we must have your request on or before November 1st.

The average weight is about four pounds. Each cheese comes packed in an individual carton and costs \$4.80 each, delivered. (We take care of duty, freight, etc.). Delivery to you first week in December in ample time to use them as Christmas gifts. For shipments west of the Mississippi River, add 50 cents per cheese.

In the event you receive this catalog during November, send your order anyway because we always import a few more than actually ordered to care for a few late requests.

This rich butterfat cheese may be kept in your refrigerator for 10 months or more, so do not hesitate to ask for enough to last you until next year!

#### **DUTCH CHEESE SLICER OR PLANE!**

Remove a thin slice, about 4 inches in diameter from either end of the cheese. Then draw slicer around the whole cheese on top edge of the red rind, removing about one-half inch of rind. Next draw the slicer straight across the fresh cheese (without rind) getting delicious paper thin slices. Pile these generously on fresh buttered bread (crackers are too dry) and

eat as Hollanders do for breakfast, lunch, cocktails or midnight snacks.

Be sure and put back the "cap" (the thin slice referred to) on your cheese and store in the refrigerator freshener drawer. Keeps indefinitely!

P.S. If cheese is dry at first from traveling across the water, wrap it in a damp cloth in the refrigerator for several days to restore moisture. Then proceed as above.

Cheese Slicer, each \$2.50
Made from finest stainless steel.
Imported from Holland.

# New Pink Crumpet Daffodils

Since their introduction just a few short years ago, this group of Narcissi has quickly outgrown its classification as a "novelty" to take its place among America's favorites. Each autumn more and more gardeners who thrilled to their lovely, delicate shades and prolific blooming qualities the preceding spring have made it a "must" to obtain them for their own gardens. Through Grullemans of Holland, we have had the opportunity to test-grow the choicest new varieties, to compare them, and to retain for customers of Wayside Gardens only those which have proved to be the best. You will find them to be the finest you have ever planted for naturalizing as they quickly be-

come at home and multiply rapidly. We take pride in offering below this most choice selection of the Pink Daffodils, for those of our customers who might be trying them for the first time, as well as those of you who "know them" and wish to add exciting new varieties to your collection. We would like to share a delightful experience with you by suggesting that you include in your selection, the Louise de Coligny. The picture created by a bouquet of this unusual Pink Daffodil in a vase, combined with the haunting fragrance of Violet which fills the room, is not soon forgotten.

Champagne

Pure white perianth, well formed and of good substance. The cup is large, pale cream-pink, with broad apricot-ruffled edge. When in full bloom the color turns to salmon-pink. One of the first to bloom and one of the very best.

Lady Bird Each 50c, Six \$2.40, Doz. \$4.25, 25 \$7.75, 100 \$27.50 White perianth of perfect form. The large trumpet is distinctly pink and flaring, evenly ruffled, pale apricot outside, deep apricot-pink inside at opening, deepening towards the throat. An outstanding variety with rugged flowers. One of the most desirable of the new Pink Daffodils. Multiplies rapidly and is a heavy bloomer.

Louise de Coligny

Each 50c, Six \$2.70, Doz. \$4.85, 25 \$9.25, 100 \$33.00 Louise de Coligny is in our estimation, the most unusual Daffodil ever offered because it is deliciously fragrant. The reflexing perianth, which is pure white and of good substance, tends to throw the neat apricotpink cup into focus. This variety, on opening, shows its color immediately while some of the other pinks do so on the second or third day. Although the flowers are not giants, they are produced in great quantity. A clump of six bulbs in our test garden produced over 22 good flowers the second year. It is a rapid multiplier. When walking past a cluster of flowers, the air is perfumed with a fragrance not unlike Violets and vanilla mixed. There has never been anything like it. The flower closely resembles that of Pink Fancy.

Mrs. R. O. Backhouse Six \$1.40, Doz. \$2.50, 25 \$4.55, 100 \$16.25

This is the old "Pink Daffodil," fine informal perianth of ivory-white, and beautifully proportioned, slim long trumpet of apricot-pink, changing to shell-pink at the deeply fringed edge. Delicately beautiful but of exceptional substance; long lasting; early. Belongs in every collection.

Pink Fancy Six \$1.75. Doz. \$3.00, 25 \$5.50, 100 \$20.00 White perianth, well formed, with a pale apricot cup, broadly fringed soft pink. This is a very free flowering variety and lovely for cutting. A few bulbs soon develop into a big clump. It is for that reason it can be offered for less. It is a splendid multiplier.

Pink Glory Each 50c, Six \$2.70, Doz. \$4.85, 25 \$9.25, 100 \$33.00
The "Orchid" among the Narcissi. Pure white perianth, somewhat loose but graceful, with an exquisite long trumpet opening light Indian yellow soon shading to a lovely pink, inside deep pinkish apricot remaining so till the end. Without any auestion one of the most beautiful "pinks" ever raised. When used in a small corsage with some Asparagus green, it is as delicate as an Orchid.

Mary Copeland

Pink Rim Each 50c, Six \$2.70, Doz. \$4.85, 25 \$9.25, 100 \$33.00 The stiff, pure white perianth is of exceptionally good form. The cup is soft citron-yellow with a sharply defined picotee-like pink rim. It is quite distinct in its marking and coloring and always draws a lot of attention wherever shown. Strong stem and free blooming plus a rapid increaser makes this one of the best new pink Daffodils.

Rosy Sunrise Each 50c, Six \$2.40, Doz. \$4.25, 25 \$7.75, 100 \$27.50
This is one of the choicest of the Pink Daffodils. It is a strong grower and one of the freest bloomers. Perianth is white, of good substance, with a fine, strong, much-fringed cup or trumpet which is heavily ruffled. Color is salmon-apricot with pink shadings. Inside trumpet color soft corn-yellow, a difficult color to describe and still more difficult to illustrate.

Siam Each 50c, Six \$2.70, Doz. \$4.85, 25 \$9.25, 100 \$33.00

Pure white perianth, well formed and of good substance. The cup is wide and flaring, apricot-tinted changing gradually to a soft pink. This is perhaps the largest flowered one in the collection and we predict it will be used by the hundreds of thousands in the future. Last but not least, it is deliciously fragrant.

Toscanini Each 50c, Six \$2.25, Doz. \$4.10, 25 \$7.50, 100 \$26.00 One of the finest Pinks. Stiff white perianth of perfect form and substance. Long, large trumpet of a distinct shrimp-pink. Flowers are substantial and last a long time and it is very free flowering. Good strong grower and increases quite rapidly.

Mixed Pink Daffodils Six \$2.15, Doz. \$3.75, 25 \$6.75, 100 \$24.00 This mixture is made up from varieties listed here to which has been added a number of unnamed kinds. All are strong growers; increase very rapidly and will give you an abundance of lovely blooms for many, many years without any trouble.

# Double Narcissi

Albus Plenus Odoratus

Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$14.00

The old Gardenia-flowered Double Poet's Narcissus. Pure snowy white; wonderfully fragrant. Should be planted in a wet place, or at least damp. Blooms extremely late, after most of the Narcissus have gone. A rare old variety preserved jealously in many gardens. Plant it at least 6 inches deep. There is nothing like it; needs no care.

 $\begin{array}{lll} \textbf{Daphne} & Six \$1.35,\ Doz.\ \$2.25,\ 25\ \$4.00,\ 100\ \$14.00 \\ \textbf{The most promising novelty of this division.} & \textbf{Sweet scented, dainty, pure white, double.} & \textbf{Charming flower for cutting.} & \textbf{Multiplies rapidly.} \\ \end{array}$ 

Mary Copeland

Six \$1.60, Doz. \$2.95, 25 \$5.35, 100 \$19.00

One of the famous varieties of the new doubles. This variety has been termed the most striking double in cultivation; the longer petals are pure creamwhite with a golden ray down the center, interspersed with shorter petals of lemon and brilliant orange, giving a three-color effect; unsurpassed for garden or show.

Twink Six \$1.10, Doz. \$1.85, 25 \$3.30, 100 \$11.75 It is double, of the semi-full type, the petals alternating a soft primrose and clear orange; and so arranged as to give the flower a most attractive appearance; and making it a most adaptable flower for large scale decorative work; is very free flowering and hardy.

Trumpet, Aerolite

Crumpet Daffodils

Aerolite
Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$13.50
The large flower is beautifully proportioned, giving the impression of gracefulness, despite its size; perianth deep primrose, with a medium yellow trumpet which is left in bold relief by the broad pointed star formed by the opening outer petals, an inch and a half wide. Medium early, but remains until late, and is one of the longest lasting of all Daffodils in the garden or after being cut.

Beersheba Six \$1.35, Doz. \$2.40, 25 \$4.35, 100 \$15.50 Perianth and trumpet of magnificent proportions. Height 20 to 22 inches. Its color is not pure white, yet is expressive of purity in the highest sense. Those who are forming collections of fine Narcissus rate Beersheba at the top of the large white Trumpets.

Diotima

Six \$1.40, Doz. \$2.50, 25 \$4.55, 100 \$16.25

Considered by experts as the very best of the new super-giant yellow trumpets; despite its huge size (perianth being five to six inches across) the whole flower is beautifully proportioned and is carried gracefully on a two-foot stem, entirely free from the stiffness of many of the giant trumpets. The broad overlapping petals form a star-shaped perianth of medium deep primrose, trumpet somewhat more deeply colored. Undoubtedly one of the top-notchers for many years to come.

Insurpassable (New) Six \$1.35, Doz. \$2.40, 25 \$4.35, 100 \$15.50 An outstanding novelty. Extremely large, golden yellow flower of bold carriage. It is one of the finest of the big-flowered golden trumpet Daffodils. It grows well, blooms freely, and has long stems, altogether a great Daffodil of recent introduction.

King Alfred

Top Size Round Bulbs Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$13.50 Mammoth Double Nose Bulbs Six \$1.45, Doz. \$2.60, 25 \$4.75, 100 \$17.50 A king among the fine varieties. Rich, lustrous golden yellow throughout. Extremely vigorous in habit. Perianth often 4 inches across, trumpet fully 2 inches. Most popular variety for forcing.

Lord Nelson (New) Each 45c, Six \$2.15, Doz. \$3.75, 25 \$6.75, 100 \$24.00 Lord Nelson is beyond any doubt the finest of the light yellow trumpet Daffodils. A superb flower and beautifully colored.

**Mount Hood** (New) Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$14.00 A magnificent, pure white Daffodil. It is strong in stem and flower has fine substance. The trumpet is well proportioned and of purest white color. In our opinion this is the White Trumpet Daffodil of the future. Only a limited number of bulbs available at this time.

Mrs. E. H. Krelage Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$13.50 The pristine purity of this flower, the play of light on its balanced petalage, the graceful curve of the trumpet brim are unforgettable. An excellent grower. Easy to force, long-stemmed.

Peerless Gold (New) Each 50c, Six \$2.70, Doz. \$4.85, 25 \$9.25, 100 \$33.00 An extremely large golden yellow Trumpet Daffodil of superb yet graceful proportions. Massive overlapping deep golden yellow perianth; large, flaring, well formed golden trumpet. Vigorous grower suitable for exhibition.

Rembrandt (New) Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$14.00 Pale yellow flowers of perfect form and substance. This is one of the most attractive varieties in this color. There are not many pale yellow trumpet Daffodils and we believe this to be one of the best in this group Holland has to offer us.

William the Silent Six \$1.40, Doz. \$2.45, 25 \$4.45, 100 \$15.75 One of the choicest of golden Daffodils. The large trumpet is pure golden yellow with round, overlapping, golden yellow perianth.

# New Weather-

These new hybrids embody all of the good qualities we associate with a really first class Daffodil. First of all, they are rugged, their flowers have twice or more the substance of varieties now in general use and are practically indestructible despite abuse from adverse weather. Through rain, snow or wind, they maintain their proud bearing. Even a burning hot sun which frequently occurs during the blooming period does not faze them! Secondly, our own experience with them added to enthusiastic reports from customers has convinced us that they are second to none for the so-called

### Unmatched

Brookville , Each 50c, Six \$2.25, Doz. \$4.00, 25 \$7.00, 100 \$25.00 Giant flowers and a greatly improved form of the well known John Evelyn. It is distinguished by its tremendously heavy, broad, flat, white perianth and large, short, completely ruffled cup of pale lemon-yellow. A magnificent new hybrid of outstanding merit. It flowers freely and grows ruggedly; the general effect is bold and strong, yet handsome. One of the finest flowers for garden or cutting. Don't miss including this variety in your next planting. Brookville

Treen Emerald Each 50c, Six \$2.25, Doz. \$4.00, 25 \$7.00, 100 \$25.00

The perianth is composed of short, heavy and thick, pure white petals. The soft lemon-yellow tinted crown is short, widely flaring and beautifully ruffled. We consider this one of the finest Daffodils Holland has sent us. It is distinct, handsome, very free flowering and multiplies fast. What more could be asked! Green Emerald

**Foldilocks** Each 65c, Six \$3.50, Doz, \$6.50, 25 \$12.00, 100 \$45.00 Pale yellow perianth with large golden yellow crown. Crown is nicely fringed. Exceptionally free-flowering, it multiplies rapidly and does not require frequent transplanting to keep it blooming freely. Goldilocks

Each 55c, Six \$2.75, Doz. \$5.00, 25 \$9.50, 100 \$35.00 Broad, creamy white perianth. Crown is a large and flat, deep golden yellow with broad reddish orange edge. Unusually good substance and very free-flowering.

Mother Grullemans Large white perianth of excellent substance. The crown is edged with a delicate pale sulphur-yellow border followed by a broad band of soft ochre-yellow. The base of the cup is pale cream shaded with a very light ochre. A superb new variety. The unusual coloring puts it in a class by itself, one of the very choicest of new Daffodils.

### Duke of Windsor

Narcissus, Duke of Windsor

Each 50c, Six \$2.50, Doz. \$4.50, 25 \$8.25, 100 \$30.00 Magnificent, heavy, thick, pure white, overlapping petals with pale yellow cup very flaring and short, beautifully ruffled. The inside edge of the cup shows delicate tinting of a broad, deeper yellow band, and a most interesting variation in the soft over-all pale yellow shade of the cup. This is one of the choicest hybrids. It already is one of the leaders. No garden should be without it.

lanco Each 50c, Six \$2.25, Doz, \$4.10, 25 \$7.50, 100 \$26.00 Large heavy perianth of pale yellow to ivory. Very broad and showy cup, nicely frilled, of deep golden yellow with broad orange ruffles, Excellent quality, great substance and vigor and increases rapidly. A superb variety.

# Proof Daffodils

permanent planting. They multiply rapidly and literally "care for themselves" so to speak, after the initial planting. Thirty flowers from 6 bulbs the second year is a low average. Consider finally, the unique and interesting color combinations found in this group of new Short Cup Daffodils and you have truly something which will be a joy to you

The varieties described and illustrated on these pages represent the finest assortment we have offered to date. Any one of them will add prestige and a welcome wealth of color to your spring gar-

## in Beauty

Times Square Each 50c, Six \$2.70, Doz. \$4.85, 25 \$9.25, 100 \$33.00

A bold short cup Daffodil. The perianth or petals are well placed and tinted creamyellow. The cup is flat, ruffled and fiery orange-red. We would say that this variety is well named because its cup certainly portrays the brilliant lights of Broadway at night. Free blooming, increases rapidly and makes a fine show in the early spring garden. Times Square

#### Wodan

Lach 60c, Six \$3.00, Doz. \$5.75, 25 \$10.75, 100 \$40.00 Large canary-yellow perianth with very large, flaring crown of the same color, beautifully frilled and ruffled. The edge of the ruffle is tinted light orange which gives a fine character to the flower. It is a very rugged variety which multiplies rapidly and blooms very freely. A superb Daffodil for the garden as well as for cutting.

#### Mixed Weather-Proof Daffodils

We offer a beautiful mixture of Weather-Proof Daffodils which includes all varieties offered as well as some dozens of unnamed seedlings, at a very special price.

### Weather - Proof Collection COLLECTION No. 1

I bulb each of the 9 named varieties listed (not including Mother Grullemans) each bulb labeled for \$4.50.

#### COLLECTION No. 2

3 bulbs each of the 9 named varieties listed (not including Mother Grullemans). All bulbs packed separately and carefully labeled for \$11.00.

Confuoco Each 55c, Six \$2.75, Doz. \$5.00, 25 \$9.50, 100 \$35.00 Here we have an outstanding and popular new Weather-Proof Daffodil. The flower is large and substantial on a rigid stem and many stems on one bulb. The perianth is deep golden yellow with wide heavy petals which overlap forming a perfect background for a vivid scarlet crown which is beautifully crested. Confuoco flowers for a long time, takes bad weather in its stride; does not require frequent transplanting yet multiplies rapidly. A Grullemans introduction that will be grown throughout the world.

Weather-Proof Daffodil, Harvest Moon (See page 34)

Weather-Proof Daffodil, Mother Grullemans (See page 34)

Short Cup Daffodil, Apricot Attraction

Apricot Attraction

(New) Each 80c, Six \$4.25, Doz. \$8.00, 25 \$15.50, 100 \$60.00. This is probably the rarest and finest Daffodil ever offered to gardeners. Never has there been anything quite as exquisite in color as is now seen in Apricot Attraction. The short, frilled cup is of deep amber color with rich fiery glow, the petals are firm and well placed, colored a soft amber with yellow ochre overtones, making a color effect often called majolica-yellow. It is a strong growing, free reproducing variety everyone will want. A visitor, who saw the test planting at Wayside, suggested it be called "Forever Amber." Whatever it is named, we elect it as the finest Daffodil of the past fifty years.

Weather-Proof Daffodil, Times Square (See page 35)

#### SHORT CUP DAFFODIL COLLECTION

Varieties will be carefully labeled, all top quality bulbs. This is a beautiful Collection of the best and most popular of the Short Cup Daffodils.

Emerald Isle

Short Cup Daffooils

Dick Wellband

Six \$1.10, Doz. \$1.85, 25 \$3.30, 100 \$11.75

The perianth is pure white and the cup a brilliant flame-orange. One of the most remarkable qualities is that the color does not fade but rather intensifies with age. The flower has unusual lasting qualities. Its greatest beauty lies in the startling contrast between petals and cup which makes it stand out in even the largest collection of Daffodils. An exhibition variety "par excellence."

Therefore Therefore The Startling Contrast between petals and cup which makes it stand out in even the largest collection of Daffodils. An exhibition variety "par excellence."

Therefore Ther Dick Wellband

Emerald Isle

John Evelyn

Outstanding among the new Incomparabilis hybrids. Flatly opening perianth, 4 to 5 inches across, with a flat cup nearly 2 inches in diameter, densely frilled, the perianth being pure white without a trace of shading, and the cup lemon-yellow and fluted or shirred to the base; good neck. Strong grower; free flowering and a good propagator; one of the greatest Daffodils.

La Argentina (New)

Each 45 a. Co.

Each 45c, Six \$2.15, Doz. \$3.75, 25 \$6.75, 100 \$24.00 Large and broad white perianth, the cup is white but frilled with radiating stripes of yellow and orange, giving the appearance as of spokes in a wheel. These distinct markings make this variety unusual and distinct. It never fails to draw attention.

Milk and Cream

Milk and Cream (New)

Each 55c, Six \$2.75, Doz. \$5.00, 25 \$9.50, 100 \$35.00. A different Daffodil! Pure white perianth, enormous self colored flat crown of Indian yellow, heavily shaded with salmon. These colors are at their best when the flower is fully developed. We consider this one of the finer new varieties. Free blooming, strong growing; stiff stem. Tops for garden and show table.

Red Marley (New)

Red Marley (New)

Each 45c, Six \$2.15, Doz. \$3.75, 25 \$6.75, 100 \$24.00

A choice and brilliantly tinted Daffodil. Perianth is a distinct dark golden yellow. The cup is quite long and tinted richest copper-red. This brilliant coloring remains throughout the life of the flower and is not affected by the sun. Red Marley is one of the finest Daffodils to come from Europe since the war. It multiplies freely and should be in every Daffodil fancier's collection.

Scarlet Elegance

Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$13.75

A superb Daffodil, one of the finest in this group. The substantial flowers are large and have well formed, dark yellow petals or perianth with medium sized but intensely brilliant orange-scarlet cup. During the war, experts on Daffodils in Holland quickly increased their stocks and now can offer this choice variety in quantity and at remarkably low prices.

Silver Star

Six \$1.10, Doz. \$1.85, 25 \$3.30, 100 \$11.75

Perfect broad-petaled, star-shaped perianth of pure cream-white, with finely proportioned, wide-mouthed short trumpet of primrose, changing to cream-white, a shade deeper than the perianth; fine, free flowering.

La Argentina

St. Agnes

St. Agnes Six \$1.20, Doz. \$1.90, 25 \$3.40, 100 \$12.25

Tall, flower delightfully informal in habit, perianth white with distinct orange eye; good for semi-shade, very early and an excellent variety for growing in the house.

Innocence Six \$1.25, Doz. \$2.00, nnocence Six \$1.25, Doz. \$2.00, 25 \$3.50, 100 \$12.50. One of the handsome Poetaz Narcissi. It produces a fine cluster of flowers, five or more; petals are pure white, cup is brilliant orange. This color combination is cheerful and clear. It is a fine flower for cutting as well as for garden planting.

# Sweet Scented Poetaz Varcissi

All Poetaz are hybrids from Poeticus Ornatus and Polyanthus Narcissi. The plants are tall and vigorous growers, bearing heads of large, well formed flowers, deliciously fragrant. There is no better group for indoor culture in flats, pots or bowls, while if planted in time, their hardiness outdoors leaves nothing to be desired.

Cheerfulness

heerfulness Six \$1.00, Doz. \$1.55, 25 \$2.85, 100 \$10.25 The only double flowered Poetaz. 3 to 5 pure, fragrant, double white blooms on a stem; excellent for cutting.

Early Perfection

arly Perfection Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$13.50 Creamy white perianth, lemon-yellow cup, free flowering. Excellent for growing in the house.

Scarlet Gem

carlet Gem

Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$14.00

This beautiful cluster-flowered Daffodil is especially lovely in full sunlight, as it has transparent character. The perianth, which is a primrose-yellow, seems rather to be of the quality of soft taffeta silk, and the petals are slightly ridged lengthwise. The corona is of rich deep orange and there are usually about six flowers to a stalk.

Early Perfection

Orange Prince Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$13.50 One of the finest of the yellow Poetaz. Perianth is of rich yellow with a slightly darker cup.

Poetaz Narcissi Mixed

Coetaz Narcissi Mixed
Six \$1.25, Doz. \$2.00,
25 \$3.50, 100 \$12.50
This mixture includes all the varieties listed in this catalog as well as several other kinds we do not offer because of near duplication in color. Poetaz Narcissi are very fragrant and make a wonderful show after the Trumpet Daffodils have faded, prolonging the Daffodil season by two weeks.

## POETAZ NARCISSUS COLLECTION

3 Bulbs each of 6 varieties listed, 18 Bulbs .....83.50 6 Bulbs each of 6 varieties listed, 36 Bulbs .....86.75 Varieties will be carefully labeled, all top quality bulbs.

Innocence

Triandrus, Thalia

### Cyclamineus Hybrids MINIATURE TRUMPET

Cyclamineus blood, like that of Triandrus, imparts such a distinct form to Daffodils, that a separate division has been made of its hybrids, which have trumpets of rich yellow, straight and tube-like, and perianths reflexed as a Cyclamen; very early flowering.

Perianth golden yellow, trumpet tinged orange; very early. February Gold

Criandrus Hybrids.

These are the Cyclamen-flowered Daffodils with reflexing perianth. The flowers are more or less drooping, of elegant form and graceful habit.

Moonshine
Six \$1.40, Doz. \$2.50, 25 \$4.55, 100 \$16.25
A beautiful Triandrus Hybrid, star-shaped white flowers, often three to a stem, drooping gracefully, very beautiful and a great favorite, especially for the rock garden or for naturalizing in the shade. A fine exhibition variety.

Thalia Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$14.00 In addition to a peculiar attraction at first sight, this flower leaves one with an impression that it is white, yet it is a whiteness that is not white. The recurving petals and the angle of the three trumpets are unlike the conventional short-cupped Daffodil. The stem is dark green, round and reed-like thin. Some call it the "Orchid-flowered" Narcissus which adds to the mystery. Thalia provides unusually good material for artistic arrangements. artistic arrangements.

### Poeticus Narcissi

Poet's Narcissi have pure white petals with a small very short scarlet cup and are some of the latest to flower. Highly fragrant and exceptionally good for naturalizing.

Cyclamineus Hybrid, February Gold

Jonquilla Hybrids

Hybrid Jonquils have two or more small, very fragrant flowers on one stem. The flowers of the Jonquil Hybrids are exceedingly long lasting and withstand heat and wind better than any other group of Daffodils. They are particularly good for cut flower use in the home.

Campernelle, Double Six \$1.10, Doz. \$1.85, 25 \$3.30, 100 \$11.75 Two to three golden yellow, small, fragrant flowers on strong stems; lovely for cutting. Height 13 inches.

Jonquilla Simplex (Queen Anne's Daffodil)  $Six \$1.00,\ Doz.\ \$1.55,\ 25\ \$2.85,\ 100\ \$10.25$  The true tiny single Jonquil. The bulbs as well as the flowers of this miniature Daffodil are not very much larger than the Snowdrop. The flowers are pure golden yellow and delightfully fragrant; foliage is grass-like. Perfectly hardy and most satisfactory small Daffodil for the rock garden.

Trevithian (New) Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$13.50

A superbly beautiful variety. The translucent sparkling soft yellow flowers are wavy and fairly dance. Seldom does one see so much grace and charm in a flower. Trevithian has from two to four flowers on a tall, stiff stem which makes it an outstanding cut flower variety. In the garden it is equally satisfactory. High winds don't bother it, and like all Campernelle Hybrids, it is able to withstand the hottest sun without wilting or burning. without wilting or burning.

or in grass.

Ctaea Six \$1.10, Doz. \$1.85, 25 \$3.30, 100 \$11.75

100 \$11.75
One of the finest of the new Poeticus varieties, beautifully proportioned; small pheasant's eye, reddish cup. This variety was introduced by Englehart in 1927 and is still considered one of the best new varieties.

Recurvus Six 81.10, Doz. \$1.85, 25 83.30, 100 \$11.75
The old Pheasant's Eye. Perianth pure white, somewhat reflexing; cup margined deep scarlet; sweet scented. Fine for massing in borders or in grass.

Narcissus Cyclamineus

Narcissus Triandrus Albus

Narcissus Minimus

Narcissus Bulbocodium Conspicuus

# Miniature Daffodils

The best place to grow them is in small colonies between or under dwarf Sedums or other low growing perennial plants. They need no transplanting and are permanent. Avoid wet locations and plant about 2 to  $2\frac{1}{2}$  inches deep.

#### Narcissus Canaliculatus

## Little Daffodils (NARCISSUS SPECIES)

The following are charming little subjects for the rock garden, where their dainty flowers are seen to perfection. They should be left undisturbed for years, and if happy, will soon establish themselves and afford a lovely picture in early spring. All the Bulbocodiums (except Monophyllus) and the Cyclamineus like moisture, and should, therefore, be planted at the foot of the rockery. Triandrus Albus (Angel's Tears) and Juncifolius delight in partial shade and a light, gritty soil, and should be given a well drained position.

#### Bulbocodium citrinus

Three 75c, Six \$1.35, Doz. \$2.30, 25 \$4.20, 100 \$15.00 Large sulphur Hoop-Petticoat, very beautiful pale citron-yellow. Height 6 to 8 inches.

Bulbocodium Conspicuus

Three 60c, Six \$1.05, Doz. \$1.70, 25 \$3.00, 100 \$11.00 Yellow Hoop-Petticoat, flowers rich golden yellow of hoop-petticoat form and rush-like foliage. Height 6 inches.

#### Canaliculatus

Three 75c, Six \$1.35, Doz. \$2.25, 25 \$4.10, 100 \$14.50 A dainty little Polyanthus Narcissus from Mentone, suitable for sunny positions in the rock garden. It has narrow, erect bluish green foliage and bears heads of 3 to 4 flowers with white perianth and globular golden cup, sweetly scented. Height 6 inches.

#### Cyclamineus

Three 75c, Six \$1.35, Doz. \$2.30, 25 \$4.20, 100 \$15.00 A rare species from Portugal. The downward pointed trumpet or tube is about  $V_2$  inch wide and somewhat frilled at the edge; segments or petals are sharply refined, giving the little flower a lot of style. Grows about 6 inches tall, loves a dry, warm location.

#### **Juncifolius**

Three 75c, Six \$1.35, Doz, \$2.30, 25 \$4.15, 100 \$14.75 Small, graceful, rich yellow flowers, rather smaller than a Buttercup with a dainty little flat crown.

#### Minimus

Three 75c, Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$14.00 A miniature trumpet Daffodil not over 6 inches tall. Its tiny yellow trumpet is perfectly formed and not much over one-half inch long. A choice variety for the rock garden. Triandrus albus

Three 60c, Six \$1.05, Doz. \$1.70, 25 \$3.00, 100 \$11.00

An exquisitely beautiful little species, it is of slender growth and produces a cluster of elegant creamy white little flowers with globular cup and perianth reflexing as in the Cyclamen. Height 7 inches.

Narcissus Bulbocodium Citrinus

Narcissus Juncifolius

# Eremurus-Foxtail Lilies

They are among the finest of hardy bulbous plants. Striking, sensational and dignified, are extremely effective in hardy plant borders where they form early, colorful groups. Absolutely hardy, they grow giant flower spikes that reach a height of from 5 to 8 feet. They should be planted in autumn, from September until December and they flourish in any sunny, well drained border. After blooming, the plant disappears above ground. Annuals may be planted right over them to fill the vacant space. Many of our customers fill such spaces with Gypsophila. Eremurus roots are persistent and once planted will last for ten or fifteen years or more without resetting or dividing, growing stronger and better from year to year. In the very coldest regions a light mulching is advised for their protection.

#### PASTEL SHADED SHELFORD EREMURUS Stately—Daintily Graceful—Charmingly Dignified

That is the impression these tall flower spikes make on one. These hardy hybrids are truly lovely. Their inflorescence is three feet long, containing great numbers of coppery pink, orange, pale yellow and pink flowers. Attaining an average height of four to five feet, these rich and rare blooms are excellent for cutting as well as garden planting. They create a most fascinating impression in the garden. They last three weeks or more indoors when kept in water. After many years of patient growing, our supply is now such that we can offer them at low cost, enabling you to plant them in groups of three, six or twelve, for it is when they are planted in units of three or more that they show to best advantage. Once planted, the roots will last for ten years or more.

Shelford Pastel Hybrids Each \$2.00, Three \$5.50, Doz. \$20.00 Each \$3.25 Shelford Hybrid, Isobel. Coppery orange. Shelford Hybrid, Moonlight. Pale yellow. Each \$3.25

Shelford Hybrid, Rosalind. Bright pink. Each \$3.25 Shelford Hybrid, White Beauty. Pure white. Each \$3.25

ungei Each \$1.50, Three \$4.25, Doz. \$15.00
This is the parent from which the Shelford Hybrids were produced. Bungei is not as big a plant as, for instance, the Robustus but it makes a fine spike of golden yellow flowers about 3 to 4 feet tall. It is the easiest and hardiest of the varieties offered, blooming freely. Its root system is smaller and must not be compared with that of Robustus for instance.

Elwesianus Each \$3.50, Three \$9.75, Doz. \$35.00 Blush-white flowers similar in form and height to Robustus. A magnificent species growing easily 7 feet tall. This as well as all other Eremurus, is produced from seed which results in slight variation of tints and shadings.

obustus

Ciant roots, Each \$2.50, Three \$7.00, Doz. \$25.00
Light rosy pink flowers grow on stems 6 to 8 feet tall. One-third to one-half of the stem is covered with sparkling, small cup-like flowers. This is one of the giants of the family, easily grown and last from year to year. Giant roots produce one or more spikes.

Each \$2.50, Three \$7.00, Doz. \$25.00

A veritable giant. It is a simple matter to grow flower stalks 7 to 9 feet tall on this variety. The rigid spikes are covered with waxy white, cup-like flowers with golden anthers and remain in bloom four weeks or more. We have withheld Himalaicus from sale for several years because we wanted to sell this plant in quantity and at a popular price. With reasonable care they will flower for you ten years or more without need of transplanting.

# Narcissi for Growing in Water

aper-White Grandiflora Six \$1.40, Doz. \$2.50, 25 \$4.60, 100 \$16.50 The popular bunch-flowering, pure white Narcissus, frequently having 30 individual blooms and splendid decorative foliage from a single bulb. We offer top size bulbs best suited for growing indoors in pebbles Paper-White Grandiflora

#### **GOLDEN YELLOW NARCISSI**

oliel d'Or Six \$1.45, Doz. \$2.60, 25 \$4.75, 100 \$17.50 Soleil d'Or resembles the Paper-White Narcissus very much in habit but is of an exquisite deep yellow color, with an orange-yellow cup. The culture is the same as for the Paper-White Narcissus. We have some very fine stock of this variety to meet the steadily increased demand. Soliel d'Or

#### NARCISSUS, FEBRUARY GOLD

This is a little known, extremely early blooming, small golden Daffodil. One of the parents of this Hybrid is the little "Cyclamen" Daffodil which is responsible for its extreme earliness and "perky" flowers which in March or sometimes in late February start off the Daffodil season. It is one of the earliest Daffodils to grow indoors. Start a few bulbs in pebbles and water in November. Keep bowls in a dark, cool place for three weeks and then bring into light or put six bulbs into a shallow 5-inch flower pot with earth in October. Keep pot moist and in a dark, cool place for six weeks. Then bring into light. You'll have dozens of small golden Daffodil blooms in no time. Several plantings will give you a continuation of blooms.

Six \$1.40, Doz. \$2.45, 25 \$4.45, 100 \$15.75

## Growing Hyacinths in Water

Open the bags upon arrival, and place in a cool, dry place until December 1st. The preferred storage temperature is 50 degrees F. but 60 degrees F. is allow-

Before placing the bulbs on the well known Hyacinth glasses, or Mason jars, the root base must be cleaned, so that all residue and old roots are removed. Fill the glasses with clean, cool water until the root base is touched. The glasses or jars are then placed in a cool, dark closet or cellar until the top growth is 4 inches above the bulb. This takes about eight weeks. Preferred temperature not over 50 degrees F.

When 4 inches top growth has been made, the glasses may be taken to a north window in the living room, and if necessary some water can be added; never change the water completely. Hold temperature to not over 70 degrees F. Avoid too much direct sunlight.

For those customers who wish to grow the largest possible flowers in Hyacinth glasses, we imported a number of giant bulbs of the most popular kinds.

These are especially suited for growing on glasses and should with care produce the finest and largest flowers it is possible to grow.

Delft Blue. Light blue. Each 60c, Three \$1.50, Doz. \$5.75, 100 \$40.00

King of the Blues. Dark blue. Each 60c, Three \$1.50, Doz. \$5.75, 100 \$40.00

Queen of the Pinks. Rose-pink.

Each 60c, Three \$1.50, Doz. \$5.75, 100 \$40.00

Queen of the Whites. Pure white. Each 60c, Three \$1.50, Doz. \$5.75, 100 \$40.00

Princess Margaret. Light pink. Each 60c, Three \$1.50, Doz. \$5.75, 100 \$40.00

Use giant size bulbs preferably. Smaller sized bulbs, however, will produce nice blooms even though not quite as large as you obtain from giant bulbs.

Royal Dutch Hybrid Amaryllis

#### Imported Hyacinth Glasses

#### Leerdam Crystal

These crystal Hyacinth glasses are imported by us from the world famous Leerdam glass factory in Holland. They are beautifully made and when not in use for the growing of Hyacinths become handsome vases for cut flowers. Each \$1.60, 3 for \$4.50

# Amaryllis Hybrids

Whether you grow them in the house or in the garden, these Giant-flowering Amaryllis produce truly magnificent blossoms. Even the amateur gardener can confidently expect results and with the least possible care and attention. March, April and May are the months to plant them in your garden and they will bloom during July and August as easily as Gladioli. From these lovely bulbs a vigorous stem shoots out, carrying 4 to 6 very large blooms. We can supply them from November until June, but place your order early.

### ROYAL DUTCH HYBRIDS

This is the finest strain available. The flowers are superbly shaped and of mammoth size. Only a very limited number of this genuine type is available and we believe we are the only source where they can be pro-

Royal Dark Red Shades	Each \$3.00
Royal Pink and Rose Shades	Each \$3.00
Royal Salmon-Pink with White Stripes	Each \$3.00
Royal Pure White	Each \$4.00

Mixed Royal Dutch Hybrids Each \$3.00, Three \$8.50, Doz. \$30.00

Simon de Goede One of the expert growers of Amaryllis in Holland has offered us a magnificent Red Royal Dutch form of Amaryllis. It produces superb brilliant red flowers. It is a long lived variety which with a little care will last for many years and increase in size and beauty. We offer this at a special price. Big flowering bulbs. There is nothing better.

# (Wayside's Special Daffodil Mixture

In this mixture you are offered an extremely fine selection of Daffodils in the widest possible range of colors and types. Dainty clusters of fragrant Poetaz varieties, popular large trumpet sorts, and the spectacular new giant "Weather-Proof" Daffodils are included.

Three of the world's leading Daffodil growers turn over their entire crop of superior seedling Daffodils exclusively to WAY-SIDE. In their constant striving for still greater perfection, our growers subject seedlings to a rigorous process of elimination and destroy all undesirable seedlings. The better ones are tested for two or three years when a few of the very best are selected and set aside for continued growing. These outstanding specimens are ultimately introduced as named varieties when sufficient quantities become available. THE ENTIRE BALANCE GOES INTO OUR SPE-CIAL MIXTURE, NO MATTER HOW FINE.

As a result, you will find flowers in this mixture that differ but slightly from catalog varieties selling for \$3.00 each or more.

Note: In order to maintain all the characteristics of a specific variety (stamina, color, shape and size of bloom), propagation must be made from bulblets of the parent plant. However, when developing new strains, hybridization is from seed. Bulbs grown from seed are called seedlings notwithstanding the fact that they have been grown for several years and are actually fully developed bulbs.

Through the selection of early, medium and late flowering kinds in proper proportions, the longest possible period of bloom is assured. With each passing year, you will enjoy an ever-increasing number of flowers because we have carefully selected types which will multiply in number as well as beauty.

With this definite purpose in mind, we have spared no effort to make this a truly wonderful mixture of worth-while Daffodils. It is decidedly not a "catch-as-catch-can" sort of thing with everything in it a grower wants to get rid of at any price.

#### SPECIAL DAFFODIL MIXTURE

This Special Mixture is one of our most popular offerings. Many, many letters are received with glowing praise for the gorgeous flowers produced by these superior bulbs. Since all of these fine, early, spring-flowering bulbs are a rare value of definitely high quality, plant them freely and enjoy their carefree loveliness every spring.

25 Bulbs, Wayside's Special Mixture ...\$ 3.75 50 Bulbs, Wayside's Special Mixture ... 7.00 100 Bulbs, Wayside's Special Mixture ... 13.00 1000 Bulbs, Wayside's Special Mixture ... 120.00 250 Bulbs or more may be had at the 1000 rate.

Queen of the Whites

City of Haarlem

# Sweet Scented Hyacinths

Hyacinths produce the first color of spring to which you so eagerly look forward. In no other way is it possible to obtain so early such a wide variety of gorgeous color. Equally desirable is their lovely fragrance . . . Plant them most anywhere, informally. Scatter them about with other spring flowers. Plant them by themselves in beds of one or more colors. Their beauty is enhanced by most any kind of background. Consistent and dependable, they are uniform in height, therefore popular in carrying out any pattern or design. How joyfully you will greet them as they bring to you the first fragrance and color of spring. They bloom 4 to 6 weeks in advance of the Darwin Tulips. The varieties offered are of the very finest obtainable for garden use. They have a wide range of vivid colors, the stems are strong and the blooms noted for their longevity. Left in the ground you may expect annual returns from your investment in color and fragrance.

#### City of Haarlem

The finest of the yellows. Well formed trusses of pale yellow bells. An excellent variety.

Clear, light porcelain-blue; a strong variety with large, well formed trusses. One of the best of its color.

#### Jan Bos

A fine clear scarlet bloom, good stem and habit, considered the best red. King of the Blues

violet-blue; splendid large trusses. One of the best blue Hyacinths.

Beautiful and clear rose-pink, with large, compact trusses. Early and fine for forcing and bedding. The best of the pinks.

#### La Victoire

Shiny carmine-red with large, well fringed spikes. A splendid bedder where brilliant color is required.

#### L'Innocence

This is the most satisfactory all-around pure white. Compact spikes with large bells. Does well anywhere.

Dark purple. Rugged stems, brilliant color in the garden.

### Princess Margaret

A very fine novelty. The flower is large and perfectly formed. Color a clear soft pink. This is by far the best pink Hyacinth, both as to size and color.

#### Queen of the Pinks

A fine variety. Color is lovely rose-pink. Broad, large trusses, good sized bells on strong stem. One of the top quality varieties in this color.

#### Queen of the Whites

Pure white. This and L'Innocence, we recommend as the two best varieties in this color.

#### MIXED HYACINTHS

This mixture is made up from the varieties listed under this heading. The bulbs are available in 2 sizes. They will make a fine and fragrant showing in the garden. We do not advise growing several mixed bulbs in one pot because of difference in time required to force them into

# Hyacinths

Few flowers are capable of giving more lasting satisfaction than the Hyacinth. Sweet and delicate is their scent, and of a nature that everyone enjoys. Hardy and filled with energy, each Hyacinth produces its flowers time and again under the most adverse conditions, requiring little time or attention from you.

Fine results for outdoor or indoor growing are obtained from two sizes offered below. Greater vigor is naturally found in the larger size bulbs and this added vitality produces larger trusses.

All varieties on page 44 are offered in 15 to 16 cm. size for garden use and are priced as follows:

3 of one kind for \$0.90
12 of one kind for \$3.00
6 of one kind for 1.75
25 of one kind for 5.50
100 of one kind for \$20.00

Mixed colors—Six for \$1.75 Doz. for \$3.00 100 for \$20.00

All varieties on page 44 are offered in 18 to 19 cm. size for garden use and are priced as follows:

Mixed Colors—Six for \$2.50 Doz. for \$4.50 100 for \$30.00

## French Roman Hyacinths

The early Roman Hyacinth, with its graceful spike of fragrant bells, is one of the earliest of all winter-flowering bulbs.

They may be placed in the more artistic ornamental bowls, using peat moss as a filler, which only needs to be kept continually moist, requires no additional fertilizer, and in which the bulbs thrive and bloom luxuriantly. Bulbs planted in October bloom in December.

Blue Roman Extra large bulbs, Six \$1.75, Doz. \$3.00, 25 \$5.50, 100 \$20.00

Pink Roman Extra large bulbs, Six \$1.75, Doz. \$3.25, 25 \$5.75, 100 \$22.00

White Roman Extra large bulbs, Six \$2.25, Doz. \$4.00, 25 \$7.00, 100 \$25.00

Jan Bos

Anemone Fulgens

#### Anemone Fulgens Annulata Grandiflora

The vivid scarlet Windflower loves a comparatively dry, porous soil which does not retain water. It is a good variety for planting under shrubs or under a hedge where the soil is naturally somewhat dry, but it must be on the sunny side. There is absolutely nothing which will produce as fine a fiery brilliant scarlet color as Anemone Fulgens. It multiplies freely and forms fine clumps blooming year after year. A slight protection in winter is desirable.

### HARDY ANEMONE, BLANDA

Blanda Atrocoerulea Six 65c, Doz. \$1.10, 25 \$1.95, 100 \$7.50
Quantities of rich violet-blue, star-shaped flowers appear in early spring just about after the Snowdrops have bloomed. The fern-like foliage grows about 3 inches tall, above which the flowers are carried in rich abundance. Perfectly hardy and liking light shade they make a wonderful show under shrubs, in rock gardens or in naturalized masses under trees. Always plant in clumps; preferably of a dozen bulbs, spaced 2 inches apart and planted 3 inches deep.

Blanda Mixed Colors Six 65c, Doz. \$1.10, 25 \$1.85, 100 \$7.25
This mixture contains numerous shades of blue and pink and makes a most cheerful picture in the early spring garden.

Anemone Blanda Atrocoerulea

#### **ANEMONE**

These popular flowers of French origin are exceedingly brilliant when in flower and excellent for cutting. They like to be planted about 2 inches deep in a cool, moist but well drained soil. Will establish without any trouble and remain for years. For northern states we advocate early spring planting, for the southern section of the country, fall planting is best. Cover in winter with strawy manure.

#### DOUBLE ANEMONE

Double Anemone in Mixture Six 55c, Doz. 90c, 25 \$1.65, 100 \$6.00 This mixture contains a riot of colors in all shades of blue, red and pink as well as white.

#### SINGLE ANEMONE

Lieutenant (Blue Poppy)

Lieutenant (Blue Poppy)

Large, single blue flowers on long stems, resembling a blue Poppy.

His Excellency

A grand variety bearing flowers measuring as much as 3 inches across, of the most vivid, velvety vermilion, with glistening, silvery white base and a handsome blue-black central boss. Height 1 foot.

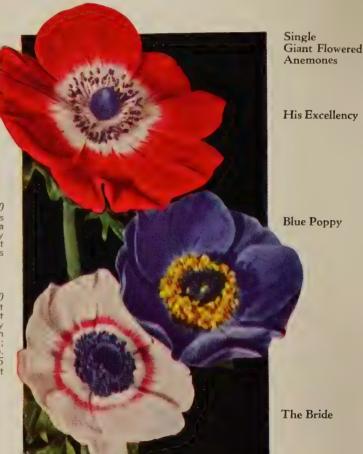

The Bride

Single, pure white flowers sometimes showing a faint reddish rim.

Single Giant Flowering Mixed

Six 55c, Doz. 90c, 25 \$1.65, 100 \$6.00

These are the popular Anemones so frequently seen in the florists' shops in the early spring. The flowers are unusually large with a wide range of rich and brilliant colors.

Galanthus Nivalis

Eranthis Hyemalis-Winter Aconite

CHIONODOXA - Glory-of-the-Snow

A mass planting forms one of the most sumptuous displays of floral beauty, a mass of blue and white, intense and brilliant. They bloom at the time of the Crocuses, producing dwarf flower spikes, bearing from 12 to 15 flowers of sky-blue with a pure white heart, creating a lovely effect. They should be planted in the fall, 3 inches deep, about 18 bulbs to the square foot, in a sunny location or in half shade and in places where they can remain undisturbed for a number of years. The flowers will cross with one another and will seed themselves, forming natural colonies. All are 6 to 7 inches high, therefore excellent in the rockery as well.

Luciliae

Doz. 70c, 25 \$1.30, 100 \$4.00

Top size bulbs. Bright blue, white center. Flowers often with 6 to 8 blooms on each stem.

Luciliae alba

Luciliae alba
A very beautiful pure white variety of the Luciliae.

Luciliae rosea
A fine variety with pink flowers of the Luciliae form.

Sardensis
Top size bulbs. Same as above with true gentian-blue flowers.

Mixed Chionodoxa, All Varieties Listed Doz. 70c, 25 \$1.30, 100 \$4.00

These produce about two weeks before Crocus are in bloom, little yellow flowers like Buttercups about 3 inches above the ground, with settings of fine green, frilled collars which seem never to mind the worst of weather conditions. Will thrive under trees where few other plants can hold their own. They seed themselves freely and colonies from self-sown seed are soon formed. Plant at once upon receipt, firmly, 2 inches deep, in shade or full sun, about 18 bulbs to a square foot.

 $Six\ 55c,\ Doz.\ 90c,\ 25\ \$1.65,\ 100\ \$6.00$  Deep yellow flower, foliage bronzy and finely cut; lovely rock garden variety.

Six 55c, Doz. 90c, 25 \$1.65, 100 \$6.00 The common Winter Aconite. Clear yellow, very early. Good for the rock garden, under Sedums or under trees. Plant bulbs at once when received.

Camassia Esculenta (See page 52)

#### **ERYTHRONIUM** - Trout Lilies

These are charming woodland plants, producing in early April, small Lily-like flowers of which the colors run in delicate tints of white, pink, cream, bright yellow and rose. They thrive in wooded places under shrubs and in shaded corners or crevices of the rockery.

**uolumnensis** Six \$1.45, Doz. \$2.50, 25 \$4.65, 100 \$17.00 Glacier Lily, Mountain Lily, or Golden Easter Lily. One of the most beautiful and rarest of Dog-Tooth Violets, do best in shady woodland places, well drained soil. Not unusual to see them with 10 to 12 golden flowers, the flowers often being 3 inches across. Plant in colonies. Tuolumnensis

lixed Colors Six \$1.45, Doz. \$2.50, 25 \$4.65, 100 \$17.00 This mixture is made up of many var.eties. Splendid renaturalizing and for rock garden in light shade. It is best to plant them in groups of six and more. Once planted they will remain and multiply very rapidly. Are perfectly hardy and simple to grow. Mixed Colors

Chionodoxa Luciliae

GALANTHUS - Snowdrops

GALANTHUS - Snowdrops

Snowdrops belong to the most beloved early flowering spring bulbs. They require very little attention and can remain undisturbed for years and years. They like rather moist and cool soil. To get a lovely effect they must be planted thickly, while they can be grown under trees and shrubs, in woodlands and in lawns. In the latter case, the lawn should not be mown before the leaves are withered or next year's blooms may be spoiled.

Nivalis

Six 55c, Doz. 90c, 25 \$1.65, 100 \$6.00

This is the old-fashioned favorite. Its lovely white nodding blooms are out before the frost is out of the ground; one of the lovely bulbs that tell us spring is almost here. A group naturalized in the shade of shrubs or under trees is worth while. Once planted they remain for a lifetime.

Nivalis flore-pleno Six 85c, Doz. \$1.45, 25 \$2.70, 100 \$9.75

Double form of the common Snowdrop, requiring same care.

Muscari Plumosum (See page 48)

Erythronium—Trout Lilies

Muscari Botryoides Coeruleum

Muscari Armeniacum

## Muscari-Grape Hyacinths

Muscari are charming spring-flowering subjects. They can grow under trees and shrubs, and also do well in full sun in the border or at a sunny spot of the rockery, without special attention. They are best planted immediately on receipt and can remain undisturbed for years. They are absolutely hardy and some varieties are delicately fragrant. Botryoides, Azureum and Armeniacum are beautiful when forced in the house, same culture as Freesias; while Plumosum is always a source of great interest. All are about five inches high.

Armeniacum (Early Giant)

Deep cobalt-blue flowers, producing many spikes with larger flowers than Heavenly Blue. Excellent for forcing and massing; wonderfully fragrant. While there are several kinds of Muscari we consider this variety the best for mass planting. Their flowers open just about the time that the Crocuses are going. They do well in the wild garden and also in grass not too rank. They are nice under trees and along borders where they may be left undisturbed.

Azureum (Hyacinthus)

Bright blue, flowering in February; valuable early spring flowers, also fine for forcing in January.

Botryoides coeruleum

Botryoides coeruleum

Botryoides coeruleum

Doz. 80c, 25 \$1.50, 100 \$6.00

Bright blue, very free-flowering at the time of the Crocus. This is the common blue Grape Hyacinth and fine in the rockery. Foliage is more compact, is better for the rockery than Hyacinth Botryoides.

Botryoides album

This is the white form which is very pretty planted with the blue variety of this type.

Plumosum (Plume Hyacinth)

Six \$1.35, Doz. \$2.35, 25 \$4.25, 100 \$15.25

Rearing in May, handsome feathery plumes of violet colored flowers; very attractive. Height 7 inches.

A most unusual and fascinating flower.

Mixed Varieties

The interestical attention and such as well as other unusual as percies not generally and other unusual as other unusual a

This mixture contains some of all the varieties listed as well as other unusual species not generally offered. It will provide you with a most interesting, varied and colorful display of Grape Hyacinths. Left undisturbed they will increase rapidly and last practically forever.

Doz. 85c, 25 \$1.60, 100 \$5.75

STERNBERGIA

Lutea major Mixed Varieties

Associated major Six \$2.00, Doz. \$3.50, 25 \$6.50, 100 \$23.00. A very effective October-flowering bulbous plant producing Crocus-like flowers of a rich golden yellow. The bulbs make a charming decoration if planted in bowls or pots and flower a few weeks after planting. Out-of-doors the Sternbergia likes a warm, well drained situation in borders, where it should be left undisturbed. Bulbs should be planted in units of three or more and left undisturbed to multiply.

Ranunculus, Giant Wayside Gardens Hybrids (See page 54)

Sternbergia Lutea Major

Eremurus, Shelford Hybrids (See page 41)

Scilla Sibirica (Siberian Squill)

### Scilla Hispanica (Campanulata)

(Wood Hyacinths; Scotch Blue Bells)

They bloom at the same time as Darwin and Cottage Tulips and are beautiful combined with them in a flower border. Very attractive flowers in shrubbery borders, and most valuable for wild gardens and woodlands where they are easily naturalized. They may be planted in bare, shady places and odd corners which often have a desert-like appearance that can thus be rendered bright and cheerful. They also thrive under Fir and Pine trees, where few other plants will grow. Require absolutely no care, multiply rapidly and when once planted last a lifetime.

Hispanica alba maxima Large white flowers.

Doz. 90c, 25 \$1.65, 100 \$6.25

Hispanica, Blue King
Fine blue, exceedingly free.

Doz. 90c, 25 \$1.65, 100 \$6.25

Hispanica, Myosotis (Forget-Me-Not) Doz. 90c, 25 \$1.65, 100 \$6.25 Porcelain-blue, tall growing and very free flowering.

Hispanica, Excelsior Doz. 90c, 25 \$1.65, 100 \$6.25 Large bells, deep blue, very fine, tall and large spikes.

Hispanica, La Grandesse White, beautiful large spikes. New.

Doz. 90c, 25 \$1.65, 100 \$6.25

Hispanica, Peach Blossom Pale pink, large spikes. New.

Doz. 90c, 25 \$1.65, 100 \$6.25

Hispanica, Rose Beauty Doz. 90c, 25 \$1.65, 100 \$6.25 Deep pink, beautiful large spikes. One of the best.

Mixed Varieties Doz. 90c, 25 \$1.65, 100 \$6.25 This mixture is carefully made of the best kinds. It contains some bulbs of all the varieties offered including the newest improvements. For mass plantings and colorful effects there is nothing better. They are happy in shade as well as in full sun; they increase at an amazing rate and will last forever, providing you with fine, inexpensive cut flowers as well as giving color where it is difficult to grow anything else.

### NEW SCILLA HISPANICA

Blue Ribbon (New) Six 60c, Doz. \$1.05, 25 \$1.85, 100 \$7.00
A fine tall grower with large bells. It is considered one of the best of the dark blue varieties.

Donau (New) Six 60c, Doz. \$1.05, 25 \$1.85, 100 \$7.00

New) Six 60c, Doz. \$1.05, 25 \$1.85, 100 \$7.00 Rich pure blue flowers on fine, tall stems. We believe this to be the best of the pure, true blues. Multiplies very freely.

Princess Juliana (New) Six 60c, Doz. \$1.05, 25 \$1.85, 100 \$7.00 Large bells on tall stems, color is deep rose-pink; one of the best in this color. An established clump of six or a dozen bulbs makes a wonderful showing.

White Triumph (New)  $Six\ 60c,\ Doz.\ \$1.05,\ 25\ \$1.85,\ 100\ \$7.00$  A grant white, makes broad, pyramid-shaped flowers with many spikes to each bulb. This is the best of the pure white varieties.

Scilla - Squill

The rich dark blue of Scilla bifolia and the bright blue of Scilla sibirica in early spring render them invaluable for edgings or for massing in flower beds and borders. As they bloom so early in the year, it is advisable to give them a sunny location. They are not particular about the soil in which they grow. They are ideal for the wild garden but they are not to be despised in the border, especially if they are left alone for two or three years without being disturbed in any way. They are splendid in the rock garden. Never plant less than 12 to 18 bulbs in a clump.

Bifolia

Very beduffer in consistency drops, etc.

Sibirica (Siberian Squill)

Earliest to flower, connecting the flowering of the Crocuses with the Narcissi, Fine for naturalizing, producing drooping, bell-like flowers on stems 3 to 4 inches high. Succeeds well in the rock garden. Color bright blue. Plant 3 inches deep in shade, half shade or full sun. Giant bulbs blue. Plant 3 inche are offered above.

Sibirica alba Pure white form of Sibirica.

Doz. 85c, 25 \$1.60, 100 \$5.75

### SCILLA HISPANICA (Wood Hyacinth)

Rose Beauty

Alba Maxima

Excelsion

[49]

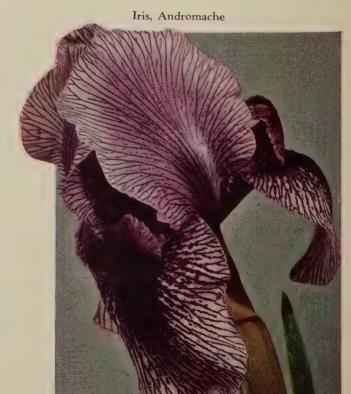

Iris Danfordia, golden yellow counterpart of Iris Reticulata. Hardy and fragrant.

Iris Reticulata
Perfectly hardy. March blooming. As fragrant as Violets

## Dutch and Spanish Iris

### Great Beauty, Yet Fast Growing and Inexpensive

Be prepared for a surprise after you plant some of these for they multiply so rapidly that their numbers increase each year and must be weeded out from time to time. These blooms bear a striking resemblance to the Orchid and their rich colors are most fascinating, ranging from pure white through golden yellow to cornflower-blue, dark violet and deep purple. They are excellent for cutting, stand a lot of handling and last even longer when put in water. All they ask is a sunny spot, fairly well drained and a little protection when the weather is extremely cold. We know of no other bulb that is so lovely and, at the same time, so low in cost. It is not without reason that in England they are known as "The Poor Man's Orchid." By all means, include some of these lovelies in your order today.

Dutch and Spanish Iris Collection

This collection will be made up of 10 distinct varieties, selected from the varieties offered below. They will be labeled and packed separately. Just the thing for the hardy border.

100 bulbs in 10 varieties for \$7.00

Blue Horizon

Six 55c, Doz. 90c, 25 \$1.65, 100 \$6.00
Standards steel-blue; falls very dark blue. A very large Iris of robust growth. A-1 for cutting and garden use.

British Queen
Six 55c, Doz. 90c, 25 \$1.65, 100 \$6.00
Pure white, good form and substance; one of the best and much used commercially because of its good keeping qualities. 24 inches tall.

Bronze Queen
Six 60c, Doz. \$1.05, 25 \$1.85, 100 \$7.00
A beautiful deep coppery bronze colored variety, the best of this color. It is quite a rare shade in flowers. One of the most artistic of the bulbous Iris.

King Manye

King Mauve
Six 60c, Doz. \$1.05, 25 \$1.85, 100 \$7.00
Standards very dark blue; falls dark blue. A very early Iris of remarkable substance; the best medium priced blue. 22 inches.

King of the Whites
Six 55c, Doz. 90c, 25 \$1.65, 100 \$6.00
Fine substantial pure white flowers, good grower and multiplies rapidly; fine for cutting and garden use.

King of the Yellows
Six 55c, Doz. 90c, 25 \$1.65, 100 \$6.00
Standards and falls soft yellow; very early and exceptionally good for forcing. Multiplies well in the garden where it makes a fine show.

Lemon Queen
Six 60c, Doz. \$1.05, 25 \$1.85, 100 \$7.00
Standards creamy white; falls canary-yellow with orange stripe; very large flowers; early. 28 inches.

Saxe Blue
Six 60c, Doz. \$1.05, 25 \$1.85, 100 \$7.00
A brilliant, clear, delft-blue flower with golden spot on petal near base makes this one of the outstanding new varieties. It has great substance and is fine for cutting.

Wedgewood
Standards blue.

Six 60c, Doz. \$1.05, 25 \$1.80, 100 \$7.00 Standards blue; falls lighter blue; excellent forcer and makes a bold that Propoleirs.

White Excelsior

Six 55c, Doz. 90c, 25 \$1.65, 100 \$6.00

Uniform pure white; falls very broad, very good form and substance; very early; the best medium priced white. 22 inches.

Iixed Colors

Doz. 90c, 25 \$1.65, 100 \$6.00

Here we offer a mixture of about 20 varieties at a very special price for cut flower use. The bulbs are all flowering size but are slightly smaller than those of the named varieties. Hundreds of blooms can be had from these for very little money.

The perfectly beautiful ruffled yellow flowers are in a class all their own. Without a doubt it is the finest of the lot. Will last for a week or ten days in water when cut. In the garden, it makes a stunning group. Bulbs multiply freely and a carefully planted clump will bloom for years without attention.

## Iris Species

Andromache (Rare)

Andromache (Rare)

Each 35c, Three 95c, Doz. \$3.00, 25 \$5.50, 100 \$20.00

A rare and beautiful hybrid, belonging to the Regelio-Cyclus group. Grows about 18 inches tall with several heavily veined flowers of soft lilac, with dark violet sheen. It is the first time since World War II that we are able to offer this rare plant. It loves a sunny, dry place and multiplies quite freely. In very cold sections protect from too cold weather. Blooms in May.

Danfordia

Six \$1.05, Doz. \$1.70, 25 \$3.00, 100 \$11.00

A beautiful little Iris from Eastern Asia Minor which was unobtainable for many years; bright golden flowers resembling in form Iris Reticulata, produced in early February. Height 3 inches.

Pavonia (Peacock Iris)

Six \$1.40, Doz. \$2.50, 25 \$4.50, 100 \$16.00

Often called Peacock Iris. Flowers white or light blue with peacock eye at base of outer segments. Stems 10 to 15 inches high. Excellent for cutting, forcing, rock gardens and pots.

Tuberosa

Six 75c, Doz. \$1.35, 25 \$2.50, 100 \$8.75

A rare species, producing charming small green flowers with vivid black blotches. An attractive and unusual flower.

### Tris Reticulata (Fragrant Iris)

This lovely species is one of the treasures of the garden or rock garden. It can be described as a small form of the Spanish or Dutch Iris. Its main value lies in the fact that it may be forced into bloom in the house with the greatest ease. Six or eight bulbs put into a 4- to 5-inch pot when received will bloom about Christmas time. The fragrant blossoms remind one of a bunch of fresh Violets. Perfectly hardy with reasonable protection. It is one of the loveliest early flowering bulbs for the rockery. To show it off well, plant a number of bulbs under the white Arabis Alpina; you'll enjoy the results more than we can tell you.

Six 70c Doz \$1.20.25 \$2.20, 100 \$8.00.

Six 70c, Doz. \$1.20, 25 \$2.20, 100 \$8.00

Calochortus, Mixed Varieties

#### BRODIAEA

These are easily naturalized in almost any soil. Plant them about 3 inches deep and leave them alone. They are especially happy under deciduous trees, in the rock garden or rough, gritty soils.

Mixed Six 50c, Doz. 85c, 25 \$1.55, 100 \$5.50
This mixture contains the following colors: blue, red, yellow, white, and is good for naturalizing. Bulbs self-sow and increase quite rapidly.

CALOCHORTUS - Mariposa Tulips

Until one has seen a good collection of these plants, he has no idea how much Nature can do in the variation of one flower. One to many on a stem, wonderfully marked with eyes and dots, and penciling in rich colors, are characteristics. "Mariposa" is simply the Spanish word for butterfly, and is applied to these Tulips because the eyes and markings are so like those on a butterfly's wings.

Mixed Colors and Varieties Six \$1.60, Doz. \$2.95, 25 \$5.35, 100 \$19.00

They grow from 1 to 2 feet high and branch. The flowers are simoly marvelous in their variety of colors and markings. Scarcely two are alike; in a mixed lot they may vary through white, lilac to purple and again through shades of pink to claret-red. In any mixture whites, more or less eyed, predominate. There is no better investment for the flower lover than a quantity of these bulbs. They thrive best in a rather porous soil, either sandy or grifty, and grow either in sun or light shade. Flowers are 2 to 4 inches in diameter.

#### CALLAS - Zantedeschia

Plant Callas indoors in the late fall of the year. In April or May dormant bulbs may be planted near the pool in a sunny spot where they will flower beautifully in August or September.

Elliottiana (Yellow Calla)

Each 80c, Three \$2.25, Doz. \$8.00, 100 \$60.00 One that should be planted extensively. The deep golden yellow flowers are truly magnificent and produced in abundance. The green foliage is spotted white which adds to its beauty; lovely house plant as well as garden subject.

Godfrey (White Calla) Each 55c, Three \$1.35, Doz. \$5.00, 100 \$35.00 Most ornamental folioge if grown near pool where it will get plenty of water; an excellent easily grown house plant.

Rehmanni Each 55c, Three \$1.35, Doz. \$4.50, 100 \$30.00 The pink or rose Calla. A rather uncommon species native to Natal. The flowers are small but pink and therefore most unusual. An uncommon plant for the greenhouse or indoor culture.

FREESIAS (Large Flowered)

Without doubt the most sweetly scented flower grown; a single bloom permeates the living-room with its delicate perfume. Although they are quite popular and very easily raised, we suggest the following treatment: procure the bulbs as early as possible and plant them in August, 6 to 25 bulbs for a single pan. The soil should be a mixture of good loam. The bulbs planted early, say Auugst and September, must be placed outdoors until cold weather sets in; must be regularly watered and kept growing all the time. In November, before frosts appear, the pots should be placed in the window of a cool room.

Six 65c. Doz \$1.10, 25 \$1.95, 100 \$7.50.

A yellow Freesia of unusually sturdy growth; tall, straight stems. Flowers large and wide open. Great lasting qualities. Very prolific producer with several laterals. Golden Giant

Thite Giant Six 65c, Doz. \$1.10, 25 \$1.95, 100 \$7.50 A new giant white, stems average 18 to 20 inches long. Single flowers 21/2 inches long; early bloomer. Six 65c, Doz. \$1.10, 25 \$1.95, 100 \$7.50 A lovely mixture made up out of many varieties. All the shades of the rainbow. White Giant

Gloriosa Superba

Puschkinia Libanotica (See page 54)

Fritillaria Imperialis

CAMASSIA (Hardy)

There are few bulbous plants that meet climatic or soil conditions better or give a more attractive bloom. They are hardy without protection, and thrive either under ordinary garden conditions or when naturalized in open, moist woods or in not too dense a grassy growth. The flower stems are 2 to 4 feet high with as many as a hundred star-shaped flowers measuring 1½ inches across and flowering in long succession.

sculenta  $Six\ 50c,\ Doz.\ 85c,\ 25\ \$1.60,\ 100\ \$5.75$  Very showy in mass planting. Forms flower spikes 2 feet high, bearing a cluster of star-shaped flowers of a very fine, rich purple. Fine for wet or swampy places where other bulbs do not grow. Esculenta

usicki Six \$1.00, Doz. \$1.55, 25 \$2.85, 100 \$10.25 Same as preceding but a giant. Flowers are larger and deep blue. A very showy bold flower. 4 feet high. Again does well where other bulbs fail.

Fritillaria Meleagris

### FRITILLARIA - Guinea Hen Flower

Fritillarias are lovely bulbous plants for the rock garden or indoor culture. The stems are leafy and most graceful, with many pendent, bell-like flowers. One species found in Southern California is called "Mission Bells," while in other places local species are called Brown or Chocolate Lilies.

**Ideleagris**  $Six\ 50c,\ Doz.\ 80c,\ 25\ \$1.50,\ 100\ \$5.25$ These produce in early April dwarf, pendent, reddish brown and purple, bell-shaped flowers in curiously checkered shades, on stems 12 inches high. They are very effective in colonies, requiring a somewhat dry situation. Invaluable for the rockery, for naturalizing and very lovely grown in pans indoors; use same culture as for Freesia.

### FRITILLARIA - Imperialis

The Crown Imperials with their stately, graceful drooping flowers should not be missed in any garden. They want a good soil, much sun, and can be left undisturbed for years. Must be planted as early as possible and have to be carefully protected against sharp winds. They are real "grandmother's favorites" and should be in every hardy border or old-fashioned flower garden.

Maxima, Red Robust and strong growing variety with large orange-red flowers. Height 34 inches.

### GLORIOSA - Climbing Lily

Each 75c, Three \$2.00, Doz. \$7.50. A splendid low climber, easy to grow in the garden, it does well in sheltered spots out-of-doors. Grows 2 to 3 feet high, producing a dozen or more gorgeous Lily-like flowers which open a bright yellow and red, but change to a deep scarlet. In bloom through the summer and autumn months. Most unusual and rare garden bulbs. Store tubers in winter like Gladioli; may be used season after season. It may also be grown in a 4- or 5-inch pot in a cool greenhouse where it makes a beautiful show. Superba

### IXIA - Corn Lilies

Mixed

Doz. 75c, 25 \$1.35, 100 \$4.50

The colors run through all the shades of red, pink, yellow, blush and pure white. These beautiful bulbs from the Cape Colony (South Africa) are far too little known; they should be planted in late autumn and in cold districts must be covered with a thick layer of straw or leaves. Splendid for southern states. Few bulbs are so lovely and graceful and those who live where the climate is mild should plant them freely.

#### **MERTENSIA VIRGINICA**

### Virginia Blue Bells

This is indispensable in the garden for color effect; flowers are porcelain-blue, buds pink at opening. The plant grows from 1 to 2 feet high, bearing a panicle of flowers about 1 inch long in short pendent clusters. It is splendid for the open border or for naturalizing along the woodland path. It flow-ers from the time Daffodils are in bloom, continuing while the May-flowering Tulips are at their best. Use this delightful plant in quantities, as it is permanent and so helpful to create beautiful pictures, especially in shady

Choice Selected Roots

Three \$1.55, Doz. \$5.50, 100 \$32.50

Ixiolirion Pallasi

#### **IXIOLIRION**

Pallasi

(Tataricum) Six 55c, Doz. 90c, 25 \$1.65, 100 \$6.00

A little known but choice hardy bulb which in early June produces several deep blue tubu-lar flowers on

One of the last of the small "spring" bulbs to flower. If left undisturbed, it will soon grow into a charming colony of brilliant blue flowers not unlike Chionodoxa.

Radiata

Six \$2.00, Doz. \$3.50, 25 \$6.50, 100 \$23.00

From 10 to 20 flowers are borne on slender scapes 1 to 1½ feet high in early autumn. They are bright crimson in color, about 1½ inches across; the sickle-shaped segments being scarcely crisped; filaments are bright red. The leaves appear after the flowers. They are easily grown indoors in the North, but in the South may be grown outdoors in ordinary good garden soil.

P. S.—Lycoris Radiata is generally mis-named Nerine Sarniensis.

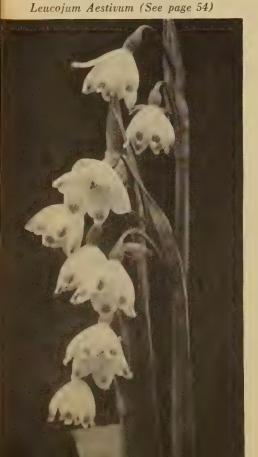

**LYCORIS** 

We offer only big American-grown bulbs which will bloom the following year after planting, not devitalized, imported stock at a cheap price which takes several years before they produce flowers. Produces attractive green foliage in early spring which grows until July when it ripens and disappears. About a month later, as if by magic, the flower stalks spring from the ground to a height of 2 to 3 feet, developing an umbel of large, Lily-shaped flowers, 8 to 12 in number, of a delicate lilac-pink shade. The bulb is perfectly hardy and should be covered with about 4 to 5 inches of earth. A small stick or label put where bulb is planted prevents damage to bulb while dormant.

Lycoris

Radiata

Hardy Amaryllis (Lycoris Squamigera) Plant between Iris and Lemon Lilies for fall color.

#### **OXALIS**

Suitable for pots or hanging baskets for winter flowering. Very easily grown in the house. Their Clover-shaped leaves are most attractive as well as the small cup-like blooms. They are excellent inexpensive small plants for decorating the home and growing on window sills.

Doz. 80c, 25 \$1.50, 100 \$5.25. Produces dozens of pink, cup-shaped flowers at one time and is in bloom over long periods.

#### LEUCOJUM - Snowflake

Aestivum (Summer Snowflake)

This large-flowered Snowflake produces in April and May gracefully drooping white bell-like flowers. Does best when growing in a shady situation and should be left alone as much as possible because the flowers become larger when the bulbs are not disturbed. Particularly fine for cutting

#### **MORAEA**

Polystachya (Iris Pavonia)

Often called Peacock Iris. Flowers white or light blue with peacock eye at base of outer segments. Stems 10 to 15 inches high. Excellent for cutting, forcing, rock gardens and pots.

#### **PUSCHKINIA**

tbanotica Doz. 85c, 25 \$1.60, 100 \$5.75 A beautiful little April-flowering bulb prized for the permanent hardy flower border and rock garden; it is also an easily grown indoor pot plant. The flowers are white, shaded and striped a soft clear blue, about 6 inches high. Libanotica

#### **RANUNCULUS**

Their brilliant lovely globular-shaped flowers are splendid cut flowers and lovely at all times. May be left undisturbed for years. In the North, bulbs may be planted in April and May outdoors, will bloom in July.

tiant Wayside Hybrids

Doz. \$1.00, 25 \$1.75, 100 \$6.75

This new giant Ranunculus is far ahead of the common types. The perfectly double flowers are produced on tall, stout stems and appear in every conceivable shade and color. The blooms are many times larger. The color range is exquisite and the long stems make them supper for cutting. Giant Wayside Hybrids superb for cutting.

#### **SPARAXIS**

inest Mixed

Doz. 80c, 25 \$1.50, 100 \$5.25

Delightful spring blooming Cape bulbs of the Ixia group, their beautiful flowers being borne on graceful spikes about 6 to 8 inches high and the colors of the brightest and all shades. They are tigered, blotched, spotted, streaked and flushed, a complete riot of color. They are also excellent for conservatory and indoor treatment. For the southern rock garden they are indispensable. Protect in cold climates. Finest Mixed

### TRITELEIA - Milla

Uniflora violacea Doz. 70c, 25 \$1.30, 100 \$4.00
A root-like bulb which produces in early spring a pale violet-blue flower with white center. Somewhat resembles the Chionodoxa, is delightfully fragrant. They spread and multiply with amazing rapidity and are excellent in the rockery, or under shrubs or trees where nothing else will grow. They are hardy, but like a little protection. About 3 inches high.

Vallota Purpurea

#### VALLOTA PURPUREA - Scarborough Lily

A rare and choice bulb which produces brilliant scarlet funnel-shaped flow-

A rare and choice bulb which produces brilliant scarlet funnel-shaped flowers 3 to 4 inches long in clusters of 3 to 6 borne on erect stiff stems about 18 inches high. Leaves are very ornamental throughout the year which makes a Vallota a choice house plant because unlike most bulbs it should never be allowed to "dry off" or ripen but must be kept growing and green constantly. For indoor growing keep bulb in a rather small pot because crowded roots induce free blooming, otherwise grow like Amaryllis. In mild climates they may be grown in the garden; there the bulbs should be placed 4 to 6 inches below the surface of the soil. They should not be disturbed for years and when ultimately established will produce masses of flowers. During the growing season and in dry weather an occasional soaking of water or liquid manure will be beneficial, never let them go dormant. Any good garden soil well drained will suffice.

Each \$4.00

## FOR FRIENDS AND CUSTOMERS ONLY!

### IMPORTED DUTCH CHEESE

Autumn is THE TIME when the finest cheese is made in Holland. It is possible only from cream from that period to make that superlative quality, marvelous for its flavor as well as texture and richest in butterfats. Few people in this country know of it. Some fortunate person traveling in Holland may have encountered these cheeses but they are not generally offered for sale, even in Holland.

Each season produces about 5,000 of these extraordinary quality cheeses. In the past, most of them have been exported to South America where they are served at the fashionable hotels and clubs.

This year again with the co-operation of an old friend of our President, Mr. Grullemans (a Hollander), we obtained "first call" on a substantial quantity of this famous cheese, thinking that many of our customers would like to taste and enjoy this

Along with the quantity wanted for personal use here at Wayside, we shall be delighted to import this famous cheese for any one who will write us promptly. We should have your request on or before Nov. 1st.

The average weight is about four pounds. Each cheese comes packed in an individual carton and costs \$4.80 each, delivered. (We take care of duty, freight, etc.). Delivery to you first week in December in ample time to use them as Christmas gifts. For shipments west of the Mississippi River, add 50 cents per cheese.

If you are interested, please advise us promptly. At once if possible.

In the event you receive this catalog during November, send your order anyway because we always import a few more than actually ordered to care for a few late requests.

This rich butterfat cheese may be kept in your refrigerator for 10 months or more, so do not hesitate to ask for enough to last you until next year!

## Paeonias - Peonies

(We do not ship Peonies into California, Washington, or Oregon.) The numbers or RATINGS given immediately below the names are the averages tabulated from the votes of the members of the American Peony Society throughout America and Canada. Ten is highest pos-sible score; none under seven are offered. This list contains the best

### DOUBLE FLOWERED PEONIES

White

Festiva Maxima

(9.3) Paper-white, crimson markings in center. Very large and full rose type; very tall, strong growth. Early.

Kelway's Glorious

(Kelway, 1909) (9.8) Buds slightly tinted pink, opening into large blossoms of iridescent white. Fragrant. Late midseason. This is undoubtedly one of the finest Peonies.

Le Cygne Each \$2.50, Three \$7.15, Doz. \$25.00 (9.9) Very large, perfectly formed flower, freely produced; cream-white with a touch of green at the heart. The finest white. Received the highest rating of any Peony.

Each \$2.50, Three \$7.15, Doz. \$25.00 (Lemoine, 1907) (8.6) Guard petals deep creamy yellow and center petals sulphur-yellow. If not exposed to the full sun the flowers will hold a canary-yellow which is most attractive. Very fine. Midseason. Primevere

Red

Each \$4.50, Three \$12.50, Doz. \$45.00 An early bright red held on a good strong stem. Foliage clean, dark green and has always been found to be healthy. The flower is full double, with a few hidden stamens. A good flower for show purposes, makes a good out flower, and holds up exceptionally well. Won best flower in 1950 Pecny Show.

flower in 1950 Pecny Show.

Longfellow

Each \$2.50, Three \$7.15, Doz. \$25.00

(9.0) Everyone concedes Longfellow one of the most popular red Peonies because of its distinct, fadeless color and general dependability, both for cutting and garden decoration. It is as striking in the field as in the show room. It comes into bloom early midseason. The plant has excellent foliage and strong, stiff stems. The flower is a bright crimson and is always found among the winning classes.

Mary Brand

Each \$1.80, Three \$5.15, Doz. \$18.00

(8.7) No red Peony ever won favor so quickly as Mary Brand. Always found among the winning reds in every show room. Comes into bloom with Frances Willard. Color so distinct it is easily recognized by amateurs, no matter how often they find it in our fields. A red in which there is little trace of purple. One of the most satisfactory reds as a cut flower as it will last a week if cut in the bud.

Monsieur Martin Cahuzac

Each \$2.50, Three \$7.15, Doz. \$25.00

Dark purple-garnet with black reflex. One of the darkest Peonies. Globular semi-rose type, strong grower, free bloomer, dark green foliage with red stems. Blooms midseason. This is the darkest of the red Peonies.

Philippe Rivoire

(9.2) A very bright rich crimson coming into bloom late midseason. The beautiful form of this flower and its uniform soft rich color make it a flower loved by all who see it. This is a fine show flower and is absolutely void of stamens. It has a pleasing fragrance and is the highest rated of any red Peony.

ed Rocket Each \$1.80, Three \$5.15, Doz. \$18.00 A large bomb-type brilliant red. A good performer, very free flowering, produces long stems, and is a good cut flower as well as garden variety. A fine new red with great substance. Red Rocket

Pink

Martha Bulloch

Each \$2.00, Three \$5.70, Doz. \$20.00

Mammoth cup-shaped blossoms often 9 to 12 inches across. The largest of the good Peonies. Deep rose-pink in the center shading to silvery shell-pink in the outer petals. Stalks strong and erect.

Minuet

Each \$2.50, Three \$7.15, Doz. \$25.00

A very large, full rose type, color is a most pleasing pure light pink. The stems are stiff, it is a strong grower producing many flowers. A good cut flower with splendid keeping qualities.

Mons, Jules Elie

Each \$1.50, Three \$4.25, Doz. \$15.00

(9.2) A beautiful silvery pink. Broad reflexing guards with a high pyramidal body of semi-quilled petals converging to an apex. One of the largest, handsomest and most lasting cutting sorts in existence.

Mrs, Franklin D. Roosevelt

Each \$3.50, Three \$9.75, Doz. \$35.00

This lovely pink has attracted as much attention as Mrs. F. D. R. herself. It is truly a fine introduction of a deep Therese-pink with extremely long, overlapping, cupped petals which enfold a real rosebud center. Good substance, keeps well. Gold Medal Award Winner, 1948. Early to midseason blooming.

Myrtle Gentry

A beautiful deep pink that forder.

Early to midseason blooming.

Myrtle Gentry

A beautiful deep pink that fades to a light flesh with age. Delightful Tea Rose fragrance. Perfect form, nicely rounded petals through which tints of flesh and salmon show. Late flowering and very free blooming.

Ozark Beauty

An exquisite radiant dark pink in compact rose type. A free bloomer on heavy stems, blooms late. Received honorable mention National Peony Show, 1950. One of the good late bloomers.

Sarah Bernhardt

(9.0) Apple-blossom-pink, very free blooming and flowers of perfect form on graceful stems. This is the ideal pink cut flower Peony.

Walter Faxon

(9.3) Semi-rose type; midseason. A very distinct, delicate rose colored flower. Tall, free bloomer. Those who know this variety consider it one of the best pure pinks.

PEONIES IN MIXED COLORS

PEONIES IN MIXED COLORS

Three \$2.50, Six \$4.50, Doz. \$8.00 This mixture is a choice one. It contains many varieties in a wide range of colors and forms. Each season small quantities of a great many kinds are left. These are put together along with several other varieties of which we have a surplus. A real buy for good cut flowers and lots of color.

Martha Bulloch Festiva Maxima Mary Brand

Peony Collection No. 5 One Each of the 3 Varieties Illustrated Above Carefully Labeled for \$4.50

## Paeonia Moutan - Chinese Tree Peonies

One of the choicest plants available for the garden. Quite hardy, and does well under the simplest treatment. It flourishes in the most astonishing manner, bearing blossoms from 6 to 8 inches across, which increase every year in beauty and size. A grand addition to the garden, as they do not die down to the ground like the herbaceous sorts, but make fine bushes 3 to 4 feet in height covered every spring with elegant flowers.

Culture. It is advisable to avoid wind-swept locations and to protect the early bloom buds in case of late spring frosts. The south or east side of a planting of evergreen shrubs, wall or building is a very good location for Tree Peonies. Mulching is advisable the first winter after transplanting. Apply mulch of light material after ground is frozen solid. Any good, well drained garden soil is satisfactory. Never cut back woody branches. branches.

4-Year-Old Plants, Ready to Bloom

Beauty de Twickel Each \$9.00
A magnificent variety. Crimson blossoms with darker center. Presents a bold display in flower border.

Large single, two rows of petals. Fuchsine-pink with gentle flush of lavender. Large center of loosely placed yellow stamens adds to informal charm of this flower. Beni Chidori

Diamond Large flowers of a brilliant rose shade. A particularly desirable color for added interest in your garden.

Fragrans Maxima Plena Each \$9.00 Fragrant flowers which are fully double and clear salmon. This is one of the best of the deep pink kinds and a great favorite.

Each \$10.00 Nearly full double blossoms of pure white with clusters of yellow stamens nested in center provide striking white and gold combination. Tips of petals ruffled. Flowers are of great size. It is one of the finest of the white Tree Peonies which are so much sought after.

Each \$9.00 Higurashi The many crimson blooms make this a very showy variety. L double flowers of this vivid color provide a beautiful effect Large, semi-

Jitsu Getsu Nishiki Each \$9.00 A beautiful variety with nearly full double flowers of a purple-red shade. Petals are tipped white, making a fine contrast. Very large, double, salmon-rose-pink blooms. One of the largest flo ered Tree Peonies. Makes a particularly fine display in the garden.

Mme. Louis Henry
One of the Lutea Hybrids. Fragrant, beautiful, cup-shaped flowers of buff-pink shaded salmon. A highly desirable variety which broadens the color range of Tree Peonies. Each \$12.00

Mount Vesuve Each \$10.00

A bright and handsome flower, beautifully formed and fully 6 inches across. Heavily petaled, rose-red at base, softening to lovely shade Tyrian-rose, with highlights of coral. An unusually "lively color."

Each \$9.00 A fine flowering variety with rose colored blossoms.

Each \$9.00 Nishiki No Tsuyo Lovely bright rose-red flowers with two rows of petals. The long, frilled and ruffled petals give this a most artistic appearance.

Regina Belgica Each \$9.00 large, flesh-pink, handsomely shaped flowers of great size, free bloomng. Grows into a fine plant which produces many flowers and increases beauty as it grows older and bigger.

Flowers are immense; vivid salmon-pink. A favorite which has earned its place as one of the best fully double varieties. For "the first" Tree Peony in your garden, or as a valuable addition, Reine Elizabeth should not be overlooked. Reine Elizabeth

Souvenir de Ducher Clear violet, immense flowers on a vigorous plant. Makes a brilliant display, a most unusual variety. Very rare color.

Each \$20.00 Souvenir de Maxime Cornu Large, fully double blooms of deep Empire-yellow. Petals neatly placed in rows, forming a crest at center. Edge of each petal tinted and gently flushed claret-rose, almost appears to be lighted from within.

Each \$9.00 An artistic beauty, semi-double to double blossoms. Light pink shading to purple-red at center.

Each \$20.00 Very heavy double flowers, the ground color of which is yellow but heavily veined with cochineal-red as well as vermilion stripes. When in bloom it is truly a surprise!

Tama Fuvo One is immediately impressed by the delicate freshness of this variety. Blooms are semi-double, light rose-pink, deepening at center to rhodamine-pink. Large, heavily clustered petals at center. An A-No. 1 variety

A fire variety producing salmon-red blossoms which have made it a very popular variety. Wilhelmine

Yachiyot Subaki Beautiful shade of phlox-pink shading to soft Neyron-rose at tips. Long petals are ruffled and fringed at edges giving this a most artistic appearance. Haunting fragrance, not soon forgotten, and for clearness of color, this is unsurpassed.

Yae Zakura Each~\$9.00 Cerise-pink, fully double flowers which provide a brilliant splash of color in the garden.

Yaso-No-Mine aso-No-Mine

Each \$10.00

Large, double flowers of the purest white, growing on strong, upright stems. We believe this to be the very finest white. Grows into strong bushes and is exceedingly free flowering. A variety we have spent many years increasing; it will be a show piece in anyone's garden.

#### JAPANESE TREE PEONIES

Choice Kinds Without Names

These are magnificent kinds. Some were never given a name, while names were lost off others. All guaranteed to be choice plants.

There exists great confusion in the names of Tree Peonies from the Orient. Hundreds of seedlings have been given names of varieties already in use because they looked like them. It is for this reason, we say under most of the illustrations "similar to." In every instance, they are beautiful, free - flowering and hardy kinds of great beauty. Varieties with European names are more reliable as to trueness and in most instances can be fully depended on to be the true variety.

Tree Peony,

Mount Vesuve [56]

### SINGLE AND ANEMONE - FLOWERED PEONIES

Anemone-flowered Peonies are of extra wide spread, with one or more layers of broad guard petals which act as a cup to the mounted center. In place of the pollen-bearing stamens, the stamens and anthers are greatly enlarged into narrow, thick, twisted petaloids of various colors, forming a dense cushion. They produce an enormous amount of flowers, creating a riot of color in the garden and are superb for cutting, lasting longer than the double flowered varieties.

Each \$2.75, Three \$7.85, Doz. \$27.50 Deep pink with all yellow petaloids on extra fine plant. Very strong growing and produces an abundance of flowers. Superb for garden use as well as for cutting. Alstead

ani-Gidui Each \$4.50, Three \$12.50, Doz. \$45.00 Pure white with golden center; resembles a large, white Poppy. Isani-Gidui

Jeanne Lepandry Each \$3.00, Three \$8.50, Doz. \$30.00 Glittering pure white. A most lovely and desirable variety; reminds one of a cluster of Water Lilies. Good, strong grower.

ewanee Each \$2.50, Three \$7.15, Doz. \$25.00

Dark red single flowers, brilliant and unfading, with fine clusters of yellow stamens. Plant erect in growth, requiring no staking. Blooms last long on the plant and for cut flowers. Outstanding and artistic.

Each \$1.50, Three \$4.25, Doz. \$15.00 Light salmon-pink, two rows of petals, pure golden center. Large flowers. A very fine variety.

Single Flowered Peony, Krinkled White

rinkled White Each \$4.00, Three \$11.00, Doz. \$40.00 A large single flower with great, broad, pure white petals like crinkled crepe paper. Undoubtedly the best single white. Won best single white at American Peony Show, 1949, and has been a consistent award winner

Etincelante Each \$1.50, Three \$4.25, Doz. \$15.00 Semi-double to single in appearance with petals deep rose, inner petals pale rose, white at edges, golden crest of stamens. Large blooms, in clusters of 4 or 5 on one stem, a bouquet in itself. A very showy variety for the garden and handsome as a cut flower.

Each \$1.80, Three \$5.15, Doz. \$18.00 A rich red with long, rounded petals of brilliant red surrounding a great dome of golden staminodes. Exceedingly brilliant.

Each \$2.50, Three \$7.15, Doz. \$25.00 Nippon Beauty A late, rich deep garnet-red. Center petaloids are garnet-red edged with golden yellow. A strong grower and a free bloomer. An excellent variety that is always admired. Makes a superb show in the garden and is lovely

Westerner Each \$5.00, Three \$14.00, Doz. \$50.00 Guard petals very large and of a beautiful shade of light pink. The center is filled with yellow staminodes that are extremely firm and erect. The cup-shaped form is gracefully poised and held rigidly erect. One of the finest Japs, a thrill to all who see the flower in the garden or vase.

#### PAEONIA OFFICINALIS (Early Peony)

Officinalis Albo-Plena Each \$2.00, Three \$5.70, Doz. \$20.00

fficinalis Rosea Fl.-Pl. Each \$2.00, Three \$5.70, Doz. \$20.00 Brilliant deep rose-pink fragrant flowers; one of the earliest to Officinalis Rosea Fl.-Pl.

fficinalis Rubra Fl.-Pl. Each \$2.00, Three \$5.70, Doz. \$20.00 The old-fashioned early red, that even in our latitude blooms before Decoration Day. Officinalis Rubra Fl.-Pl.

#### PEONY OFFICINALIS HYBRID

Each \$2.50, Three \$7.15, Doz. \$25.00 eritas Edch \$2.30, Three \$1.13, Do2. \$23.00 Unusual type of bloom, narrow center petals, pointed, with yellow stamens fastened to the edges of some, and other stamens forming a yellow center. A very brilliant dark red, glistening and enduring like varnished mahogany. Early and a very strong grower.

#### PAEONIA TENUIFOLIA

enuifolia Flora-Plena Each \$3.00, Three \$8.50, Doz. \$30.00 A rare and early flowering variety especially noted because of its fine fern-like, lacy foliage. Among the first to bloom with medium sized, brilliant, dark red, double flowers. It is not wise to ever cut the flowers with long stems if you want your plants to develop into nice specimens. Better consider this as one of your choice garden gens. Tenuifolia Flora-Plena garden gems.

Longfellow (See page 55)

# Papaver Orientale - (Oriental Poppies)

Oriental Poppies are the royal representatives of this popular family. They have shown a remarkable increase in public lavor in recent years because so many new and better colors have been added. Rich tints of rose, salmon-pink, white and lavender, as well as Indian-copper-red are now available besides the brilliant reds. Growing 3 to 3½ feet in height, they contribute a rare splendor of bloom throughout the late spring. Plant them singly or en masse; they have a way of dominating, by their gorgeous display of rich and bright coloring and the splendor of blooms, that portion of your garden where they

They flower in May and June, at which time their sheer burst of vivid and brilliant colors render them without an equal.

Large pure white flowers with purplish black spots. This is a free blooming and healthy grower.

Cerise Beauty Each \$1.00, Three \$2.80, Doz. \$10.00 Distinct cerise-pink flowers on stems of medium height, often 8 to 10 stems per plant, make this an outstanding variety. You will like it for its brilliant coloring and fine habit.

Each \$1.25, Three \$3.50, Doz. \$13.00 Large massive and substantial flowers of oxblood or spectrum-red on rigid, tall, 42-inch stems. This fine red variety is an Australian introduction and is the best in this color without a doubt.

Frimson Pompon (Double)

Each 90c, Three \$2.50, Doz. \$9.00
Blood-red, pompon-like flowers, fully double. The first double Poppy in a really red shade. It is of medium height, multiplies readily and flowers very freely. This is a Dutch introduction of which we were fortunate in obtaining a few plants just before the war and now have sufficient stock available for introduction. You'll want to add this to your collection. The first Poppy to bloom in spring. Crimson Pompon (Double)

**Idelen Elizabeth**Each 90c, Three \$2.50, Doz. \$9.00

Considered by many as the best pink. It is a rugged grower. The straight 34-inch stems are topped by La-France-pink flowers without dark spots. We also think it one of the best.

Henri Cayeux Improved

Each 90c, Three \$2.50, Doz. \$9.00 Much larger flowers than Henri Cayeux but otherwise similar. The big blooms are a peculiar tint of ashes of roses or an old rose shaded burgundy. If grown in light shade this flower really comes to perfection.

hadian Chief Each \$1.25, Three \$3.50, Doz. \$13.00 Larger than the old favorite and a much better grower and more free blooming variety. This beautiful mahogany color is badly needed and for that reason the old Mahony was always in demand. We have now discontinued this and are introducing Indian Chief in its place. It grows well, blooms freely, and its flowers are distinct and hand-some Indian Chief

Salmon Glow (Double)

Each 90c, Three \$2.50, Doz. \$9.00

A fine double salmon-orange not to be confused with Olympia. The flowers are exceptionally large, fully 8 inches across. It is a Dutch origination and selected for the Wisley trials. It received a First Class Certificate in Holland and is spoken of as a beautiful double salmonorange. Strong, upright growing Poppy.

alome Each \$1.25, Three \$3.50, Doz. \$13.00

Here is a real beauty. The nicely formed flowers are colored a beautiful French rose. A plant in flower makes a showing you will not soon forget. There are so few flowers of this color, we feel sure this will be a favorite with all gardeners.

onate

Each \$1.25, Three \$3.50, Doz. \$13.00

Beautiful soft camellia-rose flowers in great numbers grace this variety in early spring. Large in size, pleasing in color, it stands out among the Poppies as one of the choice ones. A rare shade of clear, deep rose-pink we have never seen in Oriental Poppies before.

Vivid poppy-red with copper tinting. Its huge flowers are flamboyant and commanding. It is a rugged grower and free blooming. This will be a popular variety in the years to come and well worthy of being in this collection.

Each \$1.25, Three \$3.50, Doz. \$13.00 Brilliant watermelon-pink flowers of extraordinary size make a wonderful showing in spring. No other color in Poppies is like it and few Poppies produce as many flowers or last as long. Here is a variety to make your mouth water.

Each \$1.25, Three \$3.50, Doz, \$13.00 A brilliantly colored Poppy, bright saturn-red with golden glow. Outstanding in color, vigor and bloom. There is nothing like it. Shows up brilliantly in the garden.

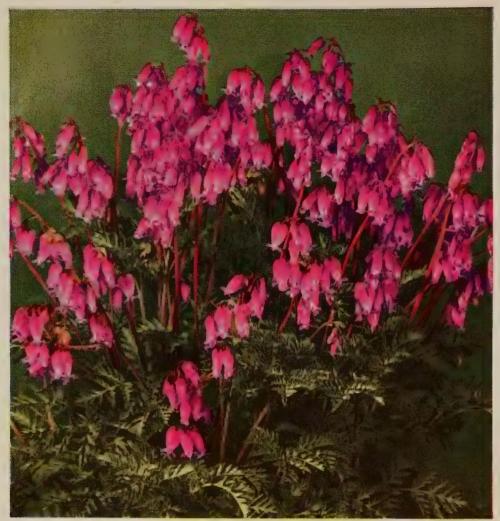

urprise Each \$1.25, Three \$3.50, Doz. \$13.00 Giant flower in unusual quantities of the brightest vermilion-red which is enhanced because of the pronounced blue-black, round spots at the base of the flower. Its rich clear color is not matched by the older varieties.

Each \$1.25, Three \$3.50, Doz. \$13.00 This new Poppy is liked by everyone who sees it. The flowers are 6 to 7 inches across and about three shades deeper in color than Wunderkind, grow on 30-inch stems and flowers are produced in liberal quantities. Here is a charming Poppy and again in a really worth-while color addition.

Mixed Colors of Oriental Poppies Three \$2.00, Doz. \$7.25 This is a fine mixture including several unnamed hybrids as well as most of the varieties we list.

Culture: Almost any kind of soil suits them, but they do best in deep, rich loam. Set the plants out in the fall or early spring before the first of May, 12 inches apart. Give them water occasionally during dry spells in the early part of the season.

Dicentra, Bountiful—One of the most unusual and free flowering plants ever introduced.

Veronica, Pavane
Each \$1.00, Three \$2.80, Doz. \$10.00
This new English introduction will be well received over here. Its lovely 18-in. spikes are rigidly erect and of a fine shade of clear pink. It has performed beautifully at our nursery where it flowered from late June and throughout August. Up to 20 spikes on one plant. Like Barcarole, it withstands heat and drought well and is of easiest culture.

Veronica, Minuet
Each \$1.00, Three \$2.80, Doz. \$10.00
Its silvery gray foliage and dusty pink spikes of flowers make this one of the outstanding Veronicas. In bloom in July and August, it gives a beautiful cool effect. The flowers and foliage of this fine plant are so distinct one cannot miss it. It is easy of culture; perfectly hardy and free blooming. All it asks is a sunny place. Height about 15 inches.

# Dicentra Hybrid Bountiful

(U. S. Plant Patent No. 1198)

The New Perpetual Flowering Bleeding Heart

This is a remarkable Hybrid, in a robust way resembling the Plumy Bleeding Heart (Dicentra Eximia) but vastly superior. It forms a clump fully 18 inches in diameter, of handsome dark blue-green foliage, about 10 inches high. The flowers appear in early May and as many as 30 to 40 flower stems can be counted on a 2-year established plant. Stalks are about 18 to 20 inches tall and topped with fuchsia-red flowers which are about double the size of the common Plumy Bleeding Heart. It comes into bloom before Dicentra Eximia and the flowers last well into July. Throughout the summer a few flowers are produced; but in the early autumn, it blooms as freely again as it did in spring. Perfectly hardy, does well in any well drained soil and prefers sun to shade. As we said before, a remarkable plant with a great future, we predict it will, before long, be growing in most of the gardens in this country. Happy in either light shade or in full sun but if grown in shade the rich color fades and becomes several shades lighter.

\*\*Each \$1.25, Three \$3.50, Doz. \$13.00\*\*

## Veronica

3 New English Veronica Spicata Varieties of Exceptional Merit and Freedom of Bloom

#### NEW VERONICA COLLECTION

1 Each of the 3 varieties illustrated for \$2.50 3 Each of the 3 varieties illustrated for 7.00

Veronica, Barcarole

Each \$1.00, Three \$2.80, Doz. \$10.00

It grows compactly to about 10 inches. The flower spikes are solidly covered with deep rose-pink flowers. Vigor and freedom leave nothing to be desired. It produced over 20 spikes on 2-year-old plants. Flowers are from late June until the end of August. This new English Hybrid bids well to become a great favorite border plant in this country.

1607

# Phlox Decussata - Hardy Phlox Indispensable Summer Flowering Garden Plants

Prime Minister

Africa

Sir John Falstaff

White Admiral

# Phlox Decussata - Hardy Phlox

The Most Desirable of All Hardy Plants

Search where you will, say what you will, after all is said and done, Phlox still holds its head highest as an indis-

pensable in every garden from coast to coast.

None other has so many desirable attributes or adapts itself so happily to all gardens. Do you know of any that give an equal in showy, colorful blooms? What other hardy plant needs as little attention or grows as prolifically and flowers so long? What one of your garden friends blooms so long through the hot summer months?

To grow Phlox well, soil should be well drained, deeply spaded, and enriched with Wayside Gardens Plant Food. Planting may be done in fall or spring in a sunny place. Set plants 12 inches apart. Lift and divide every 4 or 5 years or when they become crowded. Avoid watering overhead, try and keep blooms and foliage dry, letting hose run slowly on ground. This method of watering prevents mildew.

#### RED AND DARK RED SHADES

frica Each 75c, Three \$2.15, Doz. \$7.50, 100 \$45.00 Brilliant carmine-red with blood-red eye. Well shaped flower heads composed of large florets. Good strong stems.

ugusta Each 80c, Three \$2.25, Doz. \$8.00, 100 \$50.00 The finest American-Beauty-red Phlox ever introduced. A strong growing plant of medium height, about 2½ feet when fully grown, with rich, bronzy green foliage and stem. Color is best described as a brilliant cherry-red. The young florets at opening show a decided amount of orange. The color remains perfect under all weather conditions. Augusta is a beautiful vivid colored variety of exceptional growth and qualities.

arvest Fire Each 80c, Three \$2.25, Doz. \$8.00, 100 \$50.00 A tall growing Phlox with mammoth fiery red flower heads. The large florets are 1½ to 2 inches across. Clear, healthy foliage. Long bloomer and the flowers are long-lasting. Bottom branching type, growing 30 inches tall

**Each** 80c, Three \$2.25, Doz. \$8.00, 100 \$50.00 Seldom has one seen a shade of red such as produced by this fine Phlox. Its brilliant scarlet blooms seem to glow with fire. This impression is heightened by the fact that there seems to be a decided orange cast to the blooms. Of splendid habit, about 3 ft. high with full rich heads of bloom.

#### LIGHT RED SHADES

rigadier Each 90c, Three \$2.50, Doz. \$9.00, 100 \$55.00 A variety of English origin, has excellent qualities and is a good grower and blooms freely. The large flower heads are a most unusual and pleasing red with claret-pink shading. The eye is small and clear red. A brilliant flower in the border.

right Eyes Each 75c, Three \$2.15, Doz. \$7.50, 100 \$45.00 This is a seedling of the well known Daily Sketch and possesses its parent's fine quality. The florets are extraordinarlly large, possibly the biggest of any Phlox and amazingly brilliant red with dark eyes or centers. Bright Eyes makes a great show and is conspicuous for its size and magnificent color.

harles Curtis Each 80c, Three \$2.25, Doz. \$8.00, 100 \$50.00 The most brilliant Phlox in cultivation. The color is outstanding and difficult to describe. Sunset-red probably comes nearest to it. It is a fine strong grower about  $2\frac{1}{2}$  to 3 feet tall, has good clean foliage. The flower head is large and unusually clear and sparkling due to the fact that the flowers do not discolor in the sun or fade with age. Phlox Charles Curtis in our opinion is the finest of its color.

**ignal** Each 90c, Three \$2.50, Doz. \$9.00, 100 \$55.00 Well named; its flowers are of the brightest light fiery red, rich in color. A European introduction which has done very fine over here. It is a good grower; flowers very freely.

#### DEEP PINK AND ROSE-PINK SHADES

Duchess of Gloucester Each 90c, Three \$2.50, Doz. \$9.00, 100 \$55.00. A beautiful variety of recent introduction. Flowers are salmon-pink in big clusters. It is particularly valuable because it is late flowering as well as very free blooming. Considered in England one of the best pink Phlox and we are inclined to agree with them.

Daily Sketch Each 75c, Three \$2.15, Doz. \$7.50, 100 \$45.00 Extra large trusses—large and individual florets. Color is light salmonpink with crimson-rose eye. Viewed from a short distance, the effect is a magnificent rose Phlox. Daily Sketch is an outstanding variety. It is robust and rugged in growth and about 31/2 feet high.

osa Spier Each 90c, Three \$2.50, Doz. \$9.00, 100 \$55.00 A very free flowering novelty of strong and sturdy growth. The flowers are soft pink with bright crimson eye in big clusters of large individual flowers. In favorable locations, the plants will produce a dozen or more stalks, 5 to 6 feet tall. A beautiful and bold variety of great merit. Named after the world famous Dutch harpist.

almon Beauty Each 80c, Three \$2.25, Doz. \$8.00, 100 \$50.00 Rich salmon-pink with white eye. There are many Phlox of this general color, but when all is said and done, we believe Salmon Beauty is one of the first on the list in this shade.

ir John Falstaff Each 95c, Three \$2.70, Doz. \$9.50, 100 \$57.50 A giant among Phlox and one of the most outstanding varieties we have seen. Color is a rich luminous salmon-pink, one of the loveliest colors in the floral pageant of summer. Individual "pips" are large, about 176 inches in diameter. The flower truss is truly massive—there is no other Phlox comparable in size. Sir John Falstaff has a first-class habit and a constitution as befits the name—robust, vigorous, with sturdy stems and bold substantial foliage. And as to growth—it is one of the most accommodating we know. Height 24 to 36 inches depending on soil conditions. Sir John Falstaff

weetheart Each 75c, Three \$2.15, Doz. \$7.50, 100 \$45.00 Its soft salmon flowers create a fine clean effect of pink. The eye is quite pronounced, strengthening the color. There are no magenta tints at any time, just a clean, pure salmon-pink. A rugged grower and free bloomer. Height about 3 feet.

#### LIGHT PINK SHADES

olumbia Each 80c, Three \$2.25, Doz. \$8.00, 100 \$50.00 The finest light pink Phlox ever introduced. The color suggests a delicate cameo-pink with faint blue shading at center. The clearness of tone is given to this wonderful plant. As the flower ages, the blooms always retain their delicate pink shade; there never are any magenta tones visible. Out of each leaf joint grows a lateral or secondary flower spike continuing the display of blooms long after the main flower head has disappeared. Columbia is well called the "perpetual flowering" Phlox.

lizabeth Arden Each 80c, Three \$2.25, Doz. \$8.00, 100 \$50.00 A fine Phlox, particularly desirable because of its free flowering qualities. Heavy bloom trusses are soft rhodamine-pink with a pale pink ring around the red eye. Grows about 24 to 30 inches high.

The florets are soft, delicate pink, very pure and lovely. This unusual coloring is heightened by the fact that the little narrow tubes which fasten the florets to the stem are clear, deep pink. Flower heads large. It is a good grower and combines beautifully with Columbia and Rosy Blue.

#### WHITE AND WHITE SHADES

lary Louise Each 75c, Three \$2.15, Doz. \$7.50, 100 \$45.00

Pure white heads of unusually large size, reminding one of Carrara marble; the individual flowers are big. Perfectly beautiful; unquestionably one of the best whites. A good grower with clean foliage and a prolific bloomer. Of medium height. Mary Louise

Prime Minister Each 90c, Three \$2.50, Doz. \$9.00, 100 \$55.00 A new Phlox from England where it rates very high and so it does with us. Big clusters of pure white flowers with bright crimson eye make a real splash of color in the garden. It is a fine, healthy, strong grower, and replaces the old variety Europa.

White Admiral Each 90c, Three \$2.50, Doz. \$9.00, 100 \$55.00 Beautiful big heads of bloom like great mounds of snow. Here is a brand new white Phlox guaranteed to bring more beauty to your garden. It produces enormous pure white heads and the continually breaking side branches give an excellent late bloom. Reaches a height of 2 to  $2\frac{1}{2}$  ft. and blooms profusely in July and August. It is delightfully fragrant.

#### LILAC AND LAVENDER SHADES

Progress Each 75c, Three \$2.15, Doz. \$7.50, 100 \$45.00 Superb light blue, handsomely set off with deeper purple-blue eyes. Extremely large flower heads with 11/2— to 2-inch florets. Different climates have an interesting effect on the particular hue the flowers display. Rich dark green foliage. Height 21/2 feet.

osy Blue Each 75c, Three \$2.15, Doz. \$7.50, 100 \$45.00 Soft lavender-blue with delicate pink undertones have created here one of the finest of Phlox. There never is at any time a sign of objectionable tinting. Rosy Blue is one of the finest in this color grouping. The florets are large and grow in fine big clusters. The plant is vigorous.

#### PLUM AND PURPLE SHADES

Blue Boy Each 75c, Three \$2.15, Doz. \$7.50, 100 \$45.00
Blue Phlox just do not exist. In semi-shade, however, certain varieties develop good blue tints, So far Blue Boy is the nearest to dark blue we have been able to come. Planted with Mary Louise a stunning contrast is made. Blue Boy is a good grower and of medium height.

Each 75c, Three \$2.15, Doz. \$7.50, 100 \$45.00 The individual flowers are large and are carried in good size trusses. The color is a brilliant, live shade of deep blue-purple intensified by a darker center given sparkle by the dainty cream colored anthers.

## Phlox Suffruticosa - Early Phlox

liss Lingard

Each 80c, Three \$2.25, Doz. \$8.00

Has beautiful, long, shiny green foliage and is absolutely free from disease. It flowers from early June until October with large heads of white flowers with faint pink shading in center. The best early white Phlox.

eine du Jour Each 85c, Three \$2.45, Doz. \$8.75 Very early blooming. Pure white flowers with brilliant red eye. A cheerful and attractive flower. Very small. A very fine Suffruticosa variety which blooms several weeks earlier than the popular Decussata kinds. Reine du Jour

Phlox Species

Livaricata canadensis

Each 80c, Three \$2.25, Doz. \$8.00

One of our native species, worthy of extensive planting, blooms from early in April through May, with large, fragrant, lavender flowers on stems 10 inches high. In spring this plant is sold in pots to insure best results; in fall field-grown plants are best. Like shade. Very attractive in combination with Tulips or other early spring-flowering bulbs. Divaricata canadensis

# Hardy Herbaceous and Alpine Plants

This is not a complete listing of all the Hardy Plants grown at Wayside Gardens. At this time we offer only those varieties and kinds which do best when transplanted in the autumn.

\* Indicates plants suitable for either rock garden or border.

\*\* Dwarf or low growing plants best grown in the rock garden.

#### ACHILLEA - Milfoil or Yarrow

Showy rock and border perennials, some of which are valuable for cut flowers. Some have silvery and others elegantly cut foliage, which adds considerably to the beauty of the plants.

**Culture.** All will succeed in any good, ordinary soil in sunny borders. A too rich soil should be avoided. Plant in autumn or early spring, 8 to 10 inches apart. As nearly all grow freely, it is advisable to lift, divide, and replant every third year. Directly after the plants cease flowering, cut the shoots back.

Ageratifolia (See Anthemis Aizoon)

tarmica, Snowball

An improvement on "The Pearl," which we have discontinued, with fuller and more perfect flowers. Best for borders; neat plant. Excellent cut flower. Ptarmica, Snowball

Aggetea Each \$1.00, Three \$2.80, Doz. \$10.00 A splendid plant for hot dry sunny places. Does well in the most indifferent soils. The pale yellow flowers grow on 18-inch stems which are produced in great profusion from June until the end of September. Excellent cut flowers as well as a first rate border plant.

Forenation Gold Each \$1.10, Three \$3.00, Doz. \$11.00 A splendid border plant which flowers from June to well into September. Its rigid stems are 3 feet tall, require no staking and are topped by large convex umbels of golden flowers. It is a fine improvement over the variety Gold Plate. Trouble free and hardy anywhere, makes it a No. 1 garden plant with good foliage.

#### AJUGA - Bugle

Dwarf, creeping perennials. The leaves are a rich shiny green, and the shoots more or less creeping. Excellent plants for edging or carpeting bare spots. Suitable for sun or shade.

Culture. They will thrive in good, ordinary soil in sun or partial shade. They make excellent edging plants in shady borders or for shady spots in the rock garden where a quick growing plant is required, also excellent for carpeting ground under shade trees where grass will not grow. Plant in autumn or spring, 6 inches apart.

Three \$2.15, Doz. \$7.50, 100 \$45.00, 1000 \$400.00 Grows 3 to 4 inches high; dense spikes of blue flowers in May and June. A neat ground covering plant for shady as well as sunny places.

Three \$2.15, Doz. \$7.50, 100 \$45.00, 1000 \$400.00 This is the bronze-leaved form. It is most interesting if small patches of it are planted between the green variety. It also is a fine ground cover in front of yellow Tülips or other yellow flowers. While it grows freely in shade, it does exceedingly well in full sun where its foliage takes on a richer color. Flowers are deep blue and it grows most anywhere

#### ALYSSUM - Madwort; Basket of Gold

AltysSUM - Madwort; Basket of Gold

Attractive early flowering perennials, suitable for growing on the margins of sunny borders or in sunny places in the rock wall or rock garden.

Culture. The varieties offered will succeed in any good, ordinary soil which must be thoroughly drained. They are best grown in groups of three or more in the rock garden, or as edgings to beds. Plant in fall or spring, about 6 to 8 inches apart. Alyssum Saxatile is frequently used for carpeting beds planted with spring bulbs, and is very effective for that purpose.

\*Saxatile compactum

Each 70c, Three \$2.00, Doz. \$7.25

Big clusters of bright yellow flowers in early spring, An excellent plant for the rockery or front of borders. One of the best early yellow plunts to use with Tulips; 12 inches high.

Same habit of growth as Saxatile Compactum but the flowers are a lovely pale yellow; much more desirable. They blend beautifully with pink and lavender Tulips and are outstanding in the spring garden or \*Saxatile citrinum

#### ANTHEMIS - Chamomile

Free flowering perennials with elegantly cut foliage and Daisy-like flowers. Suitable for edgings or grouping on the margins of borders. Flowers are especially fine for cutting.

Culture. Ordinary soil and a sunny position will suit all kinds. Plant in autumn or spring, 10 to 12 inches apart.

Lach \$1.00, Three \$2.80, Doz. \$10.00

Also called Achillea Ageratifolia. One of the prettiest of mountain Chamomiles. About 6 inches high. Fine silvery foliage with small, Daisy-like white flowers. Charming effect in dry locations. An easily grown plant.

Beauty of Grallagh Each \$1.00, Three \$2.80, Doz. \$10.00 eauty of Grallagh Each \$1.00, Three \$2.80, Doz. \$10.00 Introduced in Europe several years ago, it has become one of the most popular border plants. It forms a huge bouquet of several hundreds of golden flowers. Grows  $2\frac{1}{2}$  feet high and 2 feet through. It is an ideal border plant par excellence for cutting. It is perhaps as a cut flower that Beauty of Grallagh will most appeal. The flowers are borne on stiff, wire-like stems and last over three weeks when cut. It is in full bloom from early June till September. Absolutely hardy anywhere. Loves sun and a well drained soil.

**Each \$1.00, Three \$2.80, Doz. \$10.00**Few plants are more satisfactory in the garden than Anthemis Moonlight. Its pleasing pale yellow Daisy-like flowers are  $2^{1/2}$  inches in diameter and produced by the hundreds, making a gorgeous show in early summer. They are superb for cutting and the handsome flowers last for several days in water. They blend beautifully with all other flowers. The hobit of growth is neat. Insects do not bother it, grows in almost any kind of soil, does not spread unduly and crowd out other plants. The foliage is ornamental. Not much more can be asked of any plant.

#### ANCHUSA - Alkanet

Stately and handsome herbaceous perennials belonging to the Forget-menot order. It is difficult to imagine a more beautiful plant than a well grown
specimen of a Dropmore when in flower. The leaves are hairy and silvery
green and the brilliant blue flowers are borne in racemes on branching

stems. **Culture.** Anchusas require a deep, well drained soil, not too damp or heavy, and a sunny position. They are best grown singly, so that they can display their natural contour to good advantage. Plant in fall or early spring, 18 inches apart, except Myosotidiflora, which should be planted in groups of three or more, about 8 inches apart.

#### NEW ANCHUSA, LODDON ROYALIST

(Plant Patent Applied For)

A magnificent form of the well known Anchusa Dropmore. Plants are of medium height and bushy, loaded with superbly fine purple-blue flowers of unusually large size. It is an English introduction and was shown for the first time at the Chelsea Show in 1957 when it was unanimously awarded a first class certificate, something which rarely ever happens. For a spot of startling blue in your garden this is a "must." Here follows the report of one of England's best garden writers on the subject:

on the subject:

on the subject:

"Those who, like me, detest having to support their perennials by means of stakes or other artificial support, and those who garden in windswept areas, will extend a warm welcome to the new Anchusa which made its debut at the 1957 Chelsea Show. A. LODDON ROYALIST promises to be one of the outstanding novelties among hardy perennials of recent years. It grows no more than 3 feet high and carries its multitudes of large luminous blue flowers on sturdy, freely branching stems. Its raiser, who has introduced many good plants, rates this as one of the very best of them all. I have watched this excellent plant progressing through its trials and feel that it has an assured future. It was well launched, with a unanimous, and for once, thoroughly deserved Award of Merit and is definitely a plant to be obtained."

\*\*Each \$1.50, Three \$4.25, Doz. \$15.00

A distinct dwarf perennial from Russia, with clusters of charming blue flowers resembling Forget-me-nots. An effective plant for shady or sunny places, flowering in May and June. 12 inches high. Hardy as an Oak. Grows anywhere. \*Mvosotidiflora

GIANT-SPURRED AQUILEGIAS

A magnificent strain of Columbines, very large flowers with long spurs, robust growth and rich colors. A great step ahead in Columbines. The following colors are now available:

Giant Pink Hybrids Each 80c, Three \$2.25, Doz. \$8.00 A variety of lovely shades of pink.

Giant Yellow and Copper Hybrids Each 80c, Three \$2.25, Doz. \$8.00 arious shades and tones of yellow.

Giant Blue Hybrids Fine shades of blue. Each 80c, Three \$2.25, Doz. \$8.00

IcKenna Hybrids

A mixture of all colors and shades, many not seen before. Long spurs and beautifully colored as well as good strong growers. They are the best of their kind and are an "All-America Seed Selection first."

### ARABIS - White Rock-Cress

Useful plants, suitable for forming edgings to beds and borders, and

obserul plants, Suitable for forming edgings to beds and borders, and fine for rockery or dry wall.

Culture. Any good, ordinary soil that is not too damp will suit the Arabis. Plant 6 inches apart in autumn or spring. After the flowers have faded cut the straggling shoots back moderately to encourage a new tufted growth. Do well in either shade or full sun.

lpina  $Each\ 70c,\ Three\ \$2.00,\ Doz.\ \$7.25$  Ån easily grown, dwarf plant. Its gray-green foliage is handsome all summer. In early spring along with Scillas and Crocus, it is covered completely with small white flowers in April.

Alpina flore-pleno Ipina flore-pleno

We consider this one of the nicest of early flowering plants. Spreading in habit but not weedy, it covers itself in late April and early May with double, pure white flowers resembling miniature white Stock. Dozens upon dozens of 6- to 8-inch stems stand above the low foliage and are covered with pure white, double flowers. They make a beautiful showing and are excellent for cutting.

(We send out plants in pots which look very unprepossessing; however, that is the nature of young plants. When put in the ground, they quickly develop into plants a foot or more in diameter and bloom profusely the first season after planting.) Each 90c, Three \$2.50, Doz. \$9.00

A novelty of merit. Its bright rose-pink flowers form a fine contrast for those of the white Arabis. Does quite well in shade, looks fine the rock garden or on rock walls, of easy culture and as hardy as the others. This variety completely replaces Alpina Coccinea which

# Hardy Asters - Michaelmas Daisies

Lovely autumn-flowering perennials, the value of which for border decoration or cut flowers is inestimable. There are scores of lovely varieties in all shades of blue, white, pink, and crimson to select from. They range in height from about 2 to 4 feet. Both the species and varieties may be grown in the hardy borders.

Culture. Michaelmas Daisies will thrive in any soil and almost under any rough treatment. They may be grown with other perennials in the mixed border, or in a border in conjunction with Lilies and Tritomas, where they form a gay autumnal display. Plant in fall or spring, 2 feet apart, in full sun, in moist soil. Asters require a lot of moisture.

Ernest Ballard

Each \$1.00, Three \$2.80, Doz. \$10.00

Distributed for the first time last season, this variety is likely to find its way into every garden where Michaelmas Daisies are grown. The color, a liquid rose-carmine or deep crimson-pink, is striking even on dull days and dazzling in the autumn sunlight. Robust and vigorous, the loose branching sprays carry a mass of enormous flowers up to 3 inches in diameter. inches in diameter.

ventide

Each \$1.00, Three \$2.30, Doz. \$10.00

Here we have what may be considered the darkest and richest of deep violet-blue hardy Asters. The flowers are semi-double in heavy clusters which in early autumn completely hide all foliage. It is one of the very best of English introductions which perform beautifully here. One of the best of the dark blues.

Larie Ballard (New) Eventide

Marie Ballard (New)

Each \$1.00, Three \$2.80, Doz. \$10.00

A lovely shade of powder-blue. The flowers are large and double, and show no sign of an eye until they begin to fade. 3 to 4 feet in height. September-October flowering. They are perfect plants for background in the border and the color leaves nothing to be desired.

Melbourne Belle

A fine deep pink novelty growing about 2 feet high. Free flowering, compact and neat plants which make a beautiful show when they are in full bloom. Require no staking and are a pleasure to see in the autumn garden.

Radar

Each \$1.00, Three \$2.80, Doz. \$10.00

This is one of the most brilliant of the so-called "red" Asters. The masses of flowers are brilliant. Plants grow about 2½ feet tall and bloom in September and October. It is a bold plant with a very rich color and best grown where it does not conflict with other colors.

Royal Velvet

Each \$1.00, Three \$2.80, Doz. \$10.00

A beautiful dark violet-blue Aster of recent English introduction. Has fine compact habit and is an astoundingly free blooming variety. Flowers are almost double, rich and clear in color. One of the best new Violetta

Violetta \* Each \$1.00, Three \$2.80, Doz. \$10.00

It grows into a plant about 3 feet high and about as wide. During September it is completely covered with semi-double flowers from the top of the plant to the base. It simply turns into a perfect mound of glittering deep violet-blue. This is a "must" for every garden, big or small. Vinston Churchill

A very free flowering variety, producing rich ruby-crimson flowers. It is freely claimed that this fine new English variety is by all means the reddest of the Hardy Asters.

Winston Churchill

#### **NEW DWARF OREGON ASTERS**

Bonny Blue

Each \$1.00, Three \$2.80, Doz. \$10.00

An excellent new dwarf hardy Aster fine for border edges and bedding. The flowers are a medium shade of wisteria-blue and the compact plants are sturdy and vigorous, long-blooming and floriferous. They grow 8 to 10 inches high and 10 to 15 inches wide and bloom from mid-August to mid-October, with the peak late in September. Very ornamental even before blooming and long afterward.

Pacific Amaranth

Each \$1.00, Three \$2.80, Doz. \$10.00

Compact plant about 12 inches tall. Begins flowering in August and remains in bloom until early October. The amaranth colored flowers are prolifically produced on sturdy stems which have a tendency to grow somewhat horizontally, making a fine plant for the front of the border.

Masses of rose tinted flowers on plants 15 to 18 inches high. Make a remarkable show in early autumn. Seldom have we seen such handsome displays of color as can be expected of Persian Rose. Starts blooming late August and continues until well into October.

\*\*Towball\*\* The plants grow 8 to 10 inches high and 12 to 15 inches wide. The flowers are pure white with golden centers. When in full bloom in September, they fairly smother the plants, giving the effect of big snowballs in the autumn garden. Snowball blooms from early September into October. The plants are very ornamental for border edges, rock gardens and foreground plantings. It is best to divide each year, using 3 to 5 new shoots to make one plant, otherwise they might become too large.

winkle

Each \$1.00, Three \$2.80, Doz. \$10.00

Compact plants which do not grow any higher than 8 to 10 inches and almost 18 to 24 inches wide. They are completely covered with thousands of flowers of a delicate shade of crushed raspberry and amaranth-rose. It is the outstanding dwarf Aster in the nursery and creates more comment than any of the other varieties. Superb for edging or foreground planting.

A completely prostrate growing variety, covering the ground with a mass of violet-blue flowers. Excellent for late bloom in the rock garden or in front of flower borders.

#### NEW SEMI-DWARF OREGON ASTERS

Each \$1.00, Three \$2.80, Doz. \$10.00 Masses of flowers of light watery blue to mauve with pinkish shading. The flowers are large, in fine compact heads, completely covering plant when in bloom. A superb semi-dwarf variety growing about 12 to 15 inches high. Blooms in early autumn.

wilight Each \$1.00, Three \$2.80, Doz. \$10.00 A handsome autumn flowering plant. It is about 12 to 15 inches high when flowering. Grows into a perfect mound which is completely covered with flowers of rich violet-blue color. Its intermediate height makes it a perfect subject to be planted with the early flowering Chrysanthemums where its sharp color contrast will be very welcome.

Campanula Carpatica, Blue Carpet

#### CAMPANULA - Bellflower

In their various sizes from the dwarfs up to those 3 feet high, some thriving in semi-shady places, others glorious in sunny spots, no garden can be quite complete without them. Some bloom continuously from June to October, a wealth of white and blue blooms.

**Culture.** A rich well drained light soil will grow them to perfection. It is well to protect fall-transplanted plants with a little dry covering; remove covering early in March before new growth starts. Plant in early autumn or very early spring 8 to 10 inches apart in full sun.

arpatica Each 90c, Three \$2.50, Doz. \$9.00, 100 \$55.00 (Carpathian Harebell.) A pretty species growing in compact tufts not exceeding 8 inches high; flowers clear blue held erect on wiry stems. It begins blooming in June, continuing until October. As an edging for the hardy border or for the rockery it is unsurpassed.

patica alba Each~90c,~Three~\$2.50,~Doz.~\$9.00,~100~\$55.00 pure white form of the preceding.

Carpatica, Blue Carpet

Each \$1.00, Three \$2.80, Doz. \$10.00, 100 \$60.00

A beautiful compact grower and prolific blooming variety of recent introduction. It flowers over a long period from June until October, Plants are completely covered with deep blue flowers. Its uniformity of habit and its remarkable freedom of bloom unquestionably make this the finest of all the Carpatica type Campanulas. It makes a charming low edging to a flower garden or along walks. Here's an exceptionally good iron-clad hardy perennial for the foreground of the border.

Each \$1.00, Three \$2.80, Doz. \$10.00 A gem for the rock garden. Forms a low spreading tuft, which in June is covered with starry light blue flowers having a white eye. Exquisite hanging over a rock.

A handsome, erect growing Campanula flowering in June and July. Well established plants produce up to a dozen rigid stems about 2½ feet high with clusters of violet flowers. Perfectly hardy, requires no staking or frequent transplanting. It is an excellent border plant, prefers sun and well drained location. Latifolia, Brantwood

Persicifolia grandiflora alba Each 95c, Three \$2.70, Doz. \$9.50
One of the finest Campanulas, with large, handsome, white, bell-shaped flowers. A great acquisition. Height 2 feet.

Persicifolia grandiflora coerulea Each 95c, Three \$2.70, Doz. \$9.50
An excellent companion to the white variety, the large bright blue flowers making an effective contrast. Height 2 feet.

otundifolia Each 95c, Three \$2.70, Doz. \$9.50 (Blue Bells of Scotland or Harebells.) I foot, June to August. In the wild it is more slender and taller than in the garden; clear blue flowers, Especially suited for crevices in the rock garden or deep slopes, best planted so as to show pendent habit. Does well also in light shade.

Wedgewood

Each \$1.25, Three \$3.50, Doz. \$13.00

"Here is a 'gem' of a plant," one of our visitors exclaimed as she saw it growing in our nursery last summer. We heartily agree with her. We did produce a big quantity of them before we dared offer them in our catalog because we know they will be snapped up quickly. Dozens of brilliant violet-blue flowers on almost rigid stems look skyward from a cushion of deep green foliage not over 6 inches high. A neat subject for edging, in front of other plants or the rock garden. We think it is one of the finest of dwarf Campanulas to date. Wedgewood

White Wedgewood Each \$1.25, Three \$3.50, Doz. \$13.00 This is the pure white form of the handsome Wedgewood variety. The plants are identical in shape, growth and floriferousness. Its pure white flowers on rigid short stems look like so many small, white cups. It is a perfect companion for Wedgewood.

Hardy Chrysanthemum, Clara Curtis

All Rubellum Chrysanthemums are rugged plants, producing several hundred flowers in early autumn.

#### WINTER HARDY **CHRYSANTHEMUM** RUBELLUM

### Clara Curtis

This was introduced several years ago and has proven to be one of the finest of perennial plants.

The hundreds of single salmon-pink Daisy-like flowers are about 3 inches in diameter and are at their best in August and early September, so early that they are never damaged by frost. They are well arranged on short much-branched stems not over 12 to 18 inches high in such numbers that the plants look like solid mounds of pink. After a short rest period in the fall the plants may be dug up in early winter, potted, and forced into bloom in February and March. They make splendid pot plants. The habit of Chrysanthemum Clara Curtis is spreading. A two-year-old plant grows about 18 to 24 inches across. It is perfectly hardy anywhere and not particular as to soil or location. Each \$1.00, Three \$2.80, Doz. \$10.00

The new varieties offered at right are Hybrids of this fine plant with all of its fine characteristics.

#### CENTAUREA - Perennial Bachelor Button

Hardy perennials of easy culture and attractive appearance. Are showy ants in sunny borders, and useful for cut flowers. Flowers are more or

**Culture.** All will succeed in good, ordinary soil in sunny borders. Best grown in groups of three. Plant in autumn or spring, 8 inches apart; divide and replant every third year.

Aontana Each 90c, Three \$2.50, Doz. \$9.00 (Perennial Cornflower.) Grows 2 feet high, bearing large, violet-blue flowers from July to September. Showy and of easy culture. Montana

#### CIMICIFUGA - Snakeroot

Handsome, herbaceous perennials. They have large, palmate leaves, and small flowers borne in feathery racemes.

Culture. Grow in ordinary moist soil in colonies of six or more in partially shaded borders or in open woods. Plant in autumn or spring, 8 to 12 inches apart.

acemosa  $Each\ 90c,\ Three\ \$2.50,\ Doz.\ \$9.00$  Handsome shade-loving plant, bearing in July and August spikes of pure white flowers, 4 to 6 feet high; well suited for planting at the back of border, or for naturalizing at the edge of the woods. Racemosa

implex Each \$1.25, Three \$3.50, Doz. \$13.00 This is one of the finest, if not the finest, of fall flowering plants. Its flower stems are  $2\frac{1}{2}$  to 3 feet high, terminated with a dense plume-like spike of white flowers which, when cut, last in perfection a long time. As a garden plant it is hard to beat but its greatest asset is that it grows superbly in shade. We know of no other plant quite as useful for that purpose. The flowers are at their best from September to middle October, and it's perfectly hardy anywhere.

## Garden Chrysanthemums

We do not think it advisable to plant all Chrysanthemums in the autumn. We here list only those types which may safely be transplanted at this time. In our spring catalog you will find a complete list of all the best garden Mums introduced in recent years.

### Chrysanthemum Arcticum

Each 90c, Three \$2.50, Doz. \$9.00 Astrid (Imperial) Each 90c, Three \$2.50, Doz. \$9.00 Astrid is a hybrid of the extremely hardy species, C. Arcticum, and the first hybrid of this variety to be introduced. The single, Daisy-like flowers are three inches or more in diameter, and are a lovely shade of shell-pink, warmed with old rose tints, with a bright yellow center. The plants have attractive light green foliage, not bothered by diseases or insects. It is the hardiest hybrid Daisy we know of, having come through many severe winters without protection and without damage.

Good Morning Each 90c, Three \$2.50, Doz. \$9,00
A fine soft yellow form of Astrid. Its beautiful, sparkling, soft yellow,
Daisy-like flowers cover the plant completely, and, like Astrid, it is
as hardy as an Oak.

Large, Daisy-like flowers, extremely deep rose-pink with purple glow; color effect is almost true purple. A most unusual shade in the fall garden, brilliant, distinct and colorful. Fine fo-liage and iron-clad hardy. In full flower October 10th. Kristina

Polaris Each 90c, Three \$2.50, Doz. \$9.00 Looks like a buff-yellow Shasta Daisy when in bloom. Makes a fine plant with stems 24 to 30 inches high crowned with big Daisy-like flowers of a most pleasing shade of buff-yellow. Extremely hardy.

#### ARCTICUM COLLECTION

3 each of 4 varieties listed for ..... \$7.00 1 each of 4 varieties listed for .....\$2.50

## Hardy Rubellum Chrysanthemums

They are of particularly neat habit; each plant forming into a symmetrical bush, which, when in full bloom, with its masses of flowers, appears as a delightful bouquet often 3 feet or more across. They are perfectly hardy and good perennials, ideal for border, bedding and cutting.

Culture. Same as Shasta Daisy.

Their complete hardiness is repeatedly stressed. Their perennial charcter is established—they are permanent plants—and will continue to add color and beauty to your garden year after year. Last but not least they do exceptionally well in such locations where there is a little shade and it is difficult to grow other Mums satisfactorily.

Anna Hay Each \$1.00, Three \$2.80, Doz. \$10.00 Big, single, salmon, shading to rosy salmon-pink. Grows into a beautiful rounded plant literally covered with hundreds of big pink, daisy-like flowers. About 2½ feet high and 2 to 3 feet

#### Jessie Cooper

Each \$1.00, Three \$2.80, Doz. \$10.00 Giant, Daisy-like flower of soft Indian-copper-bronze with big golden yellow center. An out-standing variety. Produces immense quantities of flowers on a 3-foot plant which is often more than 3 feet across.

Big, Daisy-like flowers of rich wine-red with velvety sheen completely cover the plant, hiding all foliage. It is exceedingly brilliant and conspicuous. The individual flowers are often 3 inches or more across. Grows about 2 feet high and 2 to  $2\frac{1}{2}$  feet across.

COLLECTION-1 each of the 4 varieties (including Clara Curtis) for only \$3.25

# Chrysanthemum Maximum

#### **SHASTA DAISY**

Hardy perennials of easy culture, and especially noteworthy for their freedom of flowering. There are two distinct types of this genus. One is the Shasta Daisy, which bears large, white flowers on long stems, and is therefore, invaluable for cutting, and the other is the Leucanthemum, the Daisy of our meadows.

**Culture.** The Shasta Daisies require a deep, rich soil. They must have a sunny position. They should be planted I foot apart. It is advisable to lift and divide the rootstocks every alternate year, then the plants will be more compact in growth and also yield much finer flowers than if left undisturbed.

#### Double Shasta Daisies

glaya Each \$1.25, Three \$3.50, Doz. \$13.00 A splendid, large, double-flowered Shasta Daisy. It is a sturdy grower and perfectly hardy. The flowers are double and have fringed petals. After its main early crop of blooms, it continues to produce flowers practically throughout the entire season. Aglaya

Cobham Gold

Each \$1.25, Three \$3.50, Doz. \$13.00

This Daisy in growth and form of bloom is quite similar to Mount Shasta. However, the crested center instead of being white is pale yellow. The guard petals are creamy white. This is the first break from white to yellow in Shasta Daisies. The name Cobham Gold is perhaps misleading. This is not a golden yellow flower but a fine pale yellow. We grown it at Wayside Gardens now for two seasons and think it a fine addition to the new Daisies. It is exceedingly free blooming and excellent for cutting. Cobham Gold

The pure white, fully double flowers have a high crested center and average four inches across or more. A double row of overlapping guard petals enhances the beauty of this fine double Daisy. The flowers come singly on stiff, 24-inch stems from spring until frost. Especially fine for cutting. Mount Shasta in our opinion is a top notch plant, a healthy, vigorous grower.

Firal Pride

Each \$1.10, Three \$3.00, Doz. \$11.00

A fine, vigorously growing and very profusely flowering Shasta Daisy from England. Flowers are usually 3 to 4 inches in diameter, heavily crested with short white petals in the center which produce a fine double effect. It has given excellent results here in Mentor and we recommend it without reservation.

#### Single Shasta Daisies

Alaska Each 90c, Three \$2.50, Doz. \$9.00
This is one of the best known of the older varieties. It is particularly liked because of its hardiness as well as being a strong grower and heavy blooming variety. The flowers are of good size, well formed, excellent for cutting. Feed it a little each winter and you will be well

Majestic

Each \$1.10, Three \$3.00, Doz. \$11.00

We are more than pleased by the many words of praise from our many customers who have grown it. It is a hardy resistant grower, withstanding unfavorable conditions. Its immense white flowers are real beauties, 5 to 6 inches in diameter with a small yellow center. Has a double row of straight and overlapping petals making the flowers full and compact, giving it great value in floral designs and bouquets. The petals are very stiff with no drooping. Has 28 to 30-inch straight stems. To sum up its good points: It has wonderful large flowers; straight, long stems for cutting; is a healthy, strong, vigorous grower; blooms medium early.

Double Shasta Daisy, Mount Shasta

Chrysanthemum Maximum, Majestic

### The Outstanding and Hardy Shasta Daisy Mark Riegel

With the introduction of Mark Riegel Daisy, we move another step forward. First of all its flowers have a distinct form. The broad glistening white petals which overlap, come in a double row, are long and curve slightly at the tips. The center of the flower is very small and orange-yellow. Stems are thin and rigid and about 2 to 3 feet long. As many as 15 to 20 flowers to a plant at one time Flowers frequently measure 4 to 5 inches across, and will last longer than any other Daisy we have ever grown. we have ever grown,

The plants are compact, forming a tight neat clump with long ornamental dark green foliage. It is the hardiest of the new Daisies and we consider it tops in every respect.

Each \$1.25, Three \$3.50, Doz. \$13.00

Shasta Daisy, Mark Riegel

# Delphinium-Larkspur

Try as you will, one can hardly say enough for these regal midsummer favorites. None quite equal them in the commanding stateliness of their profusely bloom-laden stalks. Their gamut of colors ranging from exquisitely delicate pastel blues, whites and lavenders to those of the deep solid colors in violet and indigo-blue, is but one of their

### DELPHINIUM BELLADONNA

The Belladonna Delphinium does not grow quite as tall as the popular English Hybrids, but they produce more spikes and are more graceful, therefore, more useful for cutting. In fact, they are our loveliest early blue flowers for that purpose. They require the same care and treatment as suggested for the English Hybrids, but may be planted a little closer together, 12 inches apart is sufficient space for them. Their lovely blue spikes are about 3 or 4 feet high and produced in June and again in September.

Belladonna, Cliveden Beauty

Each 90c, Three \$2.50, Doz. \$9.00, 100 \$55.00. This is a fine English improvement over the common Belladonna, growing much taller, many more flowers to each spike and of a brighter color. A fine form for garden as well as for cutting.

Each 90c, Three \$2.50, Doz. \$9.00, 100 \$55.00 A dark blue form of Belladonna,

#### WAYSIDE GARDENS ENGLISH HYBRIDS

This is one of the most permanent and at present the most popular strains of the garden Delphinium. It is distinct because of its broad, conical spike and enormous individual flowers,  $1\frac{1}{2}$  to 2 inches in diameter, in all shades of blue blended contains some fine clear white types. For permanent groups in the garden this mixture has no equal.

Field-Grown Plants Each 95c, Three \$2.70, Doz. \$9.50, 100 \$57.50 Pot-Grown Plants Each 75c, Three \$2.15, Doz. \$7.50, 100 \$45.00

Delphinium Belladonna, Cliveden Beauty

Culture. Delphiniums require a rich, generous and well drained soil. On soils of a light or medium nature dig in plenty of well-decayed manure. In those of a heavy nature it is desirable to fork up the subsoil and compost of two parts loam and one of equal proportions of decayed manure and sand. The plants are best grown in groups of three or six. Allow a distance of at least 18 inches to 2 feet between the plants. Planting may be done in autumn or early spring. Remove foded flowers, and on no account allow seeds to develop, then a second crop of flowers may be expected later on.

#### GIANT PACIFIC HYBRID DELPHINIUMS

Here offered are the newest, the best and the finest to be secured anywhere. The range of colors varies from the palest shade of blue to the deepest indigo-blue and royal purple with many intermediary pastel tones of mauve, pink and lavender blendings. Among these new hybrids are flowers of huge size and fully double.

The Pacific Strain of Delphinium has been in commerce now for 25 years and has become a standard for the highest quality in Delphinium all over the world. Instead of making extravagant claims, we would like to let our flowers speak for themselves when you grow them.

Contrary to the European practice of naming individual plants, we produce from seed a group of individual plants resembling each other as closely as possible. They are interbred until the progeny brings a high percentage of specimens true to description. We then introduce it as a named series. In this manner we can offer new progressions of each series each year as the progeny always supersedes the parents and at a much lower price.

Below are listed eight series of distinct colors. The plants we offer are

Below are listed eight series of distinct colors. The plants we offer are big field-grown roots which will produce many magnificent spikes of flowers.

Black Knight Series Each \$1.50, Three \$4.25, Doz. \$15.00
The darkest violet. Individual flowers two and one-half to three inches in diameter; of beautiful round form, with heavy velvety texture, which gives the color luminosity and vividness not seen before in Delphinium. Very long, well formed spikes; a true show flower with black bee.

Blue Bird Series Each \$1.00, Three \$2.80, Doz. \$10.00 Lach \$1.00, Three \$2.80, Doz. \$10.00 A true blue Delphinium has been the hardest thing to produce and we have been reserving the name Blue Bird to signify the best achievement in this color. We can recommend this series as being the clearest medium blues, with white bees. They carry well formed, round flowers  $2\frac{1}{2}$  inches in diameter, on very long, graceful spikes. The habit is all one could desire in modern Delphinium and this series sets a new standard in blues of today.

ameliard Series Each \$1.10, Three \$3.00, Doz. \$11.00 Two-toned lavender with white bee, possessing classic perfection of form of the individual flowers, which are very round and attain very large size, average three inches in diameter. Beautifully balanced spikes, combined with excellent growing habits. Cameliard Series

Each \$1.00, Three \$2.80, Doz. \$10.00 allahad Series

Each \$1.00, Three \$2.80, Doz. \$10.00 Greatest achievement in giant whites, fully worthy of its name, which possesses all the qualities one expects to find in a fine Delphinium. The standard attained in this series is perhaps responsible for its wide popularity, ranking in demand next to the blues. The clear white flowers, with white bees, are of large size, reaching often three inches in diameter, combined with glistening heavy texture.

Guinevere Series Each \$1.10, Three \$3.00, Doz. \$11.00 Clear pink-lavender self, with white bee; with very large individual flowers averaging up to three inches in diameter. This is a true exhibition type and a beautiful garden plant.

King Arthur Series Each \$1.00, Three \$2.80, Doz. \$10.00
This is still one of the most brilliant Delphiniums so far developed. The color is a rich, royal purple, with a velvety texture and large white bee, and the beautifully formed, long spikes are carried on thin, woody stems.

Lancelot Series Each \$1.10, Three \$3.00, Doz. \$11.00 A clear lilac self with white bee. A rare color in Delphinium and one of the most beautiful. It has well balanced spikes and carries large flowers

Light, heavenly blue of a summer sky with white bees representing the fleecy clouds; a color long sought in the large hybrid Delphinium. They come almost 100% true to color from seed, with such a uniform growth that many people think they are propagated from cuttings. As a class this is the finest blue Delphinium in existence today. Summer Skies Series

A Mixture of the Above Series

Three \$2.50, Doz. \$9.00

### GIANT PACIFIC HYBRIDS IN POTS IN EARTH

Many prefer to set out Hybrid Delphiniums from pots. These young plants were started by us last summer and have developed into nice vigorous plants that will flower for you with magnificent spikes of blooms. Space them 18 inches apart and plant in groups of three or more for stunning effects.

Galahad Series Each 75c, Three \$2.15, Doz. \$7.50, 100 \$45.00

King Arthur Series Each 75c, Three \$2.15, Doz. \$7.50, 100 \$45.00

Summer Skies Series Each 75c, Three \$2.15, Doz. \$7.50, 100 \$45.00

ound Table Series Each 75c, Three \$2.15, Doz. \$7.50, 100 \$45.00 The Round Table Series is a superb mixture comprising all available shades in Delphiniums. Nothing yet has been created that equals them for sheer beauty. Round Table Series

## Dianthus - Pinks

A great selection of plants for the sunny border or sunny, exposed places in the rock garden or rock wall. In fact, no rock garden is complete without a liberal planting of the various Dianthus. In England where rock gardening is a well understood art, Dianthus are used by the thousands. They are perfectly hardy anywhere.

Culture. Plant in ordinary good soil, which must contain some lime and should be well drained. Planting may be done in fall or early spring, 6 to 10 inches apart, in sunny, dry places in the rock garden, rock wall or on the margin of the border. All love lime and gritty soils.

## DIANTHUS LATIFOLIUS - Garden Pinks

atifolius, Beatrix

Each 95c, Three \$2.70, Doz. \$9.50
This everblooming cluster Pink is a very valuable plant for the garden, constantly in bloom from June until September. Its color is a lovely pure pink. A fine cut-flower variety.

Latifolius, Silver Mine Each 95c, Three \$2.70, Doz. \$9.50 Exactly the same habit of growth as Beatrix or Furst Bismarck but flowers are pure white, very free and constant from June until September. A No. 1 border plant and cut flower.

## DIANTHUS PLUMARIUS - Border Pinks

Each \$1.00, Three \$2.80, Doz. \$10.00 A new Border Pink which produces large quantities of apple-blossom-pink flowers which are delightfully fragrant. The stiff, wiry stems are about 12 in. tall, long enough for cutting yet not too long for good garden effect. Plants are nicely compact, grow easily and bloom freely. Like all Pinks, must be grown in full sun. Apple Blossom is a tip top variety and with charmingly colored blooms. The loveliest of all Pinks.

rimson Glow

Each \$1.00, Three \$2.80, Doz. \$10.00

A deep or dark red colored Hardy Garden Pink has always been something we have wished for. Crimson Glow is the deepest red we have been able to develop up to this time. The color is a really dark red and the flowers are freely produced on 15-in. stems. The plant is compact in growth. Foliage a blackish green. Spicily fragrant and hardy. While not "a perfect red Pink", we are coming close to it.

Dinah Each \$1.00, Three \$2.80 ,Doz. \$10.00 This "Border Pink" is the companion to Evangeline. It is just as spicily fragrant, just as prolific flowering in spring and autumn. The color is a deep Persian rose with maroon center. The flower stems are perhaps 12 inches long with about 2 to 6 flowers on a single stem which is stiff and just right for cutting. The flowers are perfectly formed, never a split calyx. Plants are about 8 inches high and 10 to 12 inches across.

Seex Witch

Each \$1.00, Three \$2.80, Doz. \$10.00

A very dwarf and compact pink producing a legion of rose-pink flowers on short stems. They are very fragrant and petals are finely fringed. When in bloom, not over 5 inches high. A fine old-fashioned variety which is hardy anywhere. A splendid variety for edging beds or walks.

Evangeline Each \$1.00, Three \$2.80, Doz. \$10.00

A new "Border Pink" with a most delightful, spicy, penetrating fragrance. Early in the spring the plants are covered with an unbelievable number of flowers. These, when faded, should be removed so that in the early autumn you can enjoy a second display of flowers equally as prolific. Two to four flowers grow on a stiff 10-inch stem and are perfectly formed. The calyx never splits. The color is a soft Persian rose. Habit is perfect; the plant grows in a low, tight mound about 6 inches high and 10 to 12 inches across. Perfect for an edging.

ler Majesty

Each \$1.00, Three \$2.80, Doz. \$10.00

Grows about 4 inches high and when in bloom it is literally covered with fragrant double white flowers on 6-inch stems. It is an old-fashioned favorite of neat habit and absolutely hardy. Excellent for edging beds or walks. Her Majesty

Goon Mist Each \$1.00, Three \$2.80, Doz. \$10.00 Pure white and spicily fragrant double flowers on 12-inch stems. This border pink has Carnation-like flowers which are perfect for cutting. Flowers throughout the summer with its heavy crop of blooms in spring and again in the autumn. Moon Mist

Salmon Unique Each \$1.00, Three \$2.80, Doz. \$10.00 Each \$1.00, Three \$2.80, Doz. \$10.00. The richly clove-scented flowers are salmon-pink on stiff stems about 15 inches tall and produced the entire summer and into the fall. Nice compact habit and very hardy. The flowers are crisp and wavy and Carnation-like in form. Always perfectly formed, almost formal in character. You will like this variety very much.

Each \$1.00, Three \$2.80, Doz. \$10.00 Here we have a variety that is a splendid grower; stays neat and compact and at the same time blooms very freely. Its unusual Bishoppurple flowers are very fragrant and are produced in abundance on 12-in. stems. After the first flash of spring bloom, there is a constant procession of flowers throughout the summer and early autumn. Looks very well planted along with the white variety Moon Mist.

Highland Hybrids in Mixture Three \$2.00, Doz. \$7.25, 100 \$42.50
A beautiful and very varied mixture, including unnamed hybrids of all possible shades. Especially noted for their fragrance and long bloom.

# Dianthus Old Spice

Each \$1.00, Three \$2.80, Doz. \$10.00, 100 \$60.00 choice Hybrid, possessing, it seems, all the good qualities you can ask for in a plant.

First-It is as hardy as an Oak.

Second—Habit of growth is neat, cushion-like and compact. Stems are about 12 inches tall.

Third—It flowers prolifically over a long period, 20 or more flowers on a single plant.

Fourth—Color of the beautifully moulded flowers is rich salmon-pink like that of the popular greenhouse Carnation, Laddie.

Fifth—The calyx does not split as is the case with the old-fashioned Clove Pinks. All the flowers are perfectly formed.

Sixth—The flowers, when cut, last a long time.

Dianthus, Old Spice

# Dicentra - Bleeding Heart

Old-fashioned perennials; also known under the name of Dielytra. The species named below have fleshy, brittle stems and finely cut fern-like foliage.

**Culture.** Spectabilis should be grown in a partially shaded border. Eximia will do well in a similar position, or in the woodland garden, or in a shady nook of the rockery. Plant in fall or very early spring, 8 to 12 inches apart.

ximia  $Each\ 90c,\ Three\ $2.50,\ Doz.\ \$9.00$  (Plumy Bleeding Heart.) A dwarf-growing sort, with beautiful, finely cut foliage and showy racemes of pretty pink flowers throughout the season. Too much cannot be said for this fine border plant as it is equally at home in full shade or sun and perfectly hardy anywhere.

Each \$1.00, Three \$2.80, Doz. \$10.00 Each \$1.00, Three \$2.80, Doz. \$10.00 (Bleeding Heart or Seal Flower.) An old-fashioned favorite; its long racemes of graceful heart-shaped pink flowers are always attractive; it is used also for forcing in the house, and is perfectly at home in any part of the hardy border, and especially valuable for planting in clumps.

Dicentra Hybrid, Bountiful

(U. S. Plant Patent No. 1198)

Each \$1.25, Three \$3.50, Doz. \$13.00

This is a remarkable hybrid, in a robust way resembling the Plumy Bleeding Heart (Dicentra Eximia) but vastly superior. It forms a clump fully 18 inches in diameter of handsome dark blue-green foliage, about 10 inches high. The flowers appear early May and as many as 30 to 40 flower stems can be counted on a 2-year established plant. Stalks are about 18 to 20 inches tall and topped with fuchsia-red flowers which are about double in size of the common Plumy Bleeding Heart. It comes into bloom before Dicentra Eximia and the flowers last well into July. Throughout the summer a few flowers are produced; but in the early autumn, it blooms as freely again as it did in spring. Perfectly hardy, does well in any well drained soil and prefers sun to shade. As we said before, a remarkable plant with a great future, we predict it will, before long, be growing in most of the gardens in this country but if grown in shade the rich color fades and becomes several shades lighter.

Doronicum

DORONICUM - Leopardbane

Very showy yellow-flowered perennial. Their yellow, Daisy-like flowers are invaluable for cutting. As they flower chiefly in spring, they are indispensable in the border at that period of the year. They have bright green, heart-shaped leaves which disappear during July and August when the plant is dormant.

Culture. Thrive well in heavy soils and succeed in sunny or partially shaded borders. Best grown in groups of six or more. Plant in autumn or early spring, 6 to 8 inches apart. Lift, divide and replant every third year; remove the flower heads directly after they fade, then a second crop of flowers will follow. Water freely in dry weather. Lovely with pale lavender Tulips.

Adame Mason

Each \$1.00, Three \$2.80, Doz. \$10.00

Large, bright yellow flowers on 2-foot stems; one of the most sparkling early spring-flowering perennials. Effective in a hardy border in combination with Tulips. It is a splendid flower for cutting, as it carries well and lasts a long time in water.

## ECHINOPS - Globe Thistle

Handsome perennials with pinnate or spiny foliage, woolly beneath, and globular, thistle-like flowers. A well-grown plant has a pleasing effect in the border.

Culture. Ordinary soil in sun or light shade in border or wild garden. Plant in autumn or spring 10 to 12 inches apart.

aplow Blue Each \$1.00, Three \$2.80, Doz. \$10.00 This variety is particularly desirable. The flower heads are larger and are intense metallic blue. It is very free flowering and does beautifully, in difficult, dry soils. A clump of Taplow Blue makes a fine contrast growing alongside of White Phlox. Plant in full sun. Hardy anywhere.

## FUNKIA - Hosta

Hardy, herbaceous perennials with handsome green or variegated foliage, and Lily-like flowers borne on graceful spikes. The ovate, cordate, or lance-shaped leaves grow in tufted form. Excellent plants for growing in sunny or partially shady borders on the margins of water or as edgings to beds and walks.

sunny or partially shady borders on the margins of water of as edging beds and walks.

Culture. Funkias require to be grown in a rich, well manured soil. The variegated kinds are best grown in partial shade. The others will succeed in sunny borders, or as specimens in groups. Subcordata should be grown in a warm, sheltered position. Plant in fall or early spring, six inches apart.

Albo Marginata

Each \$1.25, Three \$3.50, Doz. \$13.00

A picturesque plant with handsome big leaves edged with a broad band of white. It grows into a fine ornamental clump and is always showy; does well in sun or shade, hardy anywhere, and not particular about soil. Lavender flowers in September

Coerulea lanceolata

Each 90c, Three \$2.50, Doz. \$9.00, 100 \$55.00

does well in sun or shade, hardy anywhere, and not particular about soil. Lavender flowers in September

Coerulea lanceolata Each 90c, Three \$2.50, Doz. \$9.00, 100 \$55.00 Broad green leaves; blue flowers from July to August.

Glauca (Sieboldiana) Each \$1.25, Three \$3.50, Doz. \$13.00, 100 \$80.00 A very fine species with large blue-gray leaves. It develops into a stately, handsome foliage plant for the open border and is superb in shady places. May also be used in the rock garden.

Minor alba Each \$1.50, Three \$4.25, Doz. \$15.00 Minor alba is a small, compact growing variety with narrow pointed leaves forming neat, medium size plants. It is a prolific bloomer with a dozen or more spikes of white flowers about 12 inches tall. It is best grown in light shade in clumps of three or more and is perfect for a narrow edging to a walk in shade where it would be difficult to grow other flowers. Minor Alba is quite rare and not found in many gardens. It is a choice, uncommon plant.

Subcordata grandiflora Each \$1.50, Three \$4.25, Doz. \$15.00 Very large, pure white, Lily-shape, fragrant flowers in August and September. One of the best and used very extensively as a ground cover for Lily beds. The foliage provides protection to the bulbs, and the flowers because of their Lily-like appearance blend in well with the taller growing Lilies.

Thomas Hogg

Thomas Hogg Each \$1.50. Three \$4.25 A most desirable, strong growing kind. Does well in shade or sun and loves moisture. Its rich, large green leaves have a narrow, clear silver edging which greatly enhances its beauty.

edging which greatly enhances its beauty.

Variegata (undulata media picta)

Each \$1.00, Three \$2.80, Doz. \$10.00, 100 \$60.00

Wavy leaves handsomely variegated with silvery white, often 12 to 18 inches long, in a right cluster, create a very fine plant. The leaves are most useful for cutting and blend handsomely with other flowers. This variety is easily grewn, is fine for edgings or clumps and does especially well in shade. Its flower spikes are about 18 inches high with clusters of filiac bell-shaped flowers. Plants may be dug in late fall and grown in a shady window where the variegated leaves make a fine show. Increases rapidly and is hardy anywhere.

FERNS - Hardy Varieties

The cultivation of Hardy Ferns is remarkably simple. All they want is a simple light alluvial soil, a little loam and peat or leaf mold sufficient to keep the soil light and open, plenty of moisture, position varying from partial to deep shade.

keep the soil light and open, plenty of moisture, position varying from partial to deep shade.

Culture. A shady position is, of course, preferred, or a spot which gets practically no sun, will be an ideal place for a fernery. If the position should be a very damp one, it will be advisable to raise the surface about 6 inches to a foot. For a good effect plant 8 to 10 inches apart.

Adiantum pedatum

Each 70c, Three \$2.00, Doz. \$7.25, 100 \$42.50

The well known Maidenhair Fern. grows at its best on moist banks, stony and well shaded. It will thrive in any shaded location, even if dry, but will not be as tall as it will with plenty of moisture. Try it with Bleeding Heart under trees.

As indiging acrestichoides

Aspidium acrostichoides

Aspidium acrostichoides

Each 70c, Three \$2.00, Doz. \$7.25, 100 \$42.50

(Wood Fern.) (Polystichum.) An evergreen species with deep green, divided fronds. Should be planted in a shady position. 12 inches.

Aspidium spinulosum Each 70c, Three \$2.00, Doz. \$7.25, 100 \$42.50

The most beautiful of the evergreen wood terns, and most useful, too. It is picked for florists use, but it is as useful in shade, especially if moist, for it will make a strong clump to 30 inches high. Beautifully divided pinnae give a lacy effect. Easily cultivated.

Asplenium filiy-foeming

Asplenium filix-foemina

Asplenium filix-foemina

Each 70c, Three \$2.00, Doz. \$7.25, 100 \$42.50

The Lady Fern is both our most common, and our most valuable form. Fine and delicate, it is very attractive and if one wants a cover for shade, or partial sun, this is the plant.

Osmunda cinnamomea Each 70c, Three \$2.00, Doz. \$7.25, 100 \$42.50

In wet swampy land, the Cinnamon Fern will grow six feet tall. Yet it thrives in deep shade, and is tall enough. A luxuriant plant, very sturdy, and because of the root size, able to care for itself.

Osmunda Claytoniana Each 70c, Three \$2.00, Doz. \$7.25, 100 \$42.50

Clothed with loose wool when unfolding its fronds in spring, but soon becoming perfectly smooth. This Fern, two to three feet high, is found in rather dry, shaded places and does quite well under cultivation.

## GAILLARDIA - Blanket Flower

We consider the Gaillardia one of the most desirable hardy plants in cultivation. Everyone will have noticed how grandly Gaillardias have thriven through droughts; they seem hardly to need water. The gay blossoms are obtainable in perpetual profusion from June to November, and the greater the drought and scarcity of other flowers the more the utility of the perennial Gaillardia is demonstrated.

Culture. A rich, but light soil is essential to grow Gaillardias successfully. They cannot be depended upon to survive the winter on heavy, clay soils, but do splendidly on those of a light or medium character. Require a sunny position. Plant in fall or spring, 6 to 8 inches apart.

Giant English Hybrids

Each 80c, Three \$2.25, Doz. \$8.00

In lovely shades of orange, yellow and red all summer and fall, flowers measuring 4 inches or more across. The finest mixture available.

## GYPSOPHILA - Chalk-Plant; Baby's Breath

They are remarkable for their numerous feathery panicles of small, starry, white or pink flowers borne in profusion on thread-like stalks during early summer. The flowers are highly prized for cutting.

Culture: Gypsophilas will succeed in any well drained and not too heavy soil. They are very partial to lime, and it is well to mix some lime with the soil before planting. A sunny position is essential. Plant all fully two feet apart; Repens 8 inches apart. Plant in autumn or early spring.

Bristol Fairy

Bristol Fairy produces large panicles of double, white flowers in which the individual blossom is quite large, and of the purest white. It also flowers continuously throughout the summer. A No. 1 plant for cut flowers.

Paniculata compacta

When in bloom in August and September it forms a symmetrical mass 2 to 3 feet in height and as much through, of minute white flowers having a beautiful gauze-like appearance.

Paniculata flora-plena

A light and graceful cut flower, compatible with all others, no matter of what shape or color; masses of minute double white flowers. Lovely for cutting and this is the variety best suited for drying. Its feathery blooms are most valuable under winter bouquets.

Repens, Rosy Veil

A new dwarf pink double-flowering Gypsophila. Established plants reach a height of 2 feet and bloom in summer and fall. They start blooming two weeks earlier than the tall double Gysophila and continue later in the season. Fit perfectly in the small garden and are

Funkia Variegata

# Hemerocallis Hyperion

The Finest of All Yellow Lemon Lilies!

The giant Amaryllis-like flowers of Hyperion are citron-yellow and delightfully fragrant. It is one of the most prolific flowering plants ever seen. The stems are gracefully thin and have exceptional substance; about 40 inches tall, carrying delicately sparkling clusters of flowers, the soft color of which "carries" a great distance. Experts, as well as amateurs, consider Hyperion the finest pale yellow Hemerocallis available at a moderate price. Few plants surpass the beauty and vigor of a well-flowered clump of this

wonderful Day Lily. It received an Award of Merit of the Royal Horticultural Society of Great Britain. Its graceful arching foliage always looks handsome. The flower buds open in water. It is perfectly hardy, grows in dry, wet, sunny, or shady places. Blooms in July and August Each \$1.25, Three \$3.50, Doz. \$13.00

# Hemerocallis Helios

(Plant Patent Applied For) The Finest Red Hemerocallis

HELIOS, named for the Sun God, that ancient diety who dwelt within the very sun itself, riding the heavens from dawn to dusk, is quite unlike the former mahogany, maroon and other so called "red" Day Lilies, Of a true flame-red; its blazing flowers, with golden rays at the base of the petals, have all the brilliance of the setting sun on an August evening.

Luxuriant and ornamental foliage enhances the quantities of burning blooms up to 5 inches in diameter, freely borne on strong, upstanding stalks, with dozens of stalks on established plants. Here is a wonderful foolproof plant which never fails to provide a splash of brilliant color.

Strong flowering clumps, Each \$5.00

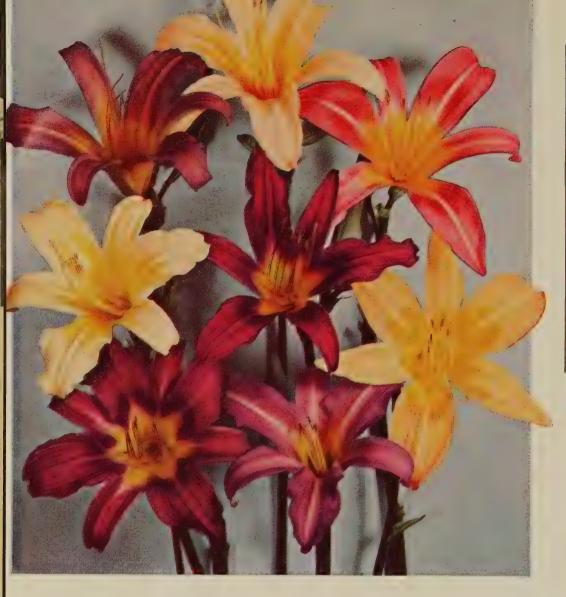

# Hemerocallis Apollo

(Plant Patent Applied For) The Finest Apricot Hemerocallis

APOLLO, namesake of the Greek God of light, beauty and youth, who held an unrivaled place in the hearts of his ancient worshippers, bears masses of scintillating, iridescent apricot-yellow, out-facing flowers. In form and texture they are quite distinct and even more graceful than its parent, Hyperion. Throat of flower deep apricot-yellow lessening in depth of color as it reaches the edges of the petals. Rather narrow, graceful foliage sets

off the delicately brilliant flowers which are borne on slender stems, 30 inches tall. It is noted for its freedom of bloom, requires no care and is happy anywhere. Here is the perfect plant for those who love unusual and delicate yet bright colors. One of its outstanding qualities is the "carrying power" of its color. It is so forceful it is spotted at once.

Strong flowering clumps, Each \$2.00, Three \$5.70, Doz. \$20.00

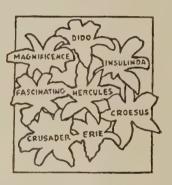

# Leonian Hybrid Hemerocallis In Mixture

In height they vary from 3 to 5 feet. They stand on stalwart stems. Their flowers are of every shade from deepest burnt orange through flaming orangered into amazing tints of pastel, old rose and maroon shades, all with a clean and pleasant fragrance.

Colors will be similar to those of the named varieties illustrated on this page.

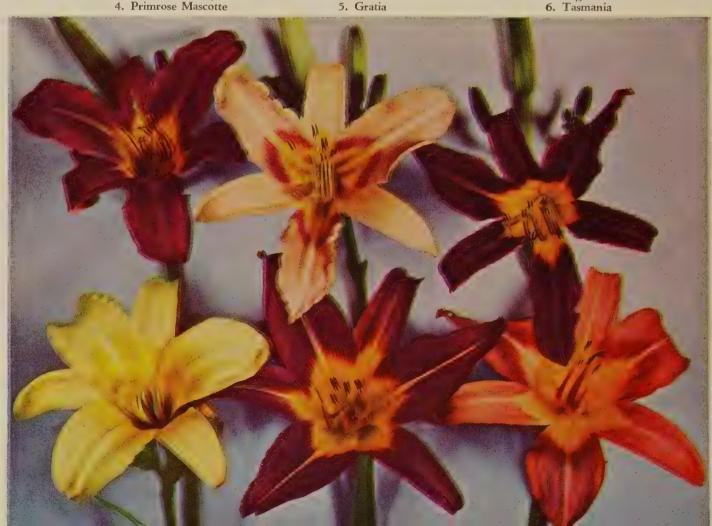

Unit of 6 plants Leonian Hemerocallis for \$4.00, unit of 12 plants of Leonian Hemerocallis for \$7.00; unit of 25 plants Leonian Hemerocallis for \$13.00.

Each \$1.25, Three \$3.50, Doz. \$13.00 Hyperion The giant Amaryllis-like flowers of Hyperion are citron-yellow and delightfully fragrant. It is one of the most prolific flowering plants ever seen. The stems are gracefully thin and have exceptional substance; about 40 inches tall, carrying delicately sparkling clusters of flowers, the soft color of which "carries" a great distance. Experts as well as amateurs consider Hyperion the finest pale yellow Hemerocallis.

A. Crawford

Each 90c, Three \$2.50, Doz. \$9.00

Rich apricot-yellow shaded light cadmium. Many flowers on 4-foot stems; at their best about late June, flowering until end of July. A lovely plant which looks well in light shade.

The bronzy Chinese coral tint of the petals is separated by a soft but clearly defined star-like band of Indian red from a golden throat which lights up the flower and gives it much brilliance. Early July flowering. Height 36 inches. Mongolia

ajah (Stout) Each \$1.00, Three \$2.80, Doz. \$10.00

A fine, big, well proportioned flower sparkling and iridescent. Flower petals are light burnt orange, circular deep chestnut-red or many band with violet shadings; throat old gold. A brilliant flower and because of its late blooming a valuable one. Late July flowering. Height 30 to 36 inches. Rajah (Stout)

Each \$1.00, Three \$2.80, Doz. \$10.00 A profuse bloomer bearing ruby-red flowers with violet flush and small golden throat, faint yellow vein on midrib. This is a most unusual coloring and we have not seen anything like it in any of the new Hemerocallis now offered for sale. Late July to early August blooming. Height about 30 to 36 inches. Summer Pride

## Two Featured Groups of New Hemerocallis

Each \$1.25, Three \$3.50, Doz. \$13.00

Noted for its clear and big flowers of brilliant, rich amber-yellow with a soft golden glow, carried on tall, stiff stems. A bold and colorful plant. One of the best of the new Lemon Lilies. Height about 40 inches.

Trusader

Each \$1.00, Three \$2.80, Doz. \$10.00

Visitors describe the color as Indian red, rich mahogany, velvety chestnut, etc. It's a shading difficult to describe, glowing richly but softly in the sun. Lighted by a golden throat, it is one of the fine, distinct varieties. Petals of flowers are delicately penciled with a fine golden line through the center. Late June and early July flowering. Height 30 in.

Each \$1.00, Three \$2.80, Doz. \$10.00

Clear, warm soft apricot. It is one of the outstanding colors in our Hemerocallis field. A very choice variety greatly admired by visitors, flowering late June. Height 36 inches.

Each \$1.25, Three \$3.50, Doz. \$13.00

Five Each \$1.25, Three \$3.50, Doz. \$13.00

Buff-shrimp-pink with soft buff-yellow midrib deepening to dull gold in the throat of the flower. A most unusual color combination. General effect created by flowers in bloom is soft buff-shrimp-pink. Flowering late June. Height 24 inches.

Fascinating Each \$1.00, Three \$2.80, Doz. \$10.00

Soft Chinese yellow somewhat deeper tinted in center of flower, lighter along the edges of the petals, all overlaid with a soft shading of apricot, creating a delightful cool and delicate effect. Very fragrant. Flowering late June. Height 28 inches.

Hercules Each \$1.25, Three \$3.50, Doz. \$13.00

Flowering late June. Height 28 inches.

Hercules

Each \$1.25, Three \$3.50, Doz. \$13.00

Well shaped flowers of maroon-red with red-mahogany overtones and deep golden yellow center. Particularly bright and brilliant, totally devoid of dullness often present in the New Lemon Lilies. Grows about 40 inches tall and makes a fine clump. One of the best of the reds. nsulinda

Each \$1.25, Three \$3.50, Doz. \$13.00

Fine bold flowers of apricot-buff with pink overtones. Hemerocallis enthusiasts refer to this type of bloom as pink but it is not. However, the feeling of pink is present. Center clear yellow. Grows about 36 inches tall and is free blooming. One of the best of the New Lemon Lilies.

Agnificence

Each \$1.00, Three \$2.80, Doz. \$10.00

Soft burnt orange with undertones of Chinese coral inside of flower, outside shows buff and gold, center inside golden. A rare and choice color combination which glows and sparkles in sunlight as if dusted with gold and coral. Flowering in early July. Height 38 inches.

Magnificence

HEMEROCALLIS COLLECTIONS (See illustration) Collection No. 3: 1 each of the above 8 varieties .....\$ 8.00 Collection No. 4: 3 each of the above 8 varieties ..... 22.00 Fach \$1.25, Three \$3.50, Doz. \$13.00

A massive gold reddish mahogany flower with big golden yellow throat; center of flower petals is veined yellow, giving the whole a brilliant star-like effect. A bold flower which stands out clearly, making it especially good for planting in the background or where a tall, bold effect is desired. Flowers are delicately fragrant. July flowering. Height 36 to 40 inches.

Each \$1.25, Three \$3.50, Doz. \$13.00 Color is soft, pale amber-yellow, Havana or Egyptian buff. The throat of somewhat deeper tone is separated from the main color by a well defined, narrow, delicately shaded starlike band of soft mahogany. The three main or broadest flower petals are heavily ruffled while the separating three narrow petals are not. The effect is very pleasing. Height 30 to 34 inches. Linda (Stout)

Primrose Mascotte Each \$1.50, Three \$4.25, Doz. \$15.00 Cool empire-yellow deepening to lemon-yellow in center. Visitors to our nursery call this "The Dwarf Hyperion" and consider it the best of the dwarf summer flowering pale yellow Hemerocallis. In addition to its cool icy yellow shade, it is delightfully fragrant and forms fine clumps. A perfect plant for foreground planting or corners of flower beds. Flowers about mid-July. Height 20 inches.

Morocco Beauty

Medium size flower but very brilliant. Color seems to be a mixture of velvety maroon-chestnut with purplish undertone; deep golden yellow throat, midrib in center of petals golden. Makes a very bright spot in the gorden. Late June and early July flowering. Height 24 inches.

Nigrette (Leonian)

Each \$1.25, Three \$3.50, Doz. \$13.00

This is the darkest colored Hemerocallis in our collection. Flowers are deep pansy-purple with very dark mahagany overtone; throat deep golden yellow. The flowers are not as large as we would like them to be but that fact can be overlooked because of their distinct color. Late June and early July flowering. Height 26 inches.

Each \$1.25, Three \$3.50, Doz. \$13.00 Chinese coral overlaid with purplish glow, star of same color but several shades deeper, center golden yellow. The general effect is unusual. Several visitors wanted to know what this pink Hemerocallis is and rightly there is a definite pinkish shade produced by this flower. Flowering from middle to late June. Height 30 to 36 inches.

HEMEROCALLIS COLLECTIONS (See illustration) Collection No. 1: 1 each of the above 6 varieties .....\$ 6.25 Collection No. 2: 3 each of the above 6 varieties ...... 17.50

## HELENIUM - Helen's Flower

A showy and useful family of plants for the summer and autumn decoration of the border, and lovely copper shaded or yellow flowers for cutting. The period of bloom is just before the outdoor Chrysanthemums, and they give us that first touch of autumn tints. Particularly valuable for those give us that first touch of autumn tints. Particularly valuable for those sections of the country where the Chrysanthemum is not hardy. No garden is complete without them.

Culture. All will thrive in good, ordinary light soil, all require a sunny position. May be grown singly or two feet apart in masses. Plant in autumn or spring.

Chippersfield Orange Each \$1.00, Three \$2.80, Doz. \$10.00

Grows 4 feet tall with large heads of copper and gold blooms. A fine new variety blooming in August and September.

Ioerheim Beauty

Large, silky flowers of warm, glowing brown-red are carried on strong, erect stems several inches above the foliage. In bloom from June to September. Grows to a height of 2 feet. A fine companion plant for Pumilum magnificum. Moerheim Beauty Pumilum magnificum.

Did Gold Giant

Each \$1.10, Three \$3.00, Doz. \$11.00

A beautiful new Helenium which grows about 3 to 4 feet tall. Flowers are soft dull old gold on top of flower petal while the reverse side is mahogany shaded bronze. Individual flowers are big, about 1½ to 1½ inches in diameter and grow in bold clusters. Blooming in early August, it is a most welcome color in the summer flower garden.

Large, pale yellow flowers; one of the most floriferous and useful border plants in cultivation. Early, flowering from July to October. Can be successfully used in place of Coreopsis where a more restrained plant is required. Height 12 to 18 inches

Each \$1.00, Three \$2.00 December 12.00 Old Gold Giant

eregrina

Each \$1.00, Three \$2.80, Doz. \$10.00

Unquestionably the finest and having the largest flowers. They are a shining dark mahagany with the edges of the petals faintly seamed golden yellow. A most impressive July and August flowering perennial. Height 3 feet. A worth-while plant for the summer border. Excellent for

The Bishop

Reach \$1.00, Three \$2.80, Doz. \$10.00

Noted for its large, rich buttercup-yellow flowers with dark centers. The plants are of rather dwarf habit, seldom over 30 inches high, rather broad but upright. It is a neat growing plant and a veritable bouquet of flowers when it is in bloom during August and September. A fine garden plant

## HELIANTHUS - Perennial Sunflower

Very showy and attractive plants for border decoration, massing in the wild garden or flowers for cutting.

Culture. Ordinary soil and a sunny position will suffice to grow Helianthus. Lift, divide and replant every second or third year to keep the plants compact and shapely. Few plants can equal the Helianthus for providing a gay display of color in the autumn garden. Plant in fall or spring, 12 inches apart.

lultiflorus fl.-pl. Each~\$1.00,~Three~\$2.30,~Doz.~\$10.00 Clear yellow; closely resembling a small Dahlia in shape and finish. 4 feet high. Multiflorus fl.-pl.

Sparcifolius, Monarch Each \$1.00, Three \$2.80, Doz. \$10.00 The gigantic golden yellow flowers with black centers look like some form of Sunflower. They grow on stems 6 to 8 feet tall. It is an excellent plant for background planting and greatly used to decorate the side of a garage or other buildings. Perfectly hardy. Requires no care and never fails to produce a bold show which lasts from early August until late October. Its brilliant 6-inch flowers create a superb show.

**HELIOPSIS** - Orange Sunflower

Allied to the perennial Sunflower, belonging to the same order, and natives of America. They bear their large, orange colored flowers on long, wiry stems, and are invaluable for cutting.

Culture. Grow in ordinary rich soil in a sunny border. They make a most effective feature grown in bold masses. Plant in autumn or spring, 12 inches apart. Lift, divide and replant every third year.

Gold-Greenheart

Each \$1.00, Three \$2.80, Doz. \$10.00

This new variety was received from Europe where it is recognized as well as in the United States as the best of the Heliopsis. It grows into a fine floriferous plant about 3 to 4 feet high with clean foliage. It produces a prolific display of fully and closely double Buttercupyellow flowers which are superb for cutting. It makes a wonderful display in the garden. An added interest is the small emerald-green heart which shows when the flowers are opening. This disappars when the blooms are fully developed. The recurving petals, its clear yellow color as well as freedom of bloom make this a wonderful plant. Absolutely hardy anywhere and of easiest culture.

Light of Loddon

Each \$1.00, Three \$2.80, Doz. \$10.00

ight of Loddon Each \$1.00, Three \$2.80, Doz. \$10.00 A splendid new variety. Bright yellow, finely shaped flowers in abundance. A perfectly easily grown plant of neat habit and is, therefore, a showy subject in the garden, not to forget a most valuable cut flower. Does not require frequent transplanting; is perfectly hardy and never fails to perform to your satisfaction.

## HELLEBORUS - Christmas Rose or Lenten Rose

There are two distinct types, one, Christmas Rose, flowering in late winter, and the other, Lenten Rose, in spring. Both are valuable for garden decoration because of their flowering during the dull period of the year.

Culture. Require to be grown in a cool, moist, shady position, such as under the shade of trees or among ferns. The ideal soil is a retentive loam, freely mixed with leaf mold and well rotted manure. As Helleborus are impatient of disturbance at the roots it is advisable to select a position for them where they will not be required to be disturbed for many years. Planting may be done in fall or spring, 12 inches apart. Each autumn add a top dressing of leaf mold and well rotted manure, and let it lie on the surface. In summer give plenty of water.

Niger (Strong plants)

A dwarf growing hardy plant, able to withstand temperatures many degrees below zero. Its palm-like leaves are evergreen and of leathery substance. In December, January and February, depending upon locality, large, single, white bell-like flowers which last for weeks, are produced regardless of cold or snow. We offer healthy Wayside grown plants.

Orientalis Atrorubens

Each \$2.00, Three \$5.70, Doz. \$20.00

This is the purple Lenten Rose. Its growth and requirements are practically the same as those of the Helleborus Niger. It is, however, easier to transplant and better adapted to warm weather. The flowers make amazingly interesting, being chocolate-purple tinted on the outside while inside they are greenish, shot with purple. Foliage is evergreen and palm-like. The unusual coloring and shape of the flowers make them a choice subject for a corsage or cut flower, lasting a long time. Quite rare and unusual!

## HEUCHERA - Alum Root; Coralbells

Neat growing and graceful flowering perennials yielding an abundance of flowers for cutting; effective subjects for the margins of borders, as edgings to walks, flower beds, and excellent for the rock garden. They have heartshaped leaves and bear their dainty blooms in graceful panicles or racemes.

Culture. Heucheras require a well drained, fairly rich, and not too heavy soil, also a sunny position. Plant 6 inches apart in autumn or early spring. Each spring top dress with well decayed manure. Lift, divide and replant every third year for best results.

We have carefully tested several varieties of Heuchera in all the pink shades during the past few years, and we find that this is the most desirable of the coral-pink sorts. It is a strong grower, not subject to any blight, and produces an abundance of fine coral-pink blossoms on tall, strong stems, which last over two months. Rosamundi

Each \$1.00, Three \$2.80, Doz. \$10.00 Flowers bright crimson, on 12- to 18-inch stems in June to September; very free flowering. Nice for cutting. Excellent for rock garden.

Bressingham Hybrids Three \$2.45, Doz. \$8.75, 100 \$52.50
These are the new English Hybrid Heucheras in a beautiful range of colors. The shades are from white to pink to coral and red in a charming combination of tints. The flowers are excellent for cutting and unsurpassed in the garden where their graceful airy display never fails to draw attention. Perfectly hardy and lovely evergreen foliage. All Heucheras are the finest of garden plants and particularly good for edging walks.

#### HIBISCUS - Mallow

About one hundred and fifty to two hundred species are known, some annual, others perennial or as shrubs. We are dealing here only with the Giant Mallow of recent introduction which is a tall plant about 3 to 4 feet high with immense white, pink or red, Hollyhock-like flowers, freely produced during the summer.

Culture. A rich, moist, well drained soil suits them best. Best planted as single specimens in full sun in the border, or in groups of three or more on the lawn. Plant in fall or spring, 25 inches apart.

## NEW SUPER GIANT HIBISCUS Blooms 10 to 12 inches in diameter.

When, many years ago, the Giant Hibiscus were introduced, they created quite a lot of comment. The New Super Giants in many instances produce flowers which are 50 per cent bigger or even more. A well grown plant with its immense flowers is quite a sight to behold.

The varieties offered were all produced from selected plants noted for their size and freedom of bloom. Increase from divisions is slow but the results justify the extra effort. Give these plants ample room and grow them in full sunlight, watering freely.

As the name implies, this is a gay and happy fellow! White at base of petals; flushed and softly veined fuchsine-pink. A deep crimson "dot" at center adds to its charm. You will want at least one Clown to add gaiety to your garden!

Lovely shade American-Beauty-red; blooms deeply cupped as they first open. Edges of petals gently ruffled. Crimson Wonder

**Each \$2.00, Three \$5.70, Doz. \$20.00** A lovely silvery pink deepening to bright rose-pink at outer edges of petals. Bright cherry-red center. Petals are gently rigid and softly ruffled at tips. A most handsome flower and one of the most prolific.

Each \$2.00, Three \$5.70, Doz. \$20.00 Here is the dusky member of the family; a deep, deep velvety crimson, so unusual that it is not to be found in standard color charts. Nicely formed open flowers.

Super Giant Hibiscus in Mixture Each 90c, Three \$2.50, Doz. \$9.00 These magnificent hybrids contain a wide variation of colors and forms. They are superb

## MEEHAN MALLOWS

A wonderfully improved form of our greatly admired native Marshmallow Rosemallow.

Meehan Mallows, Mixed Colors

Three \$2.15, Doz. \$7.50, 100 \$45.00

## IBERIS - Candytuft

When in flower in spring and covered with a mass of snow-white blossoms, they add considerably to the attractions of the garden. They are of shrubby growth, with dark green, evergreen foliage.

Culture. Grow in good, ordinary soil. Plant in fall or spring, 6 inches art. When plants become straggly, trim them directly after flowering.

Little Gem (true form) Each 90c, Three \$2.50, Doz. \$9.00, 100 \$55.00 Dwarf, pure white flowers in June. Its uniform, neat habit makes it one of our best compact low formal edging plants; perfectly hardy. There is nothing much better for edging small flower beds.

A neat, evergreen, compact and low-growing plant with immense pure white flowers which cover the plant entirely when it is in bloom. This new variety is in our opinion the best of the dwarf Iberis. Its neat, compact habit and rich deep evergreen foliage make it an A No. 1 edging plant for flower beds or along walks. Its uniform habit creates a very neatly finished little edging. Purity

Each 90c, Three \$2.50, Doz. \$9.00, 100 \$55.00 Covered with a sheet of white flowers in spring, completely covering its rich dark green foliage; a particularly fine plant for the border. Does well in light shade and therefore excellent as a ground cover in front of shrubs. May be used for edging to parks or walks. Little Gem, however, is more formal and upright for these purposes.

## LIATRIS - Blazing Star or Gayfeather

Showy plants, native of North America. They have grassy, linear leaves produced in a thick, tufty mass, out of which arise the stems furnished with spikes of purple flowers.

Culture. They will all thrive in ordinary garden soil, in sun or in shade, and are grown in groups of three or more. Plant in autumn or early spring. May be grown by the waterside, and bees are very partial to the flowers.

vecnostachya

Each 90c, Three \$2.50, Doz. \$9.00

Nothing can be planted that will attract more attention on account of its unusual appearance; but it is beautiful as well as odd. It blooms in midsummer and throws up long, narrow spikes of rich purple flowers tipped white at the ends, four feet high, which last a long time. Pycnostachya

Scariosa, September Glory

Each 90c, Three \$2.50, Doz. \$9.00

A giant 6-foot spike solidly covered with purple flowers from top to bottom. The flowers, unlike the common variety, come into bloom all at the same time, creating a marvelous effect. A splendid improvement over the old variety. Late flowering. September.

Scariosa, White Spire

Each \$1.00, Three \$2.80, Doz. \$10.00

A magnificent pure white Gayfeather. Just as tall as the September Glory from which this variety is a sport. Superb for a bold effect in the garden as well as a stunning flower for cutting.

picata, Silver Tips

Each \$1.00, Three \$2.80, Doz. \$10.00

A strong growing plant which sends up several rigid spikes of bloom, the color of which is lavender with a strong and decided silvery sheen, hence its name "Silver Tips." It is a very showy variety for the garden and much prized as a cut flower. Like all other Gayfeathers it is free from bugs, requires no care and increases in size each year. It is a fine, fool-proof plant. Spicata, Silver Tips

## **LUPINUS** - Lupine

Stately, colorful and beautiful perennials. The pea-shaped flowers are closely spaced on 3- to 4-foot spikes. The effect made by these colorful spires places the Lupines in the front rank of hardy border plants.

Culture. Growing Lupines well is not as much a problem of soil as it is one of atmospheric conditions. They require ample moisture, full sun and do not like the hot, drying winds of summer. They do equally well in heavy or light sandy soils. Water freely when ground is dry. They look best planted in bold groups. Plant in fall or early spring, ten inches apart. Whenever possible, do planting and transplanting in fall.

Polyphyllus, Blue Each 80c, Three \$2.25, Doz. \$8.00 (Hardy Lupine). Clear blue spikes, 3 to 4 feet high, during June.

Polyphyllus albus Each 80c, Three \$2.25, Doz. \$8.00 white variety of the above.

Polyphyllus roseus Each 80c, Three \$2.25, Doz. \$8.00 owers of beautifully shaded rose.

## ROYAL HYBRID LUPINES IN MIXED COLORS

You will find in our Royal Lupines the same gorgeous colors: self blues, pinks, reds, yellows, maroon, purples, etc. Bicolors such as violet and white, blue and yellow, red and bronze, red and white, purple and cream, blue and white, yellow and orange, pink and white, etc. The standards one color, the keel another. Individual flowers above average size, upright standards of some being an inch across. The flower spike resembles a closely set, well rounded column of Sweet Peas. All flowers on spike open at one time from top to bottom. Spike 3 to 5 feet tall. The sensation of the English horticultural world in 1954.

We offer fine two-year, field-grown plants that will give you a mass of blooms the same year they are planted.  $Three \ \$2.25,\ Doz.\ \$8.00,\ 100\ \$50.00$ 

## LYTHRUM - Purple Loosestrife

Suitable showy plants for moist, sunny borders and the waterside. The plants are of stately growth, and bear their rosy or purplish flowers in tall,

afy spikes. **Culture.** Grow in ordinary soil in moist, sunny borders, or in groups by e waterside. Plant in autumn or early spring and divide and replant.

uperbum, Morden's Pink

Each 90c, Three \$2.50, Doz. \$9.00

This fine Lythrum originated at the Morden Experiment Station, Morden, Manitoba, Canada. The plant grows to a height of 3 to 4 feet and bears dozens of spikes covered with deep Phlox-pink florets from June to late September. Lythrum Morden's Pink can be grown anywhere; it is as hardy as a tree. It does well during the dryest weather but comes to perfection in a moist, sunny location where it develops into a magnificent showy clump 3 feet across or more. An excellent summer flower-Superbum, Morden's Pink

cobert

Each 90c, Three \$2.50, Doz. \$9.00

During the past few years, several varieties of Lythrum have been introduced, each one better than the last. The variety ROBERT came to us from England. It grows nice and dwarf as well as bushy, about 18 inches tall with a dozen or more spikes on 2-year plants which are a clear fuchsia-pink with sparkling reddish glow. A very bright and cheerful color. It does superbly near a pond or stream where it receives a lot of water. Makes a fine garden plant in those difficult wet spots. Hardy anywhere and of easiest culture. Here is an easy subject which responds to almost any kind of treatment.

Ench \$1.00 Three \$2.00 Dec 10.00 Robert

Each \$1.00, Three \$2.80, Doz. \$10.00 Lady Sackville Brilliant rose colored flowers on twiggy stems. Valuable for waterside and moist situations. 5-foot stems. July-August blooming. This, in short, describes this fine English variety. Of course, its merit is its color which is a bright rose and its closely set flowers, resulting in a more compact spike. It has shown up most satisfactorily in our nursery and we recommend it without hesitation.

Morden Gleam

Each 90c, Three \$2.50, Doz. \$9.00

It originated at the Experimental Station, Morden, Manitoba, Canada, Without doubt Morden Gleam is the nearest red of any Lythrum, a brilliant, gleaming carmine. Completely hardy, thrives anywhere, from coast to coast. Grows in full sun or part shade in just ordinary soil. It is the easiest of all hardy perennials to grow, requiring practically no care. Blooms continuously for weeks right through summer's heat. After it is through blooming, the seeds color attractively and in the fall the foliage turns striking red-purple. Makes an attractive bushy plant 40 inches tall.

## MONARDA - Bee-balm; Bergamot

The flowers are borne in close heads or whorls on stems about 2 to 3 feet high, surrounded by colored bracts, and the leaves are more or less fragrant. Attractive plants for the semi-shady or sunny border, the wild garden, or for the city gardens.

Culture. Grow in ordinary soil in sunny borders or in light shade. All may be naturalized in the wild garden. Plant in bold groups in autumn or spring, 10 inches apart. Divide and replant every third year.

The white Monarda is similar in habit of growth to Cambridge Scarlet. Excellent in light shade or full sun.

bidyma, Cambridge Scarlet Each \$1.00, Three \$2.80, Doz. \$10.00 Brilliant crimson-scarlet flowers are produced freely from June until August. A good plant for wild garden as well as border or garden in the city where other flowers don't grow well. Didyma, Cambridge Scarlet

Didyma, Croftway Pink

Each \$1.00, Three \$2.80, Doz. \$10.00

Not many new plants arrived from England in wartime but this is one of them, and it's a valuable acquisition. A most appealing rich rosepink. Hardy and free blooming. Like other Bergamots, it presents an irresistible attraction for hummingbirds. Does well in shady gardens and is excellent for cutting. It replaces the old variety Salmon Queen which we have discontinued. Didyma, Croftway Pink

Each \$1.00, Three \$2.80, Doz. \$10.00 Presenting a vivid new color nuance in an old, greatly loved family—the Bee-balm or Oswego Tea. Striking clustery heads of fragrant, whorling flowers of deep Indian-lake-red, like Currant jelly. Fine for midsummer bouquets. Distinctly perfumed leaves and blooms. Height 3½ feet. A handsome, long flowering, easily grown, trouble free plant. What more could be asked.

## NEPETA - Ground Ivy; Catmint

The three varieties listed below are beautifully suited for garden use. The foliage is aromatic and silvery gray. The flowers are lavender-blue. The upright growing kinds make a perfect subject for massing in the border while the dwarf forms are unparalleled for foreground planting or as edgings. Few plants lend themselves to such widely varying garden conditions or are as ornamental throughout the season.

Culture. Ordinary soil or even poor sandy soil, well drained and a sunny position will suit the Nepetas. In very cold locations, plant in spring only; otherwise in fall or spring, 12 inches apart. Never cut off summer growth until early spring. Old tops act as fine winter cover. Trim faded flowers to promote new bloom.

Blue Beauty (Upright Growing)

Each \$1.00, Three \$2.80, Doz. \$10.00

From France came this profusely spring-flowering border plant where it is also called Souvenir de Andre Chaudron. It is compact and upright in growth. Twenty to thirty flower stems to one plant. Excellent for cutting as well. It grows about two feet tall and does exceptionally well in hot, dry places. Flowers are produced throughout the summer. The foliage is gray-green, contrasting well with surrounding plants. A most satisfactory plant of very easy culture.

A most satisfactory plant of very easy culture.

\*\*Mussini\*\*
\*\*Each 90c, Three \$2.50, Doz. \$9.00, 100 \$55.00\*\*
Here we have one of the most satisfactory and showy edging or border plants. Its growth is compact and low spreading. It stays "put" and does not crowd out plants nearby, seldom is over 15 to 18 inches wide. In early summer it is covered with dozens of 12- to 15-inch stems which bear small, fragrant, lavender-blue flowers. After the first burst of bloom which lasts better than two months, old flower stems should be removed and there will be an intermittent blooming after that until frost, in addition to its ornamental silvery gray-green foliage. Does perfectly in hot, dry, sunny places where soil is sandy, poor and dry. Avoid wet locations and shade. Mussini

Each \$1.00, Three \$2.80, Doz. \$10.00 A new species, valuable because of its erect growing habit. Flower trusses are large and lilac colored on stems 2½ feet high. It flowers from June until September and is of easy culture, not requiring frequent transplanting. The cool, misty lilac flowers are most desirable during the summer when blue flowers are at a premium.

## OENOTHERA - Evening Primrose

The species named below are especially suitable for growing on the margins of sunny borders and rock gardens, and make a continuous and brave display of color throughout the summer with little attention.

Culture. Require a well drained medium sandy soil freely intermixed with well-decayed manure and a sunny position to grow and flower freely. Show to the best advantage when grown in groups. Plant 8 inches apart in spring or fall. They are apt to perish in winter if grown in heavy, damp soils.

Each 90c, Three \$2.50, Doz. \$9.00 Oungi Each 90c, Three \$2.30, Doz. \$9.00 A strong, stocky, large-leaved plant with firm, shiny foliage, numerous bright lemon-yellow flowers on stems about 24 inches tall from June to August. Iron-clad hardy even on heavy clay soils. Does well in full sun and is valuable for growing in light shade; multiplies freely.

## PACHYSANDRA TERMINALIS. See page 4.

## PLATYCODON - Chinese Bellflower

Very satisfactory hardy plants for the sunny border. It has broad, blue or white, bell-shaped flowers all summer and is therefore a very fine garden plant.

Culture. Must be grown in a light, more or less sandy soil, in a well drained, sunny border. If the border is slightly elevated so much the better. Plant in early spring or fall, 8 inches apart. Disturb as little as possible.

randiflorum Each 90c, Three \$2.50, Doz. \$9.00 Large, showy, deep blue flowers on 20-inch spikes are produced all summer. A splendid plant for the hardy border. Grandiflorum

Grandiflorum album Each 90c, Three \$2.50, Doz. \$9.00 White-flowered form of the above.

**Tariesi**Each 90c, Three \$2.50, Doz. \$9.00

A beautiful and easily grown dwarf Japanese species. Large, violet-blue, cup-like flowers on very low stems, seldom over 6 inches tall, more often 4 inches high. Has fine leathery dark green foliage and it blooms almost the entire summer. We advise planting 3 or 6 roots in a clump for continuous and fine effect. Perfectly hardy and not particular about soil. Makes a nice show in front of the flower border.

## PLUMBAGO - Leadwort

arpentae

Each 95c, Three \$2.70, Doz. \$9.50

One of the most desirable of late blooming low growing hardy plants. If left undisturbed it will very soon spread into a clump 12 to 18 inches in diameter, not over 6 to 8 inches high, solidly covered with small clusters of bright peacock-blue flowers during late summer and fall. It does perfectly in semi-shady or very hot corners or equally as well at the base of shrubs. It may also be used as an edging to a walk or garden path. Its extra long period of bloom plus its fine, leathery, small foliage set it apart and it is considered one of the finest of garden plants. Grow it in well drained soil; it does perfectly in sand. Space plants 8 inches apart and spread roots flat when planting. It starts into growth quite late in spring so don't be alarmed if no new growth appears promptly after planting. Cover lightly in very cold locations during winter. Once planted it is there to stay for years to come. Larpentae

## POLYGONUM - Dwarf Lace Plant

Reynowtria

Each 90c, Three \$2.50, Doz. \$9.00, 100 \$55.00

This handsome ground cover was introduced a few years ago by Amos Perry, one of England's oldest and best known plantsmen. It is of easy culture, very hardy and establishes itself quite rapidly from underground runners. It does best in full sun and its pale green foliage turns brilliant red in the autumn. Height is between 6 and 12 inches. In the fall it produces numerous airy pink sprays of flowers not unlike those of the "Silver Lace Vine." The buds are deep coral and salmon, adding much to its charm. One of the best ground covers for sunny places where Vinca and Pachysandra would not be satisfactory. Plants should be spaced 18 inches apart. Revnowtria

## POLYANTHUS - Primrose

The Polyanthus was obtained by crossing the Cowslip (Primula veris), and the Primrose (Primula vulgaris). It has the large flowers of the Primrose and the flower umbel of the Cowslip.

Culture. They like a moist, shady position, and rich, liberally manured soil.

NEW AUSTRALIAN SELECTIONS

Tango Supreme Shades

A beautiful mixture of orange and yellow shaded primroses raised from seed obtained from a specialist in Australia. Flowers are noted for size and unusual shadings.

and unusual shadings.

Pink and Rose Shades
These were also raised from seed by the same Australian specialist. The mixture is made up of rose and pink tinted flowers of unusually large size and lovely colors and shades.

Pacific Giants in Mixed Colors
A superb mixture of unusually large flowers (we will avoid the word giant), in a tremendous range of colors. The plants are vigorous and exceptionally free-flowering. We have never seen anything like them.

PYRETHRUM - Colored Marguerite or Painted Daisy

They produce showy flowers of all shades of color, except blue and yellow, freely on long stems throughout spring, which are of inestimable value for cutting. They grow in neat, compact tufts, and have elegant, finely cut foliage, which adds to the attractiveness of the plants.

Culture. The best time to plant is in spring; early fall planting is also very successful. Grow them in groups of not less than three plants, planted a foot to 15 inches apart.

Robinson's Dark Crimson

Each 90c, Three \$2.50, Doz. \$9.00

Robinson's Dark Crimson

Robinson's Dark Crimson

Single, large, disk-like flowers of rich crimson-red. Grows well and flowers freely. A favorite with florists for cutting. Three or more clumps make a very brilliant group in the border.

Finest Mixed English Varieties

Three \$2.15, Doz. \$7.50

This mixture contains double and single-flowered sorts in many shades of pink, rose and white. Strong clumps that will give immediate results.

## **RUDBECKIA** - Coneflower

Hardy, free-flowering and easily grown perennials, somewhat akin to the Sunflowers in habit. Excellent and showy plants for sunny or partially shaded borders, and for yielding flowers for cutting.

Culture. Ordinary soil in sun or shade. Can be grown singly or in groups. Plant in autumn or spring, 12 to 15 inches apart. Divide and replant every fifth year.

Plant in autumn or spring, 12 to 15 inches apart. Divide and replant every fifth year.

Goldsturm

Developed in Europe during the war where it is extremely popular. The large, deep yellow Daisy-like flowers often 3 to 4 inches across have a handsome bronzy black cone in the center. They are produced in the greatest abundance on nicely branched stems, blooming throughout July, August and September. Here is a plant which is not bothered by insects, heat or drought and is hardy anywhere; requires practically no care. A fine new addition to the summer blooming hardy plants.

Laciniata, Gold Quelle

This new dwarf variety, Gold Quelle, does not grow over 3 feet high, Flowers from September to November with a superb display of double, clear yellow blooms. A most desirable plant for autumn color. Hardy anywhere, requiring minimum of care. Do not confuse it with the tall, common form of Rudbeckia laciniata which is found in many farm yards and old gardens. At best it is an undesirable, weedy plant.

The King

It bears its large Daisy-like flowers which are maroon-red in the center shading lighter toward the edge of the petals, on stout branching stems. An established clump will produce from 10 to 20 fine spikes, never failing, no matter how hot or dry it may be. From half open buds to the orange-brown seed pod, the plant is always attractive. Insect free, not bothered by weather, easily grown, almost indestructible. Height 3 feet.

## SCABIOSA - Scabious or Pincushion Flower

Charming perennials for border culture and for cut flowers. The Scabiosa caucasica are particularly valuable for the latter purpose, as its large, showy, blue or white flowers are borne on long stems. The species are of easy culture, and desirable to grow in sunny borders.

Culture. All will thrive in well drained, good, ordinary soil, which is not heavy or damp. Cold and damp is fatal to these plants. An ideal soil for them is a sandy loam. Plant in early autumn or early spring. The plants are best in groups of three or more. Plant about 8 inches apart. A full sunny position is essential.

(Blue Bonnet). Their lovely flowers are a soft and charming shade of lavender; commences to bloom in June, throwing stems 18 to 24 inches augustice of the commences. Caucasica

Caucasica alba Each 90c, Thre (White Bonnet). The white form of the preceding. Each 90c, Three \$2.50, Doz. \$9.00

SEDUM - Stonecrop

Culture. Ordinary soil and dry, sunny borders or dry, sunny places in the ck garden will suit all. Spectabile, indeed, will also thrive in shade. Plant autumn or spring, 4 to 8 inches apart.

Acre

Each 90c, There \$2.50, Doz. \$9.00

(Golden Moss). Much used for covering graves; foliage green, flowers bright yellow; prostrate and slowly spreading.

Cauticola

A lovely low growing Sedum. Arching branches covered with fleshy gray-green, small leaves, giving a fine effect throughout the summer. However, it is in the late autumn that it is at its best when the plants are covered with rose-red flower heads. We consider this one of the finest late fall flowering plants. Excellent, of course, in rock garden or rock wall. Height not over 4 inches. September and October flowering.

Middendorfianum

Each \$1.00, Three \$2.80, Doz. \$10.00

A really hardy species from Siberia. The short decumbent stems are slender and have narrow leaves which are toothed. During July and August the plants are richly covered with gold-yellow flowers. Never grows over 6 inches high and is not untidy or rampant in growth. An A-1 species for the rock garden or in front of a flower border.

Sieboldi

Each \$1.00, Three \$2.80, Doz. \$10.00

Round, thick, silvery gray leaves with faint reddish margin all summer. Bright pink flowers in the fall, from September until frost. It is also a good pot plant, easily cared for in the house and forces readily. The loveliest of all the Sedums. There is no doubt about it.

Spathulifolium, Capablanca

Each \$1.00, Three \$2.80, Doz. \$10.00

This variety we received recently from England and it is one of the nicest of Sedums. Low growing and slowly spreading, its blue-green rosette-like leaf clusters create a fine effect. During May and early June the plants are covered with bright yellow flowers. A fine and orderly variety.

Spectabile, Carmen

Each \$1.00, Three \$2.80, Doz. \$10.00

pectabile, Carmen

A handsome delicately colored Sedum. Well grown flower heads often are 10 inches in diameter and softly shaded Persian rose which combines beautifully with the silvery gray-green leaves. Height about 12 to 15 inches tall. An excellent subject for tubs, porches or steps. They do not mind going without water for weeks and will live over winter outside without care or protection. Three plants to a tub makes a fire show. Spectabile, Carmen

pectabile, Meteor Each \$1.00, Three \$2.80, Doz. \$10.00 Glowing carmine-red flower heads grown on leafy stems about 18 inches tall. The foliage which is a soft gray-green is handsome throughout the year. In summer and early autumn when the brilliant flower heads are at their best, it is one of the showiest of plants. May also be grown in tubs in which they do beautifully, requiring the minimum of care. Spectabile, Meteor

SPIRAEA - Astilbe (Goat's Beard; Meadow Sweet)

Very handsome herbaceous perennials. The species named below have handsomely divided leaves and flowers borne in graceful, feathery plumes. Culture. The Spiraeas reqquire a deep, rich and moist soil. Plenty of leaf mold and well-decayed manure must be incorporated with it before planting. They will thrive in shady, moist borders or they may be grown by the waterside.

Deutschland

A lovely pure white variety of strong growth and very free flowering 2-foot spikes. The best white grown.

Red Sentine!

This brilliantly colored new Spiraea not only develops plants that are delightfully decorative, with their bronzy, divided foliage all season, but the flowers are the darkest in color of the family. Height of both plant and bloom spike is about 2 feet, at least a foot of which is a feathery spike of rich deep garnet which appears to be lightly dusted with tiny frost crystals. Bloom lasts over a long period during early summer, providing a vivid splash of unusual color in the border.

Rheinland

Conspicuously beautiful with dense, feathery plumes of brilliant pink.

Venusta magnifica

Each \$1.50, Three \$4.25, Doz. \$15.00

Attractive fern-like foliage and large plumes of glowing rose-pink flowers make this a beautiful stately plant in bloom as well as out. Flowers throughout July and August on rigid stems 4 to 5 feet tall. Likes a moist location in full sun. Requires no care or frequent dividing. An

## STATICE - Great Sea-Lavender

The leathery, dark green leaves spring directly from the root stock and the flower stems are more or less twiggy, bearing their small flowers in much-branched panicles. The flowers are useful for cutting for indoor decoration, also for drying for winter use.

Culture. A sandy loam is essential to grow these plants well. A sunny position, too, is indispensable. Plant in autumn or spring, 6 inches apart. They show to the best advantage grown towards the front of the border.

Latifolia

A valuable plant either for the border or rockery; immense heads, freers during July and August. These, if cut and dried, last in perfect Latifolia Violetta

A lovely form of the well known Sea Lavender. The heads of violet-blue which it resembles in every other respect. Lovely cut flower and graceful garden plant.

## STOKESIA - Cornflower Aster; Stokes' Aster

A very handsome perennial, with China-Aster-like flowers, that appear throughout the season. It prefers a warm, sheltered location. Should certainly be grown in all gardens since its flowers are most beautiful in form and color.

Culture. Grow in a sunny, well drained border in sandy loam, 6 inches apart. Plant in March or early autumn.

lue Moon

Each \$1.00, Three \$2.80, Doz. \$10.00

The immense light blue disc-like flowers are 5 to 6 inches in diameter, growing on stiff 12- to 18-inch stems. In the foreground of the border they make a picture not easily duplicated. Stokesia, Blue Moon, is a distinction. It is perfectly hardy and has no insects bothering it. It is toped by hard trosts. A most worth-while addition to the hardy plant garden. Blue Moon

## THALICTRUM - Meadow-Rue

Hardy perennials, with elegant, finely divided, Columbine or Maidenhair-like foliage, which is most useful for cutting for mixing with cut flowers. Are borne in feathery clusters or panicles, and they add considerably to the beauty of the plants. They are of easy cultivation in sun or shade.

**Culture.** They will thrive in any good, ordinary, well drained soil. May be grown in sunny or partially shaded borders, are most effective when grown as single specimens in the front of shrubbery borders, or in the wild garden. Plant in autumn or spring, 8 to 12 inches apart.

quilegifolium Each \$1.00, Three \$2.80, Doz. \$10.00 Graceful foliage like that of Columbine, and flowers shading from rosy lavender to white; blooming from June to July on 2- to 3-foot tall spikes; lovely planted together with Poppy Helen Elizabeth.

similar in habit to the Aquilegifolium; blue-gray leaves rather finely cut, with heads of Chinese yellow, fragrant flowers. 3 to 4 feet. July.

Each \$1.25, Three \$3.50, Doz. \$13.00 Flowers of a charming shade of lilac-mauve, which is brightened by a bunch of lemon-yellow stamens and anthers. The plant is of strong growth, about 3 to 4 feet high. The dainty flowers are produced in graceful sprays during August and September. It grows into a fine clump with many stems on each plant. Foliage is Maidenhair Fern-like. Loves a moist, sunny spot and is ironclad hardy. A superb and distinct plant, very decorative and of great cut-flower value. Sometimes referred to as the hardy Dipterocarpum. Rochenbrunianum

#### TROLLIUS - Globeflower

Hardy perennials belonging to the Buttercup order. The flowers are globe-shaped, yellow or orange in color, and particularly useful for cutting.

Culture. They require a deep rich soil containing plenty of humus. They also like plenty of moisture, hence, should be grown in damp, shady corners, or, better still, by the waterside, in bold masses. Plant in autumn or very early spring, 8 inches apart.

uropaeus, Orange Globe Each \$1.00, Three \$2.80, Doz. \$10.00 Desirable free-flowering plants, producing their giant orange-yellow, Buttercup-like blossoms on stems 1 to 2 feet high from May until August; succeeds admirably in the border in a moist position. Europaeus, Orange Globe

Europaeus, Lemon Queen Each \$1.00, Three \$2.80, Doz. \$10.00
A vigorous plant and free blooming with large lemon-yellow globe-shaped flowers in May. Does well in moist places but should have full sun. Excellent for cutting and a fine subject to plant with Tulips.

sun. Excellent for cutting and a fine subject to plant with Tulips.

Ledebouri (Golden Nugget Globe Flower)

Each \$1.25, Three \$3.50, Doz. \$13.00

A remarkable plant of tremendous garden value. Tall stems with dozens of golden cup-shaped flowers composed of five ovate sepals from which rise 10 to 12 narrow linear petals giving a most unusual effect. It is a strong growing plant, very free blooming; requires little or no care and Siberia being its home will take any cold weather we have to offer. Height about 24 inches; loves a moist, sunny location. A well established plant will produce dozens of spikes with innumerable flowers over a long season. They are showy and particularly well suited for cutting, lasting a long time in water.

Choice Mixed Varieties

Three \$2.25, Doz. \$8.00, 100 \$50.00

Colors range from pale yellow to deep orange. A wide variety of shades and forms include also a quantity of the above named varieties. They will provide at little expense an abundance of cut flowers as well as a bright show in the garden. Choice Mixed Varieties

## TEUCRIUM - Germander

Shrub-like plants of moderate growth. Chamaedrys has shrub-like, shiny,

**Culture.** A well-drained, good garden soil is all that is required to grow them to perfection. Plant in fall or early spring, 6 inches apart in full sun, in rock garden or border. Chamaedrys may also be used as an edging to flower beds or garden plants in the small formal garden.

Chamaedrys Each 90c, Three \$2.50, Doz. \$9.00, 100 \$55.00 Glossy green foliage resembling dwarf Boxwood, may be used in place of Boxwood where the latter is not hardy; can be clipped to suit any height up to 12 inches.

Veronica Longifolia Subsessilis

## TRILLIUM - American Wood-lily or Wake Robin

Spring-flowering perennials with three leaves borne in a whorl, and flowers with three petal-like segments.

Culture. The Trilliums require to be grown in peat and leaf mold in shade or partial shade. Plant in autumn or very early spring, 3 inches apart, in large colonies to produce the best effect.

randiflorum

Three \$1.55, Doz. \$5.50, 100 \$32.50

Excellent plants for shady positions in the hardy border, or in a sub-aquatic position. Large, pure white flowers in early spring. 12 to 18 inches high. Grandiflorum

### **VERONICA**

We cannot imagine a garden or a well kept rock garden without just quantities of Veronicas. No matter what may be introduced in novel plants, no matter how fine the garden or border in which they are to grow, this garden would not be complete without such plants as Veronica Longifolia Subsessilis. From July to September they are the highlights. The color created by Royal Blue in June is outstanding.

Culture. Good, ordinary soil will suffice for all the following kinds. Grow the dwarf sorts in masses on the margins of sunny borders or rock gardens, and the others in colonies in positions according to their height. Plant in autumn or spring, 6 to 8 inches apart.

Amethystina "Royal Blue" Each \$1.00, Three \$2.80, Doz. \$10.00

Beautiful spikes of rich gention-blue flowers. 10 to 15 inches. June and July flowering.

lue Champion Each \$1.00, Three \$2.30, Doz. \$10.00 Growing two feet high, its lovely deep blue spikes show up well in the hardy border. The foliage is clean and plant is of bushy upright habit and flowers throughout the early summer. A fine new introduction of real merit, and a plant which does withstand hot and dry weather without suffering. Altogether a very worth-while border plant. Blue Champion

Blue Peter Each \$1.00, Three \$2.80, Doz. \$10.00

A recent novelty from England and without doubt the best of the early summer-flowering Veronicas. The flower spikes are of deepest navy blue on stiff stems about 15 to 18 inches tall. This variety will replace Blue Spires as soon as it is better known because of its better color and far superior habit of growth and floriferousness. A heavy bloomer and of easy culture. A "must" for your garden. (Blue Peter is the name given the blue flag displayed by ships ready to leave port.)

Each \$1.00, Three \$2.80, Doz. \$10.00 Crater Lake Blue Fact \$1.00, Three \$2.80, Doz. \$10.00 For foreground planting in the border where you want a strong growing plant and a rich mass of color, there is nothing much better than Veronica Crater Lake Blue. It grows about 18 inches tall, prefers sun but does well in light shade. The dozens of flower spikes are the color of Oregon's famous blue Crater Lake.

Each \$1.00, Three \$2.80, Doz. \$10.00 This fine white Veronica has been most attractive in our nursery and many visitors have spoken of it. The white spikes it produces are about 15 in. tall and keep on coming throughout the summer and well into fall. The plant is as hardy as an Oak and multiplies freely without being weedy. The flowers are at their best when most gardens are a little jaded. In addition, they are fine for cutting. All in all, this is a splendid new variety.

ongifolia subsessilis Each \$1.25, Three \$3.50, Doz. \$13.00 2 feet. July to September. One of the handsomest blue-flowering plants. Perfectly hardy and increases in strength and beauty each year. Spikes completely studded with beautiful blue flowers; fine for cutting and one Longifolia subsessilis of the best plants for the hardy border.

upestris

Each \$1.00, Three \$2.80, Doz. \$10.00

A fine rock plant growing 3 to 4 inches high; thickly matted, deep green foliage, hidden in early June under a cloud of bright blue flowers. Does well in light shade and is also a good ground cover for shrub

NEW VERONICAS. (See page 60.)

VINCA - Periwinkle or Trailing Myrtle. (See page 4.)

## VIOLA ODORATA - Sweet Violet

couble Russian Each 90c, Three \$2.50, Doz. \$9.00, 100 \$55.00 Perfectly hardy anywhere, producing double sweet scented violet flowers in abundance. A splendid variety—for that troublesome shady place, and that is not all, when established it will surprise you as well as delight you with its superb fragrance. Double Russian

A sweet scented perpetual flowering Violet. It never stops blooming. The flowers are fair size and you can always pick a nosegay from a few plants. The fragrance leaves nothing to be desired. This perpetual flowering Violet is a good grower and if you plant it in a favorable location will soon become a big clump. Does well in light shade. Perfectly hardy. Odorata semperflorens

osina  $Each\ 90c,\ Three\ $2.50,\ Doz.\ \$9.00$  Producing not only in spring but again in late autumn quantities of dainty, deliciously fragrant, pink or old rose flowers. Useful for bordering or as a ground cover in half shade or full sun.

Acyal Robe

Each \$1.00, Three \$2.80, Doz. \$10.00, 100 \$60.00

This glorious variety is a lustrous shade of deepest violet-blue. The blossoms are richly fragrant and open out flat like a small Pansy. It is quite unnecessary for us to expatiate on the transcendent beauty of this Violet. Suffice to say a trial in your own garden will bear out all we have had to say and more. A few plants of this Violet in the garden will serve to furnish quantities of deliciously fragrant bloom either during early winter or early spring and at a time when flowers are most highly prized. Stems are long and excellent for picking. Plants multiply freely and grow into big clumps.

White Czar Each 90c, Three \$2.50, Doz. \$9.00, 100 \$55.00 A beautiful white Violet. The flowers are on long stems; they are large and substantial and are produced in great abundance; in addition to its free flowering it is also a strong growing variety and is quite happy in full sun. A fine companion for Royal Robe which still continues to be the best of blue Violets.

# Iris Kaempferi - JAPANESE IRIS

The ancient poets called their Iris, Ground Rainbows; also Children of the Gods. A promise from them that beauty on earth would ever be. The finest of all their varieties is the Kaempferi which we offer you in a wide choice of colors. Not the least of their fine points is the graceful foliage. A thing of beauty after the blooms are past.

Planted in a mass, or as a border, they are ideal. A few edging a reflecting pool or stream, is something to remember. No matter how fine

your Iris collection may be, not to have these is to deprive yourself of something that will make it complete.

CULTURE: Late plantings should be protected by a light covering of straw or leaves after the ground is permanently frozen to prevent roots from being heaved out of the ground by frost. Plant in spring or September and October. Avoid all lime.

This is the finest of all Japanese Iris. The magnificent delft-blue flowers, veined a slightly darker shade, are of unusually heavy texture as well as beautifully waved. In the center of the flower occurs a tuft of short curly and thick dark blue petals, made more pronounced by the golden starlike heart. It is a very free-flowering variety and not too rank a grower. The flowers are of unusual substance, one can crush the flower petals and they will spring back into shape. The last of the Japanese to bloom. Here is a choice garden plant.

Double. Tall, stately pure white. Gold-banded with creamy white center. Type of petals slightly ruffled. Gold Bound

Atherine Havemeyer Each 90c, Three \$2.50, Doz. \$9.00 Medium-sized, 6-petaled variety of a lavender-blue shade, intensifying to true blue with lighter veining at the center. Deep yellow center, 3 creamy white style arms tipped lavender-blue. This is considered one of the best Japanese Iris. Katherine Havemeyer

Light in the Opal ight in the Opal  $Each\ 90c,\ Three\ \$2.50,\ Doz.\ \$9.00$  An amazing color, soft rose-pink with opalescent iridescence. A beautiful, free-flowering variety which never fails to cause comments.

ucia Marshall Each 90c, Three \$2.50, Doz. \$9.00 Double, very large and showy. Petals blue-violet. Broad white veining widens near base to form a halo for yellow markings at center.

Nishiki Yama Each 90c, Three \$2.50, Doz. \$9.00

Double Pansy-violet. Flushed and veined white. Center petals tipped mauve. An unusual combination of colors, not seen in other varieties.

Each 90c, Three \$2.50, Doz. \$9.00 Pyramid Double, bluish violet. Very large. White center tipped violet. Blue shading and white veining at center of petals.

uby Giant Each 90c, Three \$2.50, Doz. \$9.00 Giant flowering, mahogany-red. A bold and outstanding flower on stiff stems. It is very free blooming and easily grown. Most desirable. Ruby Giant

## IRIS KAEMPFERI (Japanese Iris) In a Rainbow Mixture of Beautiful Colors

Few plants are as easily grown or provide as beautiful a display of flowers early in summer. Both form of flower as well as the subtle coloring is charming, while the foliage is always graceful and ornamental. The mixture offered here is grown from special seed imported from Japan. It contains a wide range of colors in both single and double flowers. It was gathered from one of the finest collections in that country. If varieties do not particularly matter, we suggest you make a planting of this mixture.

Three \$2.15. Does \$2.50. 25. \$2.25.0. 100. \$4.5.00.

Three \$2.15, Doz. \$7.50, 25 \$12.50, 100 \$45.00

## Iris Pumila

Autumn Flowering—Flowering in Spring as Well
These autumn-flowering Irises have two or more normal flowering seasons each year. They blossom in spring with other early flowering varieties and again in autumn, beginning in September and continuing until killed by heavy frosts. Some of them also flower intermittently throughout the year.

Each 70c, Three \$2.00, Doz. \$7.25
This is a reliable spring and fall bloomer. A pure snow-white. It belongs in almost the same class as Jean Siret and Lieut. Chavagnac so far as size and height are concerned, but is a little larger and a little taller. Each 70c, Three \$2.00, Doz. \$7.25
This variety and Lieut. Chavagnac are the most persistent bloomers of the Iris family. They begin to flower quite early in the spring with the earliest miniatures and have a long spring-flowering season. They also have an equally long autumn-flowering season. Clear chrome-yellow. Each 70c, Three \$2.00, Doz. \$7.25
A new everblooming, fragrant, violet-colored variety, with the same qualities as Jean Siret. The two go well together.

Each 70c, Three \$2.00, Doz. \$7.25
This is a good cream-colored spring and fall bloomer. Each 70c, Three \$2.00, Doz. \$7.25

Lieut. Chavagnac

Olive White

Spring Flowering Varieties

These beautiful little Irises do not grow over 4 inches high and bloom in April and May. They are fine for bordering flower beds or planting in the rock garden.

Excelsa

Each 70c, Three \$2.00, Doz. \$7.25
Wine colored reddish purple; very dwarf, free blooming.

\*\*xcelsa\*\*

A very dwarf pale lemon-yellow; very free flowering.

\*\*Each 70c, Three \$2.00, Doz. \$7.25

A very dwarf pale lemon-yellow; very free flowering.

\*\*Each 75c, Three \$2.15, Doz. \$7.50

Tiny flowers of brightest yellow on very slender, graceful stems. Dainty and of clean color. Stems 12 inches tall. Very floriferous.

\*\*Each 70c, Three \$2.00, Doz. \$7.25

\*\*Dark violet-blue; very distinct and showy. Keepsake

Sambo

Sapphire

bo
ark violet-blue; very distinct and showy.

phire
Each 70c, Three \$2.00, Doz. \$7.25

ch sapphire-blue, most cheerful color. Very prolific bloomer.

Each 70c, Three \$2.00, Doz. \$7.25 A large pure white; very floriferous.

ampa  $Each\ 75c,\ Three\ \$2.15,\ Doz.\ \$7.50$  Tiny flowers of a delicate redness for a dwarf Bearded Iris, on slender stems 14 inches tall, often gracefully reflexed. Very floriferous. Tampa

Iris Pumila, Excelsa

## Iris Spuria

Finest Iris for cut flowers. These are so different from all other Beardless Species and Hybrids as to deserve a separate sub-division. The flowers are quite unlike all other Irises, and are very artistic, making exquisite cut flowers for which purpose they are used extensively by florists. They are hardy anywhere. While not indispensable to their success, they prefer a moist spot and make a most imposing effect in the garden.

A stately garden plant and a beautiful long lasting cut flower. In good rich moist soil it will grow 5 feet or more. The flowers have pure white standards while the falls are yellow with a quarter-inch margin of white. An A-1 plant for garden or cutting. Ochroleuca gigantea

Ochroleuca, Golden Nugget Each \$1.25, Three \$3.50, Doz. \$13.00 This is a fine golden yellow selection from the type. Grows same height and size except its flowers are rich golden yellow. A beautiful plant for the garden and superb for cutting.

Reach \$1.25, Three \$3.50, Doz. \$13.00 A soft yellow. The flowers have rather broad petals and are of smooth texture. Height 3 feet. Superb for cutting. Monnieri

A beautiful clean-cut, stiff flower; rich violet-blue with yellow spot on center of each fall. It will grow 3 feet tall, forms a good clump of nice clean foliage. A fine plant for a damp spot in the border. Excellent for Lord Wolseley cutting also.

## Iris Sibirica

A handsome group of Beardless Iris. All are readily grown, prolific in blooming; have handsome foliage and are, you might say, a permanent installation in the garden. They require no care and are ironclad hardy. But like any other plant of that nature a little care and feeding brings superb results. We supply strong plants which give immediate results.

Perry's Blue

Each \$1.00, Three \$2.80, Doz. \$10.00

Beautiful sky-blue flowers by the hundreds. A fine strong plant with good foliage. Grows about 40 inches tall. Its stately form as well as its free-flowering have made this one of the most popular of varieties.

Caesar's Brother

Each \$1.00, Three \$2.80, Doz. \$10.00

A stately plant not too tall, 30 inches high. It is the best of the entire lot of dark blue Siberian Iris and was given Honorable Mention by the American Iris Society. The flowers are an unusually rich black-pansyviolet of a beautiful depth of color. A superb plant for any flower garden.

Each \$1.00, Three \$2.80, Doz. \$10.00 Each \$1.00, Three \$2.80, Doz. \$10.00 Handsome well formed flowers of clear light blue richly veined and marbled. They grow on tall, wiry stems which occur in an amazing quantity. Fine foliage throughout the summer. A distinct and lovely variety which provides interest in the garden as well as an abundance of lovely cut flowers. About 40 inches tall.

Lewellyn

Each \$1.00, Three \$2.80, Doz. \$10.00

The flowers are large and of a most unusual shade of soft blue with darker veins showing. It is a prolific flowering kind. Stems are wiry and about 40 inches tall. An excellent garden plant and fine for cutting.

Each \$1.25. Three \$3.50. Doz. \$13.00

Llewellyn

Royal Herald

Snowcrest

and about 40 inches tall. An excellent garden plant and fine for cutting.

Royal Herald

A free-flowering variety with rich plum-purple flowers. The "falls" are large and drooping velvety black. A handsome plant at all times and stunning when its 3-foot high flower stems are topped with flowers. Hardy anywhere and requires no care.

Each \$1.00, Three \$2.80, Doz. \$10.00

An exquisite hardy Iris; the flowers are of a snowy whiteness, large and well formed, produced in great abundance; foliage light and graceful. A gem for flower border or waterside. 3 feet high.

Fycoon

Each \$1.00, Three \$2.80, Doz. \$10.00

A handsome foliage plant throughout the entire year which is transformed at blooming time into a fountain of rich blue-violet. Dozens of stems, each one topped with several blossoms. Flowers over a long period, making a wonderful show in the garden and are excellent for cutting as well.

# Wayside's Fumous "Blue Ribbon" Iris

A truly wonderful collection of lovely new Bearded Iris has been developed at WAYSIDE GARDENS in recent years. These new varieties were created by American and European hybridizers. Genuine progress and lasting improvements have been made in the new varieties of Iris which we offer you now; in fact, so great has been their improvement that Iris which were considered without an equal a few years ago have now been relegated to a secondary position.

Startling new colors and combinations of colors, heretofore unknown in any other Iris, are to be found in the new Bearded Iris.

Of the hundreds of varieties offered to us by ardent hybridizers and enthusiastic specialists, those listed below and on the following pages were selected by us, as well as a committee of experts on Bearded Iris. These successfully passed the rigorous WAYSIDE GARDENS test of the "survival of the fittest." During the past few years we have grown goodly numbers of these new hybrids and they are a sight to behold when they are in bloom.

Make room for some of these levely new Iris in your garden. You will be enthralled with their dazzling beauty.

Arab Chief Each 75c, Three \$2.15, Doz. \$7.50
An Iris of rich and brilliant coloring—very near to burnt orange in effect, of very intense color value. It is of large size, pleasing form and has exceptionally vigorous growing and blooming habits.

Argus Pheasant Each \$1.50, Three \$4.25, Doz. \$15.00
A smooth soft brown self which has become justly famous in the short space of 3 seasons only. It thrilled visitors at American Iris Society conventions in both Nashville and Portland, and ranks with Pretty Quadroon as the 2 finest and most beautiful light brown Irises of the day. Huge flowers with broad flaring falls and wide standards; orange-brown beard. 38 inches tall.

Bellevive

Bellerive Each \$1.00, Three \$2.80, Doz. \$10.00

A heavily textured well formed deeply ruffled cream tinted flower. It was awarded the President's cup at The American Iris Society Convention in 1952. It grows vigorously and produces huge blossoms on stalks often 40 inches high; was also crowned with the Highly Commended and Honorable Mention Awards of The American Iris Society.

Blue Rhythm

Each 75c, Three \$2.15, Doz. \$7.50

Very large flowers of Cornflower-blue softened by a silvery overtone. The large standards are arched and domed, the broad falls are semi-flaring with smoothly colored hafts. Grows from 3 to 4 feet in height, perfectly branched. A very fine blue Iris of recent introduction which we predict will go a long way.

Casa Morena

Casa Morena Each \$1.00, Three \$2.80, Doz. \$10.00 Extra large flowers of deep, glistening, rich brown. Same solid color on standards and falls. Styles yellowish; beard brownish orange. Not just a novelty but a flower that adds an entirely new, rich note to the garden picture. Hardy and free blooming.

Cascade Splendor

Very large, ruffled flowers of a pink, tan and apricot blend with orange beard and yellow style arms. The ruffling is more pronounced than in any variety we have ever offered and is most unusual in so large an Iris. Late blooming. Well substanced flowers are broad and full, produced on extra heavy stalks 40 inches tall, bearing up to ten flowers. Good branching habit. Too much cannot be said in praise of this lovely Iris.

Chantilly Each \$1.00, Three \$2.80, Doz. \$10.00 A ruffled orchid-pink. The edges of both standards and falls are so heavily ruffled and frilled that they have the appearance of being the same line of breeding as the famous Flamingo Pinks. 36-inch stems, strong and well branched. Makes a very handsome display in the garden and looks well alongside the variety, Blue Rhythm.

Iris Kaempferi

China Maid

Each 75c, Three \$2.15, Doz. \$7.50

It is difficult to convey an adequate impression of the beauty of the flower. It is a soft pink, enhanced by an intriguing blending of golden bronzy buff and soft lilac at the edges of the petals. It is of rare charm and one of the handsomest of pink Iris. The flowers are large, well proportioned, of smooth and even texture, and grow profusely on tall, graceful stems. Planted among soft yellow and pale blue Iris it makes a picture not soon forgotten. The best new pink at a reasonable price.

Chivalry Each \$1.00, Three \$2.80, Doz. \$10.00 One of the outstanding Iris in the medium blue range. Large blooms of excellent form and proportion, quite ruffled. Sturdy growing. It draws the eye by its beauty in style, color and form. One of the most popular varieties.

Elmohr Each \$1.00, Three \$2.80, Doz. \$10.00

Dr. Loomis of Colorado originated this magnificent masterpiece, which the American Iris Society referred to as a sensation. Its immense, beautifully rounded flowers are colored somewhat between Bishop's purple and mulberry-purple. Both flower and color are highly praised by the keenest of Iris judges. It is robust, free blooming, hardy, thrives anywhere; folioge lush, blooms immense. What more could be asked? Flowers of exceptionally large size, larger than those of any other variety and greatly contribute to the distinction of this wonderful variety.

Extravaganza Each \$1.00, Three \$2.80, Doz. \$10.00
A very beautiful amoena with almost white standards shading to cream at the base. The falls are deep red-violet with a blue haze. Late flowering.

Fantasy

Each \$1.50, Three \$4.25, Doz. \$15.00

Charmingly distinctive, this lovely rose and orchid-pink Iris with its brilliant tangerine beard always attracts attention. The flowers are exquisitely formed with just a touch of ruffling and the deep purple buds provide a striking contrast to the rose-orchid blossoms which have a touch of purplish raspberry about them.

Golden Majesty Each 60c, Three \$1.70, Doz. \$6.00 Clusters of bold, gleaming deep gold unfading flowers, on 3-foot stems, place Golden Majesty among the top quality of yellow Iris. The color is rich and clear and stands out handsomely among other flowers.

Great Lakes

The purest of the blue Iris. Winner of the Dykes Medal. No other blue Iris can match it for color, hardiness and freedom of bloom. The flowers are of superb substance with a pronounced flare, crispy petal texture and are strikingly fine. Rugged and hardy, exceedingly free blooming, we repeat it is unquestionably the finest of all blue Iris. Yearly, we receive reports from customers how fine it is and that they rank it as one of the finest Iris in their collection. We recommend it without hesitation.

Gudrun Each 60c, Three \$1.70, Doz. \$6.00 Winner of the Dykes Memorial Medal by the English Iris Society. A top notch white Iris among so many fine new white ones and by many judges considered the finest of all. It is a massive flower of purest snow-white, undoubtedly the largest and most massive. It is one of the most popular of white varieties. We consider it outstanding and one of the finest.

Helen Louise

Each \$1.50, Three \$4.25, Doz. \$15.00

Here is a new pink with depth of color and a deep red-tangerine beard.

The shade is deep salmon with splendid carrying qualities. Good sized blooms with fine form, broad falls and heavy substance. Nice low branching. Good growing habits and free flowering. A wonderful new pink variety.

Helen McGregor Each \$1.00, Three \$2.80, Doz. \$10.00 Clear, pale blue, pure and uniform in color, the sensation of the Iris world the year of its introduction and worthy of all the honors which have been awarded this variety which will be a treasured Iris always. Of perfect form, flaring and daintily ruffled, very large, beautifully spaced on nice stems, it ranks supreme as a light blue.

Indiana Night Each 75c, Three \$2.15, Doz. \$7.50 Lustrous deepest, rich velvety purple, almost black. The finest and most satisfying dark Iris of a long series of seedlings from the famous Sable. 38-inch stems, well-branched with every good quality desired in an Iris. Midseason bloomer and long lasting.

Jane Phillips Each \$1.50, Three \$4.25, Doz. \$15.00
A new light blue that is deeper in color than Helen McGregor. We have seen no Iris which appears near true blue, and for that reason, other experts as well as ourselves consider it an outstanding new variety. It blooms freely, has good stems, and brilliantly proportioned flowers. A hardy, good grower which will be in great demand for many years to come.

Extravaganza

Lady Mohr

A new and altogether different addition to the interesting Wm. Mohr family of Iris, this one brings a color combination previously unknown in this tall bearded group. Standards are oyster-white, huge and slightly fluted, with strong midribs. Falls are pale chartreuse or greenish yellow, with prominent veining. There is a very prominent dark patch surrounding the beard. The stalks reach a height of 4 feet and carry several open blooms at one time. A superbly beautiful Iris; should be in every garden.

New Snow

A white Iris which is neither warm nor cold white but is as white as new snow. The beard is full and bright yellow adding a great deal of life. This is the only color in the flower, as there are no haft veinings or markings. Stalk is sturdy and well branched, 40 inches tall, the big flowers very much ruffled and flaring.

Nightfall

Each 60c, Three \$1.70, Doz. \$6.00

The falls are very velvety rich dark pansy-purple with almost no veining on the haft. Standards are several shades lighter than the falls, making a very striking color combination. Plush-like substance with a glistening sheen. 36 inches tall, well branched. One of the finest, if not the finest of the dark blue-black Iris. Makes a superb contrast along-side of a white variety.

Ola Kala

Each 75c, Three \$2.15, Doz. \$7.50

Here is a deep yellow Iris that perhaps outdoes all others for depth of color and in addition its petals are heavily ruffled. Medium large flowers on nicely branched, 36-inch stalks. So yellow it is almost on the orange side. Considered one of the finest new Iris.

Orelio Each \$1.00, Three \$2.80, Doz. \$10.00 Deep crimson-brown, more red than brown. A handsome, bright flaring flower. The gold lines at the haft reflect a glow in the center of the flower.

Paradise Pink

Each \$1.50, Three \$4.25, Doz. \$15.00

A self-color of a clear, clean pink with no haft markings and a pleasing reddish tangerine beard. Beautifully formed, slightly ruffled flowers with heavy substance, a quality lacking in so many Iris. Five-inch blooms with arching standards and slightly flaring falls. Splendid branching, vigorous and free-flowering. A pink of real value and resistant to sun, wind, rain. Late flowering. 32 inches.

Patrice Each \$1.50, Three \$4.25, Doz. \$15.00

A plicata with semi-flaring falls of clean sparkling white, brushed with bright gold across the haft and speckled rose-brown. The standards are cream, flushed rosy lavender. A remarkably fine and distinct Iris which never fails to please. It is exceedingly free flowering and creates a gorgeous as well as distinct effect at blooming time. Good grower and a tip-top variety. Midseason. 40 inches tall.

Pink Cameo.

Pink Cameo Each \$1.00, Three \$2.30, Doz. \$10.00 A lovely translucent cameo-pink, of good substance and excellent branching habit. The flowers are slightly flaring and a startling tanger-ine-orange beard adds a striking contrast note against the delightful pink background of the flower. Grows about 3 feet tall and is a very prolific bloomer.

Prairie Sunset

Each 75c, Three \$2.15, Doz. \$7.50

All that has been said about this gorgeous creation is true, but it simply has to be seen to be realized. The blendings of peach, apricot, rose, copper and gold are so well done that one is at a loss to describe it in a manner that might be conceived in the mind of the listener. A fine big flower, and the color will absolutely stun you when first you see it, and every time you see it! Dykes Medal, 1943.

Ranger
Very dark crimson-red. The standards are closed and are long and cone-shaped, while the wide falls are like smooth rich velvet. Most unusual and showy. A late bloomer.

Russet Wings Each \$1.00, Three \$2.80, Doz. \$10.00
A smooth blend of gold, copper and apricot melting into a true russet self. Wide standards, perfectly domed and flaring falls which ruffle at the edges make this a lovely Iris.

Sable

Each 75c, Three \$2.15, Doz. \$7.50

Almost black; a uniform shade of deepest blue-black-violet, with blue beard. Sable has every attribute that a fine Iris should possess; large size, reasonably tall stalks, thick substance and a wonderfully lustrous sheen. Everybody wants Sable.

Salid Mehanary

Solid Mahogany

Each \$1.00, Three \$2.80, Doz. \$10.00

This grand new red is one of the finest dark Irises of recent years.

Beautifully formed, the color is aptly described by the name. No haft venation and a deep bronze-gold beard accents the richness of the plush-like falls. Height 3 feet.

Springtime Madonna

A symphony of cream and gold. Standards very pale creamy yellow with a bright gold edging. The falls are beautifully ruffled and frilled and pale yellow which turns to bright gold at the hafts giving the flower the appearance of a spotlight having been turned on the haft section. The contrast between the delicate coloring of the standards and the falls and this bright center section is indeed most attractive. Fragrant.

Tournament Queen

A bright fuchsia-toned flower, flaring and of fine texture and lustre. The petals are serrated and are flexed enough so that portions of them are always highlighted. The beard styles are chartreuse with a fuchsia ridge down the middle. Very fragrant. Early flowering and hardy everywhere.

Winter Carnival Each \$1.00, Three \$2.30, Doz. \$10.00
A fine hardy white, bred in Minnesota. Widely flaring falls, snow-white in color, the throat heavily tinted gold. Branching is excellent and the stout stems hold the big blooms aloft. This is surely one of our best whites.

## UNNAMED BEARDED IRIS

If you want some Iris and do not care about their names, we can supply you with an inexpensive collection of six different colors but not labeled for:

1 of each color, 6 plants for \$2.75. 3 of each color, 18 plants for \$7.00.

Only top quality varieties will be used, such as have been or are offered in our catalog.

# Bearded Iris Collections

Each season we receive numerous requests from our customers for assistance in selecting collections of Bearded Iris. The interest in these fine new Iris is growing constantly because they are so beautiful, hardy and reliable. The collections we offer below are in various price ranges. Each one contains only the finest and most prolific blooming kinds. We know that any of these selections will give you endless enjoyment and pleasure. The varieties will all be carefully labeled and the plants will be of the finest quality. You will notice that the variety Great Lakes appears in two collections because this is simply a "must." No collection would be complete without it.

Azalea Schlippenbachi (Royal Azalea)

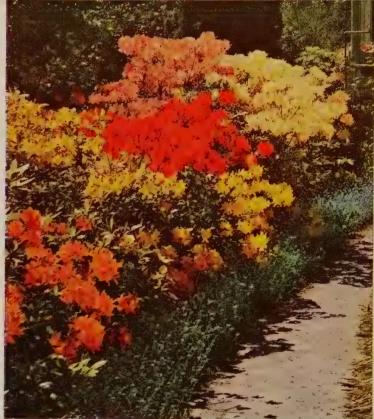

The Royal Azalea is one of the first to bloom. It produces clusters of big, showy Rhodcdendron-like flowers which are a soft rose-pink, clean and clear in color, making a beautiful show. Ultimate height of plant varies from 3 to 5 feet and they never fail to flower. What is more, they are hardy under zero temperatures, do well in shade or sun and do not require an acid soil nor do they need a heavy ball of earth for successful transplanting. A fine low-growing profuse flowering shrub for the border or planting in front of the house.

Mixed Azaleas

Azalea, Queen Emma

# Hardy Azalea Mollis

The hardy Azalea Mollis are the aristocrats of the deciduous shrubs. In color they give an assortment of hues and wonderful pastel shades unequalled by any other hardy shrub. The opportunities for using Azalea Mollis are almost unlimited. They work in perfectly in formal plantings, in front of the house, in the foreground of a can be planted where their masses of color make telling effects.

Hardiness. Azalea Mollis are very hardy. Temperatures as low as ten degrees below zero will not kill them, but we recommend that if planted in sections of the country where these low temperatures prevail, the tops of the plants be protected with some cover such as a piece of burlap or cloth. Spring planting or fall planting is equally satisfactory. It is not necessary to lift and transplant Azalea Mollis with a ball of earth. They transplant and grow freely without. This makes shipping a simple and inexpensive matter. Mature plants, depending on variety, reach a height of 3 to 6 feet.

**Culture.** Azalea Mollis, contrary to general belief, do not require an acid soil. Beautiful specimens are being grown in Chicago as well as in Des Moines, Iowa. All they ask is a reasonably good garden soil and an occasional top dressing of cow manure to make them grow freely. They do not require a lot of water nor is it essential to prepare soils with a lot of peat or leaf mold. While they do quite well in shade, they prefer full sun. To insure a heavy mass of blooms each year, it is recommended that the faded flowers be removed and not permitted to go to seed. Do not cultivate deeply as all Azaleas root quite close to the surface of the soil.

## Azalea Mollis Named Varieties

Here we offer a collection of the finest colors in named varieties. These plants have been grafted and are four years old. They are about 10 to 15 inches in height, depending on the variety. Some are taller growers and some bushier than others, according to their habit and natural form. Each variety offered is a choice one and planted by the thousands in Europe where their value and merit have been appreciated for many years.

hevalier de Reali Each \$4.00, Three \$11.00, Doz. \$40.00 This is considered by many experts as the best pale yellow Azalea Mollis. Its lovely straw-yellow flowers make a fine show over a long period and blend perfectly with the other varieties or it makes a good background for Tulips.

omte de Papadopoli Each \$4.00, Three \$11.00, Doz. \$40.00 Soft rose would perhaps best describe the rare color of this variety. It combines well with soft yellow varieties and makes a perfect background for a group of white or pale yellow Tulips. We always note its free blooming habit. Comte de Papadopoli

Directeur Moerlands
Probably one of the handsomest of the Azaleas. Produces handsome clusters of soft golden yellow flowers in abundance. A beautiful variety. The magnificent color of its flower blends superbly with other spring flowers.

r. M. Oosthoek

Each \$4.00, Three \$11.00, Doz. \$40.00

Here is one of the most brilliantly tinted hardy Azaleas. The flowers are fiery red with soft burnt-orange glow, almost creating a salmon effect. A fine grower and always blooms freely.

ettect. A tine grower and always blooms freely. Soster's Brilliant Each \$4.00, Three \$11.00, Doz. \$40.00 This variety is one of the most brilliant of the Azalea Mollis. Its fine clusters of flowers are a fiery brilliant coppery flame color. There are no red Azalea Mollis, but this variety comes nearest to this color, and cover the plant completely. Be sure to plant it in full sunlight because when grown in the open it shows at its best. Koster's Brilliant

emonora Each \$4.00, Three \$11.00, Doz. \$40.00 Delicate apricot-yellow tinted pink, large truss, a distinct variety. It is a fine grower developing into quite a large plant. Beautiful to see when in full bloom.

The large, individual flowers are grouped in big clusters which cover the plant completely. Color is deep apricot-yellow with soft buff-persimmon overtones, giving a fine, bright, yet soft effect. This is one of the much desired varieties. Queen Emma

. J. Seidel

Each \$4.00, Three \$11.00, Doz. \$40.00

Deep peach-pink shading to salmon-orange overlaid with soft bronzy buff glow. This combination of pastel shadings is difficult to describe. Sufficient to say it is choice. Makes fine clusters of flowers which completely cover the plant when in full bloom.

## All Colors Mixed

The color range of our mixed Azalea Mollis runs through innumerable shades of copper, old gold, flame, yellow, red, amber and salmonorange of the most brilliant hues.

All plants offered are three years old or more, have nice flower buds and will bloom freely. The ultimate height of these mixed Mollis will

run from 3 to 6 feet, depending	on the naout of the plant.

•	

## AZALEA PONTICA

They flower after the Azalea Mollis have finished flowering. Also known as Hardy Ghent Azaleas.

Their blooming time, requirements and general habit are the same as those of Azalea Mollis. As to hardiness, they are even hardier but their special merit is the unusual range of colors which is available in this group. While the flowers of the Ghent Azaleas are not nearly as large as those of the Mollis varieties, their brilliance and variation of tints place them along the choicest spring shrubs. Most desirable in colder sections of the country, as because of their hardiness they never fail to bloom.

Bouquet de Flore
Brilliant clusters of deep pink.

Coccinea Speciosa
Brilliant red with orange overtones.

Each \$4.00, Three \$11.00, Doz. \$40.00

Each \$4.00, Three \$11.00, Doz. \$40.00

Panny
Dark lilac-pink shading to deeper tones.

Each \$4.00, Three \$11.00, Doz. \$40.00

Nancy Waterer Each \$4.00, Three \$11.00, Doz. \$40.00
Fine clusters of golden yellow.

Sang de Gentbrugge Each \$4.00, Three \$11.00, Doz. \$40.00
Brilliant red of most vivid shade possible.

Plants offered are about 12 inches tall with flowering buds.

## RHODODENDRON MUCRONULATUM

## Referred to as Azalea Mucronulatum

One of the very first Rhododendrons to flower, opening rosy lavender flowers the same time as Forsythia. Planted in front of a Forsythia, it makes a handsome combination. It will succeed splendidly in soil which is slightly acid to almost neutral. Quite fast growing. Give some water during very dry periods. Ultimate height about 6 feet.

Eacl	Three	Dozen
12 to 18 in. high, full of buds\$3.00	\$ 8.50	\$30.00
18 to 24 in. high, full of buds 4.00		
24 to 30 in. high, full of buds 5.00	14.00	50.00

Don't miss these, they are among the finest and earliest shrubs to bloom in

spring.

It doesn't grow out of bounds, has fine semi-evergreen foliage, bugs don't seem to bother it, wonderful when it blooms in early spring, and a handsome shiny green foliage plant throughout the summer and early winter.

## Rhododendron (Azalea) Mucronulatum

# 3 Valuable and Unusual Crees

Cercidiphyllum Japonicum

Carpinus Betulus Columnaris

## Carpinus - Hornbeam

Betulus columnaris

This is one of the most perfectly pyramidal of deciduous trees. Its bark is sinewed and streaked gray. The ascending branches are close together and absolutely upright in growth, creating a vertical effect not produced by any other trees. It is a fine plant for a restricted place and where a vertical effect is desired. In late fall its foliage is richly tinted with bright autumnal colors. Grows well in sticky, heavy clay soil. Carpinus betulus columnaris is a monumental small tree highly stylized and formal. It is a perfect plant for some focal point. Handsome in winter as well as in summer. You should find room for this rare plant in your garden. We offer young specimen trees about 3 to 4 feet tall.

Cercidiphyllum - Katsura Tree

Japonicum Each \$5.50, Three \$15.00, Doz. \$55.00

The Katsura Tree develops into a slender, pyramidal, bushy tree 50 to 80 feet high, usually with several trunks. Its handsome, round or heart-shaped foliage is especially attractive, being purplish pink when unfolding, then becoming green and bronze, turning scarlet and gold in the autumn. Several planted in a row 10 feet apart form a fine wall of foliage. Far more satisfactory than Lombardy Poplars. Beautiful as an individual specimen. Its maidenhair-fern-like foliage is put into motion by the slightest breeze.

## Salix Salamonii - Willow

This is one of the fastest growing trees we know about. It was obtained through a cross of the common Weeping Willow, Salix Babylonica, with the variety Alba. It is much hardier and stronger as well as faster growing, handsomely weeping with good foliage. Used freely in England but not well known in this country. We know of nothing better for quickly blocking out undesirable views or buildings. Does well in moist soil and when established grows as much as five to six feet in one season while young. Grows ultimately as tall as the common Weeping Willow. The best size for planting is young trees about 6 to 8 feet tall. They establish at once and grow rapidly. We do not offer larger trees because of this fast growth and recommend spring planting only.

A limited number of trees available at \$5.00 Each

Untrimmed Hedge of Berberis Mentorensis Showing Perfect Natural Hedge Form, Third Year After Planting 15- to 18-inch Plants

# Che Cwo Best Barberries

## Drought Resistant Mentor Barberry

No blight-no pruning.

BERBERIS MENTORENSIS (Plant Patent No. 99)

It has very stiff, upright growing branches and quite formidable thorns. Its foliage is heavy and thick and of perfect color—a green as dark as the Japanese Yew. In hot and dry seasons or in localitits where high temperatures go hand in hand with lack of rain, it never shows any signs of rust and discoloration of foliage no matter how hot or dry it may be. In Ohio the leaves remain green until after the holidays. In Kansas, Oklahoma, Utah, and the Southwest, Berberis Mentorensis is evergreen and considered the finest evergreen plant for hedges. It is amazingly satisfactory growing around airways or close to dry foundation walls, and does an outstanding job in city gardens, either in single specimens or as a hedge. Its unusual ability to withstand heat and drought is nothing short of wonderful. Always good and clean looking, upright in growth, easy upkeep (requires really no pruning), and its tenacious foliage, more than compensates for the lack of berries. We heartily recommend Berberis Mentorensis to you. For hedges plant in a single row, 15 to 18 inches apart for best effect.

## Chornless Barberry

Very often a hedge is desired for a dividing line or along the drive to the garage or specimen plants of Barberry are required in a mixed planting of shrubs. The common Barberry in such locations often is a nuisance because of its thorns. Our new Thornless Barberry should be used wherever the need of the protection provided by the thorns of the common Barberry is not required, along private drives, walks near entryways where damage to clothes and particularly stockings is possible, use the **Thornless Barberry**. It is even more handsome in form and just as colorful in fall as the common Barberry. You will be proud of such a hedge. It will be easy to keep clean and it is handsome in fall as well as in summer.

Janni			Each	Three	Doz.	100
Size.	12-15	inches				
		inches				
Siza	12.21	inches	1 30	3 70	14.00	90.00

First—It is evergreen practically the year around. Think what that means

**Second**—Its sturdy, erect growth carries a thick dark green foliage right down to the ground. Is never bare-legged.

**Third**—When used for a hedge, its thorny, strong growth forms a formidable barrier to man or beast.

Fourth—Needs no pruning. It is of erect growth which becomes dense when the plant is three or four years old. No upkeep! No pruning!

**Fifth**—Combined in a foundation planting with evergreens, it provides a beautiful and artistic contrast at very small expense and without elaborate preparation of soil.

Thornless Barberry Easy to Clean Nice to Look At

[93]

There is really nothing finer and richer looking than a hedge of dark evergreen foliage such as that produced by the English Yew. In winter or summer it is always something to be proud of and enjoy. It is pyramidal in growth and requires the minimum of trimming. Being one of the choicest evergreens and somewhat slow growing, large plants, as a result, are quite expensive. So many visitors to the nursery have urged us to sell them smaller sizes, telling us they were perfectly willing to start with less expensive plants. We, therefore, decided to offer this in the smaller sizes.

Three Doz. 100
\$8.50 \$30.00 \$225.00

Ciquistrum. Sinense (Chinese Privet)

This is a very hardy Privet. It is upright, bushy and twiggy in habit and not too rapid a grower. It makes a beautiful dense hedge which is very formal and neat even though not pruned. In our part of the country, it usually remains evergreen. Exceptional weather conditions may cause it to drop part of its foliage late in winter. This, however, rarely happens here and it certainly would not occur where temperatures are milder. Our plants originally were obtained from the Arnold Arboretum in Boston where it has proven to be most satisfactory even though foliage occasionally burns under extreme weather conditions as it also does in Mentor. It is a better and superior plant than Ligustrum amurense (Amur River Privet) and we recommend it wholeheartedly. Its medium rate of growth and fine texture are of great importance in the making of a fine hedge. We send out plants about 3 feet tall. Makes a complete hedge in 1 year.

Each \$1.00, Three \$2.80, Doz. \$10.00, 100 \$65.00

## Cotoneaster

Divaricata

Hedging size, 18 to 24 inches:

Each \$1.40, Three \$4.00, Doz. \$14.50, 100 \$95.00

A low growing, much branched and graceful shrub from China. Its ultimate height is about five feet and it is perfectly suited for hedges of medium height, say from 3 to 5 feet. Foliage is small and round, highly polished dark green. It creates a splendid effect. Brilliant small egg-shaped, red fruits in autumn add to its beauty. Few shrubs equal Cotoneaster Divaricata in the border or as a hedge plant.

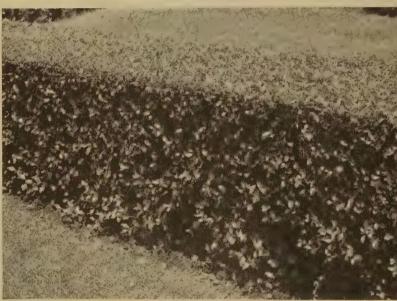

## Deutzia

Here is one of the nicest low growing and prolific flowering shrubs for small low hedges. It does perfectly in full sunlight but it is just as happy in light shade. Masses of white flowers in June over a long period cover the plant. It is so formal and compact in its growth it needs no pruning. Just the same if it is desired in a smaller size than its natural growth, clip it to the size required; this is best done immediately after flowering. Perfectly hardy and requires no care. Hedge shown bloomed the same year it was planted. Ultimate height if not pruned, about 2 feet, spreading 18 to 24 inches. Can be pruned to retain size of 12 inches wide and .18 inches in height without impairing its free blooming. Special size for hedges, about 15 inches high, Three \$2.80, Doz. \$10.00, 100 \$65.00

Hedge of Taxus Hatfieldi

Ligustrum Sinense Hedge

Cotoneaster Divaricata Hedge

# Unusual Plants for Edging and Low Hedges

## **VIBURNUM OPULUS NANUM**

The Hedge Viburnum. A dwarf, stable plant never over two feet high, particularly well adapted for edgings and hedges in wet or heavy clay ground where it is difficult for other plants to thrive. Does well in light shade. It is extremely hardy. Can be clipped or left natural as desired. In either case it grows into a fine compact and low hedge which requires no care.

Fach \$1.50. Three \$4.25.

Each \$1.50, Three \$4.25, Doz. \$15.00, 100 \$100.00

## **PACHISTIMA CANBYI**

ANBYI
A choice dwarf, compact evergreen shrub of inestimable value. Superb as an evergreen edging to flower beds or borders for walks. Perfect in front of evergreen plantings. Spreads to about 18 inches in diameter and never grows over 8 inches in height. May be trimmed or left natural. Withstands 20 degrees below zero and foliage does not burn or discolor during winter. Does well in sun and light shade. Charming as a ground cover, in small places where the usual kinds would be out of scale. be out of scale.

Each \$1.20, Three \$3.40, Doz. \$12.00, 100 \$80.00

## **TEUCRIUM CHAMAEDRYS**

Shrub-like plant of moderate growth. Has shrub-like, shiny, dark leaves. Glossy green foliage resembling dwarf Boxwood, may be used in place of Boxwood where the latter is not hardy; can be clipped to suit any height up to 12 inches. Plant in fall or early spring, 6 inches apart, in full sun. Excellent edging to flower beds.

Three \$2.50, Doz. \$9.00,

100 \$55.00, 1000 \$500.00 (250, plants or more at 1000 rate)

### **SALIX** PURPUREA NANA

DRPUREA NANA

Dwarf Blue-Leaf Arctic Willow. Discovered north of the Arctic Circle. A charming low-growing Willow excellently suited for low hedges. Grows anywhere in wet or heavy soils where other plants perish. It is able to withstand the lowest temperature encountered in this country, is of easy culture. The foliage is a lovely grayblue-green. Can be clipped for formal effects or left natural as desired. Should be planted about 8 inches apart. May also be grown as single specimens in the foreground of the shrub border. Its natural height is about 3 feet, may be clipped and held to 12 in, high and 12 in. wide.

Three \$2.80, Doz. \$10.00, 100 \$65.00, 1000 \$600.00 (250 plants or more at 1000 rate)

## **POTENTILLA** GOLD DROP

All Summer and Fall Flowering

For a charming low hedge or edging, Potentilla Gold Drop is excellent. Compact in growth, slow growing, it can be pruned to most any small size. Fern-like foliage and a constant display of small golden, cup-shaped flowers throughout the summer make it a No. 1 small edging plant. Succeeds in sub-zero temperatures on most any kind of soil.

Special size for hedges,
Three \$4.75, Doz. \$18.00, 100 \$125.00

# Unusual Plants for Edging and Low Hedges

## TAXUS CANADENSIS STRICTA

This dwarf evergreen makes a perfectly beautiful evergreen formal hedge. It is hardy; will thrive anywhere that Taxus grows. Successfully stands temperatures as low as 20 degrees below zero. May be left natural (unclipped as shown in illustration) or can be clipped round, or in box-like form of 8 to 10 inches wide and 10 to 12 inches high. It transplants readily and it is not necessary to send the smaller plants with a ball of earth. Set plants 10 to 12 inches apart. We recommend the following sizes:

12-15 in., bare root ..Doz. \$25.00, 100 \$190.00 15-18 in., bare root ..Doz. \$30.00, 100 \$225.00

## DWARF RED BARBERRY CRIMSON PYGMY

We obtained from Holland the miniature form of the Red-Leaved Barberry. Everyone who has seen it wants it because of its charm and delightful coloring of its foliage. The old leaves are bronzy blood-red while the new growth tips are several shades lighter, which sparkle in the sunlight. Our oldest stock plants, now several years old, measure 15 to 18 inches in diameter and are about 12 inches high. Each one is a picture in itself. Individual plants are colorful and will make a fine showing in front of any shrub planting, in front of a house for instance. It is of slow growth and excellent as edging to walks or flower beds where it will be most attractive. Must be grown in full sun in order to obtain the brilliant foliage color. If grown in shade they will not color correctly. For hedging space plants 12 inches apart.

Each \$1.20, Three \$3.40, Doz. \$12.00, 100 \$80.00

## LIGUSTRUM VICARI

A new dwarf-growing hardy Privet with golden foliage. Not to be confused with the yellow variegated California Privet which is not hardy. Golden Vicari Privet makes a superb golden edging to walks or beds. It can be trimmed to remain 12 to 15 or 18 inches tall. Being of slow growth, it does not require frequent pruning but by the same token, it takes several years to produce a fair sized plant in the nursery. It may also be used to good advantage as an individual specimen in a planting in front of the house or shrubbery border. We send out 3- to 4-year-old plants which are about 15 inches tall. As to its hardiness, we have tested it in Mentor now for six years and found it completely hardy. Should be grown in full sun for best color.

Each \$1.00, Three \$2.80, Doz. \$10.00, 100 \$65.00

## ILEX CONVEXA (Crenata Bullata)

This is one of the choicest of evergreens and was introduced into this country in 1919 by E. H. Wilson. It has taken many years of effort to produce this little beauty in quantities but now it is here for you to enjoy. It is very bushy, has shiny dark green, Boxwood-like foliage somewhat convex and it grows about 4 feet high and 3 feet across. The glossy leaves are so profuse that twigs are invisible. Left to itself it grows "informally formal" and blends beautifully with other evergreens. As a small "accent" plant, it is faultless. For small hedges it is a jewel, particularly in cold climates where Boxwood is impossible. Space plants 18 inches apart. An absolute "must" for every garden. Does well in light shade or full sun and is equally happy on alkaline or acid soil, and last but not least, it is hardy.

Special size for hedging, bare roots:

Three \$2.15, Doz. \$7.50, 25 \$13.00, 100 \$45.00

Bushy plants in pots. About 15 to 18 inches: Each \$2.00, Three \$5.75, Doz. \$20.00, 100 \$150.00

Acer Palmatum Atropurpureum. Slow of growth but lives to a great age, 100-year-old plants are not uncommon

## Buxus Koreana

## Koreana - Korean Boxwood

This is one of the most satisfactory of evergreen hedge plants. Our original stock came from Canada and was used to temperatures many degrees below zero. It thrives where it is impossible to have the common Boxwood. We have grown a nice quantity of plants at Mentor outdoors without protection subject to all weather conditions and we recommend it wholeheartedly. Its foliage is not quite as round or shiny as of the well known Boxwood but it is just as effective. You may clip it into a formal low hedge or, if you prefer, let it grow more or less natural. We furnish plants which will permit either way of handling. Light shade or sun in any reasonably good soil. Plant fall or spring 6 to 8 inches apart.

Each Three Doz. 100

0 ,0 0				Date Intel Dos.	100

## Dwarf Red Barberry

Crimson Pygmy

Each \$1.20, Three \$3.40, Doz. \$12.00, 100 \$80.00

We obtained from Holland the miniature form of the Red-Leaved Barberry. Everyone who has seen it wants it because of its charm and delightful coloring of its foliage. The old leaves are bronzy blood-red while the new growth tips are several shades lighter, which sparkle in the sunlight. Our oldest stock plants, now several years old, measure 15 to 18 inches in diameter and are about 12 inches high. Each one is a picture in itself. Individual plants are colorful and will make a fine showing in front of any shrub planting, in front of a house for instance. It is of slow growth and excellent as edging to walks or flower beds where it will be most attractive. Must be grown in full sun in order to obtain the brilliant foliage color. If grown in shade they will not color correctly. For hedging space plants 12 inches apart.

## Cotoneaster Divaricata (See page 103)

# Acer Palmatum

## ATROPURPUREUM - Japanese Red Maple

A rare colorful small shrub or dwarf tree with red-purple leaves. It is of very slow growth and therefore an excellent plant to have as a single specimen on the lawn. It never fails to draw attention, Its beautiful foliage and artistic growth all combine to make it a universal garden favorite. The plants we offer are many years old and will make a handsome display no matter where you put them. Bright sun contributes to deep and richly colored foliage.

Cotoneaster Apiculata (See page 103)

## ALTHEA; HIBISCUS - Rose of Sharon

Erect growing shrubs of stately and formal shape, particularly well suited for screens or specimens in the shrub border. They bloom from July to frost and give color when most other shrubs have finished blooming. We offer four beautiful varieties of recent introduction, practically unknown, and in our esimation the four best. Their ultimate height is about 10 feet.

Each \$2.00, Three \$5.75, Doz. \$20.00

Celestial Blue Each \$2.00, Three \$5.75, Doz. \$20.00

A magnificent, distinct and truly blue Althea. The gorgeous single disc-like blue flowers are produced in large amounts. Planted with our white variety, Snowdrift, it makes a most handsome color effect in the summer border.

Hamabo

Each \$2.00, Three \$5.75, Doz. \$20.00

This most interesting cheerfully colored Althea is not new but practically unknown in this country. It is a great favorite in Europe and we can quite understand why. For several years we have tested it at Wayside and found it as hardy as any of the others. But it is so arresting that everyone visiting us has wanted a plant of it. Flowers are white and red, charmingly colored, brilliant and gay, and contrast beautifully with the dark green foliage. Here is a real contribution to the summer flowering shrubs.

Woodbridge Each \$2.00, Three \$5.75, Doz. \$20.00 This is an improvement over Rubis. Produces very large, wide-open, flaring flowers of a fine, clear rose-pink color. The best and most brilliant of the pink Altheas. Its freedom of bloom is outstanding.

ev. W. Smith

Each \$2.00, Three \$5.75, Doz. \$20.00

Large, disc-like, pure white flowers which open flat and are produced in great numbers from early July until frost. Most white Althea blooms do not open fully and therefore are not showy. Rev. W. Smith is the one exception. Its flowers are large, open wide and are superb. Rev. W. Smith

## ACER PLATANOIDES - Schwedleri Nigra

Norway Maple "Crimson King" (Plant Patent No. 735)
About ten years ago a fascinating purple or maroon-leaved Norway Maple tree was sent to America from Europe. It created the same sensation over here as it did in Europe. Several specimens were propagated and planted along the East Coast as well as on the Pacific Coast for observation. The results have been most gratifying. It proved perfectly hardy and happy where Maples grew and it retained its magnificent leaf color throughout the entire summer. The effect is not unlike that of the Copper Beech but in addition, the tips of the branches and the young foliage are of a lighter shade and glisten brilliantly in the sun. One would think the tree was in bloom. Here truly is a rare thing in trees; a superb plant for lawn, small or large; street trees or specimen for contrast among other trees. Our supply is limited and will be for several years to come. Order promptly and you will possess one of the finest trees you ever owned.

Slightly branched, 6 to 7 ft. tall Each \$ 9.00, Three \$25.00, Doz. \$ 90.00 Each \$12.00, Three \$33.00, Doz. \$120.00 Nicely branched, 7 to 8 ft. tall

> Acer Platanoides Schwedleri Nigra Norway Maple, Crimson King (Patent No. 735)

Cercis Chinensis

## CERCIS - Redbud

Chinensis

Each \$3.00, Three \$8.50, Doz. \$30.00

This charming, brilliant spring-flowering shrub is a Chinese counterpart of the American native Redbud. It flowers at the same time, but the quantity and quality of its flowers far surpass those of our common wild form. It is shrub-like in growth, and when in bloom every branch and twig is covered with thousands of bright purple blossoms almost double the size of the common variety and noticeably darker. You will want this in your garden surely. Ultimate height from 6 to 8 feet.

## CARYOPTERIS - Hardy Blue Spirea

lue Mist

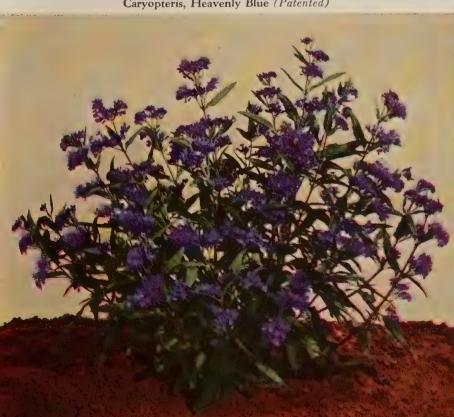

Each \$1.75, Three \$4.75, Doz. \$18.00

(Mastacanthus x Mongolica.) This charming low growing shrub is a very real contribution to the meager list of summer and fall flowering shrubs. It is covered from August till autumn frost with numerous clusters of powdery blue, fringed flowers. This shrub grows about 18 to 24 inches tall and is perfectly rounded, making a small mound about 2 feet in diameter. The foliage is lanceolate and slightly toothed and silvery green in color. A truly worth-while plant for the flower border as well as for in front of the shrubbery border. Perfectly hardy and particularly valuable because it is one of the latest flowering shrubs. Blue Mist

Heavenly Blue (Plant Patent No. 1091) Each \$2.00, Three \$5.75, Doz. \$20.00

A delightful deep blue colored autumn flowering shrub. It is the dark blue form of Caryopteris, Blue Mist, which Wayside Gardens introduced several years ago. Heavenly Blue is our own origination; the result of crosses and selections made at Mentor. Heavenly Blue is upright in growth. When mature, it is about 15 to 18 inches in diameter and 18 to 24 inches tall. One shrub will produce 30 or more beautiful deep blue flower spikes, a color which we all know is quite rare at any time and particularly so in the autumn garden. It does best in a light soil; in fact, the sandier the better, and must be grown in full sun. It comes to perfection in a warm, dry, sunny spot. We consider this new shrub one of the finest things available for rich autumn color.

Deutzia Kalmiaeflora (See page 104)

## CLETHRA ALNIFOLIA ROSEA

The Pepper Bush is a compact neat plant of many slender, upright branches rarely over four to five feet high. Each branch is topped with finger-like clusters of small, deliciously scented pink flowers. To many people, the fragrance is reminiscent of pepper; hence, its name. This is a very fine and useful shrub, especially for low moist places or damp woodland conditions. It grows equally well in full sun or shade. Here is the rare pink form of the much loved white Pepper Bush, giving bloom when most needed in late summer and early autumn with fine dark green foliage to boot.

Each \$2.50, Three \$7.15, Doz. \$25.00

Clethra Alnifolia Rosea

Calluna Vulgaris

#### **CORYLUS**

Maximum atropurpurea (Purple-Leaved Filbert)

For a rich display of bronze foliage there is not much better than the Purple Leaved Filbert It is a much branched shrub covered from top to bottom with fine, bronze leaves which make a pleasant break in the monotony of the green leaves in the shrubbery border. The richest and deepest colors are obtained when it is grown in full sun. It grows well in shade but it then loses part of its colorina, Maximum height about 10 feet. Can be kept any height up to 5 feet with pruning. Hardy anywhere! A fine plant for the lawn as a single specimen. Superb foliage for cutting and use with flowers.

Avellana Contorta Each \$7.50, Three \$20.00, Doz. \$75.00

A rare shrub which is frequently referred to as the "Harry Lauder's Walking Stick Bush." Its fantastically twisted, turned and almost corkscrew-like branches will remind one of Harry's famous cane. Slow of growth but easily cared for. Like all Filberts, it does well in either sun or shade. Plant it where you can enjoy the curiously twisted branches in the winter against the snow. Ultimate height about 7 feet. Here is a really good conversation piece. Avellana Contorta

## Corylus Avellana Contorta

## CALLUNA AND ERICA - Heaths and Heathers

The Heaths are compact, low growing evergreen plants, and as such are extremely useful for planting in front of evergreens or as edgings. The small foliage is densely arranged around the wiry little stems, and either when in full bloom or in midwinter makes a very pretty picture.

Culture. All Heaths and Heathers require a warm, well-drained soil. Half peat and loam freely mixed with coarse sand to which a liberal quantity of well-rotted cow manure has been added suits them best.

Vulgaris Each \$1.50, Three \$4.25, Doz. \$15.00 (Scotch Heather.) A low-growing shrub, with erect branches covered with short, closely adpressed leaves. The pretty, bell-shaped flowers occur in great profusion toward tops of the shoots, and are a pretty rosy color.

I. E. Beale

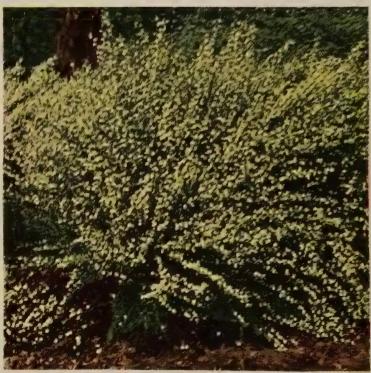

A low growing Heather, about 6 to 8 inches high, which spreads into a clump about 12 to 18 inches in diameter. In August and September it is completely covered with lovely double pink flowers which often last well into October. When not in bloom, it is a handsome low growing interesting foliage plant, perfectly hardy but prefers sun to shade. H. E. Beale

Erica

## **CYTISUS**

Praecox (Warminster Broom) Each \$3.00, Three \$8.50, Doz. \$30.00 One of the most beautiful of all May-flowering shrubs. Grows about 4 to 5 feet high. The twiggy evergreen branches are pendulent and in May are hidden under a mass of sulphur-yellow pea-shaped blooms. The effect created by this shrub when in bloom is most unusual and will be one of the highlights in your selection. Our original stock plants came from the Arnold Arboretum in Boston where year after year they continue to make a grand display. This is no new shrub but one not easily propagated in the nursery. Therefore, it is not generally offered. We send you 3-year plants that already have flowered in 5- or 6-in. pots. Pot plants invariably establish at once and this is the best way to transplant them.

Cytisus Praecox, Warminster Broom

# Cydonia-Flowering Quince

One of the first shrubs to bloom in spring. Their brilliant flowers and shiny foliage place them among the No. 1 plants for the spring garden. They may be allowed to grow into specimen plants or trimmed into hedges. Ultimate height about 5 to 6 feet. We offer here a collection of new hybrids not yet known in this country. These varieties are outstanding. The size of their blooms as well as the quantity in which they are produced is almost unheliavable. almost unbelievable.

## SPITFIRE - NEW UPRIGHT CYDONIA

(Plant Patent No. 830)

## Perfect for Hedges and Single Specimens

Perfect for Hedges and Single Specimens

Here is a fine, early flowering shrub with excellent habit. It grows upright to a height of about 6 to 7 feet when mature. It may be held down to 4 or 5 feet if you wish by simply topping it once or at the most twice a year; side pruning is not necessary. The flowers are large and deepest crimson-red. The upright stems are covered with them from the ground up. You can well imagine what a brilliant effect is made when Spitfire Cydonia is used for a hedge. The plants are not more than 2 feet across when mature so that it is an excellent subject to use as a single specimen as well as in shrub plantings where space is limited. No flower buds have ever been killed nor has there been any damage from frost to the wood in temperatures as low as 15 degrees below zero. We have had this plant under test for ten years and think it is a fine addition to flowering shrubs that may be successfully used for hedging as well as specimen planting. We offer plants about 3 feet tall, ready to bloom.

Each \$3.50, Three \$9.75, Doz. \$35.00

## Hybrid Cydonias

The beautiful hybrid Cydonias offered under this heading are great improvements and, as soon as they become more plentiful and better known, will be universally grown. Our stock is decidedly limited. We, therefore, urge you to send for yours at once and be one of the first to have them in your own garden.

Each ~\$3.50, Three ~\$9.75, Doz. ~\$35.00 Large flowers of soft shell-pink deepening towards the ends of the petals. A nice orderly shrub which produces a mass of color early in the spring. When fully grown it will be about 6 feet tall. We offer plants about 3 feet tall, ready to bloom.

Each \$3.50, Three \$9.75, Doz. \$35.00 Its lovely coral blooms are a real treat to behold. Exceedingly free blooming; it makes a grand show in the spring and provides a fine background for Tulips or other spring bulbs. As a cut flower you will find it also most desirable. The plants we send are about 3 feet tall and ready to bloom.

This is the best pure white Quince. The sparkling white flowers contrast well with the dark green foliage. A very handsome flower for cutting as well as a fine early flowering shrub for the border.

tanford Red

Each \$3.50, Three \$9.75, Doz. \$35.00

This new hybrid we believe to be the finest red hardy Quince in cultivation. The flowers are extraordinarily large, open geranium-red and deepen to an intense bloodered of great strength and carrying power. It is excellent for cutting, the flowers lasting a long time and in addition, it's almost thornless. A beautiful shrub to grow with white Tulips. A "must" for your garden. We offer plants about 3 feet tall, ready to bloom

Upright Form Cydonia, Spitfire (Plant Patent No. 830) Cydonia Spitfire, upright in growth, hardy and excellent for flowering hedge.

## **DWARF FOREGROUND CYDONIAS**

Knaphill Variety Each \$4.50, Three \$12.50, Doz. \$45.00 This fine flowering Quince originated in England and is a choice low growing plant. Eight-year-old specimens in our nursery are about 16 inches high and 18 inches across. It forms a small mound which in early spring is completely covered with big vermilion-red flowers. An ideal variety for planting in front of the shrub border or foundation plantings; it may also be used for low edgings. Knaphill Scarlet will unquestionably become as great a favorite here as it is in Europe. We offer nice bushy specimens about 12 to 15 inches high.

**Owaliane**Each \$4.50, Three \$12.50, Doz. \$45.00

This is a recent new variety from England. It makes a low growing plant about 24 to 30 inches high and as wide. Foliage good rich dark green which appears after the plant has flowered. The blooms are plentiful and rich vermilion-red. Intensely bright and sparkling, a splendid plant for the foreground of the shrub border.

New Cydonia Rowallane—the best low growing variety, has immense flowers

Daphne Cneorum

# Daphne

Daphnes are lovely, fragrant plants and the two varieties offered give bloom from very early spring to May and, occasionally, through the summer. Both are of delicious fragrance and dainty, compelling beauty. They are hardy with little protection except in the coldest sections of the country. Culture: They prefer a sunny position in well drained, sandy soil. In order to keep the evergreen foliage perfect, protect if with a little straw during the coldest part of the winter. The plants will withstand temperatures as low as 10 below zero. Water sparingly in summer. Daphnes will not grow well in cold, poorly drained soil.

## \*Cneorum (Garland Flower)

These shrubs are of spreading habit and do not grow over 8 to 12 inches high; producing delicately perfumed, rose-pink blossoms. The flowers completely cover the plant not only in spring but again in early autumn. As an edging plant in front of evergreens or shrubs, it is unequalled. It also forms a splendid low hedge along garden walks and around flower beds.

Each Three Doz.

Each Three Doz. Heavily budded plants,  $\ 7\cdot\ 9$  in. spread ... \$2.00 \$5.75 \$20.00 Heavily budded plants,  $\ 9\text{-}12$  in. spread ... 2.50  $\ 7.15$   $\ 25.00$ Heavily budded plants, 12-15 in. spread .. 3.00 8.50 30.00

## Cornus, White Cloud

Cornus, Coral Beauty-showing its lovely coloring in winter

## CORNUS SIBIRICA, "CORAL BEAUTY"

A Wayside Gardens Introduction

A Wayside Gardens Introduction

Cornus sibirica is a well known shrub. Some have a dull red bark while others are yellow in winter.

Cornus, Coral Beauty, however, is outstanding and beautifully colored in the winter months. In autumn, the branches take on a lovely salmonpink shade which perists until spring. For winter coloring in the garden or for cutting, there is nothing finer. Grows about 4 to 5 feet tall, habit is compact and neat. Foliage excellent. Pale blue berries follow the flowers in autumn. Only a limited number available at this time. During summer growing season stems are green! (See illustration).

Each \$7.50, Three \$20.00, Doz. \$75.00

## CALLICARPA - Violet Jewel Berry

Godinieri Giraldi Each \$2.50, Three \$7.15, Doz. \$25.00 Gracefully recurving branches, covered in August with thousands of closely set, small pink tinted flowers. These are followed in late September by masses of violet-purple berries which last until midwinter. Few plants give as much pleasure in the garden or are so satisfactory for cutting. Ultimate height about 5 feet. We offer nice plants about 18 to 24 inches tall that will bear fruit at once. Bodinieri Giraldi

[102]

CORNUS - Dogwood

CORNUS - Dogwood

It has been our experience as well as that of many of our customers that medium-sized Dogwood trees establish more easily and grow more rapidly than large trees, unless the big trees are moved with a big ball of earth. We have therefore grown a special size plant. It is bushy, well shaped and about 3 feet tall, with a wonderfully nice root system. It will grow fast and bloom for you not later than one year after planting.

White Cloud 2½ to 3 ft., Each \$5.50, Three \$15.00, Doz. \$55.00 From thousands of seedlings of white Dogwoods, we selected several years ago an outstanding variation. This distinctive tree was replanted and grown by itself for further observation until we were satisfied we had something extra fine in white Dogwoods. It is outstanding in particular, for the immense amount of flowers it produces as well as the rapidity with which it starts flowering so freely. At opening the flowers give a creamy yellow effect which, after a few days, changes over to white. When in bloom the tree is literally a white cloud; the foliage is almost not to be seen. Instead of just planting ordinary seedling trees, particularly when space is limited, try this new variety. It will reward you with greater masses of blooms for all your life.

Florida rubra (Pink Dogwood)

Florida rubra (Pink Dogwood)

No trees or shrubs possess a larger attractiveness throughout the year. The rare pink Dogwood is similar in all respects to the common variety except that the flowers are a beautiful shade of pink. A good specimen in full bloom is a magnificent sight in spring. Does well in shade. We offer plants about 3 feet tall, which is best size for transplanting.

CORNUS KOUSA CHINENSIS

Chinese Dogwood was brought to the Arnold Arboretum from China by E. H. Wilson in 1907. The flower heads are extremely large, frequently 5 to 6 inches across, the white bracts overlapping the button-like mass of real flowers in the center. Experts have acclaimed this Dogwood as the finest of Chinese plants introduced in America. Its flowers are produced in June long after American Dogwood has bloomed and remain in excellent condition for nearly a month. The fruits are like large Strawberries, and very much enjoyed by the birds. Its foliage turns scarlet in autumn. This is a rare tree known only to a limited few. It is a magnificent contribution to the American gardens and we urge you to plant one as soon as possible so you may enjoy this Oriental beauty soon. Ultimate height 12 to 15 ft. Is much hardier than our Dogwood and will flower and grow profusely where the American Dogwood would not survive.

Each \$6.00, Three \$16.00, Doz. \$60.00

COTONEASTER - The Queen of Shrubs

All the species of Cotoneaster will thrive either in shade or full sun, and very suitable for growing under trees, "clothing" north or other walls, and for covering wet, dry or shady banks, etc. The outstanding characteristics of this genus are the beautiful, conspicuous clusters of berries, ranging in color from brilliant orange-scarlet, through varying shades of red to black, all preceded by the profusion of white or pinky white flowers wreathing the branchlets, and also in many species the rich autumnal coloring of their foliage. For hedges they are becoming more popular, Divaricata being especially well adapted for that purpose.

Apiculata (Cranberry Cotoneaster)

Each \$2.50, Three \$7.15, Doz. \$25.00 A beautiful hardy dwarf Cotoneaster from Western China. This little known variety grows about 2 feet high with arching branches weighted down during the autumn with masses of bright crimson fruits about the size of a Cranberry. The foliage is shiny green and beautiful through the year in mild climates, while in cold parts of the country it loses its leaves late in the fall. Perfectly hardy. Apiculata is not subject to red spider or other troubles. Its fruit is fully as large as a Cranberry and more brilliant.

ivaricata

Each \$2.00, Three \$5.75, Doz. \$20.00

A low growing, much branched and graceful shrub from China. Its ultimate height is about five feet and it is perfectly suited for hedges of medium height, say from 3 to 5 feet. Foliage is small and round, highly polished dark green. It creates a splendid effect. Brilliant small egg-shaped, red fruits in autumn add to its beauty. Few shrubs equal Cotoneaster Divaricata in the border or as a hedge plant.

## HARDY DAPHNE "SOMERSET" (Plant Patent No. 315)

HARDY DAPHNE "SOMERSET" (Plant Patent No. 315)

This deliciously fragrant and easy to grow Hybrid Daphne originated in England a few years ago. It has received the highest honors from the Royal Horticultural Society of Great Britain. When first shown in London, England, it was one of the highlights of the show. It has been on test at Wayside Gardens for many years, and has successfully wintered without protection all kinds of weather that occured during those several years.

During May and early June the plants are covered with delightfully scented blush-pink, star-shaped flowers in clusters 6 to 8 inches long. The fragrance is not unlike that of Daphne Cneorum or Viburnum Carlesi. It grows and flowers exceptionally well in light shade.

The foliage is rich dark green, giving the plants the appearance of Boxwood. It remains green in northern Ohio until the beginning of March when the new leaves push the old ones off the branches. In those sections of the country where temperatures are moderate, Daphne Somerset is evergreen. Left unclipped it grows about 5 feet high and 4 feet wide.

It is a lovely low shrub for in front of the shrub border and blends happily with hardy plants in the flower border as well as with other evergreens. Visitors to our nursery, professional as well as amateur, all have admired it. Mr. F. F. Rockwell, garden expert and writer of many horticultural books and articles, remarked when he saw it in bloom this spring: "Here is one of those rare things that happens once every 25 years or so." It is a choice plant with a great future.

FLOWERING PLANTS FROM POTS

Daphne Somerset grows best and fastest when it is transplanted while not too big. We, therefore, offer nice young plants from pots which will bloom the first year. They average about 12 to 18 inches tall, and in one year will grow to almost twice the size.

Each \$5.00, Three \$14.00, Doz. \$50.00

## EXOCHORDA MACRANTHA "THE BRIDE"

A Beautiful Compact form of the Common Pearl Bush

(Plant Patent No. 1506)

2-3 ft. flowering plants, Each \$7.50, Three \$20.00, Doz. \$75.00

A new small, compact shrub very bushy in habit and not over 4 feet in height. Perfect for the modern small garden. It does not grow out of bounds. In late April and through early May, it is covered with a wealth of flowers. Drooping racemes of pure white flowers are preceded by round, pure white buds resembling pearls. We know of no shrub-which remains handsome and in flower as long as Exochorda, The Bride. Our stock is still quite limited.

Korean Abelialeaf)

A Forsythia with white blossoms! This is the exclamation of incredulity frequently heard from those coming across a blossoming Korean Abelialeaf for the first time. The pronounced resemblance to the Forsythia is actually substantiated by fact, for both genera belong to the Olive (Oleaceae) Family, and both produce their bell-shaped flowers in early spring before the leaves. The Abelialeaf is a much lower growing shrub than most Forsythias; however, averaging about 3½ feet in height and has slender, four-sided branches tending to rather irregular growth. The flowers, though small, gain prominence by their occurence in dense clusters all along the stems, as well as by their delightful fragrance. Appearing early, about the time the Korean Goldenbell is in bloom, the Abelialeaf offers several possibilities for interesting combinations. It occurred to us this spring how effective a group would be under-planted with some of the pink and white Tulipa Kaufmanniana varieties.

varieties.

Abeliophyllum Distichum is a native of Central Korea where it was found in 1919. Lest there be any question about the hardiness of this Korean native, we might add that it has been growing in the Morton Arboretum since 1938 when it was first introduced into the United States. It has not only proved reliable but a regular bloomer as well, asking only a well drained location in full sun. The deep purple flower buds are produced in autumn. In a mild climate, they open in February and transform the bush into a mass of white blossoms. The flowers are actually pale pink when they open but soon fade to white.

Each \$5.00. Three \$14.00. Daz \$50.00.

Each \$5,00, Three \$14,00, Doz. \$50.00

Cornus Kousa Chinensis

## **DEUTZIA**

All Deutzias are showy flowering shrubs of very bushy habit. They have many stems rising directly from the root, arching upward and outward, thickly covered with foliage which almost completely disappears in May under a superabundance of panicles of small, frilled, bell-like flowers. They are hardy throughout most of the country.

One of the outstanding good qualities and merits of the following four mentioned Deutzias is their freedom of bloom in quite heavy shading. Gracilis especially is perfect under shady conditions.

Crenata pendula

Each \$3.00, Three \$8.50, Doz. \$30.00

This beautiful, strong growing hybrid came to us from France a few years ago. It produces large, single, milk-white flowers in handsome pyramidal clusters. Shown in England a few years ago, it received an Award of Merit from the Royal Horticultural Society. Its low, pendulant growth and modest height, 3 to 4 feet, make it an excellent shrub for foreground planting. Last, but not least, is the enormous amount of flowers which completely cover the bush at flowering time.

Elegantissima

Each \$3.00, Three \$8.50, Doz. \$30.00

A medium sized shrub which has only recently come to the fore. It is highly recommended for its lovely rose-pink thited, fragrant flowers. Individual blooms are often 34 of an inch across. It is of neat, upright habit and particularly well suited for today's small gardens.

Gracilis

Each \$2.00, Three \$5.75, Doz. \$20.00

Seldom more than 2 or 3 feet high. This is one of the prettiest and most graceful of all the Deutzias. The plant makes a fountain-like bush attractive at all times of the year. In May it is covered with an astonishing profusion of delicate snowy white flowers. It does well in light shade and is well adapted for low edging to walks or paths, excellent in clumps in the foreground in the border.

Kalmiaeflora

Each \$3.00, Three \$8.50, Doz. \$30.00

A low growing bushy shrub. The branches are slender and slightly arching. Covered in late May and early June with Kalmia-like pink flowers. It does not grow over

## **EUONYMUS**

Alatus compactus (Dwarf Flame)

Alatus compactus (Dwarf Flame)

Each \$4.00, Three \$11.00, Doz. \$40.00

In the Arnold Arboretum in Boston this shrub causes much comment each autumn for its unbelievable brilliance of foliage. Its compact growth, easy culture, and slow growth make it one of the outstanding shrubs for hedges as well as individual specimens in the garden. Its ultimate height is six feet. Be sure to plant one or more of them in your garden for a brilliant autumn foliage display. Does well in shade.

\*\*Monstrosus\*\*

\*\*Each \$6.00, Three \$16.00, Doz. \$60.00

A rare new shrub particularly interesting during the winter. Its bark is corky and spreads out in big flat wings of most interesting character. The common Euonymus alatus does this also but not in the same degree as this new variety Monstrosus. Grows beautifully in shade or full sun; in autumn its foliage becomes a brilliant, glowing, fiery mass. Ultimate height about 5 feet. Grows anywhere and is hardy anywhere.

\*\*Bushy plants, 15 to 18 inches ....\$2.00 \$5.75 \$20.00 \$150.00

Bushy plants, 18 to 24 inches .... \$2.00 \$5.75 \$20.00 \$150.00

This is one of the finest and easiest grown evergreen shrubs. Compact and shapely, and ultimately about six feet tall. Its foliage is rich green, somewhat like that of Euonymus vegetus and remains on the plant practically throughout the entire winter and is quickly replaced by shiny new foliage in spring. It is a plant par excellence for growing in shady places, under tall trees or in sunless corners. It makes a fine hedge and can be pruned any way to suit. Blends beautifully with evergreens, grows equally well on acid or alkaline soils and is iron-clad hardy. In autumn numerous orange berries add to its charm. Transplants easily either in fall or spring. Does excellently in shade.

Vegetus. See Vines, page 119.

## FORSYTHIA—The Three Best Varieties Available Today

Lynwood Gold-Golden Yellow

This splendid new Forsythia is one of several fine new shrubs we have obtained in Europe for introduction in this country. The branches are erect and literally smothered under golden yellow flowers from top to bottom. Not only are the flowers produced in the most profuse manner but the individual blooms are better and fuller in form as well as of greater substance, apparently never minding bad weather. For a magnificent show of golden yellow, there is nothing better. Ultimate height 5 to 7 feet depending on conditions. Lynwood Gold Forsythia is a worthwhile companion to the fine new and popular pale yellow variety, Spring Glory.

4 to 5 ft. plants at: Each \$3.00, Three \$8.50, Doz. \$30.00 3 to 4 ft. plants at: Each \$2.50, Three \$7.15, Doz. \$25.00

Spring Glory-Primrose Yellow

Forsythia, Spring Glory is without question the loveliest of all the Golden Bells. It would not be far amiss to say that it produces twice the number of blossoms as the common Forsythia, the pale yellow color is very pleasing and brilliant, infinitely more attractive and cheerful than that of the varieties now in general use. If you desire a sparkling and cheerful display in your garden in early spring, plant a few Forsythia Spring Glory. There is nothing which will make you forget winter as quickly nor announce spring as flamboyantly. Spring Glory is "the variety" to grow for flowering indoors. Branches cut during January and February burst into bloom without any trouble in a few days and make a gorgeous show in the house during the winter months at practically no cost to you.

3 to 4 ft., Each \$2.00, Three \$5.75, Doz. \$20.00 4 to 5 ft., Each \$2.50, Three \$7.15, Doz. \$25.00

Beatrix Farrand

This beautiful Forsythia originated in the Arnold Arboreum in Boston. This Forsythia is a vigorous growing plant and makes a large symmetrical bush 6 to 8 feet tall. The flowers are deep golden yellow and of immense size, frequently 2 inches in diameter. An excellent contribution to early flowering shrubs. We consider this and the varieties Lynwood Gold and Spring Glory, the three best Forsythias in cultivation today.

We offer nice 3 to 4-ft. plants at:

Each \$3.00, Three \$8.50, Doz. \$30.00

Bushy 2- to 3-ft. plants at:

Each \$2.50, Three \$7.15, Doz. \$25.00

#### **HYPERICUM**

Attractive and charming low growing, summer-flowering shrubs. Their brilliant flowers are beautifully formed and grow on slender branches from early summer until stopped by frost. Excellent subjects for the flower border or in the foreground of taller shrubs, as well as for ground covering.

Calvcinum Each \$1.50, Three \$4.25, Doz. \$15.00 This is a most valuable variety because it can also be used as a ground cover for both sunny and semi-shady places. The underground runners are produced so freely as to completely cover the ground; at the tops the golden yellow flowers shine like jewels. Its height is about 10 to 12 inches. We recommend this as one of the best and hardiest.

Each \$2.50, Three \$7.15, Doz. \$25.00 Hidcote Each \$2.50, Three \$7.15, Doz. \$25.00 From the famous Hidcote estate in England, we obtained this fine variety a few years ago. It grows into a twiggy shrub about 18 inches tall and about the same diameter. Throughout the summer, it is covered with bright yellow, cup-like flowers about 2 inches in diameter. In cold winters, it freezes back to the ground but this does not matter because it springs up from the base producing each summer its masses of blooms. A fine shrub for the foreground in the border. In the temperate parts of the country it will reach a height of about 3 to 4 feet. Flowers are fragrant and appear late June continuing until mid-October.

A hardy, shapely, dwarf shrub which grows into an almost completely oval shape of 2 to 2½ feet in diameter, and about 18 to 24 inches in height, densely covered with foliage that is handsome throughout the summer. It bears its cymes of golden flowers at the end of every shoot of the summer's new growth. It flowers more freely and much longer than any of the Hypericum Patulum now in general use. Its flowers are bigger and produced in immense quantities, transforming this lovely plant into a small mound of gold when in full bloom. Of particular interest and value is its exceptional hardiness. In our nursery tests over five years it has proven its ability to withstand cold weather as well as outgrow and outbloom any Hypericum we have ever seen. The average size of bloom is from 2½ to 3 inches in diameter. Sungold (U. S. Plant Patent No. 568)

#### KERRIA

ponica flore-pleno

Each \$2.00, Three \$5.75, Doz. \$20.00

Double Kerria is sometimes called the Globe Flower because the choice double golden flowers have a ball-like shape not unlike the button Chrysanthemums. The plant grows vigorously and attains a miximum height of 4 to 5 feet. It is bushy in habit with many bright green stems, attractive all winter. Give it a sunny location in front of the border and its golden yellow blooms all summer will be a pleasure. The flowers last well in water and are excellent for cutting

## KOLKWITZIA - Beauty Bush

Mabilis

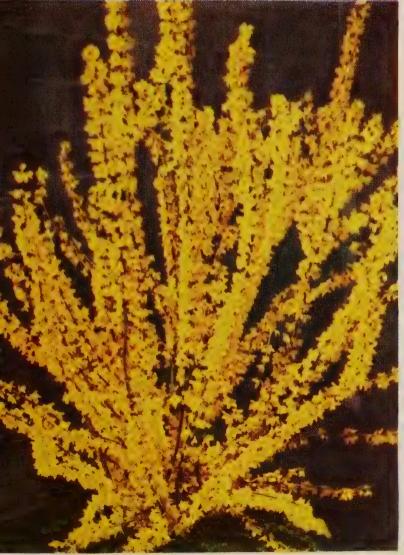

Each \$2.50, Three \$7.15, Doz. \$25.00

A handsome flowering shrub which came from China. While upright in growth its branches at the ends are arching, almost pendulent, so that they cover the ground about them and never look "leggy" and bare. It is perfectly hardy anywhere, has excellent foliage and in June is a fountain of bell-shaped, light pink flowers not unlike the Weigela. Grows anywhere and does exceedingly well in dry, sandy, poor soil. Ultimate height about 7 to 8 feet.

#### LABURNUM - Golden Chain

Bushy plants ready to flower. This is the long clustered Golden Chain. The flowers are not unlike those of the Wisteria and are beautiful golden yellow. The hanging clusters of blooms are often 18 to 20 inches long and are borne very profusely in late spring, transforming the small tree into a mass of golden yellow. Here is one of the nicest small trees for today's smaller gardens. It is magnificent when in bloom and handsome when not because of its smooth, bright green bark and clover-leaf-like foliage. It is best planted where it has some shade or on the north side of the house. Does beautifully mixed in between taller shrubs. It usually blooms first year after planting. This is a "must"; you'll want more than one.

Forsythia, Lynwood Gold

Ligustrum Vicari A beautiful golden leaf shrub. (See page 96)

Euonymus Alatus Compacta Showing lovely autumn coloring. Foreground Taxus, Mahonia

**Euonymus Patens** 

Hydrangea Petiolaris-Climbing Hydrangea. The choicest vine. Par excellence for growing on shady walls.

Climbing Hydrangea—The Choicest of All Vines
This perhaps is the finest and choicest of the vines offered in our catalog. It is not a rampant growing plant but when established makes good growth each year. It is woody but clings to brick or wooden walls without support, and also does fine on old trees or stumps.

Its foliage is bold, clean and shrub-like, and a rich dark green color. Short spur branches projecting from the wall are topped with white, fragrant, Hydrangea-like blooms throughout the summer. The effect created is most artistic as well as amazing.

Last, but not least, it does equally well in shade or sun. In fact, we recommend the Climbing Hydrangea for north, west walls or such places where shade is dense in summer. If you own one of these vines you will have something you will admire all your life. The height can be easily controlled from 10 to 20 feet as desired.

Strong plants in 5-inch pots which will establish and grow rapidly,

Each \$3.00, Three \$8.50, Doz. \$30.00

Kolkwitzia Amabilis (See page 104) One of the best flowering shrubs for hot and very dry locations.

### ILEX - Holly

Convexa (Crenata bullata). See page 96 for color illustration.

About 15 to 18 in. tall bushy plants, in Pots.

Each \$2.00, Three \$5.75, Doz. \$20.00, 100 \$150.00

This is one of the choicest of evergreen's and was introduced into this country in 1919 by E. H. (Chinese) Wilson. It has taken many years of effort to produce this title beauty in quantities, but now it's here for you to enjoy. It is very bushy, has shiny dark green, Boxwood-like foliage somewhat convex and it grows about 4 feet high and 3 feet across. The glossy leaves are so profuse that twigs are invisible. Left to itself it grows "informally formal" and blends beautifully with other evergreens. As a small "accent" plant it is faultless. For small hedges it is a jewel, particularly in cold climates where Boxwood is impossible. Space plants 18 inches apart. An absolute "must" for every garden. Does well in light shade or full sun and is equally happy on alkaline or acid soil, and last, but not least, it is hardy.

### ILEX CONVEXA, Small Hedging Size—See page 96.

Rotundifolia (Crenata Rotundifolia)

Each \$4.00, Three \$11.00, Doz. \$40.00 A compact growing rather globular shaped evergreen Holly as high usually as wide. It is hardier than Ilex Convexa and more compact. Its bright green leathery leaves are larger than those of Convexa. A splendid plant for planting in front of a house where the shiny leaves mix well with other shrubs and are a constant pleasure throughout the winter; does well in sun or light shade and is of easy culture.

\*\*Iabra\*\* Each \$4.00, Three \$11.00, Doz. \$40.00 The Inkberry is a loose, spreading shrub, 4 to 5 feet high at maturity, with shining dark green leaves and a profusion of glittering black berries through the winter. It is an excellent plant for hedges in shady situations. It may also be effectively used as individual plants mixed with evergreens or in front of the shrubbery border.

\*\*Each \$3.50, Three \$0.75 December 1.50 Three

errata (Sieboldi)

Exach \$3.50, Three \$9.75, Doz. \$35.00

This is the deciduous Holly. It is slow growing and ultimately reaches a height of about 10 feet. In winter, after the leaves have been shed, it is one of the most showy shrubs because of the persistent brilliant red berries which hang on practically all winter. They make a cheerful showing outside against the snow and are charming for cutting and winter decorations. Also it is a fine plant for moist places, where other shrubs would not be happy. Serrata (Sieboldi)

Charles

Marechal

# French Hybrid Lilacs

The following are the "cream" of the cream of Lilacs. They stand out above other varieties because of their enormous trusses and exquisite colors, as well as their fragrance. No more need be said than "these are the best to date." Although our collecttion of French Lilacs comprises only a limited number of varieties, the purpose of this list is to bring to your attention the very newest and most interesting developments at the earliest possible date.

Plants offered are healthy and vigorous, about 2 feet tall, depending on habits of the variety, and will flower promptly and profusely as soon as they become well established.

Flowers large, semi-double to double, in long narrow clusters. Deep maroon-red in bud opening violet-red. One of the darkest red Lilacs.

Each \$3.00, Three \$8.50, Doz. \$30.00. This is an excellent double white Lilac with extremely large trusses composed of many swhich makes it an ideal variety for combined plantings. General Sheridan

Charles Joly

Each \$3.50, Three \$9.75, Doz. \$35.00

Flowers double, quite large, dark violet-purple with silvery reflex. Clusters open medium size. Midseason bloomer. An old variety but still one of the best all-around dark reds.

Katherine Havemeyer

Each \$3.50, Three \$9.75, Doz. \$35.00

Flowers large, double, in large compact clusters. Cobalt-blue flushed mauve. A splendid variety both in flower and growth characteristics. Sometimes classed as a pink, particularly so at opening. Our illustration of it is a little too pink.

Each \$3.00, Three \$8.50, Doz. \$30.00

Flowers single, of medium size, in large open clusters; almost flesh-pink in color, an unusual shade in Lilacs. A very lovely Lilac. Lucie Baltet

Each \$3.00, Three \$8.50, Doz. \$30.00 Ludwig Spaeth Flowers single, large, in large well filled clusters; very deep maroon-red. Very free-blooming and of strong thrifty growth. A very popular variety and in the opinion of many, the best all-around single dark Lilac.

Each \$3.00, Three \$8.50, Doz. \$30.00 Madam Florent Stepman This single white variety is distinctive for the manner in which it carries its blooms well above the green foliage in a very spectacular display. It is a heavy bloomer, bearing immense trusses in great abundance. Flowers in midseason. Each \$3.00, Three \$8.50, Doz. \$30.00

Marechal Lannes This variety is a good grower and free bloomer. Its massive clusters of double flowers are a lovely shade of bluish violet while the buds are brilliant carminerose. The contrast is spectacularly beautiful. Introduced by Lemoine in 1910; it is still a top rank variety.

Miss Ellen Willmott Each \$3.00, Three \$8.50, Doz. \$30.00 Extremely floriferous, immense double flowers of purest alabaster-white. Large branched panicles, round flowers. Each \$3.00, Three \$8.50, Doz. \$30.00 Paul Thirion

This is a middle season bloomer. Though the trusses are not overly large they bloom very heavily. The buds are a rich dark color that open to a brilliant reddish lavender-blue. Each \$3.00, Three \$8.50, Doz. \$30.00 Pres. Grevy

Flowers large, semi-double to double, in large pyramidal clusters. A clear soft, delicate blue. One of the best in its color. Flower trusses are carried well above its foliage.

res. Lincoln Each \$3.00, Three \$8.50, Doz. \$30.00 Flowers single, medium in size, in long open pyramidal clusters; Wedgwood blue. An unusual color in Lilacs and probably the nearest to a true blue. Pres. Lincoln

Primrose (Plant Patent No. 1108)

This is the famous Yellow Lilac which has recently been developed in Holland. It has made quite a name for itself in Europe during the past few years. Shown at the famous Chelsea Show in London in 1952, it created a mild sensation. The plants are bushy and dense and produce an exceptional number of flowers. There just isn't anything like it.

18-24 in., bushy plants, Each \$5.00; 2-3 ft., bushy plants, Each \$6.00

Esther Staley
The Best Pink Lilac to Date!

A magnificent Lilac in a most desirable and unusual color. Pink Lilacs have been waited for and wanted for many years. There is nothing like it. Buds are red; flowers are single, moderately large and soft Paul-Neyron-rose. The plant is healthy and has remarkable vigor.

vigor. 18-24 in., bushy plants, Each \$4.00; 2-3 ft. bushy plants, Each \$5.00; 3-4 ft., bushy plants, Each \$6.00

Dwarf Syringa, Palibiniana

### **DWARF KOREAN LILAC**

yringa Palibiniana

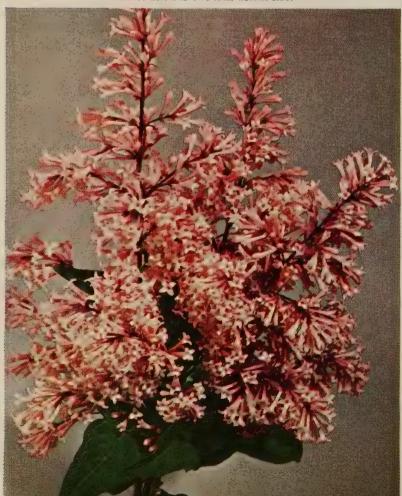

Each \$5.00, Three \$14.00, Doz. \$50.00

This is a fine rather dwarf growing Lilac from Korea where it was discovered in 1917. Not yet well known but it will be used in great numbers in today's small gardens. It flowers profusely, panicles are about 6 inches long and lilac or lavender colored. Foliage is small and clean. Plants are rounded and bushy in our nursery, never over 3 feet high and 3 feet across, although very old specimens found were 8 to 10 feet. Here is a rare and fine plant of only recent discovery you will enjoy having. Syringa Palibiniana

### THE PINK PEARL LILAC

Each \$4.00, Three \$11.00, Doz. \$40.00 Sweginflexa **Each \$4.00, Three \$11.00, Doz. \$40.00** A handsome Hybrid species of neat clean growth, makes a fine looking shrub about 6 to 7 feet tall when fully grown. At the end of May when the French Hybrid Lilacs have finished blooming, Sweginflexa produces a profusion of long, graceful flower panicles of perfect form. The flowers are long, tubed, reflexing at the tip, delightfully fragrant and a soft coral-pink or empire-rose. The pearly effect of its color is responsible for the common name "Pink Pearl Lilac." Blooming after other Lilacs have finished, this is a lovely and valuable plant which helps to continue the procession of bloom in the garden. Hardy anywhere, an unusual plant, we send plants about 2 feet tall which will bloom first year after planting.

Persian Lilac

### PERSIAN LILAC

A dense, compact plant with good foliage which, at blooming time, is completely covered under a tremendous amount of bloom. We know of no other Lilac which flowers so prolifically and responds so splendidly under what might be termed indifferent treatment. It blooms ahead of the French Hybrid Lilacs and the flowers do splendidly when cut. The ultimate height depends much on soil conditions. Average would be about 7 to 8 feet and almost that much across.

Each \$3.00, Three \$8.50, Doz. \$30.00

### THE DAPHNE LILAC

Microphylla Superba

Each \$4.00, Three \$11.00, Doz. \$40.00 A remarkably lovely bush, deliciously fragrant, introduced from China. Graceful, slender stems; mahogany-red buds opening to soft pink, panicles of small individual florets. The flowers produce a two-tone effect that is most unusual and novel. The main truss is on top of each stem and small trusses are set down the branches, so that the entire plant forms one large bouquet. The foliage is very decorative, about one inch long and three-fourths inch wide. Blooms again in the fall. Of neat habit, seldom over 5 feet tall. A choice plant.

The Daphne Lilac, Syringa Microphylla Superba

# Malus Flowering Crabs

Two groups of flowering trees, the Cherries and the Crabs, stand far above others in daintiness and grace. The Japanese Cherries are well advertised by the spectacular planting in Washington, D. C., but the even lovelier Crab Apples have never received justice at the hands of American planters. Crabs are extremely hardy and will thrive in positions and exposures which would be fatal to the more delicately constituted Cherries. They also exhibit a greater variety in character of tree, a wider range of color in their blossoms, and in autumn are adorned with glittering clusters of fruit in shades of green, yellow, orange, scarlet and crimson. No other flowering trees equal the flowering Crabs in profusion of bloom, and amongst other good qualities, varieties may be selected which have a restricted growth or dwarf habit so that they will never become too large and clumsy.

Newly planted Flowering Crabs should be watered freely the first year. After planting, spade in 2 quarts of Wayside Gardens Plant Food in top layer of soil about 10 inches deep. Do this once more the following year then stop. Feeding and too free watering induces rapid growth but not flowering. Keep soil somewhat poor and dry for early and free blooming.

# Pink Weeper Crab

This is an unusually handsome Weeping Flowering Crab. The main stem is upright. The branches are weeping and droop onto the ground. The effect is like a fountain and when in bloom in spring, a picture not easily forgotten. Makes a perfect small specimen tree for the lawn. The flowers are pink when open; the buds blood-red. A beautiful flowering, small, weeping tree. Its attractiveness is prolonged by its fruit until late in the fall. Ultimate height 10 to 12 feet. We offer nicely shaped trees about 4 to 5 feet.

Each \$5.00, Three \$14.00, Doz. \$50.00

This is a four-year-old pink Weeper Crab. It will be a beauty when it is twice that age.

# Crimson Brilliant

The Most Brilliant Red Flowering
Crab to Date!

(Plant Patent No. 939)

This new brilliant red, semi-double Flowering Crab comes to us from Des Moines, Iowa. We are indebted for this beautiful tree to Mr. A. F. den Boer, who is recognized as America's leading expert on Flowering Crabs. More than 27 years of breeding and selecting have gone into the creation of this, his choicest speci-First of all, it is very hardy and can be grown anywhere. It is of medium size; when mature it is about 15 feet tall so it can be grown in small gardens without crowding out other things. It grows quickly and will flower a year after planting, but as the tree grows older it increases in floriferousness. is purple-red in color and about the size of a Cherry and the flesh is also red. The six-year-old specimen illustrated was completely covered with crimson flowers of a shade not unlike that of the well known Darwin Tulip, City of Haarlem. Crimson Brilliant Crab is without any question the finest of the red Crabs. There is nothing that can compare with it and it is our choicest introduction of new Crabs.

Nice Trees, about 5.6 ft. Each \$7.00, Three \$18.00,

Malus Ioensis Flora Plena (Bechtel's Crab)

# Malus Hillieri

Malus Hillieri

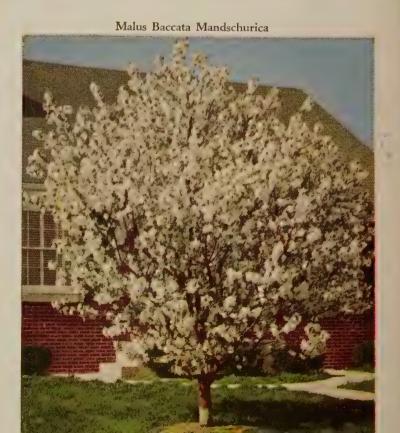

# Malus Flowering Crabs

HERE IS A SELECTION OF THE BEST NEW VARIETIES

Malus Atropurpurea

Atropurpurea Each \$4.00, Three \$11.00, Doz. \$40.00 In habit it exactly resembles Floribunda, but it is much more brilliant than that variety. The flowers are red and when this tree is in bloom it will stop every passer-by. The bronzy red foliage also contributes mightily to its showiness and beauty. In the autumn when the thousands of small Apples turn red you again behold a lovely sight.

accata Mandshurica Each \$5.00, Three \$14.00, Doz. \$50.00 The first of the Crab Apples to bloom, leading all species by a week or more. Buds are deep pink which open into large, fragrant white blossoms. The flowers are so profuse the tree is transformed into a veritable snowball. Ultimate height 25 ft. Baccata Mandshurica

harlotte Each \$5.00, Three \$14.00, Doz. \$50.00 This charming variety originated in the vicinity of Waukegan. It is not unlike the well known Bechtel's Crab but those who have seen it prefer it to the latter. The flowers are 2 to 21/2 inches in diameter, semi-double, and a lovely shade of, soft pink with prominent brown anthers. It is deliciously fragrant and has glossy green foliage which does not interfere with the sumptuous display of flowers. Charlotte

From the Arnold Arboretum in Boston we received our start of this lovely fragrant Crab. 2-inch double pink flowers in immense quantities transform this tree into a lovely bouquet. Many people claim that the Dorothea Crab will ultimately replace the Bechtel's variety. Be that as it may, Dorothea is one of the great shows when flowering Crabs are in bloom. Dorothea

This handsome new English Crab will soon replace the common Floribunda. The flowers are almost an inch in diameter and semi-double; crimson in bud, opening a beautiful shade of bright pink, wreathing the arching stems in clusters of from 5 to 8 flowers. It blooms late and prolongs the flowering season by several days. One of the best of the double Crabs. Ultimate height, about 10 to 12 feet.

Hopa Each \$4.00, Three \$11.00, Doz. \$40.00 Beautiful in bloom, beautiful in foliage, beautiful in fruit. In the spring it is completely covered with the fragrant, bright pink flowers. From midsummer till severe freezing, the clusters of small, red Crab Apples gleam brightly along the branches. This fruit makes very fine jelly. In the spring the foliage is a rich maroon. Perfectly hardy, easy to grow, thriving in any soil.

**Ioensis flora plena** (Bechtel's Crab) Each \$4.00, Three \$11.00, Doz. \$40.00 This is a universal favorite and no wonder. Its fully double pink flowers are about 2 inches across and deliciously fragrant. The flowers occur in clusters so profusely they almost hide the foliage. The small tree when fully grown is seldom over 10 feet in height. It is round headed and quite neat and formal, blooms when very young and it is at its best when the other flowering Crabs have passed. Hardy anywhere, requires little or no care yet rewards you with a grand display of blooms year after year. We offer flowering trees about 4 to 5 feet tall. We have grown a nice lot of them.

Kaido or Fragrant Crab - Also called Midget Crab (Micromalus)

This is an indispensable noted for its deliciously fragrant soft pink flowers. It blooms early and the exquisite coloring of its rose-pink buds and rich clear pink flowers makes it one of the finest small pink flowered trees. In growth it is decidedly upright, in fact, almost pyramidal and when fully grown will be about 8 to 10 feet in height, and not much more than 4 feet across. A rare tree which we are happy to be able to offer at last. We send 4-year-old trees, about 3 to 4 feet high.

atherine Each \$6.00, Three \$16.00, Doz. \$60.00 A superbly beautiful white Crab. The clusters of large white flowers make the branches appear as if they were covered with a heavy layer of snow. Only a limited few plants available, 3 to 4 feet tall. Katherine

Kaido Fragrant Midget Crab

Prunus Pissardi Rosea—Single Pink Plum

Magnolia Soulangeana

# Magnolia

Soulangeana

# Prunus

State quarantines prohibit the sending of certain fruits and their flowering horticultural forms such as: Flowering Almonds, Flowering Plums, and Flowering Peaches, into Arizona, California, Idaho, and Washington.

### FLOWERING ALMOND

landulosa alba

The small, very double, white rosettes grow in great quantities along the stem in late April and early May. Lovely when in bloom. Ultimate height about 4 to 5 feet.

Clandulosa rosea

Produces very double, rose colored flowers in great profusion in spring. One of the most charming old-fashioned early flowering shrubs, and is still unsurpassed in beauty in its season. Glandulosa alba

Glandulosa rosea

### FLOWERING PLUMS

Pissardi rosea (Purple-Leaved Plum "Special Selection")

About 4 to 5 feet tall, Each \$4.00, Three \$11.00, Doz. \$40.00

The deep bronzy purple foliage of this small tree is its great attraction; however, the thousands of pink, single flowers in spring are not to be overlooked. Most "purple" leaved trees lose much of their color throughout the summer but this is not the case with this special selection of ours recently imported from England. Its foliage is of the deepest shade of purplish red imaginable, almost black. It makes a fine contrast plant and helps give variety and color in the garden, easily grown and ideal for the small yard or a special point of interest. Ultimate height about 10 feet. Occasional pruning Veitch's Double Pink Flowering Plum Piccard: Page 11.

Veitch's Double Pink Flowering Plum, Pissardi Rosea Flore-Pleno

Veitch's Double Pink Flowering Plum, Pissardi Rosea Flore-Pleno

About 4 to 5 feet tall, Each \$4.00, Three \$11.00, Doz. \$40.00

This small tree grows about 15 feet tall. In early spring it is covered with large clusters of double pink blossoms like those of the double Flowering Cherry. In fact, it is often mistaken for a Flowering Cherry. It is very hardy and should be used in place of Flowering Peaches or Cherries in those localities where the latter are not hardy. In addition to the delightful display of double pink flowers you will enjoy the bronze-colored foliage as well as the delicious, small, sweet Plums which ripen in early autumn. Here is a small tree equally charming for the small garden or as a specimen on the large lawn. It is the first tree to bloom along with the Forsythia.

Triloba, Dwarf Plum

The Flowering Plum blooms early in May before the leaves come out. The delightful double, quilled, bright pink flowers stud every twig and branchlet so heavily no wood is visible. Very handsome and should not be left out of any garden. Is a splendid early blooming shrub for the border and its flowers are excellent for cutting. Ultimate height about 8 feet.

Triloba, Standard or Tree Form

Each \$5.50

Triloba, Standard or Tree Form

Standards of Prunus Triloba are very effective in formal gardens or as single specimens on lawn or around beds.

# Magnolia Hybrid "DR. MERRILL"

 Flowering plants, 18 to 24 in. tall
 \$8.00

 Flowering plants, 2 to 3 ft. tall
 10.00

 Flowering plants, 3 to 4 ft. tall
 12.00

MAHONIA Aquifolium Each \$4.00, Three \$11.00, Doz. \$40.00 This is more popularly known as the Oregon Holly-Grape. It has large, spiny, metallic looking leaves which turn a bronzy red in autumn. In spring the clusters of yellow flowers are very attractive. These flowers are followed by blue fruit in June and July. We consider it one of the most attractive evergreens of easy cultivation. Does perfectly in north exposure in planting of evergreens. Ultimate height about 2½ to 3 feet, depending on location where grown. Does not mind shade and has very ornamental foliage for cutting.

### POTENTILLA FRUTICOSA

Gold Drop

Each \$2.50, Three \$7.15, Doz. \$25.00

A charming small shrub of such compact growth as to resemble a small irregular shaped mound about 2 to 2½ feet high. It is closely and densely covered with small fern-like leaves and studded with intensely brilliant golden yellow, Buttercup-like flowers from early June until October. This delightful small shrub may be used in front of the shrub border or in the foreground of any perennial planting. It does best in full sun and is hardy in below zero temperatures. We know of no shrubs which flower so consistently and remain so cheerfully brilliant the entire summer and fall. Spaced 12 inches apart in a single row, it will create one of the most charming low hedges that can be imagined.

Sorbus (Mountain Ash)

### SORBUS - Mountain Ash

The Rowan Tree, with the Oak and Ash and Thorn, was one of the magic trees of the fairies. Dark legends of the "Druids of Eld" cling to the heathenish Rowan and its blood-red fruit. But the old name departed with the magic, and the witching Rowan is now prosaically called the Mountain Ash and planted widely in the most unromantic places for the glittering color of its fruit in autumn.

ucuparia Each \$5.00, Three \$14.00, Doz. \$50.00 It forms a symmetrical, round-topped tree 20 to 25 feet high, with striking foliage somewhat like that of the Sumac, and enormous clusters, of scarlet-orange berries in the autumn. The fruit is very attractive and the robins like the berries. It is a fine small tree easily grown. Aucuparia

Katherine Dykes

ach \$2.50, Three \$7.15,

Doz. \$25.00

A graceful, small, 3foot shrub, upright in
growth, yet compact.
Foliage is dense and
fern-like in effect. From
early June until November, the plants are
studded with light
chrome-yellow, chalicelike blooms. A splendid low-growing and
graceful shrub for foreground planting. Fits
in perfectly with perennial plants in the
hardy border. Prefers a
sunny location. Is hardy
in below zero temperatures and is a perfect
plant for the coldest
sections of our country. Makes a beautiful
hedge. Each \$2.50, Three \$7.15,

Hedge of Potentilla. All summer flowering. Hardy anywhere.

For a charming low hedge or edging, Potentilla, Gold Drop and Katherine Dykes are excellent. Compact in growth, slow growing, can be pruned to most any small size. Fern-like foliage and a constant display of small golden, cup-shaped flowers throughout the summer make them the No. 1 small edging plants. Succeed in sub-zero temperatures on most any kind of soil. Space them 12 inches apart.

Special size for hedges: Three \$4.75, Doz. \$18.00, 100 \$125.00

Rhus Cotinus Notcutt Variety (Plant Pat. 1457)

### BRONZE-LEAVED SUMAC

Rhus Cotinus Rubrifolius Each \$5.00, Three \$14.00, Doz. \$50.00 Here we have the rare bronze-leaved and "bronze-plumed" Smoke Tree. The common Smoke Tree is too well known, nothing more need be said about it except that it has been a favorite garden shrub for hundreds of years. The bronze-leaved form has handsome bronze tinted foliage and a bronze colored so-called plume or smoke. It is one of the outstanding shrubs in our nursery and has caused a great deal of comment. We are sure that this rare shrub will make a fine display in your garden. We offer nice bushes about 2 to 3 feet tall.

Rhus Cotinus Foliis Purpureis Notcutt Variety

(Plant Pat. 1457)

Magnificent rich claret-colored foliage which is of an intense shade when young. Feathery plumes in June and July just as richly colored as its foliage. Plant is of neat, compact growth. Its foliage is incomparable. There is no other red-leaf Smoke Tree like it. The feathery plumes are large and richly colored. In autumn when the leaves begin to turn, this shrub is a riot of colors. It was a sensation when first shown in England where it originated and was turned over to Wayside Gardens exclusively for introduction under patent in this country. Stock very limited. We send out plants about 2 to 3 feet tall.

Fragrant Star Belle Etoile (Beautiful Star) Mockorange

Tamarix

### STEPHANANDRA

A graceful and elegant very dwarf shrub with finely incised bright green leaves which in autumn change to a brilliant reddish purple. It has small clusters of white flowers, but it is for its daintily crimped, fern-like foliage that the plant is really grown. It does splendidly in shade and makes a nice ground cover on the north side of a house, or under shrubs or trees. Seldom over 2 feet high but it will spread 3 feet across. It is a native of Korea and Japan and a pleasing shrub during the winter as well when its naked brown zigzag branches carry on the show. It is particularly fine as a foreground specimen plant. Combined in a planting of low growing plants in front of a house or below a picture window, it is perfect, and it is equally useful in front of shrubs. It can also be used to make an attractive low hedge. Space plants 12 inches apart for hedge purposes. Incisa Crispa Nana

# Philadelphus - Mockorange FRENCH MOCKORANGE

Atlas (Giant Mockorange) Each \$2.50, Three \$7.15, Doz. \$25.00
This giant-flowered Mockorange, with its pure white blooms as large as those of Dogwoods, will be sensational in your garden and we predict will replace many of the more common and indifferent shrubs. This magnificent hybrid came to us a few years ago from France. It has been carefully tested and not found wanting. Hardy, of easy culture, grows most anywhere, good upright habit, and covered with immense blooms which slightly lack being 3 inches in diameter that are magnificent for cutting. Decidedly a "must" for shrubbery borders.

Belle Etoile (Fragrant Star Mockorange)

We, as well as others who have seen and smelled the charming flowers of this Mockorange, consider this one of the finest and choicest. It is an origination of that great Frenchman Lemoine. The star-like flowers open in Lily-like fashion, the centers showing a decided light purple flush. This extra touch of color, plus its intense and delightful fragrance which can be detected over the entire garden, sets this shrub aside as one in a class by itself. Its growth is orderly, nice and bushy, and it grows about 5 feet tall and 4 feet in diameter.

Enchantment (Tall-Growing Double Mockorange)

Each \$3.00, Three \$8.50, Doz. \$30.00 Has erect branches furnished with long, thick panicles of double white flowers. The blossoms are set very closely, creating a most striking effect. Sweetly fragrant. Does quite well in light shade. Very hardy and easily grown. As its name implies, it will enchant you. Ultimate height about 6 feet. A handsome shrub.

Innocence (Alabaster-White Mockorange)

Each \$3.50, Three \$9.75, Doz. \$35.00

The long arching branches carry a wealth of large single alabaster-white flowers. So heavily loaded with flowers are the slender branches as to assume the appearance of sheaves of bloom. They are of such purity of whiteness as to make all other Mockoranges seem gray by comparison. The fragrance is delightful, more delicate, yet more penetrating than that of Jasmine. Its flowers are so intensely white, one constantly marvels at its ethereal effect. A "must" in every garden. Ultimate height about 6 feet. Unquestionably the most prolific flowering Mockorange.

plendens Each \$2.00, Three \$5.75, Doz. \$20.00 We are indebted to Dr. Wyman of the Arnold Arboretum for our stock of this fine Mockorange. It does not get leggy but is rounded in habit with branches facing the ground all around, making it an excellent plant for use as a specimen. The flowers are borne in groups of five and noted for the brilliant yellow stamens. The flowers are single,  $1 \frac{1}{2}$  inches in diameter, produced in immense quantities in mid-June. Splendens

Triginalis

Each \$2.00, Three \$5.75, Doz. \$20.00

This is perhaps the most popular of the double-flowered Mockoranges and one of its habits is to produce a few flowers throughout the summer and fall after its normal blooming period. Plants grow rather tall, 7 to 9 ft., so this variety should always be planted in the background. We send flowering plants about 3 to 4 ft. tall.

### PYRACANTHA - Firethorn

Each \$3.00, Three \$8.50, Doz. \$30.00 Coccinea Lalandi cacinea Lalandi Each \$3.00, Three \$8.50, Doz. \$30.00 A most remarkable fruiting evergreen shrub. Bears attractive large trusses of white flowers during the late spring followed by an abundance of brilliant orange-scarlet berries which remain late into the winter. A marvelous plant for foundation planting where soil is dry. The long shoots it makes can be used as a vine over a doorway or along a window casing. The plants can be trimmed to fit any position. It is difficult to transplant field-grown or large plants. We therefore send young stock from 6-inch pots which will reach a height of 2 to 3 feet the first year. It prefers a warm, well-drained location.

### **SPIRAEA**

A very important family of shrubs. Most Spiraeas are sun loving, but withstand much abuse in location and soil conditions, and are a source of joy and satisfaction.

ponica coccinea Each \$2.00, Three \$5.75, Doz. \$20.00 Similar in growth and habit to the Anthony Waterer Spirea. The flowers of this new variety are much better and richer crimson-red. No one will ever again plant the old Anthony Waterer once they have seen this fine improvement. Ultimate height about 30 to 36 inches. Japonica coccinea

### TAMARIX - Tamarisk

Tamarix should be cut back to 6 or 8 inches when transplanted. If this is not done, success is doubtful.

There is a lacy loveliness and charm about this lovely shrub not found in any others. The beautiful silvery blue-green foliage is like a veil. A sharp and delightful contrast is made by the airy Tyrian rose-pink flower spikes which appear on top of the delightful foliage all summer long. The flowers and foliage are lovely for cutting. This shrub is also excellent for seashore or lakeshore gardens, being very tolerant to salt air and wind. The plants we send out will bloom the first year. Ultimate height about 8 feet. Can be pruned and kept to 5 or 6 feet if desired. Summer Glow

Symphoricarpos, White Hedge Handsome, upright growing new variety.

### **SYMPHORICARPOS**

White Hedge Each \$3.00, Three \$8.50, Doz. \$30.00 This is a much improved form of the well known Snowberry, Symphoricarpos Racemosus. The pendulous characteristic of Racemosus is completely eliminated in the variety White Hedge, which is a far superior small shrub. Its growth is upright, strong and continuously large number, we consider it a great improvement and a fine addition to colorful, medium sized shrubs for today's smaller gardens. White Hedge

Pyracantha Lalandi lends itself beautifully for training as vines or wall covers but must have a warm and sunny exposure.

Sunburst Locust

# Robinia sunburst locust

(Plant Patent No. 1313)

A graceful, small tree, perfect for the small or medium size garden. Handsome green, fern-like foliage, which at the tips of the various branches is bright yellow, creates an effect as if the tree were in bloom. Throughout the entire growing season these yellow tips and leaves persist. It is easily transplanted, grows in most any kind of soil, is of rapid growth and hardy. Here is a most attractive novelty you will enjoy.

Well grown, nice trees, 5 to 7 ft., Each \$6.25

### SALIX - Willow

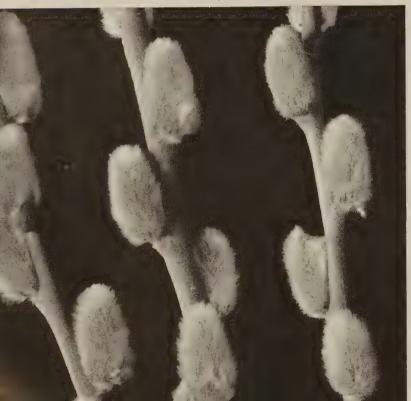

rench Pussy Willow

Rach \$2.25, Three \$6.50, Doz. \$22.50

Not the wild Pussy Willow but a fine cultivated French variety. Branches of this variety have been selling at retail during the winter months in cities at from \$1.00 to \$2.00 per doz. You can grow them on your own lawn! Enjoy these dainty silvery pink flowers every winter. A beautiful round shrub in summer or use them for fall screens or backgrounds. Cut the ends of the branches in January or February. Place them indoors in a vase of water. Watch them unfold their large catkins of silver-pink, from 1 to 2 inches long. They will repay you many times their cost in pleasure. Ultimate height 10 feet. Cut back branches to 6 inches when planting and each spring after catkins have formed to promote long, vigorous new canes. French Pussy Willow

Purpurea nana (See page 95)

Salix-French Pussy Willow

# Vihurnum Mariesi

### WAYSIDE GARDENS FORM

### Lovelier Than Dogwood

Here is a magnificent shrub of medium size that should be in every garden. When in bloom most people consider it lovelier than the Dogwood. The particular form offered is a selection made at Wayside Gardens chosen first for its freedom of bloom as well as flowering close to the ground; second, because of its fine compact habit of growth and it never becomes "lanky" or bare at the base of the plant. Third reason is its fine foliage which colors handsomely in the autumn making a fine foil for the brilliant red berries. Its ultimate height will be about 6 to 7 feet depending on conditions. Bugs don't bother it but like all Viburnums it does not like sulphur dust or spray in any form.

								Three	
3	to	4-ft.	plants	ready	to	bloom	\$4.00	\$11.00	\$40.00
4.	to	5-ft.	plants	ready	to	bloom	5.00	14.00	50.00

# Viburnum-Snowball

Beware, never use any spray containing sulphur on or near any Viburnums. Sulphur will produce black spots on the leaves and may defoliate the plants altogether.

Burkwoodi

Each \$4.00, Three \$11.00, Doz. \$40.00 Bushy plants, 3-4 ft. Each \$4.00, Three \$11.00, Doz. \$40.00 Bare root, 2-3 ft. Each \$3.00, Three \$8.50, Doz. \$30.00 A most amenable new shrub thriving in sunless places and smoky towns. Waxy blush-white and delicately perfumed, the flowers of this new Viburnum are produced in early spring when the leaves are unfolding. They form round, domed clusters, and the Gardenia-like fragrance is so sweet as to pervade a large area. The plant grows about 6 feet high and 4 to 5 feet in diameter. It likes a well drained location with plenty of moisture. Bushy plants, 3-4 ft.

Each \$5.00, Three \$14.00, Doz. \$50.00 Carlesi for many years this has been one of the most popular of early spring flowering shrubs; flowering when the Tulips are in bloom it spreads its fragrance throughout the garden. Just when the leaves are unfolding its globe-shaped flowers are at their best, waxy white and deliciously fragrant. It is hardy and easy to grow.

Poulus Compactum Each \$4.00, Three \$11.00, Doz. \$40.00 A rare, dwarf form with umbels of red berries in early autumn. Very compact habit and very freely fruiting are the outstanding characteristics of this variety. The common Viburnum Opulus is a well known and much used shrub. Its drawback is that it grows too fast and too big, constantly requiring pruning to keep it in bounds. All these objectionable habits are eliminated in the new compact, dwarf form we offer. Grows about 4 to 5 feet high. We offer nice 2- to 3-ft. plants. Opulus Compactum

Opulus Nanum (The Hedge Viburnum)

Each \$1.50, Three \$4.25, Doz. \$15.00, 100 \$100.00

A dwarf, stubby plant never over two feet high, particularly well adapted for edgings and hedges in wet or heavy clay ground where it is difficult for other plants to thrive. Does well in light shade. It is extremely hardy. Can be clipped or left natural as desired, in either case it grows into a fine compact and low hedge which requires no care.

Opulus Xanthocarpum (Golden-Fruited Cranberry Bush)

Poulus Xanthocarpum (Golden-Fruited Cranberry Bush) Each ~\$3.00, Three ~\$8.50, Doz. ~\$30.00 This makes a handsome bush 5 to 7 feet high. It is particularly attractive from July to December after when its beautiful blossoms are replaced by immense clusters of 1/2-inch golden yellow fruits. The clusters of berries are many and heavy, and create a beautiful show against the rich green foliage. The plants we ship are about 4 feet tall.

etigerum (Theiferum) Each \$5.00, Three \$14.00, Doz. \$50.00 In the autumn and late summer this shrub is literally covered with clusters of brilliant red berries and is one of the outstanding show pieces in the garden at that time. We know of no other shrub that is so showy and easily grown. White flowers in early summer and clean, deep green, large leaves. This Viburnum belongs in the list of elites. Its average height when fully grown is about 10 feet. A rare plant yet little known but one of the finest tall shrubs in cultivation. Setigerum (Theiferum)

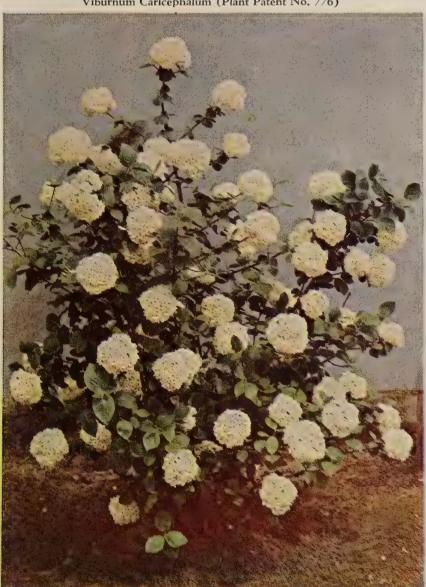

Tomentosum Each \$3.00, Three \$8.50, Doz. \$30.00 If all the other Viburnums were thrown into the discard, this one would justify the family. It is a superb flowering shrub and the spectacle of a good Tomentosum in bloom is a sight not ever to be forgotten. In early June the horizontal branches become perfect mosaics of wheel-like clusters, ringed with dazzling white flowers, with spidery sunburst centers, resembling a fall of snow. Ultimate height 8 feet. Tomentosum

Notice: Avoid use of sulphur or sprays containing sulphur. See top of page.

Viburnum Mariesi, Wayside Gardens Form Showing Only the Lower Branches

Viburnum Carlcephalum (Plant Patent No. 776)

Viburnum Opulus Compacta Showing handsome autumn coloring of its foliage and fruit.

# Viburnum Carlcephalum

THE NEW FRAGRANT SNOWBALL

(Plant Patent No. 776)

### The Finest Fragrant Shrub in a Decade

This is the famous and splendid Hybrid from V. Carlesi and V. Macrocephalum, which originated in England just before the war. The originator turned this wonderful shrub over to Wayside Gardens for introduction in this country.

It is absolutely hardy and has gone through several winters here in Mentor with temperatures as much as ten degrees below zero. It is of branching habit and quick growth, growing about six to seven feet high and can be pruned to any size or shape desired. Does equally well in acid soil or those which are alkaline.

It is a most profusely flowering shrub with large cymose clusters of blossoms which may be as much as six inches across, rarely ever smaller than four inches, either flattened or globular, mostly the latter. The flowers are exceedingly fragrant, rivaling its seed parent.

It is a deciduous shrub and carries a wealth of foliage. The leaves are practically identical with those of V. Carlesi but in the autumn are brilliantly colored.

This Hybrid was shown at the Poyal Hortisultural St.

Viburnum Setigerum

### VIBURNUM SETIGERUM

(Theiferum)

In the autumn and late summer this shrub is literally covered with clusters of brilliant red berries and is one of the outstanding show pieces in the garden at that time. We know of no other shrub that is so showy and so easily grown. White flowers in early summer and clean, deep green, large leaves. This Viburnum belongs in the list of elites. Its average height when fully grown is about 10 feet. A rare plant yet little known but one of the finest tall shrubs in cultivation.

Each \$5.00, Three \$14.00, Doz. \$50.00

### VITEX

(Chaste Tree)

Agraceful shrub with attractive spikes of lovely lavender-blue flowers. Blooms profusely from July until fall and grows more than ten feet high unless pruned back. It is a most desirable summer-flowering shrub of distinctive appearance. Fits in well in the border and is also suitable as a lawn plant. Its form, foliage and lilac flowers are very unusual. Macrophylla

The Weigelas are an interesting and useful family of shrubs, flowering in May, June and July. The flowers in shape may be likened to those of a Foxglove and are borne in immense quantities. They prefer a moist soil and do not like shade or roots of large trees encroaching on them. Otherwise their culture is simple. The average ultimate height of most varieties is about 5 to 6 feet.

Avalanche Each \$3.00, Three \$8.50, Doz. \$30.00

This is the best pure white Weigela. It grows about 5 to 6 feet high. In late spring and early summer it is a beautiful plant to see with its thousands of pure white trumpet-like blooms. It makes a fine contrast if planted alongside of Bristol Ruby. We send plants about 2 to 3 feet tall.

A handsome shrub for any garden, big or small. Grows about 5 feet tall and in spring is completely covered with light pink blooms which possess a great depth of color and sparkle like pearls. It is early flowering and one of the great French hybridist Lemoine's latest and best. We send plants about 3 to 4 feet tall.

and best. We send plants about 3 to 4 feet tall.

Bristol Ruby (Spring and Autumn Flowering)

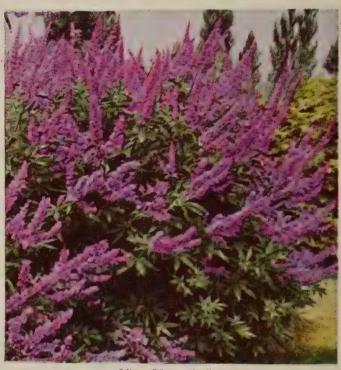

(Plant Patent No. 492)

The color of the flowers is pleasing sparkling ruby-red, shading to garnet-crimson. They are produced in immense quantities and create a wonderful display of colors. After the big display is past there is again a fine showing of bloom throughout the summer and entire autumn. Few shrubs produce flowers as freely and over so long a period as does Bristol Ruby Weigela. It attains a height of 6 to 7 feet at maturity, and grows into a perfectly formed, well rounded specimen requiring very little pruning because it flowers well from old wood; no die-back or uneven growth at any time. Excellent reports from Canada and Vermont and other difficult regions fully substantiate our own estimate of its unusual hardiness. Bristol Ruby is definitely superior to any other red Weigela in every respect and visitors here at the nursery are quick to note its better qualities.

Bushy plants, 18 to 24 in. high. \$2.00 \$5.75 \$20.00 Bushy plants, 2 to 3 jt. high. \$2.50 7.15 25.00 Bushy plants, 3 to 4 ft. high. \$3.00 8.50 30.00

Viburnum Opulus Nanum (See page 116)

Vitex Macrophylla

# Hardy Vines

### **AKEBIA**

Fifoliata

Each \$2.50, Three \$7.15, Doz. \$25.00

A fine, rather fast growing climber with rich dark green bug-free trifoliate leaves. In a very short time, it reaches its maximum height of about 20 feet. There are numerous small purple flowers in April. Needs no particular growing requirements. Does well in shade and sun. A fine clean foliage plant. A No. 1 for covering trellis, fence or stumps.

### AMPELOPSIS - Boston Ivv

Lowi (Miniature Boston Ivy) Each \$2.00, Three \$5.75, Doz. \$20.00 The small-leaved Boston Ivy) Each \$2.00, Three \$5.75, Doz. \$20.00 The small-leaved Boston Ivy is a charming self-clinging and quickly climbing vine. The leaves are small, palmlike and deeply lobed, turning into beautiful autumn tints before falling. This variety is especially well adapted to cover house walls as well as stone gateposts or low walls. The close fitting short-stemmed leaves do not allow birds to nest. Its effect is tracery-like and does not completely cover the brick or stonework. It is quickly replacing the common Boston Ivy or Veitchi variety because it is so much more charming.

Strong, 3-year-old plants Each \$1.75, Three \$4.75, Doz. \$18.50 A very popular wall-covering vine which does well in full sun and should have east and south exposures. Any good garden soil will grow them to perfection. Plant them a foot away from wall and do not attempt to fasten runners to support. When growth commences, new runners will grow toward the wall and will cling without any effort on your part. Ampelopsis are of easiest culture and require no particular care.

Mme. Galen

Each \$4.00, Three \$11.00, Doz. \$40.00

The Scarlet Trumpet Vine, Bignonia Radicans, is one of the popular vines found growing on many fences, barns or stone walls. It has been discontinued by us, however, in favor of the much lovelier hybrid, Mme. Galen. The blooms of Mme. Galen are open, flaring flowers 2½ to 3 inches across and grow in clusters all summer long. The color is rich apricot, tinted orange, handsome and showy against the fine foliage of the plant. No insects bother it. It is clean, quick growing and requires no support. It will fasten itself to brick or wood. Is perfectly hardy but likes a sunny location. You will never fail to admire Yellow Trumpet

The golden yellow flowered Trumpet Sach \$2.50. Three \$7.15

Tellow Trumpet Each \$2.50, Three \$7.15, Doz. \$25.00 The golden yellow flowered Trumpet Vine is one of the most cheerful vines to bloom during summer. Its requirements are very simple, ordinary soil, not too rich, and plenty of sunlight is all it needs. The clusters of bright golden yellow trumpet-like flowers are freely produced throughout the entire summer and well into fall. Hardy anywhere; insects don't bother it, perfect for fences or covering trees or walls. Needs no fastening as it clings tenaciously to whatever support is provided. provided.

### CELASTRUS - Bittersweet or Wax Work

### Loeseneri (Chinese Bittersweet)

Each \$2.25, Three \$6.50, Doz. \$22.50 Each \$2.25, Three \$6.50, Doz. \$22.50 Surest and most prolific fruiting variety known. This new importation is a rare species from Central and Western China. The clean leaves are glaucous green and somewhat larger than those of the common Bittersweet. It is the most prolific fruiting kind we know. In autumn, yellow and orange-scarlet berries cover the vine all over instead of in occasional small clusters as in the common Bittersweet. It's a sure fruiter. We do not recommend you plant two plants in one hole for fertilization.

### Hardy Baltica and English Ivy

The famous English Ivy with its familiar evergreen, glossy foliage, requires winter protection in cold sections of the country where it is exposed to chilly winds on open walls. It can, however, be planted with perfect safety as a ground cover or as an edging to flower beds anywhere. Baltica as well as the Bulgarian are perfectly hardy and we recommend their use on the north side and west side of buildings and walls or in shady places or as a ground cover under trees in dense shade. The 21/2-inch pot plants offered are very economical.

### ENGLISH IVY—Hedera helix

A lovely vine as a sylendid ground cover. Its beautiful shiny leaves make a wonderful ground cover in densest shade.

Plants from 2½-inch pots

Doz. \$5.00, 100 \$40.00, 1000 \$350.00

BALTICA IVY—Hedera helix gracilis
Identical in habit with the English Ivy, but with foliage not as large and more cut; a most graceful vine; perfectly hardy and a splendid evergreen vine on walls with north or west exposures, also excellent

Plants from 2½-inch pots Doz. \$5.00, 100 \$40.00, 1000 \$350.00

### BULGARIAN IVY (Hedera Helix Bulgarica)

This fine hardy by was obtained by us from the Botanic Gardens of St. Louis. Its foliage is much the same as that of Hedera Gracilis differing particularly in its shiny leaves which are also more closely set along the stem. Its hardiness equals that of the common Baltic by. Plants from 2½-inch pots

Three \$2.00, Doz. \$6.00, 100 \$48.00

### **EUONYMUS** - Evergreen Bittersweet

# The Most Versatile, Hardy, Easily Grown Evergreen Vine and Shrub The Plant of 1000 Uses

The Euonymus are particularly desirable for their dense, evergreen foliage and extreme hardiness, some varieties on account of this taking the place of the English Ivy for wall covering, others that of the Boxwood as an edging plant, while Acuta is a splendid ground cover, and one of the best creepers for rockeries is Kewensis. All do well in sun or shade.

### Radicans vegetus

(Evergreen Bittersweet.) A strong growing variety, with larger leaves than the type, and producing bright orange-red berries, which remain on the plant the greater part of the winter. As an evergeen, absolutely hardy wall cover, this plant is unequaled. Beautiful on big old trees or shady places.

# Large Flowered Clematis

### The Most Colorful Vines for the Garden

These European garden treasures are notable for their spectacular flowers. Outstanding in color and in form, they lend distinction and charm to any garden. Grown on treilises, arbors, pergolas, old tree stumps, and walls, these climbing plants flaunt their beauty in high places above other flowers. They are superb subjects to be grown on posts placed in the hardy border, providing, as it were, color on top of color.

Both the large and the small-flowered varieties are a "must" in every garden. While the large-flowered forms provide great richness of color, the small-flowered kinds impress us with their curiously formed flowers which are produced in great abundance. All varieties last well when cut and lend themselves to many unique arrangements.

Culture: Clematis are very easily grown if you will observe a few re-

Culture: Clematis are very easily grown if you will observe a few requirements. First, they enjoy a rich, loose soil. This is easily prepared anywhere. If your soil is heavy, mix it freely with peat moss or any other humus, adding well rotted manure. For top results, make the planting hole very much larger and deeper than needed for the size of the roots. The large hole, filled up to the right height with good soil, provides an excellent root run which in turn brings forth a quick, luxuriant growth and many more flowers. Remember, you are planting a vine. It needs ample nourishment to make the growth it is called upon to do.

(We do not ship Clematis into California. Washington or Oregon.)

(We do not ship Clematis into California, Washington or Oregon.)

Comtesse de Bouchard Each \$2.50, Three \$7.15, Doz. \$25.00 Rosy lilac flowers with lighter midrib. Lovely, delicate variety.

Crimson Star Each \$3.00, Three \$8.50, Doz. \$30.00 A handsome and colorful variety. Its garnet-red flowers are large and spectacular, borne in great quantities; goes well planted together with a white flowered variety.

Duchess of Edinburgh Each \$2.50, Three \$7.15, Doz. \$25.00 Magnificent double white.

Finest Markham

Each \$3.00, Three \$8.50, Doz. \$30.00

Glowing petunia-red-violet enhanced by a rich velvety sheen; very free flowering and a strong grower. Ernest Markham

The popular purple variety with large, purple-blue flowers; one of the loveliest vines we have.

anuginosa candida Each \$2.50, Three \$7.15, Doz. \$25.00 Lovely giant white flowers produced throughout the summer. Lanuginosa candida

Rich reddish plum-violet blooms. It has proved to be a thrifty variety, producing its blooms freely the entire length of its 10-foot vines. An outstanding vine Clematis. Lord Neville

Mme. Edward Andre Each \$2.50, Three \$7.15, Doz. \$25.00

Beautiful and free flowering medium deep red blooms in great quantities. Stamens are yellow with sharply pointed sepals.

Mrs. Cholmondely Each \$3.00, Three \$8.50, Doz. \$30.00 Light blue flowers with rather long sepals in abundance. It starts blooming early and continues over a long period.

amona Each \$2.50, Three \$7.15, Doz. \$25.00 A beautiful single pale blue variety. The flowers are large and very effective, not to mention that they are borne in immense quantities.

### CLEMATIS JOUNIANA, MRS. ROBERT BRYDON

By crossing the lovely sweet scented, deep blue, bush or dwarf Clematis Davidiana with a very strong and robust growing native American variety, we obtained a beautiful climber, which grows about 8 to 10 feet high. The top of this vine is covered with billowy masses of pale watery blue flowers at their best in August and September. It is perfect for covering fences, trellises and pergolas. Being absolutely hardy, it can be used anywhere. Is entirely free from insect pests, is always neat because the past season's growth should be partly removed each fall, leaving about 3 feet, not more. Easy to grow. Ordinary garden soil will do.

\*\*Each \$2.00, Three \$5.75, Doz. \$20.00\*\*

### LONICERA - Honeysuckle

Their climbing qualities are all that can be desired, but the fragrance of their flowers makes their strongest bid for favor. They are perhaps to the old-fashioned garden as a vine what the Hollyhocks are as a plant. They simply should be there somewhere.

oldflame Each \$1.75, Three \$4.75, Doz. \$18.00 Immense showy clusters of trumpet-shaped buds and fragrant blooms. The outside of the petals is brilliant flame-pink, the inside a creamy golden yellow. Dark glossy foliage adds to its charm. The plants can be sheared to form a hedge or allowed to grow naturally as a vine or shrub. Bloom freely from early spring until heavy frost.

Each \$1.25, Three \$3.50, Doz. \$13.00 Hall's Honeysuckle is so well known it needs no further introduction. It is a favorite old-fashioned vine with fragrant buff-yellow flowers throughout the summer. Does well in shade or sun and is excellent for covering rough objects or banks.

This is the golden variegated form of the well-known Hall's Honeysuckle. The golden foliage is quite stunning and ornamental when seen on trellis or fence. Branches taken from it, for use with flowers, contribute handsomely to the effect of a vase of flowers. In the garden the golden-leaved Honeysuckle makes a colorful display which lasts well into the winter. In milder climates the leaves are retained throughout the winter. Flowers are buff-yellow and as fragrant as the common Honeysuckle. Halliana Aurea Variegata

empervirens Magnifica

A magnificent evergreen Honeysuckle with corol-colored blooms of large size and beautiful blue-gray-green foliage. The brilliant and cheerful flowers are freely produced; a worth-while novelty which is particularly well adapted where a not too large space must be covered, because it does not grow as big as any of the other kinds offered. The most brilliantly colored of all the Honeysuckles. Hardy anywhere and blooms from spring till frost. In our opinion the best of the lot. Sempervirens Magnifica

# Wisterias

### THE OUEEN OF VINES

INFORMATION ABOUT WISTERIAS

Because the flower buds can be killed by extremely low winter temperatures, Wisterias may fail to flower and are not recommended for planting in the following states: Idaho, Iowa, Maine, Northern Michigan, Minnesota, Montana, Nebraska, New Hampshire, North Dakota, South Dakota, Vermont, Northern Wisconsin and Wyoming.

There is a much wider range of varieties than is generally thought. Descriptions below are condensed because the species to which each variety belongs covers the major points. The two important species are: Wisteria Sinensis, the Chinese Wisteria, characterized by large fragrant flowers in compact clusters of medium length. They come into bloom very young and all the flowers in each cluster open at about the same time before any leaves appear. Wisteria Floribunda, which is better known as Wisteria Multipiuga or Japanese Wisteria, has long slender racemes of smaller flowers. Those at top are fully open while the lower ones are only small unopened buds. This of course lengthens the blooming period until the leaves are pretty well out. All our stock is grafted and grown in a special manner to induce early bloom rather than a lot of useless wood. Seedlings or plants improperly propagated may go eight or ten years without ever producing a flower. We maintain that if wood is the main thing wanted, it is more economical to patronize a lumber yard than a nursery.

All the Wisterias we send out, either vines or tree form, have flowered in the nursery. You can absolutely depend on yours to bloom. Newly transplanted Wisterias sometimes remain dormant (show no leaves) until August. Don't be alarmed at this dormant state. Water freely deep down and they will start when they are "good and ready."

Floribunda, "Issai" Flowers a clear purple, much deeper color than common Japanese and are borne very profusely. It is also decidedly precocious, coming into bloom very young. The short, silky seed pods hang on all winter in not cut off, and are quite ornamental.

cut off, and are quite ornamental.

Floribunda longissima

Extra long clustered Wisteria. Lavender-blue. We have actually measured clusters well over four feet long and there is dependable record of old vines producing occasional clusters fully six feet long! If the longest possible clusters are wanted fertilize heavily in autumn after the leaves have fallen, but not in spring or during the growing season.

Each \$6.00

Floribunda longissima alba

A perfectly beautiful pure white form of the above variety

Floribunda rosea

Pink Wisteria. The finest Pink Wisteria we have ever seen. Clusters about 15 to 18 inches long. Slow to begin flowering but once started it blooms profusely. All plants have already bloomed in the nursery.

Floribunda violacea plena

Double Violet Wisteria. The only double Wisteria known in this country, has the darkest colored flowers of all. They are exactly like dark purple Violets borne in clusters about 15 to 18 inches long. Very free bloomer.

Each \$6.00

eisha
A very charming variety. The cluster as well as the individual flowers are smaller than usual, but very prolific. The effect is delightful and charming. Color a clear light lavender; very free flowering.

oyal Purple

Each \$6.00

Brilliantly colored, good sized clusters of royal purple; flowers are freely produced, making this one of the fine and outstanding varieties.

Sinensis (Chinese Wisteria)

This is the old favorite called Chinese Purple, but really lavender shaded blue. Our plants are guaranteed to bloom.

Sinensis alba (White Chinese Wisteria)

Has white fragrant flowers. Our grafted plants are guaranteed to bloom.

# Cree Wisterias

No more lovely sight can be imagined than a Tree Wisteria in bloom. The purplish blue flowers are produced by the hundreds and completely cover the tree during May, transforming it into a thing of sheer beauty. In formal gardens Tree Wisterias are indispensable. On the lawn they develop into beautiful specimens and live for generations, increasing in beauty and dignity each successive season. The plants we offer are grown on stems about 4 to 5 feet high and the crowns are about 2½ to 3 feet in diameter. Every plant has bloomed before it leaves our nursery.

Blue Tree Wisteria

The most popular color. These were grown from grafts taken of the variety illustrated in color.

White Tree Wisteria

Each \$10.00, A Matched Pair for \$19.00

The white-flowered form. Delicate silvery white blooms.

RARE TREE WISTERIAS

The new varieties are perfectly beautiful. The flower clusters are longer and the various kinds offer a variety of color and form. For color descriptions see under heading "Wisterias," above.

Each \$11.00

Floribunda rosea Each \$11.00 Each \$11.00 Each \$11.00 Floribunda, Issai Royal Purple Floribunda longissima Each \$11.00 Floribunda longissima alba Each \$11.00 Floribunda violacea plena Each \$11.00

CARE OF TREE WISTERIAS

The proper time to "shape-up" or "trim" your Tree or Vine Wisteria is from the third week in July until August 15th. Cut back new growth to fourth or fifth bud. Fertilize only during winter months—November, December and January—never in spring. Spring feeding induces unreasonable growth and not flowers. Very important it is to remember that newly transplanted Wisteria trees or vines often do not "leaf out" until August. Water plants freely while in this apparent dormant state.

Bignonia, Yellow Trumpet (See page 119)

Blue Tree Wisteria

Clematis, Mrs. Robert Brydon

[121]

# The New Unfading Golden Floribunda

Here is what the originator says:

"ALLGOLD has been consistently good with me. The first year the colour caught my eye. No other Floribunda has its deep unfading clarity. It is shining gold from the first glimpse of colour in the bud until petal drop.

"The more we have grown of this variety and the more experience we have had of it, the better we like it. We have not been able to find a fault with this Rose. Wet or dry, cold or hot, the blooms open the same clear unfading golden yellow. 'Sunshine on a dull day,' it brings cheer into any garden whatever the weather.

"Especially noticeable has been its resistance to black spot. It remains in full leaf even when other varieties around it are leafless.

"It is the considered opinion of both amateurs and nurserymen in England that it is the most outstanding yellow Floribunda yet introduced. For depth of colour, unfading qualities, freedom of flower, health of growth, it is absolutely 'tops.' Winner of leading awards from the National Rose Society, The Royal Horticultural Society and The Royal Agricultural Society of England."

### OTHER OPINIONS

NEW ZEALAND: 7th August, 1957. (Avenue Nurseries, Levin) New Zea'and. ALLGOLD put up a magnificent display last autumn (April-May) and far surpassed anything that Golden Delight had done. ALLGOLD really shone out amongst all the other Roses and was a real show for quite a long period. We wished that we had imported three times as many of it.

HOLLAND: Jan Spek, Boskoop, Holland. I just went through the Roses I patented for you and came to the following conclusions: I think your ALLGOLD is the very best and would say that it seems the best yellow Polyantha on the market.

FRANCE: 24 September, 1956. (Roseraies Pernet Ducher). La rose ALL-GOLD. Cette variete parair tre honne. (Cette variete) a une tres bonne couleur jaune qui resiste bien, elle est bien superieure a Goldilocks.

ITALY: Arturo Ansaloni (Bologna) Italy, August 20, 1957. As reported previously the Rose ALLGOLD has been very interesting; this year again we have had the opportunity of ascertaining that this novelty is very floriferous; the individual flowers of good shape, double and the colour is a deep yellow. In our opinion this is the best yellow among Floribundas.

SOUTH AFRICA: Edenvale Nurseries, Transvaal. ALLGOLD. Of all the varieties on our di play this is the one that attracted the most attention. We wonder whether it was because of its colour—a truly deep, rich, sparkling yellow (the deepest yellow yet found in a Floribunda); or because of the size of the heads which are large with the flowers firmly held in position. Perhaps the admirers were amazed to see such exceptionally healthy, glossy, leathery foliage—which means ALLGOLD has everything. We have found this variety completely disease resistant and an excellent grower while the colour of its flowers is held until the petals drop. Raised by Mr. E. B. Le Grice of England and we have the privilege of introducing this magnificent Rose in South Africa.

RHODESIA: From Waterfields Nurseries, Salisbury, S. Rhodesia.

ALLGOLD has done more to arouse interest in the Floribunda class since we have had it than any other variety we can remember. Its chief point is its amazing colour stability in our hot sun whereby it fills a much needed want. Growth is excellent and the bush compact, not growing too tall for bedding as do so many of the new vigorous varieties. With ten months of good growing weather a tall grower becomes quite unmanageable towards the end of the season.

# Choice Floribunda Roses

We Here Offer a Selection of the Finest Varieties

Floribunda Roses or Cluster Roses are a group of Roses especially produced for mass planting. They are noted for their permanence, continuity of bloom, and ease of culture. Their habit of growth is bushy, and their chief characteristic is sturdiness. The plants are winter-hardy, therefore permanent, and bloom continuously in numerous clusters. Flowers are fairly large, vary from single to full double. and include the entire range of colors of Roses. A distinctive feature is the long-lastingness of the flowers in all weathers. They are best planted closely—about 18 inches apart—in large groups and masses, in beds, so they will blanket the ground. Groups of three or five of a variety placed in front of the shrub border create a superb color display.

### **FRENSHAM**

The Finest and Highest Rated of the Red Floribunda Roses

If we were asked which is our favorite red Floribunda Rose, we would answer without hesitation "Frensham." It is an outstanding new English introduction and Gold Medal Award Winner. It is our idea of what a Floribunda should be. This top-notch variety has everything, color clean crimsonvermilion-red, flowers in abundance, healthy rich green foliage, vigorous growing; if you want to grow it in front of shrubs or in a bed by itself you'll be more than pleased with it and as for a hedge of red Floribunda Roses, it is unsurpassed.

Each \$2.00, Three \$5.25, Doz. \$21.00

Circus (Plant Patent No. 1382)

The predominant color of Circus is yellow with the tight buds richly marked red. As the bloom unfolds, it offers a most interesting, ever changing succession of shades and tints with fully blown flowers putting on a finishing flourish of bright scarlet. Flowers profusely in clusters. Good stems for cutting. Flowers fragrant. A first class Floribunda Rose. All-America Award Winner for 1956.

etty Prior Each \$1.50, Three \$3.90, Doz. \$15.60
An outstanding addition to this new class of Roses, distinctive in its appealing color, its extremely healthy foliage and growth, and its positive continuity of bloom. In early spring the single blooms resemble the flowers of a red Dogwood. They are produced in clusters which are followed continuously by other clusters throughout the entire season. the entire season.

Dagmar Spath Each \$1.50, Three \$3.90, Doz. \$15.60 (White Lafayette). Pure white flowers produced in showy large trusses all through the summer. It is the best white Polyantha and a true sport of the well known Lafayette.

Oonald Prior Each \$1.50, Three \$3.90, Doz. \$15.60 An eight-petaled, rich cherry-red Floribunda Rose with flowers about 4 inches across. The dark green foliage is a splendid foil to the crimson flushed scarlet flowers and when the full trusses come into bloom the effect is very striking and decidedly pleasing. A bright red which won't clash in the garden.

Floribunda Rose, Floradora

loradora Each \$1.50, Three \$3.90, Doz. \$15.60 One of the gayest Floribundas. It is spectacular, constantly in bloom and an entirely new shade in Roses—a brilliant cinnabar-red, as arresting under artificial light as in the garden. No matter where they are, Floradora blooms are always the eye catchers. It grows 2 to 3 feet tall. Floradora

Fashion (Plant Pat. No. 789) All-America Award Winner for 1950 An exquisitely beautiful Floribunda. The color is luminous coral-pink overlaid with gold which softens to clear coral and then deepens into deeper tinted tones at the finishing stage. Pointed buds are Oriental red and slowly open into miniature-like Hybrid Tea form. The open flowers are about 3½ inches across and have a delightful old rose fragrance. Grows about 2½ to 3 feet tall; good foliage and prolific blooming. At the National Rose Society's Show in London it received the Gold Medal and was the sensation of the show.

\*\*Each \$2.00, Three \$5.25, Doz. \$21.00

Else Poulsen

Flowers semi-double, lasting, bright rose-pink. Continuous blooming from summer to late fall. This is one of the loveliest and hardiest of the Floribunda Roses. Throughout the years it has given excellent results, and has become one of the great favorites. We cannot say too much for it.

**usilier** (Plant Patent Rights Reserved) Each \$2,50, Three \$6.60, Doz. \$26.40 The brilliance of its color, a rich orange-red, and its luminescence make Fusilier an immediate standout. Its 3- to  $3\frac{1}{2}$ -inch flowers are crinkled and wavy. They appear in heavy clusters that are produced constantly so that the plant is never without color. Growing to medium height, Fusilier has a bushy, compact growth. Reports from throughout the Nation emphasize Fusilier's continuing mass of color.

The new golden yellow Floribunda, Gold Cup, is a much needed addition to the color group of the Floribunda Roses. The 3- to 4-inch flowers of Gold Cup are a pure golden yellow which holds throughout their life. This non-fading quality is combined with a pleasant, sweet Rose fragrance. Plants grow 2½ feet tall and are never without flowers from June till severe fall frosts. Well clothed with glossy dark foliage.

The buds are ovoid in shape, resembling miniature Hybrid Teas in form, and a rich golden yellow in color. They open slowly and gracefully. The flowers are cupped in the early stages and gradually open to  $3\frac{1}{2}$  inches across. They last a long time; as fresh new buds keep replenishing the over-all effect of a golden yellow mass. Goldilocks

Pinocchio

Ivory Fashion (Plant Patent No. 1688)

Each \$2.75, Three \$7.20, Doz. \$28.80

An ivory colored Fashion with equal charm and grace as its parent Fashion, describes it perfectly. Long, slender buds open gradually with their high-centered form to a striking, slightly cupped, fully open, fragrant flower. The richly decorative, long, graceful golden stamens give an air of charm to the whole ensemble. The stout stems usually carry 5 to 10 buds which open gradually, giving a long, graceful blooming period. New stems put up by the plant constantly carry on the blooming.

Moonsprite (Plant Patent No. 1450)

Each \$2.25, Three \$6.00, Doz. \$24.00

The perfect little urn-shaped buds are pale yellow, opening into Chrysanthemum-like flowers about two inches across. They are borne in big panicles, bright and gay. They are superb for cutting and have a pungent Rose fragrance. As the flowers age the pale gold center shades to cream. The plants are low-growing with glistening light green foliage and are very vigorous.

Pinocchio (Plant Patent No. 484) Each \$1.75, Three \$4.65, Doz. \$18.60 Artistic sprays of buds and blooms are incomparable for flower arrangements. The exotic, fruity fragrance makes it valuable in personal bouquets, such as corsages. Buds are pointed, salmon flushed gold at the base; blooms in great clusters opening slowly to miniature Hybrid Teas, 1/2 inches across, soft clear pink, gradually deepening at the edges. Blooms continuously, hundreds of blooms to a bush. 20 to 24 inches tall.

Red Pinocchio (Plant Patent No. 812)

Each \$1.75, Three \$4.65, Doz. \$18.60

The 3½-inch flowers are borne in large, long lasting, unfading clusters with individual blooms scattered between the mass flowering. Color is a rich dancing carmine, which deepens and acquires a velvety cast as it opens fully. It finishes with the same lovely cup-shaped blooms as Pinocchio and a color richer and more handsome than Donald Prior.

Cameo

Small Flowered Cluster Roses

(Polyantha Roses) Growing about 12 to 18
inches high.

The Polyantha or Baby Roses are very popular for edging and for bedding purposes. The plants grow into shapely, compact bushes about 12 to 18 inches high and they are covered with a great mass of flowers from early in the season until severe frost destroys their beauty. The blooms, though small, are very effective, as they are arranged in showy trusses that accentuate their rich and beautiful coloring.

Cameo Each \$2.00, Three \$5.25, Doz. \$21.00
A new and distinct color. Shell-pink with salmon suffusion, over which lies a glow of gold. Flowers in large sprays constantly in bloom from June until frost.

Carroll Ann Each \$2.00, Three \$5.25, Doz. \$21.00
This is one of the best of this new form, and is greatly admired by visitors. The flowers are shaped like Ranunculus blooms, an entirely new form in Roses. The incurving petals produce perfectly charming globe-shaped flowers which grow in large clusters and are semi-double. The plant grows not over 18 inches high and therefore is a very fine variety to be used as an edging around Hybrid Tea Rose beds.

Carroll Ann

Margo Koster Each \$2.00, Three \$5.25, Doz. \$21.00 Dominant color of this lovely Ranunculus-shaped flower is salmon with rich shadings of orange and pink. The small, globe-shaped blooms occur in large clusters and are semi-double. The plant grows not over 18 inches high and therefore is a very fine variety to be used as an edging around Hybrid Tea Rose beds.

Mother's Day Each \$2.00, Three \$5.25, Doz. \$21.00
The habit of growth is exactly like that of Margo Koster. The flowers are deep dark red, an outstanding color.

# Sweetheart Rose

Improved Cecile Brunner
(Plant Patent No. 851)
Each \$1.75,

Each \$1.75,
Three \$4.65, Doz. \$18.60
This dainty new Rose produces flowers in quantities that are truly prodigious. Many stalks break from the base of the rugged plants, each stalk providing numerous sprays. Each stem of the spray is tipped with a dainty peach-pink bud, a little larger than the well known Sweetheart or Cecile Brunner. The deep peach-pink changes to salmon in the opening flowers, and at the height of the season the entire plant is a bank of soft pink and salmon. This lovely effect can be transferred into the home, where you will find its delicate flowers last for many days.

Improved Cecile Brunner (Shown slightly larger than life size)

# A Superb Polyantha Rose

The Fairv

Each \$1.50, Three \$3.90, Doz. \$15.60 The Fairy is unexcelled for vigor, spreading growth, perfect health and hardiness, and its super-ability to produce those charming pink rosette-type blossoms in constant abundance. The American Rose Society rates it high, 8.6.

"A rugged plant, 2 feet high and 3 feet in diameter, carrying an infinitude of tiny clustered blossoms, wrought in the most exquisite artistry, each a fair flower, crisp and waxen, like a pink sea-shell."

Polyanthas come and go, but The Fairy will be with us long after many of today's favorites are forgotten. Novice or expert, The Fairy will delight you. It is a superb Polyantha Rose, blooming tirelessly as well as endlessly.

The Fairy

Hybrid Musk Rose, Belinda

The remarkable hybrid Musk Rose is one of the most prolific blooming Roses we know. Its growth is lively, stems and foliage are dark emerald-green. It blooms profusely in large trusses similar to the perennial Phlox. When the plants are well established the flower trusses increase in size and look not unlike the panicles of Hydrangea Paniculata. The innumerable flowers are bright rose-pink with lighter centers. A wonderful plant for a hedge or as a single specimen mixed in the shrubs. Here is what others say:

"A hedge background or accent Rose of such merit, we are determined to make its many virtues better known. The great, erect trusses of fragrant, soft pink and rose flowers almost conceal the plant—most vigorous and healthy—literally never stops blooming. Take our word for it, this is good! With due allowance for the 'exaggerative' tendencies of all catalog writers, I estimate the plant of Belinda in Richard Thomson's large Rose garden, Wynnewood, Pennsylvania, to be 5 feet tall and 15 feet around—a solid mass of rose-pink cluster blcom—most spectacular variety."

Each \$2.50, Three \$6.60, Doz. \$26.40

# Hybrid Musk Rose, Robin Hood

Originated by Pemberton in 1927

A perfect hedge Rose; its habit of growth is densely compact and it produces an abundance of healthy deep green foliage. Like all Hybrid Musk Roses it is strongly resistant to the common Rose ailments. The smothering wealth of flowers which are cherry-red are produced in clusters early in the season and again sparingly during the summer and autumn. This past winter the hedge illustrated, which is a row of 30-year-old test plants, went through temperatures of several degrees below zero without any injuries. We believe that in Robin Hood we have a Hedge Rose we have been looking for. It certainly will give more satisfaction to the smaller property owners than the over-rated Multiflora Rose. It is not particular as to soil; can be cut to any desired height over 3 feet.

Strong flowering plants, Each \$1.00, Five \$4.50, Ten \$8.00, 100 \$60.00

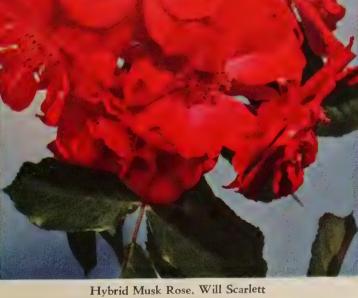

Hybrid Musk Rose, Belinda

### Hybrid Musk Rose, Will Scarlett

Hybrid Musk Roses are perpetual flowering cluster Roses of bushy habit. They grow from 4 to 6 feet tall, depending on soil and climate. Will Scarlett produces large clusters of brilliant red flowers on stems 2 to 3 feet high. It has proven to be perfectly hardy in Mentor where we have tested it four years. During this period, the plants were not given any winter protection. Here is a fine musk-scented shrub Rose you will want to plant in the foreground of your shrub border where it will make a fine splash of color

Each \$2.50, Three \$6.60, Doz. \$26.40

New Shrub Rose, Fruehling's Gold

Hybrid Rugosa, Flamingo All summer and autumn flowering

Shrub Roşe, Lipstick

# Hardy Shrub Roses

# Rosa Rugosa Hybrids

Rugosa Roses are particularly valuable for hardiness, healthiness, and ability to thrive under most adverse conditions of soil and climate, withstanding almost anything. They are distinguished by erect, very spiny stems, and by their tough, curiously wrinkled or Rugosa foliage. Particularly valuable for hedge or shrubberies in seashore gardens and regions where the winters are very severe. Many are everbloomers.

Some of the hybrids do not have the true Rugosa foliage, but this does not mean that they are not as hardy. Nothing could be hardier than the Grootendorst type, yet their foliage does not appear to have much Rugosa in it.

It. Planting Distance: Hedges—11/2 to 2 feet. Shrubs—3 to 4 feet. Pruning: Shrub types—cut out old canes and shorten new canes to

feet. Height: 4 to 5 feet except where noted.

Rugosa Hybrid, Flamingo Each \$3.00, Three \$7.95, Doz. \$31.80 This variety is the result of a cross between Rosa Rugosa and Hybrid Tea Rose, White Wings. It is a fine, all-summer and autumn flowering shrub-like plant. The flower buds are pointed and occur in clusters. The saucer-like flowers follow each other in a constant procession until stopped by frost. Color is flamingo-pink in summer and a deeper rose-pink in fall. Grows to a height of about 4 to 5 feet; foliage abundant and rich gray-green. Has wintered in Mentor, Ohio, perfectly, not freezing back an inch in below zero temperatures. A fine border shrub, blooming all season. Flowers more profusely if you don't fertilize it.

Frau Dagmar Hartopp

Each \$3.00, Three \$7.95, Doz. \$31.80

This is a fine new low growing Rugosa Rose, excellent for foreground planting or ground covering. Like all Rugosa Roses it loves the seashore and does remarkably well on the poor sandy soils which are usually found in such localities. The foliage is rich green and heavily crinkled, no black spot or similar troubles. The silvery pink flowers are studded all over the plants and rise just above the foliage from early June until frost; will stand below zero temperatures. Plants are rugged and hardy. An excellent European variety of recent introduction you will want for those difficult places not to mention for those sections of the country where Hybrid Tea Roses do not survive. Average height about 12 to 18 inches.

rootendorst Each \$2.00, Three \$5.25, Doz. \$21.00
An improved variety having large, fringed, cherry-red flowers borne on a fine large, well foliaged bush. Excellent as a hedge. Grootendorst

tr Thomas Lipton

Each \$2.00, Three \$5.25, Doz. \$21.00

It is one of the earliest Roses to bloom, starting to open its semidouble, pure white blossoms in late May and continuing freely until
late fall. The exceptionally fine fragrance alone qualifies it as a garden Rose. For hardiness, tolerance and usefulness, Sir Thomas Lipton
has no equals. Maximum height 4 to 5 feet. Morton Arboretum, Lisle,
Illinois Test Garden Bulletin of July, 1940. Sir Thomas Lipton

# Hybrid Scotch Rose

Hybrid Spinosissima, Fruehling's Gold

All Scorch Roses thrive on light soils where their suckering proclivities will be useful in forming weed suppressing colonies. The plants of Fruehling's Gold develop into nice clumps from 3 to 5 feet high. The canes are covered for 18 or more inches from the top down with lovely golden, cup-shaped flowers which are sweetly scented. It is a superb hardy Rose for the shrub border. Has withstood 10 degrees below zero in Mentor. Does not show any foliage troubles. All in all a lovely plant of recent introduction.

# Rosa Hugonis

Father Hugo's Rose Each \$2.00, Three \$5.25, Doz. \$21.00
A splendid Rose for the shrubbery border with delicate yellow, single flowers produced on long, arching sprays early in May; after it has finished flowering it remains an attractive decorative bush for the balance of the season; perfectly hardy anywhere.

# Old-Fashioned Farm Yard Rose

farison's Yellow

Each \$2.00, Three \$5.25, Doz. \$21.00

Fine double, golden yellow flowers on bushy plant, blooms more or less all summer. This is the old-fashioned yellow Rose seen frequently growing behind old houses. Hardy and trouble-free.

A "shrub" Rose which will reach a height of 5 to 6 feet. It blooms continuously during the summer, forming large clusters of semi-double flowers. The color is a clear cerise with salmon shadings. This European variety certainly is a most interesting addition. There are so few tall growing Roses; it will be most welcome.

MABELLE STEARNS (U. S. Plant Patent No. 297)

MABELLE STEARNS (U. S. Plant Patent No. 297)

PERPETUAL FLOWERING DOORYARD ROSE
A ROSA SETIGERA HYBRID by HORVATH

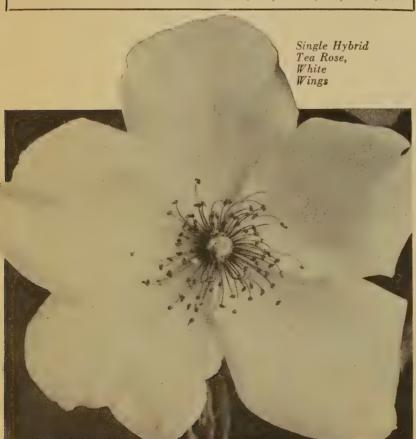

Color of Flower: Peach-blossom-pink with silvery reflexed, sharply recurving imbricated petals, center showing a lovely orange undertone. Flowers in panicles. Persistent grower and bloomer. Flowering period starting in June, lasting until frost; starts blooming about two weeks later than Hybrid Tea Roses, but is never without flowers the entire summer and fall. Flowers excellent for cutting and decorative work, are fully double, having from 50 to 60 petals, and are delightfully fragrant, lasting a week to ten days in water when cut.

Foliage: Bottle-green, rich and clean. Not troubled with black spot, mildew, or other Rose maladies.

Hardiness: Hardy without protection in the Temperate Zone. Can be successfully grown with little protection in the colder regions where growing Roses heretofore has not been possible or exceedingly difficult.

Use and Size of Plant: Ultimate height about 2 feet, spreading from 3 to 4 feet or more if permitted. Single specimens are very effective in the flower border or low shrub plantings.

Each \$2.50, Three \$6.60, Doz. \$26.40

Single Hybrid Tea Rose, Dainty Bess

# Single Hybrid Cea Roses

Perpetual Flowering

Single Roses have an appeal which enthralls many by their artistic beauty. More and more gardeners include Single Roses for their simple beauty in the garden. Single Roses also lend themselves exceptionally well to cutting and when properly arranged in a suitable container they present a picture, the like of which is not easily obtained with most other flowers. We have selected the most outstanding from every angle.

Dainty Bess Each \$1.50, Three \$3.90, Doz. \$15.60 An exceedingly charming and dainty colored Single Rose of perfect form. The broad petals are delicate shell-pink which form a beautiful contrast to the conspicuous bunch of crimson stamens. It is always greatly admired for its charm and loveliness, and the blooms last exceptionally long.

White Wings (Plant Patent No. 850)

Each \$1.50, Three \$3.90, Doz. \$15.60

The flowers of White Wings are perfectly formed. The silvery white petals show to good advantage. Each separate flower is artistically placed in the spray, the flowers standing out in bold relief, bright and clear. In the center of the disk formed by the perfect circle of petals is embedded a lovely cluster of amethyst stamens tipped with anthers of gold. After White Wings has found its way across the nation, which it will surely do, we feel certain it will be acclaimed as the finest single white Rose, equalling in every respect the beauty of its counterpart in pink, the well known Dainty Bess.

Perpetual Flowering Bedding Rose

GRUSS AN AACHEN

This is one of the most popular of Roses for bedding or for planting in amongst perennial plants or low shrubs in front of the border. Unlike most Roses, it flowers freely in light shade. Several good-sized blooms form a fine cluster of pink flowers enhanced by a shading of pure salmon. The plant is compact and spreading in habit and flowers profusely over an exceedingly long period of time. Because of its great usefulness, hardiness and beauty, it has become the most popular of Bedding Roses.

Each \$1.50, Three \$3.90, Doz. \$15.60

Dwarf Polyantha Rose, Charlie McCarthy

## Charlie McCarthy

Charlie McCarthy is a lovely low growing Rose. All of the lively qualities pertaining to Charlie are exemplified in the Rose. His scintillating wit is expressed in the foliage—fresh and sparkling. And like his steady stream of answers, the bushes are profuse with an unending show of flowers.

Though the plants grow old, they never grow up—rarely exceeding 18 inches in height. The miniature buds expand into pure white flowers approximately an inch in diameter.

The bushes are unique and novel in form, being globular or rounded like a freshly clipped Boxwood. The luxuriant foliage, so bright that it has the appearance of having been shellacked or polished, lends to the plants a snappy, tailored effect.

From spring until fall, all through the season, the plants are literally smothered in a glistening white snow-bank of Roses. Like its namesake, the new Rose Charlie McCarthy immaculately dressed, can always be depended upon for a top-flight performance.

Each \$2.00, Three \$5.25, Doz. \$21.00

# Miniature Roses

Miniature Roses are best used as edgings or in solid beds by themselves. Like all Roses, they prefer a good, rich loam with a pH of 6.5, in other words, just slightly acid. In cold localities, they should be protected from too severe weather. A slight hilling of soil around the plants and a generous covering of straw will bring them through the winter nicely. In spring, trim dead tips only. Do not remove any more growth than necessary. Feed with Wayside Gardens' Plant Food. An occasional spray, such as is used for Roses, will keep them clean.

Cutie (Plant Pat. No. 1302)

Each \$1.50, Three \$4.25, Doz. \$15.00, 100 \$95.00 Tiny, clear pink, fragrant buds and flowers. Continuous bloom from spring to frost. Compact plant grows 8-10 inches high. Dainty fernlike foliage.

Received an Award of Merit from the English Royal Horticultural Society in 1934. It is a real dwarf Rose, will not attain a height of more than 12 inches. The flowers are fully double, deep crimson in the bud, opening to rich ruby-carmine, often 11/2 inches in diameter. It is very free-flowering, commencing in May and continuing until late autumn.

Pixie (Plant Pat. No. 408)

This is the most fully double of all the Miniature Roses for 40 or more tiny petals are marvelously packed in each little bloom, as only Dame Nature can do, and the blooms come singly and also in lovely clusters that in themselves make charming bouquets. The plants are dvarf and compact. The blooms come continuously all season and in warm weather are white with a flush of pink in the center. In cool weather the flowers assume a lovely shade of apple-blossom-pink.

Pink Joy Each \$1.50, Three \$4.25, Doz. \$15.00, 100 \$95.00 Double, fragrant pink flowers. Beautifully shaped deep pink buds with touch of salmon. Grows much like Oakington Ruby. Charming in corsages and miniature bouquets.

couletti Each \$1.50, Three \$4.25, Doz. \$15.00, 100 \$95.00 After being lost to cultivation for many years, a plant was found growing in an Alpine window-garden by M. Correvon, the Swiss rock garden authority. It is rapidly attaining popularity as a rock garden "gem" and as an edging plant in front of Rose beds. The plant grows about 6 inches tall in bushy form, is healthy and hardy, and blooms from early summer until frost. The tiny, rose-pink, quite double flowers are less than an inch in diameter.

Red Elf (Plant Pat. No. 973) Each \$1.50, Three \$4.25, Doz. \$15.00, 100 \$95.00 The darkest red. of all the miniatures, a velvety Bordeaux-red with blackish shadings. The buds and blooms are tiny mimics of the finest exhibition form to be found in big Roses—a perfection in miniature that its enchanting (20-25 petals). Plants are compact, and the fully open blossoms are about three-fourths inch wide with a minute, bright "eye" in the center.

Sweet Fairy (Plant Pat. No. 748)

Each \$1.50, Three \$4.25, Doz. \$15.00, 100 \$95.00 The first Miniature with true Rose fragrance. Dainty, dark pink buds open to charming, very double, 1-inch blooms of apple-blossom-pink.

 $\begin{array}{c} \textbf{Tom Thumb} & \text{(Plant Pat. No. 169)} \\ & Each \$1.50, \, Three \, \$4.25, \, Doz. \, \$15.00, \, 100 \, \$95.00 \\ \textbf{Deep crimson buds grow slightly lighter as the bloom opens, later disclosing a white eye in the heart of each flower. Beautifully formed, perfect tiny Roses.} \end{array}$ 

Thumbelina Each \$1.50, Three \$4.25, Doz. \$15.00, 100 \$95.00
Semi-double red flowers. Pointed red buds. Free flowering. A brilliant little Miniature Rose which lends itself well to cutting for small vases.

Wayside's Garnet Each \$2.00, Three \$5.70, Doz. \$20.00
A neat, compact, small plant with many perfect, fully double, garnetred little flowers. It is a prolific bloomer and good grower. Its general
habit is much like that of Oakington Ruby which is one of its parents.
This probably is the brightest, darkest and deepest red to be found
among the Miniature Roses. Constant blooming and a constant joy.

### FOOD FOR THOUGHT

As Well as For Your Roses

What your plants need is a balanced organic food. Not just a stimulant. They need one containing in right amounts, those things that make plenty of strong roots, produce good sturdy stalks, thrifty foliage and an abundance of good size blooms. Turn to page 143 and get the full facts.

Miniature Roses are grown in pots and for that reason are not shipped in the same package containing other Roses. They are sent separately or along with hardy plants which you might order.

# Climbing Roses

Climbing Roses require no pruning in the spring beyond cutting out of very old or dead wood, and the shortening of the laterals and long canes to make the growth conform to the space to be covered; but a severe pruning in July, directly after they have finished flowering, is beneficial. Cutting away at that time some but not all old flowering wood will encourage a vigorous growth, which will give an abundance of flowers the following season.

Dream Girl, Gold Rush, Inspiration and Prosperity are all four Perpetual Flowering varieties, blooming all summer and fall.

laze Each \$1.50, Three \$3.90, Doz. \$15.60 Hardy everblooming climbing Rose which inherits the blazing color of Paul's Scarlet Climber and the everblooming habit of Gruss an Teplitz, thus combining the most attractive features of both its parents. It is a very vigorous climbing variety, which will grow to considerable height.

City of York Each \$1.50, Three \$3.90, Doz. \$15.60 Considered by most Rose experts to be one of the finest white Climbers. For many weeks late in spring and early summer it is completely covered with fragrant pure white flowers. A few scattered flowers follow throughout the rest of the summer. It is a fine contrast plant to grow along with Paul's Scarlet and it is just as hardy.

Dream Girl (Plant Patent No. 643)

Each \$2.25, Three \$6.00, Doz. \$24.00. The new everblooming Hardy Climber and Pillar Rose. This variety fills a long-felt need for a real coral-pink, full-petaled, hardy climbing Rose. Another most appealing quality is its pleasant spicy and penetrating fragrance. The blooms last for days after cutting. Beginning in June when older climbers like Mary Wallace, Dr. W. Van Fleet and others in this class finish blooming, Dream Girl produces successive crops of flowers throughout the summer, ending with a gorgeous display in late fall. It has a neat, compact habit which allows for easy training on a 6- to 8-foot trellis or arbor; also does well when trained as a "pillar" Rose.

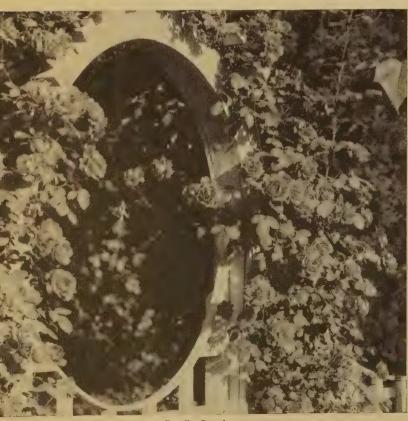

Gold Rush Each \$2.00, Three \$5.25, Doz. \$21.00 A vigorous climber, producing masses of handsome yellow flowers; has nice foliage and unlike most hardy climbers, it will produce flowers on its new growth for the season. We predict a great future for it. So far it has proven to be the best and hardiest of the yellow climbing Roses.

Golden Showers (Plant Patent No. 1557)

Award All-America Rose Selections 1957. A beautiful new pillar Rose which bears large quantities of empire-yellow Roses on plants which grow to a height of 8 to 10 ft. The urn-shaped buds open to long-pointed, high-centered flowers. The fully opened flowers measure 4 to  $4^4/2$  inches across. The flowers are borne on long stems sometimes singly or in clusters of three or more.

Inspiration

Each \$2.25, Three \$6.00, Doz. \$24.00
Inspiration is an appropriate companion Rose for the new Dream Girl, with similar growth habit. It is not too rampant or tall growing and so has many uses on trellises, arbors, and pillars, of medium size and habit. Successive crops follow from June on through October and show the same sparkling tones as found in that old Hybrid Tea, Pink Radiance, and the once-blooming Mary Wallace Climber. It is very hardy, reliable and free blooming in all sections, same as Dream Girl Climber.

Paul's Scarlet

Each \$1.50, Three \$3.90, Doz. \$15.60 (Everblooming Dr. W. Van Fleet:) Identical in every way with its parent in size and formation of its flowers, and lovely soft pink color, but blooms continuously throughout the summer and fall.

Climbing Peace (Plant Patent No. 932) Each~\$2.25,~Three~\$6.00,~Doz.~\$24.00 Blooms identical with those on bush Peace Rose come on long, fast-growing plant canes. For the North, we advise you to give it winter protection.

Paul's Scarlet

This is one of the favorites. The flowers are scarlet-red, semi-double and freely produced in clusters of from three to ten flowers; each on much-branched canes. It is a strong grower and ver/ hardy; canes are flexible and easily tied to a fence, pergola or post. The plants we offer are husky and will quickly and readily develop into beautiful specimens, producing brilliant masses of bloom.

The lovely buds are pale lemon-yellow and the flowers very large, full, smooth, very fragrant, pale sulphur-yellow to almost white. They grow on long, strong stems good for cutting. It is one of the outstanding Hybrid Tea-like Climbers which never fails to put on a good show.

Spectacular (Plant Patent No. 1416)

Each \$2.50, Three \$6.60, Doz. \$26.40 Each \$2.50, 1 hree \$6.60, Doz. \$26.40 The buds are scarlet opening to spectacular orange-red, fully double blooms. The flowers are borne in clusters of three and four on a stem. During the summer, flowers are produced freely, providing a constant note of color. The plant grows to about 10 feet. Spectacular is an interesting and brilliant climber which will find a place in many of the Rose gardens in the country.

City of York

Hardiness: Can be successfully grown with protection in colder regions.

Size of Plant: Ultimate height about 8 to 10 feet. Canes are very plentiful, not overly thorny.

Each \$2.50, Three \$6.60, Doz. \$26.40

# "Thor is the Finest and Largest Red Climber"

Flowers easily measure 5 inches across.

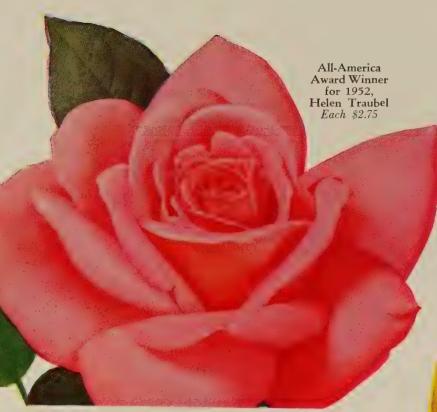

Chattanooga, Tenn.

The Wayside Gardens Co., Mentor, Ohio.

Gentlemen:

In making a report on the planting of 50 Thor, Horvath Roses, the Riverview Garden Club wishes me to express their appreciation of its excellent behavior. The Roses have been satisfactory in every respect. The plants are sturdy and are vigorous growers with long stems, having clusters of from three to seven flowers on each stem, making a gorgeous display of vivid color. That meets all the requirements for roadside and parkway planting and we are happy to recommend their use and your splendid service in supplying them.

Christopher Stone See page 141

Each \$1.50, Three \$3.90, Doz. \$15.60

Confidence (Plant Patent No. 1192) Each~\$2.25,~Three~\$6.00,~Doz.~\$24.00 It is a beautiful blend of yellow, white and peach-pink melting one into the other. Its form is also notable, with long, stream-lined buds opening 2 to 3 inches long and full blooms up to 6 inches or more across with 28 to 38 petals. Richly fragrant. Produces a good, strong, upright plant but stoutly broad and well branched. It won both Bagatelle and "Most Beautiful Rose of France" awards, the second Rose ever to take both honors.

Crimson Glory Each \$1.50, Three \$3.90, Doz. \$15.60 See page 141. The plants branch freely, producing a well spread, yet compact bush of good symmetry. Following the large, urnshaped buds are the well formed flowers of an intense deep vivid crimson shaded oxblood-red and mellowed by a soft velvety nap.

Golden yellow. An entirely new type, with "streamlined" buds which often exceed 2 inches in length, ornamented with narrow, branching sepals which contrast harmoniously with the gold of the petals. You can depend on "Eclipse" for almost continuous bloom on strong, upright plants with healthy, dark green foliage. The flowers are produced on long, erect stems, suitable for cutting.

toile de Hollande Each \$1.50, Three \$3.90, Doz. \$15.60 Brilliant red blooms of magnificent size, perfect in half-open state, showing clean, attractive centers when fully open; petals enormous; very fragrant. Free flowering. Etoile de Hollande

Golden Dawn See page 141. Each \$1.50, Three \$3.90, Doz. \$15.60

Golden Masterpiece (Plant Patent No. 1284) Each ~\$3.00, ~Three ~\$7.95, ~Doz. ~\$31.80 The graceful, flowering lines of the long golden buds catch the eye immediately. As they mature an occasional blush of red caresses the edge of the slender, 11/2- to 2-inch buds. Throughout the entire season, they unfold slowly, giving way to majestic, high-centered flowers of rich golden yellow. The summer sun, instead of fading them, only serves to intensify their already brilliant color.

Helen Traubel (Plant Patent No. 1028)

(All-America Winner for 1952.) The color is distinctive—clear pastel tones of pink to apricot, even approaching orange at times. It has an unusually long, graceful bud, a very large open flower with good form, fine substance and a pleasing fragrance. The plant has proven to be exceedingly vigorous with us. One of those easy to grow kinds which grades up without any trouble.

Henry Ford (Plant Patent No. 1218)

Henry Ford (Plant Patent No. 1218) Each \$2.25, Three \$6.00, Doz. \$24.00 Many of America's finest Roses are attributed to the late Fred Howard. One that has found greatest favor of its color is "The Doctor," which is recognized throughout the world as one of the finest pinks in existence. The new Rose "Henry Ford"—named after one of the greatest of all America's personalities, is similar in color to The Doctor. The buds are longer, spiral in form, and rich in fragrance. The flowers are produced more freely, the bushes are more rugged. The "Henry Ford" Rose is a cross between The Doctor and Pink Dawn. From preview comments from those who are qualified to judge Roses, "Henry Ford" will equal or surpass its parents in beauty, fragrance, color and growth.

Hill Top (Plant Patent No. 525)

Each \$2.00, Three \$5.25, Doz. \$21.00 Hill Top is one of the latest introductions of Hill's, one of their best. The handsome moulded flowers have loosely outward rolled petals quite pointed, creating the effect so sought in Roses. The color at opening is a deep capucine-buff and remains that shade in the center of the flower while the outer edges of the flower petals turn a pale pinkish buff. Hill Top is a very free blooming variety and a clean, strong grower. As you know, it is one of the favorite cut flower Roses and soon will be a garden favorite because of its color as well as a clean, strong habit.

Love Song (Plant Patent No. 1360) Each \$2.50, Three \$6.60, Doz. \$26.40
This is the first American-bred offspring of Peace. It is an exciting big Rose, a glowing beauty of radiant, rich salmon-pink with brilliant yellow on the lower third of the petals and a lighter yellow reverse. The buds are deep gold edged with a dark coppery rose. The pointed centers elongate as the buds develop and become more urn-shaped, usually as the first petals slowly unfold. At this stage they are yellow and a deep coppery salmon-pink. The colors do not fade as the blooms open but rather appear to become richer as they show more and more of the brilliant, shining salmon-pink.

La Jolla (Plant Pat. No. 1103)

Belicate pastel coloring with Camellia-like imbrications of the petals and a very free blooming habit are the features of this new Rose. The petal tips, flushed with soft pink, are pointed and recurve gracefully from the cream and gold colored heart of the flower. An offspring of Charlotte Armstrong, it has inherited many of its parents' fine qualities.

First Love (Plant Pat. No. 921) Each \$2.25, Three \$6.00, Doz. \$24.00 Exquisite and graceful, the long, slender buds in their delicate pastels of pink have made this Rose the "first love" of many gardens. There is grace, beauty and long-lasting substance in the opening flowers, which bloom freely and are of a soft, dawn pink.

McGredy's Ivory Each \$1.50, Three \$3.90, Doz. \$15.60
Lovely large flowers of beautiful double form and moderately fragrant. The color is soft delicate creamy white merging into yellow at the base. Vigorous, disease resistant, and a prolific bloomer.

Midnight (Plant Patent No. 1542) Each \$2.75, Three \$7.20, Doz. \$28.80 Deep velvety black-red flowers with shadowy nocturnal undertones. The color will vary somewhat depending on weather and climates. Not only is the deep red color magnificent, but it has a perfect bud to go with it. Fragrance is spicy, flowers are borne freely on a good strong plant.

**Montezuma** (Plant Patent No. 1383) Each \$2.75, Three \$7.20, Doz. \$28.80 An outstanding Grandiflora of vivid rosy salmon. Long, slender buds. Blooms up to 4 inches across, with dense foliage. Grows 3 to 5 feet tall and produces great quantities of bloom.

**Pedralbes** Each \$1.50, Three \$3.90, Doz. \$15.60 See page 141.

Picture Each \$1.50, Three \$3.90, Doz. \$15.60 See page 141.

adiance Each \$1.50, Three \$3.90, Doz. \$15.60 An ideal bedding Rose that continues to produce its large flowers throughout the most unfavorable hot weather when frequently many other varieties fail. A brilliant carmine-pink, with salmon-pink and yellow shadings at base of the petals. Radiance

aturnia Each \$1.50, Three \$3.90, Doz. \$15.60 Bud long-pointed; flowers very large, fully double and cup-shaped, fruity fragrance which is quite pronounced. Color is bright scarlet with gold recesses. Foliage large, glossy and dark. It is a vigorous grower and blooms freely throughout the season.

how Girl (Plant Patent 646) Each \$2.25, Three \$6.00, Doz. \$24.00 "The Rose with Magnificent Buds." If you want to enjoy the most beautiful, the most perfect, and the longest deep pink Rosebuds you can imagine, be sure to plant this variety. The sensational buds are deep pink, almost carmine in the spring, opening to a softer tone but always deep pink. We think it is one of the finest pink Roses. Show Girl (Plant Patent 646)

See page 141. Each \$1.50, Three \$3.90, Doz. \$15.60 Soeur Therese (Sister Therese)

The Doctor See page 141. Each \$1.50, Three \$3.90, Doz. \$15.60 long, almost thornless stems both singly and in clusters.

Each \$2.50,

Three \$6.60, Doz. \$26.40

Tiffany (1955 All-America Award Winner) (Plant Patent No. 1304) Each ~\$2.50, ~Three ~\$6.60, ~Doz. ~\$26.40 Tiffany is a beautiful phlox-pink Hybrid Tea Rose producing blooms of outstanding quality. The long, pointed buds are deep pink with golden yellow shading at base of petals. The flower opens to perfectly formed, double, high-centered blooms of a pleasing shade of pink with petals of heavy texture and exceptional lasting qualities, produced singly on long, strong stems. This Rose is noted for its outstanding fragrance. The plant has an upright habit with very vigorous growth and beautiful dark green foliage.

White Knight (Plant Patent No. 1359) Each ~\$3.00, ~Three ~\$7.95, ~Doz. ~\$31.80 This pure white Rose comes from the creator of Peace. At the moment it is tops in white Roses. Buds are perfectly pointed and open into beautifully shaped Roses. Of absolute pure white and does not discolor in damp weather. A strong grower and free bloomer. It's the answer to a really good white Rose.

# MOST FOR YOUR MONEY

Every spring finds thousands of new admirers beginning their worship at the shrine of the traditional Queen of Flowers—the Rose. Frequently I am asked: "Which of the new Roses shall I buy? They are all described in such glowing terms that I cannot make up my mind, especially as I have a limited budget.

I invariably answer this question by asking another: "Why do you feel you must have **new** Roses? The best of the standard ones are better than many of the brand new and will still be glorifying gardens and giving their owners the ultimate in satisfaction for decades to come." This statement is made on the basis of our having

grown, as they came along, most of the new Roses introduced during the past quarter century.

I find it very gratifying therefore, that the keen plantsmen at Wayside Gardens have decided to provide America's gardeners with a collection of "tried and true" Roses that have stood the test of time, especially as they can be produced and sold (because they do not carry any royalty fees and extensive advertising "overhead") at moderate prices. Selection of varieties for this list has been based upon reports—extending over many years and from all sections of the country—by members of the American Rose Society, the supreme court of decision as to which Roses are best for average American gardeners.

Some new Roses, of course, immediately establish their worth and make the all-time team—such Roses as Pinocchio, Peace, Fashion and Frensham. But a great many of them soon fade away, even from the catalog pages of the concerns which introduced them, while such old timers as Frau Karl Druschki (introduced in 1901), Crimson Glory and Eclipse still glorify home gardens and win blue ribbons in Rose shows.

Let us not forget these grand time-tested varieties when making selections for that Rose garden which is to mean so much to us—especially if we wish to invest Rose dollars where they will pay the highest dividends.

### HYBRID TEA ROSES

Christopher Stone

Large, semi-double, vivid scarlet flowers overlaid with velvety crimson.

Crimson Glory

Well formed flowers of an intense deep vivid crimson shaded oxblood-red.

Etoile de Hollande

Brilliant red blooms of magnificent size. Very fragrant and free flow-

The ideal yellow garden Rose. The ovoid, lemon-yellow bud, heavily splashed with crimson, develops into a well formed, sweetly scented, large, double, sunflower-yellow flower.

McGredy's Ivory
Large flowers of beautiful double form. Color is soft delicate creamy white merging into yellow at the base.

Mme. Henri Guillot

Deep pink. It is lovely in both form and color. Large Camellia-like blooms, watermelon to raspberry-pink in color.

Mrs. Sam McGredy
Scarlet coppery orange heavily flushed with Lincoln-red on the outside of the petals. Flowers freely produced and delicately perfumed.

The semi-double, cream colored flowers pass to pure white when they are fully open. Large blooms, freely produced.

Picture

This is one of the very best pink Hybrid Tea Roses. The flowers are very double with reflexed petals and high-centered, and delightfully fragrant. Velvety clear rose-pink.

Radiance

An ideal bedding Rose that continues to produce its large flowers through the most unfavorable hot weather. A brilliant carmine-pink with salmon-pink and yellow shadings at base of the petals.

Bud long-pointed; flowers very large, fully double and cup-shaped, fruity fragrance which is quite pronounced. Color is bright scarlet with gold recesses. A vigorous grower and blooms freely throughout the season.

Soeur Therese

Long, pointed buds are chrome-yellow, heavily marked with carmine. The open flower is rich daffodil-yellow and holds its color well.

This magnificent Rose is internationally recognized as one of the outstanding new Roses. The buds are long and pointed, expand to a simply enormous bloom in their fully developed state. The color is an exquisite silvery pink. Very fragrant.

### FLORIBUNDA ROSES

Betty Prior

Distinctive in its appealing color, healthy foliage and growth. Single blooms resemble flowers of red Dogwood. Produced in clusters which bloom continuously throughout the season.

Dagmar Spaeth
Pure white flowers produced in showy large trusses throughout the

Else Poulsen

Flowers semi-double bright rose-pink. One of the loveliest and hardiest of the Floribunda Roses. It has become one of the great favorites because it has given excellent results throughout the years.

Floradora

It is spectacular, constantly in bloom and an entirely new shade in Roses—a brilliant cinnabar-red. No matter where they are, Floradora blooms are always eye-catchers.

The Fairy

Unexcelled for vigor, spreading growth, perfect health and hardiness, and its super-ability to produce charming pink, rosette-type blossoms in constant abundance. A rugged plant, 2 feet high. (See page 126.)

### Eighteen Rose Varieties of Highest Rating by THE AMERICAN ROSE SOCIETY

Here are listed 13 varieties of Hybrid Tea and 5 Floribunda Roses. These particular kinds have through the years proven to be outstanding. They are being grown all over the country because of their beauty as well as dependability. All are rated high by The American Rose Society. You may grow these with the knowledge that they are as beautiful as those of recent introduction.

All Roses Offered on page 141 are Priced as Follows:

Select, 2-year, No. 1 plants

Each \$1.50, Three of one variety \$3.90, Dozen of one variety \$15.60.

Standard, 2-year, medium plants

Each \$1.35, Three of one variety \$3.75, Dozen of one variety \$13.50.

# Wayside Gardens

MENTOR, OHIO

# Our 1958 Gold Medal Collection of New Roses

We believe this to be a collection of the finest and hardiest Roses you can grow. We have made a special effort to produce these varieties in quantity and of a quality which leaves nothing to be desired. These Roses will provide you with the finest flowers you have ever grown. Below are given the names of the kinds selected for this collection. Behind each name the page number is given where you will find the variety illustrated in color.

Chrysler Imperial. Vivid crimson-red. (See page 135.) First Love. Soft, dawn pink. (See page 137.)

Golden Masterpiece. Rich golden yellow. (See page 136.)

Midnight. Velvety black-red. (See page 137.)

All plants will be carefully labeled and packed and will start blooming a few months after planting.

Simply order Gold Medal Rose Collection—1 of each variety, 8 Roses for \$17.00

"Wayside Gardens" MERION BLUE GRASS

Beneath its beautiful surface lies the secret of its vigor, long roots and many rhizomes—the creeping stems which spread underground over a wide area and come up to form new top growth, developing the thickest stand of any comparable grass.

Once established, Merion does not have to be reseeded annually to maintain its cover. Other superiorities recited with enthusiasm by those who have grown it are:

Spreads faster than Kentucky Blue Grass, stands closer mowing, resists heat and drouth, crowds out crab grass, holds its dark green color in the hottest weather with less water than other grasses.

MERION BLUE GRASS, STRAIGHT

1 lb. \$3.00, 5 lbs. \$13.50, 10 lbs. \$25.00

MERION BLUE GRASS MIXTURE

1 lb. \$2.25, 5 lbs. \$10.00, 25 lbs. \$45.00

1 lb. of either of above will sow 750 sq. ft., three times as much as standard Blue Grass mixtures.

Montezuma. Vivid rosy salmon. (See page 137.)

Tiffany. Beautiful phlox-pink. (See page 139.)

Peace. Yellow edged pink. (See page 138.)

Sleigh Bells. Pure white. (See page 138.)

# Wayside Gardens COMPOSTED COW MANURE

Here's good news for garden makers! How often, in reading articles or books about growing some particular plant, have you found the recommendation that well rotted cow manure should be used to give it a strong, safe start. And just as often haven't you had to say to yourself "That's just fine—but where on earth am I going to get any real cow manure?"

Well, you no longer need to ask yourself that question. The answer is a new product—Wayside's Composted Cow Manure. It is the real McCoy: 100% manure; nothing taken away, nothing added. And it is prepared in the most convenient, most effective and most easy-to-use form in which it has ever been possible to obtain it.

The only treatment this manure gets before it reaches you is drying, to remove excess moisture; the addition of beneficial bacteria, to make it immediately available to hungry plant roots; and milling, to provide the best possible mechanical condition for easy application. Added together, these three qualities make it the ideal manure in ideal form

So thorough has been the action of the bacteria in aging and breaking down the manure from its original raw form that finished product has no trace of objectionable smell. It is odorless!

Where "old" cow manure is particularly recommended—as in the growing of Roses, Delphiniums, and such humus-loving bulbs as Tuberous Begonias, Gloxinias and Callas, it is an answer to the suburban gardener's prayer.

As Wayside Composted Manure is all manure, it does not contain sufficient phosphate and potash to be a "complete" plant food. Its most important function is to get plants off to a quick, safe start. It is the perfect companion for Wayside Organic Plant Food which does contain other essential elements—they go together like a horse and carriage. We therefore suggest that you use both in your round of garden operations if you want the most successful garden you have ever had.

### HOW TO USE COMPOSTED COW MANURE

For Flower or Vegetable Gardens: Broadcast about 8 to 10 lbs. per 100 square feet before planting, rake well into soil.

Houseplants: Use about one level tablespoonful for every inch of diameter

pot, mix into soil and water. For Seedflats: Use 2 parts of sifted soil mixture and one part of composted cow manure

Homemade Compost: Composted cow manure is an efficient bacterial activator for making compost from garden and kitchen wastes. Add contents of 5-inch flower pot occasionally to compost pile to help break down waste.

80-lb. bags, \$5.25 each 5 bags \$25.00 20 bags \$90.00 10 bags 47.50 40 bags 160.00 All prices are f.o.b. Mentor, Ohio.

# ORGANIC PLANT FOOD

Declared by experts "Tops." For Bulbs, Roses, Lawns, Flower Gardens. Used at WAYSIDE in the production of millions of fine plants. It is wholeheartedly endorsed for our customers.

Thousands of customers and strangers alike have visited WAYSIDE GARDENS. They have marvelled at our nursery plants. They have been known to actually gasp for breath at the sheer beauty of 400 acres of flowers brought to such a high degree of perfection. Invariably, they ask us the same question:

the same question:

"To what do you attribute the superior qualities of your flowers?"

And invariably our answer is the same: "The chief reason for the high quality of WAYSIDE products is due to the fact that we use only the very finest Plant Food that

skill and money can produce!"

You will agree that we have entirely too much at stake to afford to use any other kind. In addition to the enormous investment represented by our nurseries, we have a reputation to maintain among thousands of the most critical floral customers in the land. We prize and guard very jealously such possessions . . . Contented only with the best we advise our customers to adopt the same attitude, in order that the fine specimens grown at WAYSIDE may be duplicated in your own garden. We recommend only that which we ourselves use.

### We Learn from Experience and Experts

We are indebted to a noted English gardener for the Exclusive Organic Plant Food we use in growing millions of plants of superior quality. Among other things, he said:

"A lawn should not be treated like a hayfield, but like a permanent garden. Therefore, I object to chemical fertilizers for lawns. It is not the QUANTITY of grass cut from the lawn each week, but the DENSITY AND LUXUR-IANCE OF THE GRASS which produces the effect of walking over a thick velvet carpet that counts. If you want a thick lawn in which there is no room for weeds, it is essential that you use a properly balanced ORGANIC Plant Food.

WAYSIDE'S exclusive organic Plant Food is made from

bone meal, dried blood, ground fish, phosphate and muriate of potash, in proportions recommended by the "old country" expert. These long-lasting ingredients, heavy with life-producing qualities, give your flowers a well-balanced diet, containing in just the right amounts those things that go to make strong roots, sturdy stalks, bright green leaves, a profusion of foliage and an abundance of large and healthy blooms year in and year out. It does not stimulate, but nourishes any and all plants and imparts to them a youthful and lusty vigor. It disintegrates slowly. It is excellent to use in bulb plantings as well as in Rose beds, or hardy plant borders. Use it consistently year after year, and your garden will be among the most beautiful.

### Wayside Gardens "Exclusive" Organic Plant Food Contains No Useless Weight or Bulk Producing Fillers

A 100-lb. bag for \$9.00; 500 lbs. for \$40.00; 2000 lbs. for \$125.00.

Prices are F.O.B. Mentor, Ohio, and we ship by truck or rail freight collect unless otherwise instructed.

This Plant Food may only be obtained direct from WAYSIDE GARDENS. The best proof of its superior qualities is that it is used in large quantities right here at WAYSIDE. Knowing its value and importance in your garden, we feel no hesitancy, in urging you to include some of it in your order for plants. Made by Wayside Gardens for Wayside Gardens. It is the lasting results that count.

### How to Use Wayside Gardens Organic Plant Food

We need not use much of it to obtain the lasting results. Furthermore, it is easy to use and apply it. If your garden is an established one, apply twice a year, March first and October first. Use 15 to 25 pounds for top dressing a space 500 square feet for Hardy Plants, Roses, Annuals, and Bulbs. Twice this quantity for Shrubs, Azaleas or

Rhododendrons. In making a new garden, double the amount recommended and mix with the soil. Planting may be done at once. For old lawns, use 10 to 25 lbs. for top dressing 500 sq. ft. For potted plants, a 3-inch potful mixed with a bushel of soil will give you splendid results.

A little goes a long way and lasts a long time.

# The Wayside Gardens Spray and Spray Gun

The Multi-Purpose Garden Spray

We have the same problems in our garden that you have in yours, the difference being one of size only. You have, say, a one-acre garden. We have a 400-acre garden—almost one square mile of plants and flowers, therefore the kind of spray we use for plant diseases and insects, as well as the method of applying, MUST BE THE MOST PERFECT OBTAINABLE. We simply MUST have the very best because of the size of our investment in this 400-acre garden, along with the expense of labor to look after

it. In obtaining this finest of all sprays we felt that no expense in experiment and research was too great so long as it protected a still greater investment. It proved to be time, effort and money well spent and we do not believe that any gardener can afford to be without this combination Spray and Spray Gun. Like most all really practical inventions, the method of operation and applying the Spray is as simple and easy as its use is effective.

TO THE SPRAY GUN IS ATTACHED A SMALL STRONG GLASS JAR CONTAINING CONCENTRATED INSECTICIDE. IT ATTACHES TO YOUR GARDEN HOSE AND MIXES WITH THE WATER COMING THROUGH THE NOZZLE. No matter what the force of the stream the mixture is always made in the proper propor-

The simple application of this highly effective Spray once every 2 weeks during the summer will do more to **control** plant disease and insects than any other thing we know of to date. It can and should be used freely, even if applied to open flowers—it can do them no harm. Loaded and ready to spray the Spray Gun weighs less than 4 pounds.

If Wayside Gardens Spray is regularly used on your Roses, you will obtain finer results in keeping your Rose plants clean and free from black spot than you have been able to do in the past. As in all spraying, it's essential to reach the under part of the leaves as well as the top.

It is in our opinion not necessary to use any other spray in the average garden if you use Wayside Gardens Spray. Detailed (but simple) instructions accompany each

Multi-Purpose Garden Spray Powder is now put up in convenient 1-ounce units which makes measuring simple and accurate. One ounce of Spray Powder makes 2 gallons of finished Spray of sufficient strength for normal spraying. For heavy infestations, use double the amount of powder, and please remember, "One ounce of prevention," eic.

1 pound of Spray Powder in 16 one-ounce packages makes32 gallons of Spray\$ 4.005 pounds of Spray Powder in 80 one-ounce packages makes160 gallons of Spray15.00Combination of 6-Gal. Spray Gun and 1 lb. of Spray Powder (powder divided into 16 one-ounce packages) for12.00Combination of 12-Gal. Spray Gun and 1 lb. of Spray Powder (powder divided into 16 one-ounce packages) for15.00

We particularly recommend the 12-Gal. Spray Gun as it can be used for a one-gallon unit as well as not. We find it the most practical size to use.

6 Gal. Spray Gun, \$9.75 12 Gal. Spray Gun, \$12.75

Spray Gun may be used also in spraying all other insecticides.

### Swiss Whirlwind Duster

From Switzerland, we have imported a fine, small dusting machine which beats anything and everything we have ever come in contract with. It is made from plastic and aluminum, is light as a feather and operates beautifully without effort. Does not spill clods of powder but blows a fine even mist-like dust which gives complete coverage. We have discarded all our old equipment for greenhouse dusting and now use a few of these. This duster sells for \$14.00 and is worth every penny of it.

We offer this Swiss Whirlwind Duster for \$14.00.

Combination of Whirlwind Duster and 4 lbs. of Wayside Gardens Garden Dust for \$17.00.

### Quick Relief from Mosquitoes

"Wayside Gardens" Garden Dust blown into and among shrubs near picnic area or open porch will control mosquitoes nicely. The Swiss Whirlwind Duster does an excellent job economically!

# Wayside Gardens Dust is a mighty fine combination of the recently discovered insecticides. We use it at Wayside and keep our plants clean and healthy without much ficulty. To make a report of what goes into this dust is pointless. What important is that it does a perfect job for us and we know it will for you. e are not so much interested in a little profit from an insecticide as we

The Multi-Purpose Garden Dust Use It Where Inconvenient to Use Garden Spray

are interested in seeing that whatever plants you buy from us or what flowers you already have, grow well and give you pleasure. It is for this reason we make this dust available to our customers. Prevention is better than a cure so dust frequently and dust sparingly for best results.

4 lbs. Garden Dust \$4.65
25 lbs. Garden Dust 15.00
50 lbs. Garden Dust 27.50

WAYSIDE GARDENS GARDEN TROWEL

WORLD'S BEST
Wide, Short Blade, Short Shank
Does Not Tire Wrist
Used at WAYSIDE GARDENS

Used at WAYSIDE GARDENS

Easily the most practical, efficient garden trowel obtainable today. It was chosen by unanimous vote of WAYSIDE gardeners after experimenting with many models especially made for us. It is used in the annual planting of millions of plants each year at our gardens. Perfectly balanced, with wide, short and heavy, unbendable and unbreakable blade, and practically no shamk at all—result: women:customers of WAYSIDE declare they use this wonderful trowel for hours with no tiring of wrist. Richard Wright, Editor of House & Garden, says it is "tops."

This revolutionary trowel is not available in stores but sold exclusively by WAYSIDE GARDENS. Order one today. You will like the smooth, strong wooden handle, easy grip and fine balance. They make practical gifts.

Each \$2.00, Three for \$5.50.

A clever, inexpensive and efficient flexible rust-proof metal clip to hold vines in place on brick, concrete, or wooden walls. Something you have been looking for. 25 clamps for concrete or brick walls or wooden walls. Price, \$1.50.

### LONG LIFE PLANTUBS

# It's Easy To Order By Mail From Wayside

## New Customers Are Invited to Read This Page Before Ordering

The business of Wayside Gardens is conducted each spring and fall with many gardeners and is based on confidence and co-operation. By its very nature, most of our shipping must be done during only a few weeks in each season. Based on many years' experience, we have

worked out systems for handling plant materials expeditiously and correctly. However, to smooth these seasonal rush periods out as much as possible, it is extremely helpful if you will order as early as possible

### We Ship at Proper Planting Time

All plants, Roses, shrubs or bulbs will be shipped at the proper period during planting in your locality. If there is a special date on which you would like to receive your order, mention it on your order blank. Weather permitting, we will comply with your request, but remember a "rainy" day can upset the best laid plans. If, upon receipt of package or bundle, you are not able to plant contents at once, open package containing hardy plants to admit air, keep roots moist and store in a cool place, away from wind and heat. Boxes or bundles containing shrubs or Roses should not be opened but kept in a cool place until you can plant. We pack carefully and a few days' delay in planting will not matter if you carry out the above instructions.

### **Shipping Directions**

It is not possible to determine weights of shrubs or plants in advance; therefore, we have never included transportation charges in the purchase price of any of our products. Unless instructed to the contrary, we ship by Express, this being the fastest as well as the best method because large bundles rarely comply with postal regulations.

We can forward small orders by parcel post and, if wanted sent that way, add 10 per cent to value of order for postage and packing to points east of the Mississippi River and 15 per cent to points west of the Mississippi River. Packages traveling by parcel post containing perishable items shipped after May 1st are sent special handling. We pay the special handling charge.

### Our Method of Packing

Shrubs, Roses, bulbs and hardy plants are sent in separate packages. sometimes several weeks apart because they do not mature at the same time and are transplanted at widely differing periods. Perennial plants are never included in the same bundle with shrubs or Roses. So do not be alarmed if you don't receive all you have ordered all in one bundle at once. This special notice is to save you unnecessary correspondence.

### Remittances Must Accompany Order

Your remittance and your order will be acknowledged when received. Checks, money orders or bank drafts may be used. Please avoid the use of currency as much as possible. Because of possible delay and the nature of the material involved, we do not like to ship any nursery stock C.O.D. but will if you insist.

### **Quantities and Prices**

- 2 plants of one kind are sold only where each rate is quoted. plants of one kind are sold at the three rate. We do not sell any hardy plants in smaller units than three unless the variety is specifically quoted per each.
- 6 to 24 plants of one kind are sold at the dozen rate. 25 or more plants of one kind are sold at the hundred rate.

### WAYSIDE GARDENS GUARANTEE

- 1. We guarantee each order we send out to be filled with stock of fine quality and to reach you in good live growing condition. If you are not entirely satisfied, return it at once and we will replace it free or refund your money.
- 2. Wayside stock is very carefully grown and handled. Under normal care and conditions it will grow and flourish. Of course, you would not expect us to replace free of charge stock lost due to conditions beyond our control, such as extreme heat or cold or possible neglect or lack of experience on the part of the planter.
- 3. However, if you will report losses due to the above-mentioned conditions within the period of 30 days, accompanying your report with remittance of one-half the original purchase price, we will be glad to send you new plants for those lost. Shipments of these items will be made at the earliest possible date or, better still, you can add them to your next order. When reporting, state clearly quantity as well as variety. Replacements are made as soon as possible upon hearing from you.

Sketch of a typical garden containing many elements. All details of planting for each element are worked out in individual blocks, easily read. The plants, roses, shrubs and bulbs to be used are listed for each unit.

# Actual Plans of Dozens of Garden Combinations— For only Two Dollars

Here is the most practical help in garden planning ever offered. On big pages (18 by 24 inches) easy to read plans are shown. Complete gardens, large and small, laid out in blocks, mostly for areas either 10 feet long and 5 feet wide or 5 feet square. Within these blocks or units are shown typical arrangements of planting, and the names and numbers of plants, shrubs, Roses (or bulbs) suggested for continuous blooming from spring until fall.

### Saves You Hours of Hunting Through Books

Out of these blocks you can make dozens of different combinations to fit your own ideas as to the kind of garden you want. You can visualize its appearance, its dominant coloring, its background, or vista. You can adapt the blocks to any given area or shape of lot—or select the right plants for shady or sunny or dry or moist locations. These plans are suited to the climate of northern, eastern and central United States.

Garden Building-Blox are flexible—but they enable the amateur or beginner to plan intelligently, figure costs, avoid mistakes and save time. You go about your garden planning as a professional would. With Garden Building-Blox as a basis for visualizing your own planning you will be surprised at the fertility and number of ideas that will come to you and how much more creatively you can plan any kind of garden.

Garden Building-Blox are specially priced at \$2.00. This price is, frankly, an experiment, to extend these practical helps to our many customers. We urge you to order now as we cannot promise to maintain this price. In line with Wayside Gardens principles, your money will be refunded if you are not satisfied. Order now.
